Changes To 2008-2009 COD CCRAA School Testing And Schedule For 2008-2009 COD CCRAA School Testing (04/25/08)

As schools, third party servicers, and software providers are aware, during the period June 27-28, 2008, Federal Student Aid plans to implement COD System functionality that will support the processing of Teacher Education Assistance for College and Higher Education (TEACH) Grant Program awards for the 2008-2009 and subsequent award years.

Implementation of TEACH Grant processing requires changes to the COD Common Record Extensible Markup Language (XML) schema. For this reason, it is important to Federal Student Aid to offer and conduct testing for participants before they send data to the “live” production environment using COD Common Record XML Schema Version 3.0a.

The new testing opportunity—COD CCRAA School Testing for the 2008-2009 Award Year—will impact the previously published schedule for COD School Testing for the 2008-2009 Award Year. In [an April 24, 2008 Electronic Announcement posted on the Information for Financial Aid Professionals \(IFAP\) Web site](#), Federal Student Aid provided the following information:

- Changes to the 2008-2009 COD School Testing schedule that are necessary to accommodate the plan and schedule for 2008-2009 COD CCRAA School Testing
- The plan, schedule, and process for 2008-2009 COD CCRAA School Testing

This information is also covered in the [2008-2009 COD Technical Reference](#).

For complete information about both school testing opportunities, refer to [the April 24th Electronic Announcement](#). If you have any questions, contact the COD School Relations Center by phone and ask for COD School Testing Support. You may also e-mail CODsupport@acs-inc.com with “COD School Testing Support” in the subject line.

Reminder for Action – Required EDconnect Upgrade And TDClient Initialization File Replacement (04/24/08)

In both cases, the upgrades are associated with Federal Student Aid’s relocation of the data center that supports numerous Federal Student Aid systems and Web sites.

Federal Student Aid urges all EDconnect and TDClient users who have not already completed the applicable upgrade to do so immediately. ***Failure to upgrade by the time the transition to the new data center is complete (early July 2008) will result in the inability to send and receive files.***

For complete information about these upgrades, refer to [the April 23, 2008 Electronic Announcement on the IFAP Web site](#).

Direct Loan Electronic MPN Web Site Update – Issue Experienced by Some Users April 18 - 22, 2008 Resolved (04/23/08)

During the period April 18 – 22, 2008, some users of the [Direct Loan Electronic Master Promissory Note \(MPN\) Web site](#) experienced an issue with proceeding beyond Step 3 of the process. Instead of proceeding to the next step, an affected user received an error message.

Federal Student Aid resolved the issue on April 22, 2008. Users of the [Direct Loan Electronic Master Promissory Note \(MPN\) Web site](#) are now able to proceed beyond Step 3 without issue and complete their MPNs.

The reduction of the affected disbursements is scheduled to occur on May 22, 2008.

Note Regarding Verification Deadline:

Some of the student records included in the Reconciliation Report may be for students who are still within the allowable timeframe for submitting verification documentation/completing the verification process as will be specified in a forthcoming “Notice of Deadline Dates for Receipt of Applications, Reports, and Other Records for the 2007-2008 Award Year.” This notice will be published in the [Federal Register](#) and subsequently posted on the [Information for Financial Aid Professionals \(IFAP\) Web site](#).

Grant Reports And Data Requests

This section contains important notices regarding reports and/or data requests. While we encourage you to review this section, note that some schools may not be impacted by the information presented below.

Temporary Suspension of National SMART Grant YTD Records [04/08/08(Updated 04/21/08)]

Federal Student Aid previously informed schools of an issue with 2006-2007 and 2007-2008 National Science and Mathematics Access to Retain Talent Grant (National SMART Grant) Year-to-Date (YTD) Records requested during the period March 14, 2008 through April 7, 2008. These reports were sent to schools' Student Aid Internet Gateway (SAIG) mailboxes as requested; however, within the reports, the data fields for origination records were off by two (2) bytes beginning at position 255. The record length (350 total bytes) was correct, but all data after field position 255 were in incorrect positions. The COD School Relations Center notified affected schools via telephone, and Federal Student Aid placed new requests for National SMART Grant YTD Records on hold beginning April 8, 2008.

On April 15, 2008, Federal Student Aid implemented a code fix to resolve this issue. Also on April 15, 2008, Federal Student Aid began processing new requests for National SMART Grant YTD Records.

On April 18, 2008, Federal Student Aid processed requests for National SMART Grant YTD Records received during the period March 14, 2008 through April 14, 2008. This group of requests included those requested before the issue was discovered (March 14, 2008-April 7, 2008) and those requested during the hold period (April 8, 2008-April 14, 2008). All reports were sent to the affected schools' SAIG mailboxes and include data through the report generation date.

Federal Student Aid apologizes for the inconvenience caused by this issue and appreciates schools' patience and understanding. If you have any questions, contact the COD School Relations Center.
