COD School testing enables simpler, faster, and less costly issue identification and resolution in a low-volume, controlled test environment. It also allows Schools, Third-party Servicers, and Software Vendors the opportunity to make corrections or enhancements to software applications and processes prior to entering the "live" production environment. The goal of COD School Testing is to make the transmission of production data smoother and reduce the risk of production problems.

Introduction

The COD School Testing Guide is intended for all Schools in the COD System.

Purpose

Throughout this document, the term “Schools” is used to indicate any entity that is participating in COD School Testing and includes Schools as well as entities that process on behalf of Schools (such as third-party servicers and software vendors).

The purpose of COD School testing is to provide schools, third-party servicers, and software vendors an opportunity to test Pell, Direct Loan, and the Teacher Education Assistance for College and Higher Education (TEACH) Grant business processes and system software with the COD System prior to the transmission and processing of actual production data. COD School testing will enable simpler, faster, and less costly issue identification and resolution in a low-volume, controlled test environment. It will also allow schools, third-party servicers, and software vendors the opportunity to make corrections or enhancements to software applications and processes prior to entering the “live” production environment. The goal of COD School Testing is to make the transmission of production data smoother and reduce the risk of production problems.

Scope

COD School Testing is divided into three distinct phases of testing for the upcoming award year. The testing environment will be updated with new code in conjunction with the next major release of COD.

- Phase I – Common Record Manual Verification
- Phase II – Structured Application Testing
- Phase III – Unstructured Testing

Each phase is described in more detail later in this document.

COD School Testing is available to all entities that participate in the COD process. Schools, vendors, or third-party servicers are not required to test with COD but are encouraged to participate in Phase I testing. Schools, vendors, or third-party servicers should refer to the *Volume V Section 2: COD School Test Cases* document for more information. The test case document contains descriptions of the test data that schools, vendors, or third-party servicers will send to and from COD, test execution guidelines, and structured test cases with multiple testing cycles.

Schools that use software from a software vendor and/or use a third-party servicer do not need to test with COD. The software vendors and third-party servicers can complete the test on behalf of their customers.

All entities that wish to participate in COD School Testing must submit a formal sign-up document to the COD School Relations Center. The sign-up document is located at the end of this section.

It is the School's choice as to how much of the test process they want to complete. But a previous test phase must be completed before moving on to the next. (Example: Schools wishing to test to Phase II must first complete Phase I.)

Test Phase Descriptions

Phase I - Common Record Manual Verification

1. What is the purpose of Phase I testing?

The purpose of the Common Record Manual Verification testing is to ensure that the schools, vendors, or third-party servicer's XML Common Record is well formed and properly structured according to the rules of the 5.0a XML Common Record Schema. The 5.0a schema documentation is available on the IFAP web site at:

<https://fsapartners.ed.gov/knowledge-center/library/cod-xml-schema/2021-09-10/cod-common-record-xml-schema-version-50a>

This site also has direct links to the 5.0a schema XML code, the valid ranges XML code, and the change log. The COD team manually reviews a Common Record document emailed to the COD School Relations Center (CODSupport@ed.gov) by the schools, vendors, or third-party servicers and assists the school, vendor or third-party servicer in the identification of potential updates to their Common Record submissions. This testing does not validate the data submitted within the Common Record. For this phase of testing, only two student records should be sent in the Common Record.

2. Who should participate?

The Common Record Manual Verification phase of testing is available to all schools, vendors, or third-party servicers.

3. When does Phase I testing take place?

Phase I testing is available from the beginning of January 2022 to October 2, 2022. Phase I testing is required for all schools, vendors, or third-party servicers prior to participating in Phase II testing.

4. How do Schools, Vendors or Third-Party Servicers sign up for Phase I testing?

Schools, vendors, or third-party servicers must complete a sign-up document in order to participate and schedule a testing window with the COD School Relations Center. The sign-up document is located at the end of this guide and on the COD web site, <https://cod.ed.gov> under the "COD Resources" link. The completed document must be emailed to CODSupport@ed.gov, Subject: "COD School Testing Sign-up", or faxed to the COD School Relations Center, 1-877-623-5082.

5. What do Schools, Vendors, or Third-Party Servicers need to do when they complete Phase I testing?

Schools, vendors, or third-party servicers that have completed Phase I and would like to continue to Phase II testing must contact their COD School Testing Coordinator at COD School Relations Center to schedule a Phase II testing start date. A second sign-up document is not required to participate in Phase II testing.

Phase II - Structured Application Testing

1. What is the purpose of Phase II Testing?

The purpose of Phase II-Structured Application Testing is to ensure that schools, vendors, or third-party servicers can send, receive, and process batches of records using specific input instructions with detailed expected results issued by COD. Schools, vendors, or third-party servicers use a test ISIR file supplied by COD that creates a test data set of students to use with the structured test cases. Schools, vendors, and third-party servicers cannot create their own student data to submit files during Phase II testing.

During this phase, schools, vendors, or third-party servicers send Common Record documents to, and receive Common Record Response documents back from the COD School Testing mailbox. Schools, vendors, or third-party servicers must verify that these files can be loaded and processed correctly in their system.

2. Who should participate?

All schools, vendors, or third-party servicers that have completed Phase I (Manual Verification) testing. Phase II is for schools who want to submit test common records for actual processing in the School Test environment. This would also allow Schools to test bringing in the response file they would get back from COD. Phase II testing assists schools, vendors, or third-party servicers in the identification of potential updates to their system before beginning actual processing for 2022-2023.

3. When does Phase II testing take place?

Phase II is available from April 13, 2022 to November 18, 2022. If schools, vendors, or third-party servicers complete Phase I prior to April 13, 2022 they must wait until the Phase II testing window opens.

4. How do Schools, Vendors or Third-Party Servicers sign up for Phase II testing?

When schools, vendors, or third-party servicers sign up for testing, they can select their desired test phases on the Sign-Up Document. If not selected during initial submission schools, vendors, or third-party servicers that want to continue to Phase II testing after completing Phase I can contact their Testing Coordinator at COD School Relations Center. A second sign-up document is not required to participate in Phase II testing.

5. What do Schools, Vendors or Third-Party Servicers need to do when they complete Phase II testing?

Schools, vendors or third-party servicers should notify their COD School Relations Testing Coordinator when they have completed testing. If a schools, vendors, or third-party servicer has shown no testing activity over a two-week period, COD will assume your school, vendors, or third-party servicer has completed Phase II of testing, unless you have notified COD otherwise.

6. What do Schools, Vendors or Third-Party Servicers need to do when they are ready to submit their first “live” batch?

If Schools, vendors, or third-party servicers finish their School Test efforts with Phase II, they should notify their COD School Testing Coordinator prior to submitting their first “live” batch into the production environment. The School Testing team will ensure the batch processes successfully, and notify the school, vendor or third-party servicer of the results.

Phase III - Unstructured Application Testing

1. What is the purpose of Phase III Testing?

The purpose of Unstructured Testing is to ensure that schools, vendors or third-party servicers can correctly create and submit all possible transactions needed for the future award year. Schools, vendors or third-party servicers continue to use data supplied within a test ISIR file supplied by COD. Schools, vendors, or third-party servicers cannot create their own student data to submit files during the Unstructured Testing.

2. Who should participate in Phase III Testing?

Schools, vendors, or third-party servicers that have participated in Phase I and Phase II of testing for the new award year set up and wish to submit minor variations to the test cases such as adjustments to the person information, award amounts or disbursement amounts.

3. When does Phase III Testing take place?

Unstructured Testing for 2022-2023 will be available from April 13, 2022 through December 18, 2022. This testing phase is optional.

4. How do Schools sign up for Unstructured Testing?

Schools that want to continue to Phase III Unstructured Testing after completing Phase II must contact the COD School Relations Center. A second sign-up document is not required to participate in Unstructured Testing.

5. What do Schools, Vendors or Third-Party Servicers need to do when they complete Phase III Testing?

Schools, vendors or third-party servicers should notify the COD School Relations Center when they have completed testing. If schools, vendors or third-party servicers have shown no testing activity over a two-week period, COD will assume your school, vendor or third-party servicer has completed Unstructured testing, unless you have notified COD otherwise.

6. What do Schools, Vendors or Third-Party Servicers need to do when they are ready to submit their first “live” batch?

Schools, vendors, or third-party servicers should notify their COD School Testing Coordinator prior to submitting their first “live” batch into the production environment. The School Testing team will ensure the batch processes successfully, and notify the school, vendor or third-party servicer of the results.

Testing Criteria

Test Entry Criteria

In order to begin testing with schools, vendors or third-party servicers need to complete the following steps:

Vendors can test using a COD Entity ID for one of their Schools, or the COD School Relations Center can provide one for them to use for testing purposes only.

- Complete a COD School Testing sign-up document (located at the end of this section). Upon completion, it should be submitted to the COD School Relations Center no later than September 18, 2022.
- Schedule individual testing date(s) specific for your School(s) for each testing phase. COD School Relations will contact you after the sign-up document is received.
- Be aware of your school's COD Entity ID and other program IDs. If you are a school, vendor or third-party servicer without a COD Entity ID simply request Entity IDs for testing.
- Confirm your test plans and COD readiness. Contact COD School Relations when you are ready to submit.
- Install the latest version of the message class table from SAIG.
- Install and implement the 2022-2023 updates to the software applications.
- Develop a means of keeping testing data separated from production environment.
- Identify individuals at the school, vendor or third-party servicer responsible for completing the COD School Testing process and exchange names with COD School Testing team.
- Complete Phase I Common Record Manual Verification Testing, prior to beginning Phase II Structure Application Testing.

Test Exit Criteria

The School and the COD School Relations Center should jointly determine when the school, vendor, and third-party servicer have successfully completed COD School testing. The school, vendor, and third-party servicer can select which processes to test and should continue testing until expected results are received. Once the expected results are received the school can consider testing successful. There is no pre-defined “end” of the test other than the published end dates for each phase of COD School Testing.

A school, vendor and third-party servicer is considered to have completed testing with COD once any of the following steps are completed:

- It has been determined that the school, vendor and third-party servicer has been able to satisfactorily complete the desired test scenarios by achieving the expected results.
- School, vendor and third-party servicer has chosen to discontinue school testing prior to completing all the desired test scenarios if the expected results have been achieved.
- School, vendor and third-party servicer has contacted the COD School Relations Center to verify the test results.
- School, vendor and third-party servicer has successfully sent a “live” batch into the COD Production environment.
- Testing phase window closes prior to test completion by School.

Testing Completion Clean Up

In order to begin the production phase, all test data **MUST** be removed from the participating school, vendor or third-party servicer systems. Before submission of production data, schools, vendors and third-party servicers should also ensure that files are sent using the proper production message classes and production destination mailbox.

Test Data

The Test Data section explains test data requirements for Phase II-Structure Application Testing. More detail about the test cases can be found in the COD Test Cases document located in *Volume V, Section 2-COD Test Cases* document of the *2022-2023 COD Technical Reference*.

Common Record Test Data

COD provides an actual CPS test data ISIR file for all test phases to each participating school, vendor and third-party servicer via email in an attached Zip file. Each school, vendor and third-party servicer processes the ISIR data that COD provides and generates student award transactions using its normal awarding process. Schools, Vendors and third-party servicers are required to send this file to COD using the normal SAIG processing protocols except for using the COD School Testing message classes and the COD School Testing destination mailbox located in the *Volume V, Section 2: COD Test Cases* document.

Upon receiving a Common Record in XML format, the COD System performs an immediate check to determine if the Common Record is readable. If the Common Record is readable and complies with the XML schema the COD System processes the file. COD will reject any unreadable record with Edit 210. After the COD System confirms the Common Record is readable and complies with the XML schema, the COD System classifies the record to determine how it will be processed. Schema 4.0a, 4.0b, 4.0c, 4.0d, 4.0e, and 5.0a Common Records will be processed with full validation enforced. Common Records of 3.0e and older schemas will be entirely rejected. School Test will expect Schools to submit schema 5.0a common records. Once the data has been processed, schools, vendors and third-party servicers will receive a response file indicating the results of each record submitted. If a record rejects, the response file indicates which data element(s) have rejected. Rejected records can then be corrected and resubmitted.

When processing records within the COD test environment the anticipated time from record submission to Response file is approximately two hours during any business day. Batches submitted during the weekend or federal holidays may not be processed until 7:30am ET of the next business day. If a school, vendor, or third-party servicer has not received a response within the above time frame of submitting the test file they should contact their School Testing Coordinator at the COD School Relations Center.

Testing Message Classes

Common Record message classes are year specific and are to be used from year to year in the production environment. However, different test message classes must be used for testing. During Phase II Structured Application Testing, and Phase III Unstructured Application Testing, Schools must use the following message classes when sending in Common Records for testing:

Common Record Test Message Classes

Common Record Documents sent from School to COD	CRTESTIN
Responses sent from COD to School	CRTESTOP

School Testing Sign-Up Process

Upon receipt of the sign-up document, the COD team must complete a considerable setup process to establish the School in the COD test environment before testing can begin. Schools should take this setup process into account when planning to participate in COD School Testing and provide enough lead-time in their schedule.

Schools, vendors and third-party servicers register for COD testing by completing the sign-up document located at the end of this School Testing Guide and submitting it to the COD School Relations Center. Once the COD School Relations Center has received the sign-up document from the School a confirmation letter will be sent to the School, via email, verifying that their sign-up document was received. Once the sign-up document has been processed, the COD School Relations Center will send the School a Readiness letter, via email, to provide additional information needed to begin testing such as the testing Entity ID Number to be used by the school, vendor or third-party servicer, the assigned testing start date, and the name of the School Testing Coordinator assigned to the school, vendor or third-party servicer. A new readiness letter will be sent to the school, via email, for each specified phase of testing.

The COD School Relations Center can be contacted by:

- Phone: 1-800-848-0978
- Fax: 1-877-623-5082

When calling, ask for COD School Testing Support, or send email to CODSupport@ed.gov with the subject line “COD School Testing Support”.

Contact Names

Each School participating in COD testing notifies the COD School Relations Center of their designated contact person on the testing sign-up document. The contact person should be consistent for the period before, during, and upon completion of the test. This person should be a technically oriented staff member who is very knowledgeable about the School’s financial aid system. This person should be available to assist in problem analysis and to coordinate any follow-up tests that may be required. If a school uses a third-party servicer and the servicer is conducting the test on behalf of the school, the COD School Relations Center needs the name and telephone number of the servicer contact person.

Scheduling

The School Testing sign-up document must be completed and emailed or faxed to the COD School Relations Center by the appropriate deadline shown below:

- The deadline to sign up for COD Testing is September 18, 2022.

When a School submits their School Testing sign-up document, the School is contacted by the COD School Relations Center to schedule testing dates within each phase of testing.

Support Services

While a school, vendor or third-party servicer are going through testing, there are many support sources available for assistance, as listed below:

School Support Services

Support Service	For Information on the Following:	Contact
School Testing Sign Up	Registering for School Testing	Contact COD School Relations Center
ISIR Data Issues	Problems with ISIR data only	Contact COD School Relations Center
ISIR Processing Issue	Problems with processing the ISIR file	Contact CPS/SAIG Technical Support 1-800-330-5947
SAIG	Issues concerning connectivity to SAIG only	Contact CPS/SAIG Technical Support 1-800-330-5947
COD Processing	Issues concerning all items related to Pell, Direct Loan, and TEACH processing only.	Contact COD School Relations Center
School Testing Issues	Issues concerning all items related to COD School Testing only.	Contact COD School Relations Center
School Testing Results	To obtain or report School Testing results for COD School Structured Testing only.	Contact COD School Relations Center

Resource Planning

Hardware/Software

Schools should have all hardware and software capabilities ready before testing. Each School should have all upgrades installed from vendors or regulatory releases for 2022-2023.

Roles and Responsibilities

A collaborative effort between participating schools, vendors and third-party servicers and the COD School Relations Center is necessary for COD School testing to be completed successfully. The expected roles and responsibilities of each entity are described below:

Schools, Vendors, and Third-Party Servicers

Schools, vendors and third-party servicers are responsible for completing the following steps associated with COD School Testing:

- In addition to this school testing section review relevant Electronic Announcements posted on the IFAP web site.
- Review the COD Implementation Guide and Common Record Layout in the COD Technical Reference.
- Review all documentation that is emailed to the participating School (if applicable).
- Review the 2022-2023 Award Year Pell Payment Schedule which has yet to be released as of the time this guide was published.
- Schedule testing date with the COD School Relations Center using the sign-up document (preferably returned via email).
- Prepare a test environment for COD School Testing that uses the test destination mailbox, test message classes, and the test Entity ID.
- Prepare test data to execute the Structured COD School Testing scripts for submissions.
- Send the test data to COD via the SAIG.
- Retrieve Responses from COD via the SAIG.
- Process Responses/acknowledgements.
- Communicate results with the COD School Relations Center.
- Once testing is completed, remove all data from the school, vendor or third-party servicer environment.

Protecting Personally Identifiable Information

Do not use real student data or production data during any phase of testing. Utilize only the student data provided in the ISIR provided by COD.

COD School Relations Center

The COD School Relations Center provides the following support during testing:

- Provide and process COD School Testing sign-up documents.
- Schedule specific test dates for schools, vendors, and third-party servicers.
- Provide schools, vendors, and third-party servicers with their own testing Entity ID to use only during a specific testing phase (if needed).
- Process submitted data.
- Send Responses via the SAIG.
- Update schools, vendors, and third-party servicers of their testing status.
- Assist with issue identification and resolution.
- Provide testing technical guidance.

Lessons Learned from 2021-2022

Schools, vendors and third-party servicers that participated in COD School Testing for 2021-2022 provided COD with feedback on their experience. The following sections provide you with insight as to what schools, vendors and third-party servicers should test, how to prepare and, and how to schedule testing within your institution.

Should I participate in School Testing?

- All software vendors, third-party servicers and schools that use a homegrown or mainframe system are encouraged to test their software with the COD System prior to submitting production data.
- FSA ensures that EDEExpress is extensively tested each year with COD prior to its annual release(s) to the schools. Schools using EDEExpress software do not need to test with the COD System.
- Schools that use a software vendor product do not need to test with the COD System, since most software vendors test with COD on their school's behalf. This will help minimize the need for schools to retest with COD.
- New schools to Title IV Financial Aid, that are not using EDEExpress or another software vendor product, are also encouraged to test with COD.

How do I prepare for School Testing?

Before you begin testing, schools should:

- Establish a separate testing environment to keep production data separate from their testing data. Production operations of prior award years and COD School Testing need to be able to occur in parallel without interference.
- Compare test output files against the Common Record Layout and XML Examples published in the 2022-2023 COD Technical Reference Volume II.
- Signup for testing in advance to allow for adequate setup time before you are ready to begin testing. COD has considerable work to do to set-up each testing participant to ensure a successful test.
- Identify a strategy for loading the provided fictitious test students several weeks prior to Phase I testing. The easiest way to enter the test data is that Schools can process the simulated CPS ISIR file provided (via email) by COD. Schools can also manually enter the fictitious test students into their testing environment reading from the simulated CPS ISIR file.
- Review the Implementation Guide in the 2022-2023 COD Technical Reference and understand the COD process for Pell, TEACH Grants and Direct Loans.

What can I expect during School Testing?

- Plan to test and start early in the testing window. **DO NOT** wait until the end of the testing window to sign-up or begin testing. Allow and plan time for retesting with the COD system.
- Plan and allow time to encounter possible issues and errors and expect time delays during the resolution process.
- Schools should be very careful to send test files to the correct SAIG mailbox and to use the correct SAIG testing message classes to avoid accidentally submitting test data to the COD production environment. SAIG has two networks. One is Production (Prod) and the other one is Test (ProdT). You will need to send your files to TG75891 mailbox in the Test network. Schools that use EDConnect should ensure that they select the correct test message class (usually CRTESTIN) and not the production message class.
- Proactively contact your testing coordinator to help resolve issues, provide testing status, and answer questions during the testing process. Schools may experience delays in the testing process while issues are identified, researched, and resolved.
- Communicate to the COD School Relations Center when the School has satisfactorily completed school testing or chooses to discontinue school testing.

COD School Testing Sign-up Document

On the following page you will find the COD School Testing sign-up document. This document should be completed to the best of your ability upon submission. The completed document should be sent to the COD School Relations Center.

Send the completed document to COD School Relations at:

- Email: CODSupport@ed.gov, subject of “COD School Testing Sign-up”
- Fax: 1-877-623-5082

Definitions of terms in the sign-up document and what information should be contained in them are listed below.

Field Name	Description
COD Entity ID	Enter your Entity ID here. If you are unaware of your Entity ID you can find this information on the COD web site, cod.ed.gov , or contact the COD School Relations Center. Third-party servicers or software vendors who have tested in any previous year can enter the same ID they were given in the previous testing year. If a Servicer/Vendor has lost the information from previous years testing or if they have never tested before please reach out to the COD School Relations Center and an ID will be provided.
Date Submitted	The date you submitted this form to the School Relations Center.
Organization	If you are a third-party servicer or software vendor list your name here. Schools can also put their name here as well as in the School Name field below.
Organization Type	Indicate if you are a school, software vendor, or third-party servicer.
Test Readiness Date	The date when you will be ready to begin the COD School Testing process.
Desired Test Phase	Select the phase(s) of testing that you want to complete. Please keep in mind that you must complete each phase in order.
Hardware Setup	Please indicate what kind of physical system you are using (a mainframe system or a server/workstation based system).
Software Product	If you are using a software vendor product or third-party service provider you use to submit records to COD enter the vendor product/software name. If you are using a self-made custom solution please enter “Custom:” and the name of you’ve given your software.
Contact Information (Name, Phone, E-mail)	Enter the contact information of the people who will be working with the School Relations Center and COD School Testing personnel.
School Name	If you are a School enter your name here. If you are a third-party servicer or software vendor testing through a school then enter that school’s name here. If you are a third-party servicer or a software vendor testing directly with COD then leave this field blank.
Reporting School Entity ID	Enter the COD Entity ID of the School that will be submitting the records to COD. For most schools this will be the same as COD Entity ID above.
Attending School Entity ID	Enter the COD Entity ID of the School where students attend class. (This is usually the same as the COD Entity ID too.)
OPE ID	Enter the OPE ID of the School where students attend class.
Direct Loan ID	Enter the Direct Loan ID of the School where students attend class.
Pell ID	Enter the Pell ID of the School where students attend class.
SAIG Test Mailbox	Enter the SAIG Test mailbox ID (TGxxxxx) of the test mailbox you will be transmitting your test files from during testing.
Third Party Servicer	Enter the Entity ID of the Third Party Servicer if the school is using one here.
Case ID	This field is only used by the COD School Relations Center.

COD School Testing 2022-2023 Sign-Up Document

Complete and send to **CODSupport@ed.gov** or Fax to 1-877-623-5082.

Upon completion, it should be submitted to the COD School Relations Center no later than September 18th, 2022.

Allow 7-10 business days for the sign-up and set-up processes prior to testing.

Allow sufficient time for re-testing to meet your specific testing needs.

Organization Information	COD Entity ID:	Date Submitted:

Case IDs assigned:

All schools must use the Common Record in XML format to submit Pell and TEACH Grants and/or Direct Loan (DL) origination and disbursement data to the COD System over the Student Aid Internet Gateway (SAIG).

Schools should refer to Volume II of this technical reference for record layouts and processes.

Schools that participate in School Testing can test with the structured test cases described in this guide and will receive Response files from COD.

Please note, all data used in this guide is for test purposes only. All Social Security Numbers, Dates of Birth, Names, and other Personally Identifiable Information is fake.

Test Data Sent from the Schools to the COD System

This section provides an overview of the records schools send to COD during the School Testing process. Each type of record and its general functionality are described. General test conditions are also discussed.

Common Record

The Common Origination and Disbursement process utilizes one single record across programs for both originations and disbursements. Schools use the Common Record, which is comprised of common data elements, definitions, edits, and structure for Pell and TEACH grants and Direct Loan awards. Although the record has the same layout for all programs, not all data elements are required for each transmission or for each program. This record layout relies on a technology called Extensible Markup Language (XML) to encode documents into machine-readable code.

For School Testing the Common Record is submitted using the message class CRTESTIN.

Upon receiving a Common Record in XML format, the COD System performs an immediate check to determine if the Common Record is readable. If the Common Record is readable and complies with the XML schema, the COD System will process the file. Records that are not readable nor comply with the XML schema will be rejected with Edit 210.

After the COD System confirms the Common Record is readable and complies with the XML schema the COD System classifies the record to determine how it will be processed. The record is classified as either a new record or an update record.

School Testing for 2022-2023 will only involve the Common Record 5.0a schema. During the testing process schools can submit data for 2022-2023 awards. Testing concurrent award year processing in the 2021-2022 and earlier schemas will not be possible.

Establishing a New Record

A new record establishes a new student, award or disbursement on the COD System. There are three types of new records:

- **New Student with a New Award** - If the student identifier does not match any previously submitted to the COD System the record is considered a new student. A student cannot be established on the COD database until an award is accepted for the student.
- **New Award** - If the student identifier matches a person already established on the COD System the system checks to determine if the award is already on file. If not, then the record is considered a new award.
- **New Disbursement** – If the person and award already exist on the COD System the system checks the disbursement number submitted for the award. If it is not already on file, the system logs the disbursement as a new disbursement. There are two types of disbursement records:

- Actual Disbursement – Actual disbursement records contain a Disbursement Release Indicator = true
- Anticipated Disbursement - Anticipated disbursement contain a Disbursement Release Indicator = false. These disbursements are not considered actual disbursements, therefore they do not substantiate drawdowns to the school.

Establishing a Change Record

A change record performs an update to information or elements that were previously established on the COD System. There are two types of update records:

- Change Record – A change record performs an update to an award or disbursement data element that was previously established by a new record OR is used to change disbursement amounts or dates of an existing award or grant.
- Actual Disbursement Record - An Actual Disbursement record is submitted with a Disbursement Release Indicator = true for a disbursement record previously submitted as an anticipated disbursement. An actual disbursement signals to the COD System that the disbursement information is an actual disbursement. It substantiates cash already made available to the school.

After the Common Record is processed the COD System returns a Response to the school.

For School Testing the Response is returned using the message class CRTESTOP.

Testing with the predefined test data covers scenarios for nine students including:

- New Students with a New Award
- New Disbursements – Actual Disbursements
- New Disbursements – Anticipated Disbursements
- Change Records
- Actual Disbursement Records

The Common Record layout is provided in the *Volume II, Section 3 – Common Record Layout* of this technical reference.

Test Data Received by the Schools from COD

This section provides an overview of the different record types that are received by a school from COD during the test process.

Common Record Response

The Common Record Response is sent back to the school after processing is complete. Schools have the option of selecting either a standard or full Common Record Response. A full Response contains all the data elements that were in the original Common Record sent by the school and the rejected data elements and reason codes. A standard Response contains only the rejected data elements and error reason codes. It is recommended that full Responses be used during this testing process. Test Responses are sent using the message classes `CRTESTOP`.

Test Execution

In this section record profiles are provided for each test case. Use these test scripts in conjunction with the *Volume II, Section 3 – Common Record Layout*. Specific data are defined and step-by-step instructions for executing the test are provided. Below is a checklist of the major steps in the testing process.

Common Record Manual Verification

Please note that Common Record Manual Verification is a required test phase for all schools that participate in School Testing.

The purpose of the Common Record Manual Verification testing is to ensure that the school's XML Common Record is well formed and properly structured according to the rules of the XML Common Record Schema. The COD team manually reviews a Common Record document sent by the school and assists the school in the identification of potential updates to their Common Record submissions. This testing does not validate the data submitted within the Common Record. For this phase of testing only two student records should be sent in the Common Record.

Common Record Manual Verification Checklist

Step	Task	Task Completed
1	Schedule test dates with the COD School Relations Center for XML Common Record Manual Verification Testing (Phase I).	
2	Schools should use the test cases included in this document for the XML Common Record Manual Verification testing. This test data, after it has passed the XML structure verification, can be used in system testing and eliminate the need for the school to create more test data. <u>DO NOT send real SSN, name, and/or address combinations.</u> This is in respect to the Privacy Act of 1974.	
3	Schools should e-mail Common Record data to COD School Relations Center. (E-mail address to be provided upon sign-up for testing).	
4	Schools will receive the results of the XML Common Record Manual Verification via e-mail. The results will include a list of errors and actions that need to be taken by the school to correct the data. It may also include a corrected file for the school to use as a reference for making corrections. Some potential errors are file size errors, missing tags and unused tags.	
5	Repeat steps 2-4 until test data passes XML Common Record Manual Verification.	

Structured Application Testing

Please note that Structured Application Testing can begin only after successful completion of the Common Record Manual Verification Testing.

The purpose of the Structured Application Testing is to ensure that schools can send, receive, and process batches of records using detailed input instructions with detailed expected results issued by COD. Schools use a test Institutional Student Information Record (ISIR) file supplied by COD that creates a test data set of students to use with the structured test cases. During this phase Schools send Common Record documents to COD and receive Common Record Response documents back from COD. This phase of testing is not all-inclusive; it is meant only to ensure schools can send, receive and process records with detailed expected results.

The submission of all test cases is not required to participate in Structured Testing. Schools are encouraged to use the test cases which

are supported by their software. The test cases are meant as a guide to submit records. Schools may submit programs within individual or combined batches. This is to allow schools the option of submitting several batches in each test cycle due to software limitations or organizational setup.

Structured Application Testing Checklist

Step	Task	Task Completed
1	Prepare a test environment using a Test Destination Mailbox, Test message classes (CRTESTIN), School Entity ID, and specified COD forward system date.	
2	Schedule test dates with the COD School Relations Center for Structured Application Testing (Phase II).	
3	Prepare the test data (received from COD) for Test Cycle 1 using the School Test Entity ID.	
4	Send the test document to COD school testing SAIG test mailbox (TG75891).	
5	Once file has been sent verify that the file has been received via SAIG portal and notify COD School Relations Center that the file has been sent.	
6	If the file was not received by SAIG contact SAIG customer service at either (800) 330-5947 or CPSSAIG@ed.gov .	
7	If Response is not received within two (2) hours contact COD School Relations Center for an update.	
8	Receive notification from the COD School Relations Center that the Response are on the SAIG. Pull the Response into the school's system.	
9	Validate Response documents against the published expected.	
10	Call the COD School Relations Center to confirm results before proceeding.	
11	Repeat steps 4 through 8 for Test Cycle 2.	
12	Receive notification from the COD School Relations Center that the testing cycle is complete.	
13	<p>If a test environment was not used, reset the school's system defaults for production, and verify that the test data is deleted, or all test grants/loans are adjusted to \$0.</p> <p>Note: If system is not reset to the defaults it may cause errors in the production data. Remember to change the school test environment system date back to the correct current date.</p>	

Test Student Profiles

It may be assumed the student has an Agreement already on file at COD.

Case #1: Student Testone applies for Pell & TEACH Grants

Student Testone is a second-year student (Student Level Code = 2) eligible for Pell (EFC = 0, but COA = 5,000) and two TEACH Grant awards. The first submission contains the Common Record person, award, and disbursement with Release Indicator = false for both the Pell Grant and the TEACH awards. The student is awarded a Pell Grant of \$5,050 and TEACH awards for \$4,000 [\$3,772] each. The second submission contains a Release Record with a Disbursement Release Indicator = true for an actual disbursement.

Case #2: Student Testtwo applies for a Federal Pell Grant and a Parent PLUS Direct Loan

Student Testtwo is a second-year student (Student Level Code = 2) and is eligible for a Pell Grant (EFC = 3,400) and a PLUS loan. The first submission contains the Common Record person, awards, and disbursements. Disbursement data shall be established with a Disbursement Release Indicator = false for the Pell Grant, and Disbursement Release Indicator = true for the PLUS award. The student is awarded a Pell Grant of \$3,145 and a PLUS loan of \$6,600.

The second submission contains an adjustment to the award and disbursement amounts of each award/grant and changes the Disbursement Release Indicator to true for the Pell Grant.

Case #3: Student Testthree applies for a Federal Pell Grant

Student Testthree is an incoming first-year student (Student Level Code = 0) who is incarcerated (Incarcerated Student Indicator = true) and is eligible for a Pell Grant (EFC = 0). The first submission contains the Common Record person, award, and disbursement data with a Disbursement Release Indicator = false. The student is awarded a Pell Grant of \$6,495.

The second submission contains a Release Record with a Disbursement Release Indicator = true for an actual disbursement.

Case #4: Student Testfour applies for Unsubsidized and Grad PLUS Direct Loans and a TEACH Grant

Student Testfour is a first-year graduate professional (Student Level Code = 6 and Additional Eligibility Unsubsidized Indicator = true). The student is awarded an Unsubsidized Loan of \$12,000, a Grad PLUS loan of \$4,500, and a TEACH Grant of \$4,000 [\$3,772]. The first submission contains disbursement information with a Disbursement Release Indicator = true for the Unsubsidized and Grad PLUS awards, and Disbursement Release Indicator = false for the TEACH Grant.

The borrower is the student. It may be assumed that an ATS and an MPN is already on file at COD.

The second submission contains a Release Record with a Disbursement Release Indicator = true for an actual disbursement for the TEACH Grant.

Case #5: Student Testfive applies for an Unsubsidized Direct Loan

Student Testfive is an undergraduate student (Student Level Code = 5) and is an eligible non-citizen for a Direct Unsubsidized Loan. The student is awarded a Direct Unsubsidized Loan for \$3,500. The first submission contains disbursement information with a Disbursement Release Indicator = true.

The second submission for Unsubsidized DL includes a decrease in the award and disbursement amounts.

Case #6: Student Testsix applies for Subsidized and Unsubsidized Direct Loans

Student Testsix is a first-year student (Student Level Code = 1). The first and only submission contains the Common Record person, award, and disbursement data with a Disbursement Release Indicator = true for each award. The student is awarded a Direct Subsidized Loan for \$2,000 and a Direct Unsubsidized Loan for \$1,500.

Case #7: Student Testseven applies for a Parent PLUS Direct Loan and TEACH Grants

Student Testseven is a third-year student (Student Level Code = 3) with a Parent PLUS loan for \$10,000 and two TEACH awards totaling \$8,000 [\$7,544]. The first submission contains a Common Record with disbursement information and a Disbursement Release Indicator = true for the Parent PLUS loan, and a Disbursement Release Indicator = false for the TEACH grants.

The second submission includes a Release Record with a Disbursement Release Indicator = true for only the disbursements of each TEACH grant.

Case #8: Student Testeight applies for a Pell Grant, and Subsidized and Unsubsidized Direct Loans

Student Testeight is a fifth-year student (Student Level Code = 5) with an EFC of 2,000 and a DoD Match Flag of “Y” on CPS (nullifying the EFC and permitting the student the maximum annual award limit). The first submission contains the Common Record person, awards, and disbursement data with a Disbursement Release Indicator = false for the Subsidized and Unsubsidized awards, and a Disbursement Release Indicator = true for the Pell Grant. The student is awarded a Pell Grant of \$6,495, a Direct Subsidized Loan for \$3,500, and a Direct Unsubsidized loan for \$3,000. Warning Edit 168 will be drawn for the Pell award.

The second submission includes a Release Record with a
 Disbursement Release Indicator = true for all Direct
 Subsidized and Unsubsidized disbursements.

Case #9: Student Testnine applies for Pell and TEACH Grants, and Subsidized and Unsubsidized Direct Loans

It is assumed that the student has an Agreement already on file at COD.

Student Testnine is a fourth-year student (Student Level Code = 4). The first submission contains the person, award and disbursements with a Disbursement Release Indicator = false for the Pell and a Disbursement Release Indicator = true for the Subsidized and Unsubsidized Direct Loans and TEACH Grant. The student is awarded -- a Pell Grant of \$6,495, a TEACH Grant of \$4,000 [\$3,772], a Direct Subsidized Loan for \$5,500, and a Direct Unsubsidized Loan for \$5,000.

The second submission includes the adjustment of changing the Pell Grant disbursements to Disbursement Release Indicator = true. It also includes the adjustment to \$0 of the Direct Unsubsidized award amount and disbursements. Warning Edit 119 may occur for this submission and is acceptable.

These students will already be created for you and sent via e-mail. The last four digits of the SSNs may vary from the below matrix, but the COD School Relations Center will provide this information prior to testing.

Creating Unique Social Security Numbers

Because there are many schools participating in Schools Test, COD provides test data that aids in the identification of its school and test cases. To do this the following two-point formula is used to generate a Social Security Number (SSN) for the school test data.

First Point: Five digits from the school's OPE ID (positions 2 through 6) are used as the first five numbers of each SSN. For example, if a school OPE ID is 07777800 and the test data defines an SSN of ###-##-0001, the SSN would translate to 777-78-0001.

Second Point: The last digit of each student and borrower SSN indicates which Test Case that individual belongs to during Structured Testing. So, going by the example above, Student 777-78-0001 belongs to Test Case 1.

Furthermore, other than the SSN, the data (Name, Date of Birth, Address, etc.) for each Student within each Test Case is the same. The 6th, 7th, and 8th digits of the SSN are merely used to differentiate one Student/Borrower from another. So, continuing with the above example, Students 777-78-0001, 777-78-0011, 777-78-0021, 777-78-0031, and 777-78-0041 belong to Test Case 1 and their Names, Dates of Birth, Address, etc. are all the same. Only the SSN differentiates them.

Student Profile Matrix

Student Number	Award Type	Student SSN	First Submission	Second Submission
1 (Send)	TEACH and PELL	###-##-0001	Pell and TEACH Common Record with Disbursement Release Indicator = false	Pell and TEACH Common Record with Disbursement Release Indicator = true
1 (Receive)	TEACH and PELL	###-##-0001	Response	Response
2 (Send)	Pell and PLUS	###-##-0002	Pell Common Record with Disbursement Release Indicator = false PLUS Common Record with Actual Disbursements, Disbursement Release Indicator = true	Pell Actual Disbursements, Disbursement Release Indicator = true Adjustments to award and disbursement amounts
2 (Receive)	Pell and PLUS	###-##-0002	Response	Response
3 (Send)	Pell	###-##-0003	Common Record with Disbursement Release Indicator = false	Common Record with Disbursement Release Indicator = true
3 (Receive)	Pell	###-##-0003	Response	Response
4 (Send)	TEACH, and Direct Loans (PLUS & Unsubsidized)	###-##-0004	Direct Loans (PLUS & Unsubsidized) Common Record with Actual Disbursements, Disbursement Release Indicator = true TEACH Common Record with Disbursement Release Indicator = false	TEACH Actual Disbursement with Disbursement Release Indicator = true
4 (Receive)	TEACH, and Direct Loans (PLUS& Unsubsidized)	###-##-0004	Response	Response
5 (Send)	Direct Loan (Unsubsidized)	###-##-0005	Common Record with Disbursement Release Indicator = true	Update award amount and disbursement amounts
5 (Receive)	Direct Loan (Unsubsidized)	###-##-0005	Response	Response
6 (Send)	Direct Loans (Subsidized & Unsubsidized)	###-##-0006	Common Record with Actual Disbursements, Disbursement Release Indicator = true	N/A
6 (Receive)	Direct Loan (Subsidized & Unsubsidized)	###-##-0006	Response	N/A

7 (Send)	PLUS and TEACH	###-##-0007	PLUS Common Record with Disbursement Release Indicator = true TEACH Common Record with Actual Disbursements, Disbursement Release Indicator = false	TEACH Actual Disbursement with Disbursement Release Indicator = true
7 (Receive)	PLUS and TEACH	###-##-0007	Response	Response
8 (Send)	Pell & Direct Loans (Subsidized & Unsubsidized)	###-##-0008	Pell Common Record with Disbursement Release Indicator = true Direct Loans (Subsidized & Unsubsidized) Common Record with Actual Disbursements, Disbursement Release Indicator = false	Direct Loans (Subsidized & Unsubsidized) Common Record with Actual Disbursements, Disbursement Release Indicator = true
8 (Receive)	Pell & Direct Loans Subsidized & Unsubsidized)	###-##-0008	Response	Response
9 (Send)	Pell & TEACH & Direct Loans (Subsidized & Unsubsidized)	###-##-0009	TEACH Grant and Direct Loans (Subsidized & Unsubsidized) Common Record with Actual Disbursements, Disbursement Release Indicator = true Pell Common Record with Disbursement Release Indicator = false	Adjust Unsubsidized award amount and each Actual Disbursement to \$0 Pell Actual Disbursements, Disbursement Release Indicator = true
9 (Receive)	Pell & TEACH & Direct Loans (Subsidized & Unsubsidized)	###-##-0009	Response	Response

Preparing the Test Environment

It is necessary to define separate, independent regions for the school test and production data. Before proceeding with testing verify that the method defined is valid and that any test data created does not mix with live production data within the school's environment. The school test environment must have the ability to modify the system processing date.

Setting System Defaults

For the Testing Process any defaults in a school's system should be set as follows:

Entity ID

- Contact the COD School Relations Center for this information prior to testing.

For Pell

- Cost of Attendance = 9000 (unless a test case specifies otherwise)

For TEACH Grant

- Student Level Code = 0-7

For Direct Loan

- Promissory note prints on-site at school (PromissoryNoteCode = O)
- Subsidized/Unsubsidized Fee Percentage = 1.057
- PLUS Fee Percentage = 4.228
- Subsidized/Unsubsidized Interest Rebate Percentage = 0
- PLUS Interest Rebate Percentage = 0
- Direct Loan Attendance Cost = 20000 (unless a test case specifies otherwise)
- Loan Period Start Date = 2022-07-01
Loan Period End Date = 2023-06-30
- Student's Academic Year Start Date = 2022-07-01
Student's Academic Year End Date = 2023-06-30
- Payment Period Start Date = 2022-07-03
Payment Period End Date = 2023-06-30

If a Subsidized/Unsubsidized loan is submitted with an earliest Disbursement Date on or after October 1, 2021 the corresponding Origination Fee Percent and Interest Rebate Percent must respectively be 1.057% and 0%.

The loan period start and end dates must be equal to or within the student's academic year start and end dates.

For All Programs

- Subsidized/Unsubsidized Fee and PLUS Fee percentages remained the same as they were last year.
- Some software and 3rd party service providers have accounted for the impact of the Sequester on TEACH awards. In this document Sequester impacts will be reflected on TEACH award and disbursements amounts followed by sequester adjusted amounts in

brackets. Example: Award Amount = \$4000 [\$3,772]. The 5.70% reduction is the same as last year.

- Modifications to existing edits are reflected in the 2022-2023 COD Technical Reference: Volume II, Section 4 - Edits.

First Test Cycle (First Submission)

In the first test cycle a school submits Common Records in XML format for up to nine students as well as Release Records for all Direct Loan (i.e., PLUS, Unsubsidized, and Subsidized) disbursements.

- One student with Pell and TEACH
- One student with Pell Grant and PLUS
- One student with Pell Grant
- One student with Direct Loan Unsubsidized, PLUS, and TEACH
- One student with Direct Loan Unsubsidized
- One student with Direct Loan Unsubsidized and Subsidized
- One student with PLUS Loan and TEACH
- One student with Pell Grant, Direct Loan Unsubsidized, and Subsidized
- One student with Pell Grant, TEACH Grant, Direct Loan Unsubsidized and Subsidized

Once the awards are in XML Common Record format create one file (batch) to be sent to COD:

First Test Cycle to COD in XML Format

File Description	Message Class	Maximum Number of Students in Batch
Common Record Documents	CRTESTIN	9

COD processes the files, and the school receives two files from COD in return:

First Test Cycle Responses from COD

File Description	Message Class	Maximum Number of Students in Batch
Common Record Responses	CRTESTOP	9

Helpful Hints for Preparing Test Case Input Files and Receiving COD Responses

When XML errors and rejection edits occur after an input file is entered into the COD system these errors typically result because the input file contains errors. Many of these errors can be avoided before an input file is submitted. Common input errors include (but not limited to):

- Extra spaces (blanks) contained in some places of the XML file. As a result, the system does not accept the file as having the correct XML format and rejects the file. An example is a blank line between the <Version> and <CommonRecord> lines. Also, spaces in certain parts of an XML file counts as a value when the file processes through the COD system.
- Personal Information of the Student and/or Borrower – Examples: Switching the SSN of Borrower and Student, incorrect SSN of Student/Borrower, Student/Borrower's DOB, Student/Borrower's Last Name, Student/Borrower's Address Information (Address, City, State Province, and Postal Code lines), CPS Transaction Number, Student Level Code, and Citizenship Status Code.
- Award Information – Examples: Disbursement Amount (common error for this is Duplicate Adjustment Information), Disbursement Number, Disbursement Sequence Number, Interest Rebate Amount, Attendance Cost, Financial Award Amount, Award Year, Promissory Note Print Code, Payment Period Start Date, and Payment Period End Date.
- School Information – Examples: Attending/Reporting Routing ID.
- Direct Loans use DL Code (aka DL ID) and TEACH uses first six digits of OPE ID to construct the financial award ID for school.
- Remember that Test Cases are intended as a guide to submitting accurate records. Include only the test cases which are supported by your software. Keep as close to test cases as possible but include only eligible programs. For example, Test Case 8 includes a Pell Grant, DL Sub and DL Unsub. If the school is setup only for Pell include only that program. Schools may submit several submissions with only one program due to software limitations.
- An input file with an XML error will be rejected by the COD system with edit 210.

The system will process an input file with incorrect information (some examples of which are provided, above) and generate a variety of edits (depending on the number and degree of input errors) in its Response. Because an input file can contain a variety and combination of errors, it is not possible to list all possible edits occurring under all possible conditions.

The following are the most common edits and/or combination of edits that can result from a Response if the above information is not correct in the input file:

Edits: 011, 012, 024, 034, 039, 056, 058, 060, 077, 078, 100, 117, 120, 121, 160, 210, 996 and 998

It should also be noted that some edits also have companion edits. This means that if an edit is generated, it can be followed by a second edit because it is directly related to the first edit. When the first edit is resolved, this will typically also resolve the companion edit. Because of the variety and combination of errors that can be processed from an input file, not all possible edits and their companion edits can be listed.

Edits can be triggered for more than one type of error. For instance, an Edit 996 can be triggered by a variety of input errors (e.g., an incorrect Student SSN, a school having an incorrect or incomplete Award Year Setup, or an incorrect Financial Award Amount entered for a student). A single edit like this can occur under such varied conditions, due to the nature of the errors contained in that particular XML file. Depending on the award year, a particular edit or combination of edits can also be generated, based on incorrect information being submitted in the input file.

Even when an input file is in the correct XML format and contains correct information, it is still possible for the file to generate edits. In many of these cases, these are expected edits. In some cases, these edits can also have companion edits generated. Examples of the most common edits include (but not limited to):

- Disbursement Release Indicator
- Disbursement Date
- Award Year Setup
- Document ID

For more detailed information on specific edits, Schools should refer to *Volume II, Section 4* of this technical reference for Common Record Edits. This reference guide specifically defines the edits and the edit types. The reference also identifies conditions under which the edit occurs and provides solutions/actions for preventing these edits from reoccurring in the future.

NOTE: COD manages the test environment and the processing of input records. Any concerns regarding the environment or input record processing should be discussed with COD. CPS is responsible for the ISIR layout and COD manages ISIR generation for School Test only. Any concerns about the ISIR layout should be discussed with CPS and any concerns about ISIR generation should be discussed with COD. School Setup Information is managed by COD. If you generate an edit for your School Information, and you have verified that your School Information is correct, you should contact COD.

Test Cases: Step by Step

The following steps assist the schools in completing these submission tasks:

Case 1: Pell and TEACH Grants

Step	Action/Input
1	<p>Originate and disburse a Pell and two TEACH awards for Student #1 with an SSN = ###-##-0001, where ###-## represents the second through sixth digits of the specified OPE ID.</p> <p>For example: If the specified OPE ID is 07777800, the SSN for this student is 777-78-0001.</p>

74	Save the record.

Prepare Document Block and Entity Block for Batch

Step	Action/Input
75	<p>Transmit the following Document tags with this batch to COD:</p> <pre><CommonRecord xmlns="http://www.ed.gov/FSA/COD/2021/v5.0a" xmlns:xsi="http://www.w3.org/2001/XMLSchema-instance" xsi:schemaLocation="http://www.ed.gov/FSA/COD/2021/v5.0a CommonRecord5.0a.xsd "> (Root element for the document)</pre>

	<pre> <TransmissionData> <DocumentID>>(Date/Time stamp with Source Routing ID)</DocumentID> <CreatedDateTime>>(CCYY-MM- DDTHH:mm:ss.ff)</CreatedDateTime> <Source> <School> <RoutingID>99999999</RoutingID> </School> or <ThirdPartyServicer> <RoutingID>99999999</RoutingID> </ThirdPartyServicer> </Source> <Destination> <COD> <RoutingID>00000001</RoutingID> </COD> </Destination> <FullResponseCode>F</FullResponseCode> </TransmissionData> </pre>
76	<p>Transmit the following Entity tags with this batch to COD:</p> <pre> <ReportingSchool> <RoutingID> <ReportedFinancialSummary> (one for each type of award in the record) <FinancialAwardType> <FinancialAwardYear> <TotalCount> <TotalReportedAward> <TotalReportedDisbursement> </ReportedFinancialSummary> <AttendedSchool> <RoutingID> </pre>

Send Files to COD

Step	Action/Input
77	Prepare the Common Record in XML.
78	Transmit the batch to COD via the SAIG using the message class CRTESTIN and your Test Destination Mailbox.
79	COD processes the batch and the Response records are then placed on the SAIG to be retrieved.

Receive Responses from COD

Step	Action/Input
80	1. Import the Response into the school's system. The message class is CRTESTOP.
81	2. Contact the COD School Relations Center to verify the results and the successful completion of the second test cycle.

Second Test Cycle (Second Submission)

In the second test cycle, a school performs the following steps:

- Submit updates to Student demographic data
- Submit updates and adjustments to award and disbursement amounts
- Submit Release Records for actual disbursements

Second Test Cycle to COD in XML Format

File Description	Message Class	Maximum Number of Students in Batch
Common Record Documents	CRTESTIN	9

COD processes the files, and the school receives two files from COD in return:

Second Test Cycle Responses from COD

File Description	Message Class	Maximum Number of Students in Batch
Common Record Responses	CRTESTOP	9

Test Cases: Step by Step

The following steps assist the schools in completing these submission tasks:

Case 1: Pell and TEACH Grants

Step	Action/Input
1	Retrieve Student #1 (###-##-0001).
2	Re-submit all three awards with the correct Person Information: Student's Current SSN = ###-##-0001 Student's Date of Birth = 1999-01-01 Student's Last Name = TESTONE
3	Update the Disbursement Information for Pell: Disbursement Number = 01 Disbursement Sequence Number = 01 Disbursement Date = 2022-07-03 Disbursement Release Indicator = true
4	Before proceeding, make sure the record is saved.

Agreement to Serve or Repay, Promissory Notes

For the purpose of this test, ATS, Direct Loan promissory notes and promissory note Responses are not generated. COD simulated in Cycle 1 that valid MPNs and Agreement was already on file for these students and the loan records were linked to the MPNs/ATS. The MPN/ATS status was returned in Cycle 1 on the Response.

Case 2: Pell Grant and Parent PLUS Loan

Step	Action/Input
5	Retrieve Student #2 (###-##-0002).
6	Submit the Person Information: Student's Current SSN = ###-##-0002 Student's Date of Birth = 1999-02-02 Student's Last Name = TESTTWO
7	Pell Disbursement Information to adjust the first disbursement: Disbursement Number = 01 Disbursement Amount = 451 Disbursement Date = 2022-07-03 Disbursement Release Indicator = true Disbursement Sequence Number = 01
8	PLUS Loan Disbursement Information to adjust the award amount and first disbursement: FinancialAwardAmount = 5500 Disbursement Number = 01 Disbursement Sequence Number = 02 Disbursement Date = 2022-07-03 Disbursement Amount = 5500 Disbursement Release Indicator = true
9	Before proceeding, make sure the record is saved.

Case 3: Pell Grant

Step	Action/Input
10	Retrieve Student #3 (###-##-0003).
11	Submit the Person Information: Student's Current SSN = ###-##-0003 Student's Date of Birth = 2001-03-03 Student's Last Name = TESTTHREE

12	Update the Disbursement Information for Pell: Disbursement Number = 01 Disbursement Sequence Number = 01 Disbursement Date = 2022-07-03 Disbursement Release Indicator = true
13	Before proceeding, make sure the record is saved.

Case 4: TEACH Grant

Step	Action/Input
14	Retrieve Student #4 (###-##-0004).
15	Submit the Person Information: Student's Current SSN = ###-##-0004 Student's Date of Birth = 1995-04-04 Student's Last Name = TESTFOUR
16	Update the Disbursement Information for the TEACH Grant: Disbursement Number = 01 Disbursement Sequence Number = 01 Disbursement Date = 2022-07-03 Disbursement Release Indicator = true
17	Before proceeding, make sure the record is saved.

Case 5: Unsubsidized Direct Loan

Step	Action/Input
18	Retrieve the Common Record for student ###-##-0005.
19	Submit the Person Information: Student's Current SSN = ###-##-0005 Student's Date of Birth = 1996-05-05 Student's Last Name = TESTFIVE
20	Update the Unsubsidized Award Amount: From: 3500 To: 2800
21	Update the Disbursement Information for Unsubsidized Loan: Disbursement Number = 01 Disbursement Sequence Number = 02 Update Disbursement Amounts: Disbursement Amount: From: 1750 To: 1400 Disbursement Fee Amount: From: 18 To: 14 Interest Rebate Amount: 0 Disbursement Net Amount: From: 1732 To: 1386 Disbursement Release Indicator = true
22	Update the Disbursement Information for Unsubsidized Loan: Disbursement Number = 02 Disbursement Sequence Number = 02 Update Disbursement Amounts: Disbursement Amount: From: 1750 To: 1400 Disbursement Fee Amount: From: 18 To: 14 Interest Rebate Amount: 0 Disbursement Net Amount: From: 1732 To: 1386 Disbursement Release Indicator = true
23	Before proceeding, make sure the record is saved.

Case 7: TEACH Grants

Step	Action/Input
24	Retrieve Student #7 (###-##-0007).
25	Submit the Person Information: Student's Current SSN = ###-##-0007 Student's Date of Birth = 1998-07-07 Student's Last Name = TESTSEVEN
26	Update the Disbursement Information for the two TEACH Grants: Disbursement Number = 01 Disbursement Sequence Number = 01 Disbursement Date = 2022-07-03 Disbursement Release Indicator = true
27	Save the record.

Case 8: Subsidized and Unsubsidized Direct Loans

Step	Action/Input
28	Retrieve Student ###-##-0008.
29	Submit the Person Information: Student's Current SSN = ###-##-0008 Student's Date of Birth = 1996-08-08 Student's Last Name = TESTEIGHT
30	Update the Disbursement Information for Direct Loan Subsidized and Unsubsidized Loans: Disbursement Number = 01 Disbursement Sequence Number = 01 Disbursement Date = 2022-07-03 Disbursement Release Indicator = true Disbursement Number = 02 Disbursement Sequence Number = 01 Enrollment School Code = ##### (denoting the eight digit OPE ID of the school the student is enrolled at) Disbursement Date = 2022-07-03 Disbursement Release Indicator = true
31	Save the record.

Case 9: Pell Grant and Unsubsidized Loan

Step	Action/Input
32	Retrieve Student #9 (###-##-0009).
33	Submit the Person Information: Student's Current SSN = ###-##-0009 Student's Date of Birth = 1997-09-09 Student's Last Name = TESTNINE
34	Update the Disbursement Information for Pell Grant: Disbursement Number = 01 Disbursement Sequence Number = 01 Disbursement Date = 2022-07-03 Disbursement Release Indicator = true
35	Update Award Amount for Unsubsidized Loan: From 5000 To 0

36	<p>Update the Disbursement Information for Unsubsidized Loan:</p> <p>Disbursement Number = 01 Disbursement Sequence Number = 02 Disbursement Amount: From 2500 To 0 Disbursement Net Amount: From 2474 To 0 Disbursement Fee Amount: From 26 To 0 Interest Rebate Amount: 0</p> <p>Disbursement Number = 02 Disbursement Sequence Number = 02 Disbursement Amount: From 2500 TO 0 Disbursement Net Amount: From 2474 To 0 Disbursement Fee Amount: From 26 To 0 Interest Rebate Amount: 0</p>
37	Save the record.

Prepare Document Block and Entity Block for Batch

Step	Action/Input
38	<p>Transmit the following Document tags with this batch to COD:</p> <pre><CommonRecord xmlns="http://www.ed.gov/FSA/COD/2021/v5.0a" xmlns:xsi="http://www.w3.org/2001/XMLSchema- instance" xsi:schemaLocation="http://www.ed.gov/FSA/COD/2021/ v5.0a CommonRecord5.0a.xsd "> (Root element for the document) <TransmissionData> <DocumentID>(Date/Time stamp with Source Routing ID)</DocumentID> <CreatedDateTime>(CCYY-MM- DDTHH:mm:ss.ff)</CreatedDateTime> <Source> <School> <RoutingID>99999999</RoutingID> </School></pre> <p>or</p> <pre><ThirdPartyServicer> <RoutingID>99999999</RoutingID> </ThirdPartyServicer> </Source> <Destination> <COD> <RoutingID>00000001</RoutingID> </COD> </Destination> <FullResponseCode>F</FullResponseCode> </TransmissionData></pre>
39	<p>Transmit the following Entity tags with this batch to COD:</p> <pre><ReportingSchool> <RoutingID> <ReportedFinancialSummary>(one for each type of award in the record) <FinancialAwardType> <FinancialAwardYear> <TotalCount> <TotalReportedAward> <TotalReportedDisbursement></pre>

```
</ReportedFinancialSummary>
<AttendedSchool>
<RoutingID>
```

Send Files to COD

Step	Action/Input
40	Prepare the Common Record in XML.
41	Transmit the batch to COD via the SAIG using the message class CRTESTIN and your Test Destination Mailbox.
42	COD processes the batch and the Response records are then placed on the SAIG to be retrieved.

Receive Responses from COD

Step	Action/Input
43	Import the Response into the school's system. The message class is CRTESTOP.
44	Contact the COD School Relations Center to verify the results and the successful completion of the second test cycle.

Wrap-Up

This section describes the final steps associated with the testing process and provides some suggestions for the school during the conversion to a production status.

Notification of Results

The COD School Relations Center notifies the contact person at the participating school of the results of each test cycle. If problems are discovered, a retest is scheduled. The contact person should be available during the testing period to analyze problems, assist with, and coordinate any follow-up tests that may be required. Schools should contact the COD School Relations Center if test results are not received or communicated when expected.

Preparing School Database for Production

The school should clean out their system, by removing all test data, before sending production data.

- Warning: Ensure that the system date is changed back to the current date and that message classes and destinations have been changed from 'test' to 'production'.
- Warning: All test data **MUST** be removed from a school's system prior to beginning actual processing and before sending live production data to COD.
- Warning: Test Message Classes and the Test Destination Mailbox **MAY NOT** be used to process production data.

Production data is processed using the production message classes outlined in *Volume II, Section 2* of this technical reference.

Addendum

This section describes updates to School Testing capabilities.

Environment:

The School Test environment is a full test environment. This means the test environment may roll the date forward as is done in Production. This will not impact Phase I Manual Verification. But it will impact Phase II and III testing. Upon commencement of Phase II testing COD Schools Test, Current Processing Date (CPD), will be set to July 3rd, 2022. Once the real-world date catches up with this date the School Test Team will roll the date so that the School Test environment will match the real-world date.

Data Setup:

Prior to award processing, the COD Test Team submits an MPN for each Direct Loan award and an Agreement for each TEACH grant. This circumvents any edits from the system requiring a linked note to allow actual disbursements. Program CIP Codes are not listed for any DL awards in the step-by-step guide. Schools may use any CIP Code that is valid in production for these tests.

Award Year 2022-2023:

The COD Schema is implementing Common Record Schema 5.0a in Award Year 2022-2023. This update has three basic enhancements.

The first enhancement includes the addition of three new fields. The <DirectLoanAttendanceCost>, <PaymentPeriodEndDate>, and the <IncarceratedStudentIndicator>. These new fields will be required for the relevant awards from AY 2022-2023 and going forward.

The second enhancement will include updating or adding new edits that apply to the new three new fields.

Edit 210

Batch level reject edit 210 will be updated to reject any awards for AY 2021-2022 or before that have any of the new fields described above in any batches that use Common Record Schema 4.0e or before. Edit 210 will also be invoked when one of the new fields has an invalid value in batches that use Common Record Schema 5.0a for AY 2022-2023 and going forward.

Edit 996

Edit 210 will not be invoked when AY 2021-2022 awards or before have any of the above three fields when the COD Schema is 5.0a. Edit 996 will be invoked for each such instance instead.

Edit 226

A new rejecting Edit 226 will be created at the Award Level to be triggered on <DirectLoanAttendanceCost> when the student's Direct Loan Cost of Attendance amount is less than the Direct Loan Award Amount for the given award year.

The third enhancement is that all COD Schemas before 4.0a will be retired. With the implementation of Schema 5.0a, any submission which uses schemas from 3.0e or before will draw batch level edit 210.

Changes made prior to AY 2022-2023:

The Award Year 2021-2022 updates to several Student Eligibility Codes (SEC) and the edits for them. They are as follows:

The COD system added SEC value of “15 - Comprehensive Transition and Postsecondary (CTP) program” for CTP Programs for the 2021-2022 award year and forward.

The SEC “03=State Process” was reinstated for AY 2021-2022 and going forward. In that process the <AbilityToBenefitStateCode> tag was also reactivated for the 2021-2022 Award Year and going forward. As with its previous implementation, the <AbilityToBenefitStateCode> tag will be required if the SEC “03=State Process” code is submitted. The <AbilityToBenefitStateCode> tag will require a valid postal state code (see COD Technical Reference Volume VI Section 4— State/Jurisdiction Codes).

The COD system retired SEC codes “11 - ATB-Test Completed- 1st Enrolled 7/1/12 to 6/30/15” and “13 - ATB-College Credits-1st Enrolled 7/1/12 to 6/30/15”. They will not be available for Award Years 2021-2022 and going forward.

SEC Codes 12 and 13 were redefined in AY 2021-2022 as follows:

“12 - ATB-Test Completed- 1st Enrolled 7/1/12 or After”

“14 - ATB-College Credits-- 1st Enrolled 7/1/12 or After”

The Award Year 2020-2021 saw an update which included the <RelationshipToStudent> field for Parent PLUS Loan Application responses. The values available for the field are:

- P = Biological Parent of the Dependent Undergraduate Student
- A = Legal Adoptive Parent of the Dependent Undergraduate Student
- S = Spouse of the Biological or Legal Adoptive Parent of the Dependent Undergraduate Student and am considered to be a parent in accordance with the instructions on the Free Application for Federal Student Aid (FAFSA) for reporting my income and assets on the FAFSA
- O = Other

There were updates made to the CIP Codes starting in Award Year 2020-2021 and going forward. Over a hundred CIP codes were updated, changed, or combined with other CIP Codes. A dozen CIP Codes were removed completely. 497 all new CIP Codes were added. Details on CIP Codes can be found at:

<https://nces.ed.gov/ipeds/cipcode/default.aspx?y=55>.

Starting in Award Year 2013-2014 and going forward Student Eligibility Code elements become mandatory in origination submissions.

Changes made prior to Award Year 2022-2023 (continued):

Beginning with Award Year 2012-2013 the Enrollment School Code element was required for sequence number 01 disbursements of all Direct Loan, Pell, and TEACH program originations. The value assigned to this element will indicate the OPE identifier of the school where the student is currently enrolled (i.e. attending school). For this reason, the

Enrollment School Code has been incorporated into Disbursement Sequence Number 01 blocks of each Origination (Test Cycle 1) record profile. This element may also be specified in maintenance records of accepted awards and grants, when desiring to change the Enrollment School Code.

The COD System began accepting all Direct Loan (i.e., Subsidized, Unsubsidized, Parent PLUS, Grad PLUS) Interest Rebate Percentages of zero (0) for Award Year 2012-2013, with actual disbursement dates of July 1, 2013 and forward.

Graduate and professional students will no longer be allowed to receive DL Subsidized awards with an Award Begin Date on or after 7/1/2012.

Sequestration:

Sequestration rules apply to different programs in different ways. The impact of the sequester was taken into account within the Pell Payment Schedule. Direct Loans were impacted by adjustments to the Origination Fee Percentages for Subsidized and Unsubsidized Loans to 1.057%.

Both Grad and Parent PLUS Origination Fee percentages were changed to 4.228%. TEACH awards were impacted by sequestration. TEACH awards whose earliest disbursement date is on or after October 1st, 2021 must reduce the award amount by 5.70%. This reduction to the TEACH awards is not enforced by COD. It is enforced at school level. The test cases involving TEACH awards will show the usual award and disbursement amounts normally and then show the sequestration amounts in brackets (example Award = 4000 [3772]). More information on sequestration can be found at:

<https://fsapartners.ed.gov/knowledge-center/library/electronic-announcements/2021-05-17/fy-22-sequester-required-changes-title-iv-student-aid-programs-ea-id-general-21-31>
