Disbursement Measurement Tool Report (EDEXpress Schools Only).....	29

Reports

Using DL Tools, Release 13.0, you can print a variety of reports to assist your Direct Loan processing and reconciliation performance. This section provides a description and an example for each of the following reports:

Located within the Print function:

- Internal Ending Cash Balance Report
- SAS Cash Summary
- SAS Disbursement Summary
- School Account Statement (SAS) Cash Detail
- SAS Loan and Disbursement Detail
- Disbursement Measurement Tool Report (EDEXpress schools only)

Located within the Compare function:

- Cash Detail Comparison
- Loan Detail Comparison – Loan Detail
- Disbursement Detail Comparison

Each report example represents the 2013-2014 Award Year. Keep in mind that these reports can be run for all program years supported in Release 13.0.

Internal Ending Cash Balance Report

The Internal Ending Cash Balance Report calculates and displays the school internal ending cash balance based on Cash Receipts and Refunds of Cash entered or imported in Cash Management in DL Tools, and disbursement amounts from your school's EDEXpress database or loan/disbursement amounts imported into DL Tools from an external file source (non-EDEXpress schools). The cash detail can be imported using the Cash Detail External Add file (DLEXCASH) and the net disbursed amounts can be imported from either the Disbursement Detail External Add file (DLEXDISB) or the Loan Detail External Add file (DLEXLOAN). External record layouts are provided in Volume IV, Section 3 of the *2013-2014 COD Technical Reference*.

This report is available for all program years supported in Release 13.0. An EDEXpress database connection is optional.

When printing an Internal Ending Cash Balance Report, if you have not identified a school code in System setup, then you can identify a particular school code in the DL Tools Print dialog box. If you leave the school code blank in the Print dialog box, then an Internal Ending Cash Balance Report prints for all school codes in your school's database for the designated program year.

All comparison reports are run from the Compare dialog box, which is accessible from the software toolbar or the Tools menu. SAS summary reports are printed from the Print dialog box.

In order for the Internal Ending Cash Balance Report to provide an accurate school ending cash balance, both cash records and loan/disbursement records must be available to the software. Schools that do not use the Cash Management function in DL Tools, do not import loan and disbursement records from an external file, or do not have a connection to EDEXpress will not obtain helpful results from this report.

Example 1

Below is an example of an Internal Ending Cash Balance Report – Summary with Disbursement Data Source = EDExpress:

Report Date: 02/01/2014	U.S. DEPARTMENT OF EDUCATION	Page: 1

SAS Cash Summary

The SAS Cash Summary contains both a monthly and a year-to-date summary of cash and loan data processed by the COD system. This report can be compared to summary information on the school's internal systems. You can print a monthly cash summary, year-to-date cash summary, or both.

The SAS Cash Summary is available from the Print dialog box. You can print the report at any time following the import of a SAS file.

Note: The SAS cash summary information stored in your database corresponds to the most recent SAS file you imported. The summary data is overwritten with each SAS import.

An EDEExpress database connection is optional, as this report prints cash summary data from the SAS, which is stored in the DL Tools database.

SAS Disbursement Summary

The SAS Disbursement Summary report is available from the Print dialog box. You can print the report at any time following the import of a SAS file.

This section of the SAS provides monthly and year-to-date summary disbursement information for the reported period. It can be used to monitor loan volumes at the summary level (both booked and unbooked) for all loan types processed by the COD system. You can print a monthly disbursement summary, year-to-date disbursement summary, or both.

Note: The SAS disbursement summary information stored in your database corresponds to the most recent SAS file you imported. The summary data is overwritten with each SAS import.

An EDExpress database connection is optional.

Cash Detail Comparison

The Cash Detail Comparison Report provides a comparison of cash detail records in the SAS file received from the Common Origination and Disbursement (COD) System to the cash detail records in DL Tools Cash Management. Cash Management records are entered manually or through the Cash Detail External Add (DLEXCASH) import option. Since only Cash entries (Drawdowns and Refunds of Cash) are used for the Cash Detail Comparison report, no disbursement detail information prints on this report. External record layouts are found in Volume IV, Section 3 of the *2013-2014 COD Technical Reference*.

An EDExpress database connection is optional, as this report compares cash data, which is not currently stored in the EDExpress database.

The Cash Detail Comparison report uses the tolerance setting in DL Tools' System Setup (**Tools, Setup, System**) to account for timing differences between the entry dates on your school system and the dates recorded for cash transactions by the processors. The System Setup field labeled **Maximum number of days difference between SAS Cash records and cash records entered by the school which will be considered a match** allows you to enter the number of days between SAS cash records and cash records entered by your school that are considered a match when running the Cash Detail Comparison report. A drawdown or refund of cash transaction is considered a mismatch if the number of days between the date reported by the school and the date reported on the SAS exceeds this tolerance.

When printing a Cash Detail Comparison Report, if you have not identified a school code in System setup, then you can identify a particular school code in the DL Tools Compare dialog box. If you leave the school code blank in the Compare dialog box, then a Cash Detail Comparison report prints for all school codes in your school's database for the designated program year.

Loan Detail Comparison – Loan Level

This report provides you with a comparison of loan detail records from the SAS file received from the COD System with loan or disbursement detail records imported from an external system or loan detail data in EDEXpress. The Loan Detail External Add (DLEXLOAN) record layout is provided in Volume IV, Section 3 of the *2013-2014 COD Technical Reference*.

Note: DL Tools Loan and Disbursement Comparison Reports are designed to be run using the SAS with YTD detail, *not* monthly detail. You can change your SAS options by accessing the COD Web site at cod.ed.gov.

If your school has not imported a booking notification for the loan but the SAS shows that the loan is booked, the loan appears in the "Booked Records That Are Unmatched" section. The booking status is according to the COD System, not according to your school's database. If your school receives a DSDF with monthly detail, then no loans appear in this section when the Loan Level Compare is run (unless the SAS shows the loan as unbooked and your school data shows that the loan total is \$0), due to the fact that loan totals in the monthly detail section of the SAS are always \$0.

Records are grouped into four sections on the report based on selected match status (Matched, Unmatched, or All) and booked status (Booked, Unbooked, or Both Booked and Unbooked). The four sections are:

Booked Records That Are Matched - Loan records appear in this section of the Compare report if the SAS shows a booked date and the loan data in the SAS matches the data in your school's database. If you receive a DSDF with monthly detail, then loans never appear in this section when the Loan Level Compare is run, since the loan totals in the monthly detail section of the SAS are always \$0.

Booked Records That Are Unmatched - Loan records appear in this section of the Compare report if the loan appears on the SAS as booked, but the data does not appear in your school's database; or there is a discrepancy between the COD System data and the school data. If your school receives a DSDF with monthly detail, then all loans that appear in the SAS as booked appear in this section when the Loan Level Compare is run, unless the loan was reduced to \$0 at the school.

Unbooked Records That Are Matched - Loan records appear in this section of the Compare report if the loan appears on the SAS as unbooked and the amounts match between the COD System and the school.

Unbooked Records That Are Unmatched - Loan records will appear in this section of the Compare report if the loan exists in your school's database but does not appear on the SAS; the loan appears as unbooked on the SAS, but the record does not appear in your school's database; or there is a discrepancy between the COD System data and the school data for an unbooked loan. If your school receives a DSDF with monthly detail, then any disbursements that were accepted in a previous month would not be on the monthly SAS, and would therefore appear in this section.

A Loan Detail Comparison – Loan Level Report runs regardless of the type of SAS (DSLIF or DSDF) that has been imported into DL Tools, as long as the SAS contains either loan detail or disbursement detail. An EExpress database connection is optional. When printing a Loan Detail Comparison, if you have not identified a school code in System setup, then you can identify a particular school code in the DL Tools Compare dialog box. If you leave the school code blank in the Compare dialog box, the Loan Detail Comparison report prints for all school codes in your school's database for the designated program year.

Disbursement Detail Comparison

This report, which you can print from the Compare dialog box, provides you with a comparison of disbursement detail records from the SAS file received from the COD System with disbursement detail records imported from an external system or disbursement detail data in EDEXpress. The Disbursement Detail External Add (DLEXDISB) record layout is provided in Volume IV, Section 3 of the *2013-2014 COD Technical Reference*.

If your school has not imported a booking notification for the loan but the SAS shows that the disbursement has booked, then the disbursement appears in the "Booked Records That Are Unmatched" section. The booking status is according to the COD System, not according to your school's database.

The SAS end date always supersedes the selected date range specified if that date falls beyond the SAS end date.

A Disbursement Detail Comparison Report runs only if a disbursement level report (DSDf) with disbursement detail has been imported into DL Tools. If your school imports a loan-level report (DSLf) rather than a DSDf, then you cannot run this report. An EDEXpress database connection is optional. When printing a Disbursement Detail Comparison, if you have not identified a school code in System setup, you can identify a particular school code in the DL Tools Compare dialog box. If you leave the school code blank in the Compare dialog box, a Disbursement Detail Comparison report prints for all school codes in your school's database for the designated program year.

Note: DL Tools Loan and Disbursement Comparison Reports are designed to be run using the SAS with YTD detail, *not* monthly detail. You can change your SAS options by accessing the COD Web site at cod.ed.gov.

Records are grouped into four sections on the report based on selected match status (Matched, Unmatched, or All) and booked status (Booked, Unbooked, or Both Booked and Unbooked). The four sections are:

Booked Records That Are Matched - Disbursement records appear in this section of the Compare report if the SAS shows a booked date and the disbursement data in the SAS matches the data in your school's database.

Booked Records That Are Unmatched - Disbursement records appear in this section of the Compare report if the disbursement appears on the SAS as booked, but the data does not appear in your school's database; or there is a discrepancy between the COD System data and the school data.

Unbooked Records That Are Matched - Disbursement records appear in this section of the Compare report if the disbursement appears on the SAS as unbooked, and the dates and amounts match between the COD System and the school.

Unbooked Records That Are Unmatched - Disbursement records appear in this section of the Compare report if the disbursement exists in your school's database but does not appear on the SAS; the disbursement appears as unbooked on the SAS, but the record does not appear in your school's database; or there is a discrepancy between the COD System data and the school data for an unbooked loan. If your school receives a DSDf with monthly detail, then any disbursements that were accepted in a previous month would not be on the monthly SAS and would therefore appear in this section.

DL Tools compares the disbursements recorded in EDEXpress to the corresponding disbursements in the SAS by doing a one-to-one comparison of each disbursement using the disbursement number, sequence number, disbursement date, and disbursement amounts.

SAS Cash Detail

The SAS Cash Detail Report displays the information from SAS Cash Detail records in your school's DL Tools database. SAS Cash Detail data is received from the COD System and imported into DL Tools. This report contains Transaction Type, Transaction Date, Transaction Amount, COD Process Date, G5 Control/Check Number, and Totals.

An EDEXpress database connection is optional, as this report compares cash data, which is not currently stored in the EDEXpress database.

SAS Loan and Disbursement Detail

The SAS Loan and Disbursement Detail Report (with the option to include or exclude disbursement detail) displays the information from SAS Loan and Disbursement Detail records in your school's database. SAS Loan and Disbursement Detail data is received from the COD System and imported into DL Tools. This report contains Student's Name, Loan ID, Record Type, Gross Amount, Fee Amount, Interest Rebate Amount, Net Amount, and Totals.

An EDExpress database connection is optional.

If no disbursement date range is entered in the Print dialog box, the Date Range label prints without a date range.

Disbursement Measurement Tool Report (EExpress Schools Only)

This report is for EExpress schools only. It monitors the disbursement process by calculating and averaging the actual process time from entry of actual disbursements, to sending the actual disbursements in a document to the COD System, and to booking the loan. The report compares the average number of days elapsed to your tolerances, or guidelines, in DL Tools System Setup. You can compile an Actual Disbursement Measurement Report with subtotals and totals for the records in the list. This report also contains the Student's Name, PLUS Borrower's Name, Disbursement Date/#/Type/Seq, Batched Date and Days Elapsed, Booked Date, and Days Elapsed.

An EExpress database connection is required.

The names of all PLUS borrowers for each dependent student print on the Disbursement Measurement Tool report. For example, if a dependent student has one PLUS loan with the mother as the borrower and another PLUS loan with the father as the borrower, the report prints the names of both the mother and the father.

Example 1

Below is an example of a Disbursement Measurement Tool Report, Page 1:
