RECENT CHANGES..................................................................................................................................3-2

Chapter 1—Academic Calendar, Payment Periods & Disbursements.. 3-5

ACADEMIC YEAR REQUIREMENTS........................................................................................................3-5
  Weeks of instructional time in an academic year ...............................................................................3-6
  Credit or clock hours in an academic year .......................................................................................3-7
  Academic year definition and effect on awards ..............................................................................3-7
  Counting Weeks of Instructional Time.............................................................................................3-8

ACADEMIC CALENDARS & TERMS......................................................................................................3-9
  Standard terms: semesters, trimesters, and quarters .....................................................................3-9
  Combining modules into a standard term .........................................................................................3-11
  Intersessions ....................................................................................................................................3-11
  Treatment of modules .....................................................................................................................3-12
  Combining an intersession with a standard term .........................................................................3-12
  Inclusion of clinical work in a standard term ..................................................................................3-13
  Nonstandard terms ..........................................................................................................................3-13
  Non-term characteristics .................................................................................................................3-14

PAYMENT PERIODS ............................................................................................................................3-14
  Programs using standard terms or nonstandard terms that are substantially equal in length ....3-14
  Programs with nonstandard terms not substantially equal in length ...........................................3-14
  Clock-hour and non-term programs ...............................................................................................3-14
  Example - Nonstandard terms not substantially equal in length ...............................................3-16
  Example - Half-time student in a non-term program ....................................................................3-16
  Progression to next payment period based on completion of hours and weeks .......................3-17
  Clock-hour programs with terms .....................................................................................................3-18
  Prior year charges allowance ..........................................................................................................3-18

TIMING OF DISBURSEMENTS—GENERAL RULES........................................................................3-18
  Basic rules for early disbursements ...............................................................................................3-18
  Exceptions to early disbursement rules .........................................................................................3-19
  Retroactive disbursements for completed payment periods ..........................................................3-19
Chapter 2—Cost of Attendance (Budget) ................................................................. 3-35

ALLOWABLE COSTS ........................................................................................................ 3-36

</table>
Pell Grant topics:

- Pell Grant cost of attendance for a consortium program
- Pell Grant cost of attendance for a co-op program
Chapter 3—Calculating Pell and Iraq & Afghanistan Service Grant Awards

THE SEQUESTER AND IRAQ & AFGHANISTAN SERVICE GRANTS

SCHEDULED AWARD, AWARD YEAR, & ANNUAL AWARD

Pell Grant Cost Example 1: Prorating total costs by lesser of two fractions

Pell Grant Cost Example 2: Prorating academic costs & living expenses separately

Pell Grant Cost Example 3: Prorating costs for a non-term program longer than an academic year

Pell Grant awards & COA with mixed enrollment status

COSTS FOR PERIODS OTHER THAN NINE MONTHS

Adjusting costs for Pell grants

Costs for periods other than nine months example

Determining the award for crossover Pell awards

CRedit-HOUR TERM-BASED PROGRAMS

Annual award based on enrollment status

Pell Grant payments by term

Enrollment status for students taking regular and correspondence courses

Consortium different units example

FORMULA 1: CREDIT-HOUR TERM-BASED PROGRAMS

Alternate calculation

Formula 1: Basic Calculation example

Formula 1: Basic Calculation - Nontraditional Academic Calendar example

Formula 1: Enrollment status change example
FORMULA 2: STANDARD-TERM PROGRAMS WITH LESS THAN 30 WEEKS IN THE FALL THROUGH SPRING.................................................................3-65
FORMULA 3: GENERAL FORMULA FOR ANY TERM-BASED PROGRAM ...........................................................................................................3-65
  Enrollment status standards for nonstandard terms ..........................................................................................................................3-66
  Disbursing more than half the annual award and the 50% requirement ...............................................................................................3-66
  Formula 3: Payments for standard terms example ..........................................................................................................................3-67
  Formula 3: Payments for nonstandard terms of equal length example ...............................................................................................3-67
  Formula 3: Payments for nonstandard terms of unequal length example ...........................................................................................3-68
FORMULA 4: CLOCK-HOUR AND NON-TERM CREDIT-HOUR PROGRAMS ...............................................................................................3-69
  Checking half-time enrollment status ..............................................................................................................................................3-69
  Calculating payment amounts ............................................................................................................................................................3-69
  Enrollment status standards for clock-hour and other non-term programs .......................................................................................3-70
  Coursework completion requirement & withdrawal/re-entry .............................................................................................................3-70
FORMULA 5: CORRESPONDENCE STUDY ...............................................................................................................................................3-70

Examples
  Payments for credit-hour non-term programs (Formula 4) ..................................................................................................................3-71
  Payments for clock-hour programs (Formula 4) .................................................................................................................................3-71

SUMMER TERMS & OTHER CROSSOVER PAYMENT PERIODS .................................................................................................................3-72
  Crossover payment from the proper award year ...............................................................................................................................3-72
  Term schools: using the formula for summer sessions .......................................................................................................................3-72
  COA for summer terms .......................................................................................................................................................................3-73
  Receiving less than the Scheduled Award for crossover ..................................................................................................................3-73
  Crossover Pell and withdrawal .............................................................................................................................................................3-73
  Summer minisessions ..........................................................................................................................................................................3-73
  Minisession enrollment status example ........................................................................................................................................3-74
  Example - Combined minisessions into one term ...............................................................................................................................3-75
  Example - Minisessions treated as nonstandard terms .....................................................................................................................3-75

YEAR-ROUND PELL & IRAQ AND AFGHANISTAN SERVICE GRANT ..................................................................................................3-76
  Year-Round Pell clock-hour example ................................................................................................................................................3-77
  Year-Round Pell semester example ................................................................................................................................................3-78

CALCULATING & AWARDING REMAINING ELIGIBILITY .......................................................................................................................3-79
  Calculating remaining eligibility ..........................................................................................................................................................3-79
  Payment period for a transfer student at a non-term school ................................................................................................................3-79
  Transfer students and remaining eligibility ..................................................................................................................................3-80
  Example - Transfer student remaining eligibility ............................................................................................................................3-81
  Why percentages are used ....................................................................................................................................................................3-82
  Avoiding Pell Grant overawards ..........................................................................................................................................................3-82
  NSLDS financial aid history and transfer monitoring .......................................................................................................................3-82
PELL RECALCULATIONS .................................................................3-87
  Initial calculation ...................................................................3-87
  Change in the EFC ...............................................................3-87
  SAR/ISIR with a different EFC .................................................3-88
  Change in enrollment status ...................................................3-88
  Enrollment change within payment period example .................3-89
  Change in COA .....................................................................3-89
  Enrollment change recalculation example ................................3-90
  Tuition and fee charges and recalculation ................................3-90

CHAPTER 3 APPENDICES .................................................................3-91

APPENDIX A – PELL FORMULA 2: CALCULATIONS FOR STANDARD-TERM
PROGRAMS WITH LESS THAN 30 WEEKS IN FALL THROUGH SPRING ........................................3-92
  Formula 2 Alternate calculation .................................................3-92
  Formula 2: Calculation for standard terms with fall through spring terms less than 30 weeks example .................................................................3-93

APPENDIX B – PELL FORMULA 5:
CALCULATIONS FOR CORRESPONDENCE STUDY PROGRAMS .................................................3-94
  Pell COA (correspondence) .......................................................3-94
  Pell enrollment status (correspondence) ..................................3-94
  Pell correspondence payment periods & timing of payments ......3-95
  Pell calculations in correspondence programs .........................3-95
  Non-term correspondence program - Formula 5A .....................3-96
  Term correspondence program - Formula 5B ............................3-96
  Correspondence multiple formulas exception ..........................3-96
  Academic coursework ............................................................3-96

APPENDIX C – PELL FORMULA SUMMARIES .................................................................3-98
  Formula 1 Summary ..............................................................3-98
  Formula 2 Summary ..............................................................3-99
  Formula 3 Summary ..............................................................3-100
Chapter 4—Calculating TEACH Grants.................................3-105

TEACH GRANT BASICS.................................................................3-105
CALCULATING TEACH GRANT PAYMENTS FOR PAYMENT PERIODS.................................................................3-106
Crossover payment periods..........................................................................................................................3-106
Payment for a payment period from two Scheduled Awards...........................................................................3-107
Payment within payment period & retroactive payment..................................................................................3-107
Transfer students.......................................................................................................................................3-107
The sequester and TEACH Grants.....................................................................................................................3-107

TEACH GRANT FORMULAS...............................................................3-108
TEACH GRANT COUNSELING.............................................................3-108
PACKAGING TEACH GRANTS..............................................................3-109
RECALCULATING TEACH GRANTS..........................................................3-109
Recalculating for changes in enrollment status..................................................................................................3-109
Recalculating for changes in COA......................................................................................................................3-109

Chapter 5—Direct Loan Periods and Amounts.........................3-111

DIRECT LOAN ORIGINATION...............................................................3-111
Overview......................................................................................3-111
Originating a loan........................................................................3-112
Refusing to originate a loan or originating for less than maximum eligibility.........................................................3-113
Checklist for loan origination...........................................................3-113
Direct Loans at multiple schools.........................................................3-114
No minimum Direct Loan amount in COD system..............................3-114
Resolving conflicting information in NSLDS.......................................3-114

DIRECT SUBSIDIZED, UNSUBSIDIZED, AND PLUS LOANS..........................................................3-114
Direct Subsidized Loans vs. Direct Unsubsidized Loans..........................................................3-114
Direct Unsubsidized Loans for students whose parents have ended financial support and refuse to file a FAFSA.........3-115
Requirement to offer both subsidized and unsubsidized loans........................................................................3-115
Requirement to offer Direct PLUS Loans to both parent and student borrowers..............................................3-115
Definition of “parent” for Direct PLUS Loan purposes...................................................................................3-115

ACADEMIC TERMS, LOAN PERIODS, & REPORTING CHANGES TO LOAN INFORMATION...3-116
Standard term, nonstandard term, and non-term programs........................................................................5-116
Loan period (period of enrollment)..................................................................................................................3-117
Minimum and maximum loan periods...........................................................................................................3-117
ANNUAL LOAN LIMITS

Overview

Annual loan limits: basic principles

Annual loan limit progression: SAY/BBAY

Annual loan limits for dependent undergraduates

Increased unsubsidized loan limits for independent undergraduates and for certain dependent undergraduates

Example - annual loan limit for independent undergraduate

Annual loan limit for graduate and professional students

Table - Annual limits for sub/unsub loans

Direct PLUS Loan amounts for parents & graduate/professional students

Increased unsubsidized loan limits for certain health professions students

Table - Health professions programs eligible for increased unsubsidized loan limits

Annual loan limits for preparatory coursework and teacher certification programs

Table - Annual loan limits for preparatory coursework & teacher certification

Criteria for additional Direct Unsubsidized Loans

Loans for programs greater than one academic year, but less than two academic years in length

Loan limits for one-year and two-year programs

Annual loan limits for preparatory coursework and teacher certification programs

Loan limits for SE9W nonstandard programs with comparable academic calendar

Loan limits for SE9W nonstandard programs without comparable academic calendar

Graduate vs. undergraduate annual loan limits: special cases

MONITORING ANNUAL LOAN LIMIT PROGRESSION

Academic year & loan limits

Two types of academic years for monitoring annual loan limits: SAY and BBAY

SAY for credit-hour programs using standard terms with traditional academic calendar or using SE9W nonstandard terms with comparable academic calendar

SAY with standard terms

SAY with SE9W nonstandard terms

SE9W nonstandard term example

BBAY 1 for credit-hour programs with SAY

Alternating SAY/BBAY

BBAY 2 for standard-term programs and SE9W nonstandard term programs without SAY

Graphic - Standard term, credit-hour programs not using a traditional academic year calendar: BBAY 2

BBAY 3 for clock-hour, non-term credit-hour, and non-SE9W nonstandard-term program

Individual academic progress in BBAY 3

BBAY 3 for programs with both standard and nonstandard terms
WITHIN THE SAME ACADEMIC YEAR

ANNUAL LOAN LIMIT INCREASE BASED ON GRADE LEVEL PROGRESSION

PRORATING ANNUAL LOAN LIMITS FOR DIRECT SUBSIDIZED/UNSUBSIDIZED LOANS
(UNDERGRADUATE ONLY)

ANNUAL LOAN LIMITS FOR STUDENTS WHO TRANSFER OR CHANGE PROGRAMS
WITHIN THE SAME ACADEMIC YEAR

AGGREGATE LOAN LIMITS
Chapter 6—Awarding Campus-Based Aid

GENERAL CAMPUS-BASED PROGRAM RULES

Selecting independent and part-time students
Uneven costs/unequal disbursements
Summer school and special sessions
Campus-Based FSA Assessments
No new Perkins Loans
Underuse of funds

AWARDING FSEOG

Chart - Aggregate Limits for Sub/Unsub Loans
Aggregate loan limit for undergraduate student with graduate degree
Example: Returning to undergraduate program after receiving loans for graduate study
Higher aggregate loan limit for certain health professions students
Checking loan amounts in NSLDS
Unallocated consolidation loan amounts
Treatment of consolidated Perkins Loans and PLUS loans
Effect of change in student status on aggregate loan limits
Example: Aggregate loan limits and additional Direct Unsubsidized Loan amounts when parents are unable to obtain Direct PLUS Loans

SUBSIDIZED LOAN ELIGIBILITY TIME LIMITATION

Subsidized usage periods (SUP)
Loss of interest subsidy on Direct Subsidized Loans
When to update loan periods and academic years
Reporting and tracking the 150% limit
Transferring from a closed school and the 150% limit
Common reporting issues
Exceptions for borrowers who are enrolled in teacher certification programs
SULA and preparatory coursework
150 Percent Rule: Calculation, reporting, loss of subsidy example
150 Percent Rule: Remaining eligibility period of less than one year

MANAGING DIRECT LOANS IN MODULES

ENROLLMENT STATUS CHANGES AND DIRECT LOANS

RESOLVING INADVERTENT OVERBORROWING & CORRECTING DIRECT SUBSIDIZED LOAN/DIRECT UNSUBSIDIZED LOAN AWARDING ERRORS

Repayment or reaffirmation after inadvertent overborrowing
Consolidation of loan amounts that exceed the annual or aggregate loan limit
Correcting Direct Subsidized Loan or Direct Unsubsidized Loan awarding errors
Chapter 7—Packaging Aid

PACKAGING OVERVIEW

DIRECT LOAN PACKAGING CONSIDERATIONS

PELL GRANTS AS FIRST SOURCE OF AID

Pell can’t be used to pay a loan

PACKAGING RULES

Campus-Based aid

Iraq & Afghanistan Service Grants

Pell and Iraq & Afghanistan Service Grant Lifetime Eligibility Used

Packaging Direct PLUS Loans for graduate/professional students

Using net FWS earnings when packaging

ESTIMATED FINANCIAL ASSISTANCE (EFA)

Prepaid tuition plans

Estimated financial assistance provided by a state

Examples of estimated financial assistance

PACKAGING AID FOR CHILDREN OF IRAQ & AFGHANISTAN SOLDIERS

Pell-eligible dependents of deceased Iraq and Afghanistan soldiers

Pell-eligible dependents of deceased public safety officers (Children of Fallen Heroes)

Non-Pell-eligible dependents of deceased Iraq & Afghanistan soldiers (Iraq & Afghanistan Service Grants)

Maximum Pell packaging example - dependent of a deceased Iraq & Afghanistan soldier

IASG packaging example
PACKAGING WHEN CHOOSING NOT TO BORROW
SUBSIDIZED OR UNSUBSIDIZED DIRECT LOANS ................................................................. 3-189
PACKAGING TEACH GRANTS .............................................................................................. 3-189
CONSIDERING GRANTS AND SUBSIDIZED LOANS FIRST ............................................... 3-189
FSEOG & PELL LEU ............................................................................................................. 3-190
SUBSTITUTING FOR THE EFC .......................................................................................... 3-190
Basic packaging example ................................................................................................. 3-191
Graduate/Professional PLUS packaging example .............................................................. 3-192
Using Unsubsidized Loan Funds to Replace the EFC: Dependent example ....................... 3-193
Using Unsubsidized Loan Funds to Replace the EFC: Independent example .................... 3-193
RECALCULATION .............................................................................................................. 3-194
Recalculation and Direct Loans ....................................................................................... 3-194
Recalculation and Pell Grants ........................................................................................... 3-194
Recalculating COA ............................................................................................................ 3-194
COA changes between payment periods ......................................................................... 3-195
COA changes within a payment period ............................................................................ 3-195
Counting need-based earnings as estimated financial assistance ...................................... 3-195
CROSSOVER PERIODS ..................................................................................................... 3-196
Pell crossover issues ......................................................................................................... 3-196
EFCs for periods other than 9 months ............................................................................... 3-196
Crossover period EFCs and Title IV aid .......................................................................... 3-196
Table: Handling Crossover Periods for Title IV Programs ............................................. 3-197
Financial Aid offers and notification requirements ............................................................ 3-197
PACKAGING VETERANS BENEFITS, AMERICORPS, VOCATIONAL REHABILITATION
FUNDS, & BIA GRANTS .................................................................................................... 3-198
Veterans education benefits ............................................................................................. 3-198
Americorps benefits .......................................................................................................... 3-198
Vocational rehabilitation funds ......................................................................................... 3-199
Vocational rehabilitation agreements with state agencies .................................................. 3-199
Coordination with Bureau of Indian Affairs grants ............................................................ 3-199
Vocational rehabilitation packaging .................................................................................. 3-199
TREATMENT OF OVERAWARDS .................................................................................... 3-200
Campus-Based overaward thresholds .............................................................................. 3-200
