DIRECT LOANS

There are no Direct Loan-related issues at this time.

GRANTS

Current Funding Level Changes Not Processing in COD System and G5 for Some Schools (11/13/13)

Federal Student Aid has identified an issue that is preventing 2012-2013 Pell Grant Current Funding Level (CFL) decreases from processing in the COD System and G5 when changes to 2012-2013 Pell Grant disbursements are submitted to and accepted by the COD System. The issue has affected some schools since September 19, 2013.

Federal Student Aid plans to correct the affected CFLs on the evening of Wednesday, November 13, 2013 and apologizes for any inconvenience this issue may have caused. There is no action required of the school. If you have any questions about the issue, please contact the COD School Relations Center.

REMINDERS

Keep School Contact Information Current in the COD System (11/15/13)

We remind schools and third party servicers that contact information in the COD System must be kept current. Contact information is extremely important for

us to be able to reach the right people at the school, particularly about program-specific issues. The e-mail addresses for the President, Financial Aid Administrator, Pell Grant Financial Aid Officer, and Direct Loan Financial Aid Officer are used to deliver time-sensitive materials and critical COD processing information to the school.

Having current contact information for the Pell Grant Financial Aid Officer and Direct Loan Financial Aid Officer is most critical for a school that is an additional location to a main campus. The information allows us to contact those officers directly at the additional location rather than needing to contact the main campus.

For more information on updating School Contact Information, please refer to [the December 20, 2012 Electronic Announcement posted on the Information for Financial Aid Professionals \(IFAP\) Web site](#).
