# Introduction

This section provides tables of codes, messages, and data specifications to assist you in defining your system, submitting your data, and correcting errors or Free Application for Federal Student Aid (FAFSA<sup>®</sup>) data, as well as other processing codes associated with the Central Processing System (CPS) Electronic Data Exchange (EDE) process.

A summary of the tables in this section appears below:

## 2020-2021 ISIR Cross-Reference

This cross-reference table compares the 2019-2020 Institutional Student Information Record (ISIR) field number, start position, and end position with the 2020-2021 ISIR field number, start position, and end position. It also lists the field values (for each field) that have changed from the last award year.

## Table of Reject Codes and How to Respond to Each

Use this table to determine the meaning of reject codes on a Student Aid Report (SAR) or ISIR. The table outlines how to correct each reject and references comment code numbers associated with the rejects.

## Transaction Reject Error Messages

This table reports the Record Reject codes (3 to 16) and the Transmission Error codes (17 to 18). The table lists the actual text for each reject code, a description of the error, and a resolution for each error. The record error messages indicate that the individual student record was not processed. You must fix any student record with a record error message and send it to the CPS again for processing to generate another ISIR. Transmission errors are problems with the transmission of the records.

## Assumption Overrides

This table associates the override codes with the assumption the CPS makes during processing. It also explains what happens if you use this code and provides an example of when you would use this code.

## Field Name and Position Cross-References

Use this table to determine which fields were verified or corrected in the previous transaction or which fields are highlighted on the ISIR. It also defines the field positions for the SAR field, the FAFSA field name, and the question number on the FAFSA.

## NSLDS Loan Program Codes

Use the codes in this table to identify loan program types sent by NSLDS on ISIRs. These codes are described in the six NSLDS Loan Program Code fields in the ISIR Record Description/Data Dictionary found in the Record Layouts section of this technical reference.

## **NSLDS Loan Current Status Codes**

Use the codes in this table to determine the current loan status information sent by NSLDS on the ISIR. These codes are described in the six NSLDS Loan Current Status fields in the ISIR Record Description/Data Dictionary found in the Record Layouts section of this technical reference.

## **State/Country/Jurisdiction Codes**

Use the codes in this table to determine the valid state abbreviations used for the following fields, which are found in various record layouts in this technical reference:

- Student's Permanent State
- Student's Driver's License State Code
- Student's State of Legal Residence
- High School State
- Parents' State of Legal Residence

## **Correction Data Entry Specifications**

You can use this table in conjunction with the Correction Export Record Layout found in the Record Layouts section. The table defines the CPS Correction Number and field length. It defines the valid data to send for each field on a correction record. The table also indicates if the CPS Correction Number field is a signed value, the justification of the field, and if the field can be corrected to blank.

## **Message Classes**

This table lists the message classes associated with application processing.

## **Comment Codes**

This section describes where to find information about changes to the SAR comments.
