

**EDESuite Minimum and Optimal System Configuration Recommendations  
Attachment to August 2020 Electronic Announcement**

**System Configuration Recommendations**

Beginning with the late September 2020 release of EDEExpress 2021–2022, Release 1.0, the updated EDESuite system configuration recommendations provided in the table below will apply. This information reflects the minimum system requirements to successfully use the EDESuite software as well as the optimal system configuration. Although all software functions can be performed using the minimum configuration, we recommend users upgrade to the optimal configuration if possible, for ideal performance.

<b>Hardware/Software</b>	<b>Minimum System Configuration</b>	<b>Optimal System Configuration</b>
