Direct Loan Tools for Windows, Release 17.0

VOLUME IV
SECTION

This section contains general overview information and guidance for schools and other agencies who use Direct Loan (DL) Tools Release 17.0 in combination with the three most recent cycle versions of EDEExpress, third-party software and/or other in-house systems to track, analyze, reconcile, and rebuild William D. Ford Federal Direct Loan data processed by the COD System.

Overview

William D. Ford Federal Direct Loan (DL) Tools for Windows, Release 17.0 is a supplemental software product for Direct Loan participants. You can download software and related user documentation from the U.S. Department of Education's Federal Student Aid Download (FSAdownload) Web site located at fsadownload.ed.gov.

DL Tools is a multi-year Windows-based application designed to provide the following functionality related to all Direct Loan schools' software:

- Compare the School Account Statement (SAS) to loans and actual disbursements recorded in EDEExpress or an external file, and/or compare the SAS to the DL Tools Cash database.
- Print the SAS in a readable format.
- Track Cash Receipts (drawdowns) and Refunds of Cash.
- Rebuild your Direct Loan origination and disbursement records in EDEExpress using an automated process.
- Run the Disbursement Measurement Tool Report to help monitor Direct Loan records in your EDEExpress database.

DL Tools was developed to process data for multiple program years. Release 17.0 contains functionality for the 2015-2016, 2016-2017, and 2017-2018 cycles. We removed all functionality related to the 2014-2015 cycle.

DL Tools Comparison

DL Tools Loan and Disbursement Comparison Reports, located in the Compare dialog box, are designed to be run using the SAS Reports with YTD detail, not monthly detail. See Volume IV, Section 8 of this technical reference for information about default settings and SAS option selections. You can change your report options (YTD detail, for example) by accessing the COD System Web site at cod.ed.gov.

All Direct Loan schools can use the Compare and Cash Management functionality. The Rebuild function is used by schools to rebuild accepted Direct Loan records in EDEExpress for Windows databases. However, non-EDEExpress users can export data from a rebuilt EDEExpress database to recreate non-EDEExpress loans or databases.

The Disbursement Measurement Tool Report (available in DL Tools if connected to EDEExpress) and certain Direct Loan lists with tolerances (available in EDEExpress) assist schools with monitoring current operations, procedures, and program status, and can also help meet the Quality Assurance requirement in the Direct Loan program. Tolerances can be applied when running these reports. Tolerances are guidelines you set for evaluating the effectiveness of your school's Direct Loan processes and procedures. Your school decides which reports to use, when to run them, and what action to take as a result. You can use them to review progress as part of a continuous improvement plan.

Using DL Tools without EExpress

If you do not use EExpress, you can still use DL Tools to assist in reconciling. You can import cash, loan, or disbursement data from your external Direct Loan system into DL Tools, thus creating a temporary database you can use to compare your data to the SAS.

- To add school cash data to the newly created database, import the External Cash file (DLEXCASH).
- To add school loan data to the newly created database, import the External Loan file (DLEXLOAN).
- To add school disbursement data to the newly created database, import the External Disbursement file (DLEXDISB).

Fixed-length record layouts for each of these file types are included in Volume IV, Section 3 of the *2017-2018 Common Origination and Disbursement (COD) Technical Reference*.

When creating your external files, use the standard file names of DLEXCASH, DLEXLOAN, and DLEXDISB as noted at the top of each record layout. You need to include a carriage return/ line feed (CR/LF) (ASCII characters 13 and 10) at the end of each data record. At the end of the file, no end of file (EOF) marker is required, just the CR/LF markers.

After you have created your external files, open the DL Tools software and select **File, Import**. The options in the Import dialog box direct you through the steps to import these data files into DL Tools.

These record layouts are used without header or trailer records.

Users always see the “-R” label added to software fields.

Section 508 Compliance

To comply with Section 508 of the Rehabilitation Act, DL Tools for Windows, Release 17.0 is compatible with screen reader technology used by the visually impaired. Screen reader software cannot interpret color shading in DL Tools software entry fields or directly read the contents of software grid cells. To accommodate these restrictions, DL Tools includes the following features:

- All DL Tools fields that are shaded yellow to indicate they are required also display a “-R” after the software label. The “-R” indicates the field is required.
- All DL Tools grids display “floating” text descriptions of the contents of grid cells when cells are selected. The text displays one cell above (or below, if the first cell is selected) the selected cell. The text lists Row number, Column title, and (if applicable) the current Value. Clicking once in a cell, or using the Tab key or arrow keys to move to a cell, displays the text. Clicking a second time, or using the Tab key or arrow keys to move from a cell, hides the text.
- Floating text is always enabled for the SYSADMIN user ID and always displays in the Startup Information dialog box. To disable the floating text, go to **Tools, Setup, Security Users** and create a new user ID and password. Exit DL Tools, and then log back in with your new user ID and password. For all user IDs other than SYSADMIN, floating text is disabled by default. To enable floating text, select the **Enable 508 Grid Functionality?** checkbox in the Security Users dialog box.

DL Tools Release 17.0 Enhancements & Changes

The following enhancements and changes are available in DL Tools Release 17.0:

General

- **Program Year 2014-2015 Removed** – We removed DL Tools functionality and message classes applicable to program year 2014-2015.
- **Program Year 2017-2018 Added** – We added DL Tools functionality and message classes applicable to program year 2017-2018.
- **2017-2018 Message Classes Added** – We updated year indicators in message classes for program year 2017-2018.

Rebuild

- **Matching and Auto-Generation of EDEXpress Program Profiles** – When rebuilding EDEXpress 2017-2018 Direct Loan records using DL Tools, EDEXpress attempts to match new program-related data sent on individual records to established program profiles in EDEXpress Program Profiles setup. If EDEXpress identifies a program profile with the same combination of values for the Program Credential Level, Published Program Length, Published Program Length Units, Weeks Program Academic Year, Special Programs, and CIP Code fields, the associated program profile code is assigned to the rebuilt record. If there is no match to an existing program profile, EDEXpress creates a new program profile code with that specific combination of values and assigns it to the rebuilt record.

Program profiles created automatically by EDEXpress as the result of a DL Tools Rebuild import are assigned the program profile code "Auto Gen DLT RBD ####," where "####" is the next available code numerically.

Disbursement Detail External Add (DLEXDISB)

- **Transaction Date Ranges Updated** – Release 17.0 allows only the following transaction date ranges when you are importing a Disbursement Detail External Add file (DLEXDISB):
 - When a 2015-2016 Disbursement Detail External Add file is imported, the valid date range is 6/21/2012 to 12/28/2019.
 - When a 2016-2017 Disbursement Detail External Add file is imported, the valid date range is 6/21/2013 to 12/28/2020.
 - When a 2017-2018 Disbursement Detail External Add file is imported, the valid date range is 6/21/2014 to 12/28/2021.

Getting Help

Software Help

DL Tools Release 17.0 provides a help system to assist you with system setup and more details regarding use of this software tool.

General help is available from the menu bar and field help is available by pressing the F1 key. See the Using Help topic for more information.

Make sure you include both your TG number and your telephone number in your e-mail message.

CPS/SAIG Technical Support

For questions regarding technical assistance and software functionality, call CPS/SAIG Technical Support at: 800/330-5947, TDD/TTY: 800/511-5806. E-mail CPS/SAIG Technical Support at: CPSSAIG@ed.gov. A representative will respond within one business day.

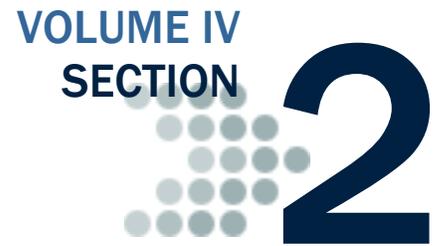

Additional Assistance

If you have questions regarding the Direct Loan reconciliation or closeout process, please contact the COD School Relations Center at 800/848-0978 or send an e-mail to CODSupport@ed.gov.

You can also post questions regarding DL Tools on FSATECH. FSATECH is an electronic mailing list for technical questions about Federal Student Aid systems, software, and mainframe products. For more information on subscribing to FSATECH, go to ed.gov/offices/OSFAP/services/fsatechsubscribe.html.

Federal Student Aid staff or the financial aid partner responsible for the system will research your question and post a response to the listserv so that everyone can benefit from the information.

Direct Loan Tools Release 17.0 Message Classes

This section provides information regarding the external import, rebuild, and School Account Statement (SAS) message classes used by the Direct Loan (DL) Tools Release 17.0 software.

Table of Contents

DL TOOLS EXTERNAL ADD MESSAGE CLASSES	2
REBUILD MESSAGE CLASSES	3
SCHOOL ACCOUNT STATEMENT (SAS) MESSAGE CLASSES.....	4

DL Tools External Add Message Classes

The following message classes are used to import cash, loan, and/or disbursement data from an external system into DL Tools:

Message Class	Program Years	Data Description	Record Length
DLEXCASH	2015-2016 and forward	Cash Detail External Add	80
DLEXLOAN	2015-2016 and forward	Loan Detail External Add	80
DLEXDISB	2015-2016 and forward	Disbursement Detail External Add	97

Rebuild Message Classes

The following Rebuild message class can be imported into DL Tools to rebuild an EDEExpress database:

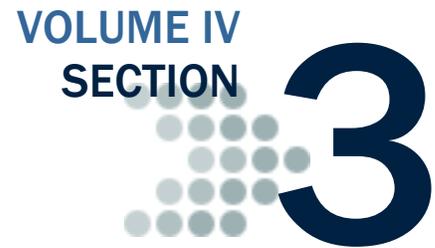

Message Class	Program Years	Data Description	Record Length
CODRBFOP	2015-2016 and forward	Rebuild File	1059

School Account Statement (SAS) Message Classes

The following School Account Statement (SAS) message classes can be imported into DL Tools to run comparison reports.

Message Class	Program Year	Data Description	Record Length
DSDF16OP	2015-2016	School Account Statement (Fixed-Length, Disbursement Level Loan Detail)	220
DSLFL16OP	2015-2016	School Account Statement (Fixed-Length, Loan Level Loan Detail)	220
DSDF17OP	2016-2017	School Account Statement (Fixed-Length, Disbursement Level Loan Detail)	220
DSLFL17OP	2016-2017	School Account Statement (Fixed-Length, Loan Level Loan Detail)	220
DSDF18OP	2017-2018	School Account Statement (Fixed-Length, Disbursement Level Loan Detail)	220
DSLFL18OP	2017-2018	School Account Statement (Fixed-Length, Loan Level Loan Detail)	220

Direct Loan Tools Release 17.0 Record Layouts

This section provides record layouts for schools and other agencies using third-party software and/or other in-house systems who need to import cash detail, loan detail, or disbursement detail into Direct Loan (DL) Tools Release 17.0. For more detailed information on the Rebuild and School Account Statement (SAS) files, see Volume VI, Section 8 (COD Reports) in the 2017-2018 COD Technical Reference.

Direct Loan Tools Release 17.0 Reports

VOLUME IV
SECTION

4

This section provides samples of and overview information regarding the variety of reports that can be generated using Direct Loan (DL) Tools Release 17.0 to assist your Direct Loan processing and reconciliation performance.

Table of Contents

REPORTS	2
Internal Ending Cash Balance Report	2
SAS Cash Summary	5
SAS Disbursement Summary	8
Cash Detail Comparison.....	11
Loan Detail Comparison – Loan Level	14
Disbursement Detail Comparison.....	18
SAS Cash Detail.....	23
SAS Loan and Disbursement Detail.....	24
Disbursement Measurement Tool Report (EDEXpress Schools Only).....	29

Reports

Using DL Tools, Release 17.0, you can print a variety of reports to assist your Direct Loan processing and reconciliation performance. This section provides a description and an example for each of the following reports:

Located within the Print function:

- Internal Ending Cash Balance Report
- SAS Cash Summary
- SAS Disbursement Summary
- School Account Statement (SAS) Cash Detail
- SAS Loan and Disbursement Detail
- Disbursement Measurement Tool Report (EDEXpress schools only)

Located within the Compare function:

- Cash Detail Comparison
- Loan Detail Comparison – Loan Detail
- Disbursement Detail Comparison

Each report example represents the 2017-2018 Award Year. Keep in mind that these reports can be run for all program years supported in Release 17.0.

Internal Ending Cash Balance Report

The Internal Ending Cash Balance Report calculates and displays the school internal ending cash balance based on Cash Receipts and Refunds of Cash entered or imported in Cash Management in DL Tools, and disbursement amounts from your school's EDEXpress database or loan/disbursement amounts imported into DL Tools from an external file source (non-EDEXpress schools). The cash detail can be imported using the Cash Detail External Add file (DLEXCASH) and the disbursement detail can be imported using the Disbursement Detail External Add file (DLEXDISB). External record layouts are provided in Volume IV, Section 3 of the *2017-2018 COD Technical Reference*.

This report is available for all program years supported in Release 17.0. An EDEXpress database connection is optional.

When printing an Internal Ending Cash Balance Report, if you have not identified a school code in System setup, then you can identify a particular school code in the DL Tools Print dialog box. If you leave the school code blank in the Print dialog box, then an Internal Ending Cash Balance Report is printed for all school codes in your school's database for the designated program year.

See Volume VI, Section 8 (COD Reports) of the *2017-2018 COD Technical Reference* for more detailed information on School Account Statement (SAS) files.

All comparison reports are run from the Compare dialog box, which is accessible from the software toolbar or the Tools menu. SAS summary reports are printed from the Print dialog box.

For the Internal Ending Cash Balance Report to provide an accurate school ending cash balance, both cash records and loan/disbursement records must be available to the software. Schools that do not use the Cash Management function in DL Tools, do not import loan and disbursement records from an external file, or do not have a connection to EDEXpress will not obtain helpful results from this report.

Example 1

Below is an example of an Internal Ending Cash Balance Report – Summary with Disbursement Data Source = EDExpress:

Report Date: 02/02/2018	U.S. DEPARTMENT OF EDUCATION	Page: 1

Total Cash Receipt Records: 14

Total Refunds of Cash Records: 12

Total Cash Receipt Amount: \$268,603

Total Refunds of Cash Amount: \$35,135

SAS Cash Summary

The SAS Cash Summary contains both a monthly and a year-to-date summary of cash and loan data processed by the COD system. This report can be compared to summary information on the school's internal systems. You can print a monthly cash summary, year-to-date cash summary, or both.

The SAS Cash Summary is available from the Print dialog box. You can print the report at any time following the import of a SAS file.

Note: The SAS cash summary information stored in your database corresponds to the most recent SAS file you imported. The summary data is overwritten with each SAS import.

An EDEExpress database connection is optional, as this report prints cash summary data from the SAS, which is stored in the DL Tools database.

Example 1

Below is an example of a SAS Cash Summary – Type is Monthly:

```
Report Date: 02/02/2018    U.S. DEPARTMENT OF EDUCATION    PAGE: 1

SAS Disbursement Summary

The SAS Disbursement Summary report is available from the Print dialog box. You can print the report at any time following the import of a SAS file.

This section of the SAS provides monthly and year-to-date summary disbursement information for the reported period. It can be used to monitor loan volumes at the summary level (both booked and unbooked) for all loan types processed by the COD system. You can print a monthly disbursement summary, year-to-date disbursement summary, or both.

Note: The SAS disbursement summary information stored in your database corresponds to the most recent SAS file you imported. The summary data is overwritten with each SAS import.

An EDExpress database connection is optional.

Cash Detail Comparison

The Cash Detail Comparison Report provides a comparison of cash detail records in the SAS file received from the Common Origination and Disbursement (COD) System to the cash detail records in DL Tools Cash Management. Cash Management records are entered manually or through the Cash Detail External Add (DLEXCASH) import option. Since only Cash entries (Drawdowns and Refunds of Cash) are used for the Cash Detail Comparison report, no disbursement detail information is printed on this report. External record layouts are found in Volume IV, Section 3 of the *2017-2018 COD Technical Reference*.

An EDExpress database connection is optional, as this report compares cash data, which is not currently stored in the EDExpress database.

The Cash Detail Comparison report uses the tolerance setting in DL Tools' System Setup (**Tools, Setup, System**) to account for timing differences between the entry dates on your school system and the dates recorded for cash transactions by the processors. The System Setup field labeled **Maximum number of days difference between SAS Cash records and cash records entered by the school which will be considered a match** allows you to enter the number of days between SAS cash records and cash records entered by your school that are considered a match when running the Cash Detail Comparison report. A drawdown or refund of cash transaction is considered a mismatch if the number of days between the date reported by the school and the date reported on the SAS exceeds this tolerance.

When printing a Cash Detail Comparison Report, if you have not identified a school code in System setup, you can identify a particular school code in the DL Tools Compare dialog box. If you leave the school code blank in the Compare dialog box, then a Cash Detail Comparison report is printed for all school codes in your school's database for the designated program year.

Loan Detail Comparison – Loan Level

This report provides you with a comparison of loan detail records from the SAS file received from the COD System with loan or disbursement detail records imported from an external system or loan detail data in EDEXpress. The Loan Detail External Add (DLEXLOAN) record layout is provided in Volume IV, Section 3 of the *2017-2018 COD Technical Reference*.

Note: DL Tools Loan and Disbursement Comparison Reports are designed to be run using the SAS with YTD detail, *not* monthly detail. You can change your SAS options by accessing the COD Web site at cod.ed.gov.

If your school has not imported a booking notification for the loan but the SAS shows that the loan is booked, the loan appears in the "Booked Records That Are Unmatched" section. The booking status is according to the COD System, not according to your school's database. If your school receives a DSDF with monthly detail, then no loans appear in this section when the Loan Level Compare is run (unless the SAS shows the loan as unbooked and your school data shows that the loan total is \$0), due to the fact that loan totals in the monthly detail section of the SAS are always \$0.

Records are grouped into four sections on the report based on selected match status (Matched, Unmatched, or All) and booked status (Booked, Unbooked, or Both Booked and Unbooked). The four sections are:

Booked Records That Are Matched - Loan records appear in this section of the Compare report if the SAS shows a booked date and the loan data in the SAS matches the data in your school's database. If you receive a DSDF with monthly detail, then loans never appear in this section when the Loan Level Compare is run, since the loan totals in the monthly detail section of the SAS are always \$0.

Booked Records That Are Unmatched - Loan records appear in this section of the Compare report if the loan appears on the SAS as booked, but the data does not appear in your school's database; or there is a discrepancy between the COD System data and the school data. If your school receives a DSDF with monthly detail, then all loans that appear in the SAS as booked appear in this section when the Loan Level Compare is run, unless the loan was reduced to \$0 at the school.

Unbooked Records That Are Matched - Loan records appear in this section of the Compare report if the loan appears on the SAS as unbooked and the amounts match between the COD System and the school.

Unbooked Records That Are Unmatched - Loan records will appear in this section of the Compare report if the loan exists in your school's database but does not appear on the SAS; the loan appears as unbooked on the SAS, but the record does not appear in your school's database; or there is a discrepancy between the COD System data and the school data for an unbooked loan. If your school receives a DSDF with monthly detail, then any disbursements that were accepted in a previous month would not be on the monthly SAS, and would therefore appear in this section.

A Loan Detail Comparison – Loan Level Report runs regardless of the type of SAS (DSLFF or DSDF) that has been imported into DL Tools, as long as the SAS contains either loan detail or disbursement detail. An EDEExpress database connection is optional. When printing a Loan Detail Comparison, if you have not identified a school code in System setup, then you can identify a particular school code in the DL Tools Compare dialog box. If you leave the school code blank in the Compare dialog box, the Loan Detail Comparison report prints for all school codes in your school's database for the designated program year.

Disbursement Detail Comparison

The Disbursement Type field is only printed on the 2015-2016 version of Disbursement Detail Comparison.

This report, which you can print from the Compare dialog box, provides you with a comparison of disbursement detail records from the SAS file received from the COD System with disbursement detail records imported from an external system or disbursement detail data in EDEXpress. The Disbursement Detail External Add (DLEXDISB) record layout is provided in Volume IV, Section 3 of the *2017-2018 COD Technical Reference*.

Note: DL Tools Loan and Disbursement Comparison Reports are designed to be run using the SAS with YTD detail, *not* monthly detail. You can change your SAS options by accessing the COD Web site at cod.ed.gov.

Records are grouped into four sections on the report based on selected match status (Matched, Unmatched, or All) and booked status (Booked, Unbooked, or Both Booked and Unbooked). The four sections are:

If your school has not imported a booking notification for the loan but the SAS shows that the disbursement has booked, then the disbursement appears in the "Booked Records That Are Unmatched" section. The booking status is according to the COD System, not according to your school's database.

Booked Records That Are Matched - Disbursement records appear in this section of the Compare report if the SAS shows a booked date and the disbursement data in the SAS matches the data in your school's database.

Booked Records That Are Unmatched - Disbursement records appear in this section of the Compare report if the disbursement appears on the SAS as booked, but the data does not appear in your school's database; or there is a discrepancy between the COD System data and the school data.

The SAS end date always supersedes the selected date range specified if that date falls beyond the SAS end date.

Unbooked Records That Are Matched - Disbursement records appear in this section of the Compare report if the disbursement appears on the SAS as unbooked, and the dates and amounts match between the COD System and the school.

A Disbursement Detail Comparison Report runs only if a disbursement level report (DSDF) with disbursement detail has been imported into DL Tools. If your school imports a loan-level report (DSL) rather than a DSDF, then you cannot run this report. An EDEXpress database connection is optional. When printing a Disbursement Detail Comparison, if you have not identified a school code in System setup, you can identify a particular school code in the DL Tools Compare dialog box. If you leave the school code blank in the Compare dialog box, a Disbursement Detail Comparison report is printed for all school codes in your school's database for the designated program year.

Unbooked Records That Are Unmatched - Disbursement records appear in this section of the Compare report if the disbursement exists in your school's database but does not appear on the SAS; the disbursement appears as unbooked on the SAS, but the record does not appear in your school's database; or there is a discrepancy between the COD System data and the school data for an unbooked loan. If your school receives a DSDF with monthly detail, then any disbursements that were accepted in a previous month would not be on the monthly SAS and would therefore appear in this section.

DL Tools compares the disbursements recorded in EDEXpress to the corresponding disbursements in the SAS by doing a one-to-one comparison of each disbursement using the disbursement number, sequence number, disbursement date, and disbursement amounts.

SAS Cash Detail

The SAS Cash Detail Report displays the information from SAS Cash Detail records in your school's DL Tools database. SAS Cash Detail data is received from the COD System and imported into DL Tools. This report contains Transaction Type, Transaction Date, Transaction Amount, COD Process Date, G5 Control/Check Number, and Totals.

An EDEXpress database connection is optional, as this report compares cash data, which is not currently stored in the EDEXpress database.

Example 1

SAS Loan and Disbursement Detail

The SAS Loan and Disbursement Detail Report (with the option to include or exclude disbursement detail) displays the information from SAS Loan and Disbursement Detail records in your school's database. SAS Loan and Disbursement Detail data is received from the COD System and imported into DL Tools. This report contains Student's Name, Loan ID, Record Type, Gross Amount, Fee Amount, Interest Rebate Amount, Net Amount, and Totals.

An EDExpress database connection is optional.

If no disbursement date range is entered in the Print dialog box, the Date Range label is printed without a date range.

Disbursement Measurement Tool Report (EExpress Schools Only)

This report is for EExpress schools only. It monitors the disbursement process by calculating and averaging the actual process time from entry of actual disbursements, to sending the actual disbursements in a document to the COD System, and to booking the loan. The report compares the average number of days elapsed to your tolerances, or guidelines, in DL Tools System Setup. You can compile an Actual Disbursement Measurement Report with subtotals and totals for the records in the list. This report also contains the Student's Name, PLUS Borrower's Name, Disbursement Date/#/Type (2015-2016 only)/Seq, Batched Date and Days Elapsed, Booked Date, and Days Elapsed.

An EExpress database connection is required.

The names of all PLUS borrowers for each dependent student print on the Disbursement Measurement Tool report. For example, if a dependent student has one PLUS loan with the mother as the borrower and another PLUS loan with the father as the borrower, the report prints the names of both the mother and the father.
