

**COD System User Roles for R2T4  
Attachment to February 2019 Electronic Announcement**

This table shows existing COD System user roles and the level of R2T4 access based on those COD user roles. COD System users will have R2T4 access based on their existing COD user role.

If a user does not have an assigned COD user role, he or she will need to be enrolled for the COD Online Service and be assigned a COD user role by the school's Primary Destination Point Administrator (PDPA).

If a user needs to change his or her COD user role (to align with R2T4 responsibilities), he or she will need to have the COD user role updated by the school's PDPA.

<b>COD User Role</b>	<b>R2T4 Access/User Role Responsibilities</b>
SCHADM	Users will be able to view/create/save/update/delete/copy R2T4 School Calendar Profiles and Institutional Charges Profiles.  Users will be able search/performance/save R2T4 calculations.  Users can use the R2T4 training section.
