Action Queue Search Screen Functionality Not Working In All Cases [03/15/06 (Updated 03/22/06)]

In the Electronic Announcement, [COD System Implementation for 2006-2007 Award Year](#), posted on the IFAP Web site, Federal Student Aid informed schools of two enhancements planned for the COD System’s 2006-2007 Award Year implementation. One of the enhancements increases the number of disbursements that can be returned when a user performs a search on the COD Web site’s Action Queue Search screen.

Previously, the maximum number of disbursements returned per search on the COD Web site’s Action Queues Search screen was 3,000. While the explanation in the Electronic Announcement did not state this specifically, the enhanced search allows for the return of up to 15,000 disbursements. If a search results in more than 15,000 disbursements, the system will generate a message informing the user that more disbursements exist.

Common Origination and Disbursement

COD Processing Update

On March 10-11, 2006, COD implemented the additional functionality for the 2006-2007 Award Year, including the enhancement to the COD Web site's Action Queue Search screen. However, the search was not functioning as it should. In some cases, the user was not informed when more than 15,000 disbursements existed. In other cases, no disbursements were returned to the user when they did exist.

On March 20, 2006, COD implemented a fix for this issue. In all cases, disbursements (up to the 15,000 limit) and applicable messages are being displayed on the Action Queue Search screen.

Note: When a search results in more than 15,000 records, COD will display the first 15,000 records. The user will also see the following message: *15,000 Disb Found—More Disbs Exist—Please Narrow Search.*

We apologize for any inconvenience this issue may have caused and appreciate your patience.

2003-2004 Pell Grant CFL Reduction To GAPS Net Drawdown Warning Message (03/02/06)

On March 1, 2006, COD sent a message (PGTX04OP) to schools that have a Grant Administration and Payment System (GAPS) authorization (known in the COD System as Current Funding Level (CFL)) for the 2003-2004 Award Year that is greater than their GAPS Net Drawdown reflected in the COD System. The message warns an affected school that its 2003-2004 CFL will be reduced to the GAPS Net Drawdown if the CFL is still greater than the GAPS Net Drawdown on March 29, 2006. When the actual reduction occurs later in March, the school will have a reduced authorization in the GAPS and will receive an Electronic Statement of Account (ESOA) that reflects the revised authorization.

Note: The amount of the reduction will equal the difference between the school's CFL and GAPS Net Drawdown. This means that the amount of the reduction could equal as little as \$0.01.

A school that receives the warning message should review its internal records and its CFL, GAPS Net Drawdown, and Net Accepted and Posted Disbursements (NAPD) reflected in the COD System as soon as possible. The school should submit all outstanding downward disbursement adjustments to the COD System and/or request any outstanding drawdown from the GAPS for the 2003-2004 Award Year as soon as possible but before March 29, 2006.

An electronic announcement informing schools of the message is posted to the IFAP Web site (<http://www.ifap.ed.gov/eannouncements/0301CFLReduct0304GAPSNetDrawdown.html>).
