

Change History Table

The Change History table is updated each time the *EDE Technical Reference* is modified, providing you with a cumulative list of revisions made to the document.

When the *EDE Technical Reference* is modified after the initial release, the footer is updated to include the revision date. For example, if a change is made to page 3-24 in July 2019, the footer on that page will show “Rev. 7/19.”
