

COD Processing Update

November 21, 2014

NEWS/UPDATES

- **G5 Web Site Outage November 19-24, 2014 (10/23/14)**

During the period of November 19-24, 2014, the Department of Education (the Department) will perform extended system maintenance to its core financial systems, including G5. Please review the following information to determine how processing at your school will be affected.

G5 Web Site Outage - From 9:00 P.M. (ET) on Wednesday, November 19, 2014 through 6:00 A.M. (ET) on Monday, November 24, 2014, the [G5 Web site](#) will not be available. Schools will not be able to draw down funds during this period.

Common Origination and Disbursement (COD) System Processing - From 9:00 P.M. Wednesday, November 19, 2014 through 6:00 A.M. (ET) on Monday, November 24, 2014, the COD System will accept Pell Grant, TEACH Grant, Direct Loan, and Iraq and Afghanistan Service Grant records. However, after 2:00 P.M. (ET) on Wednesday, November 19, 2014, CFL changes (as a result of actual disbursements) and funding will not be processed by G5 until November 24, 2014.

For complete information, refer to an [October 23, 2014 Electronic Announcement](#) posted on the IFAP Web site.

- **COD Holiday Schedule For November 27, 2014 (11/17/14)**

The COD School Relations Center will be closed on Thursday, November 27, 2014 in observance of the Thanksgiving Day federal holiday. The COD System will accept and process data from schools and send back responses/acknowledgments on Thursday, November 27, 2014, but schools will not be able to receive any federal funds on that day. Requests for changes in funding levels and for funds will not be processed until Friday, November 28, 2014.

Further information regarding Thanksgiving Day processing and customer service hours for the COD School Relations Center and other Federal Student Aid/ED call centers is posted in a [November 14, 2014 Electronic Announcement](#) on the IFAP Web site.

- **Processing Tips - COD System Edits 204, 205, and 206 (11/3/14)**

In the past several weeks, Federal Student Aid has identified an increased number of Common Origination and Disbursement (COD) System edits triggered for Direct Loan awards, specifically COD Reject Edits 204, 205, and 206. In an [October 31, 2014 Electronic Announcement](#) posted on the IFAP Web site, Federal Student Aid provides processing tips and reminders to assist schools in researching and resolving these edits for each impacted award.

For posted guidance and resources and other frequently asked questions related to 150%, refer to the [150 Percent Direct Subsidized Loan Limit Information page](#) on the IFAP Web site. If you have 150%-related

questions, submit them to 150Percent-Questions@ed.gov and include the name of your school in the subject line.

If you have questions about the COD System edits, contact the COD School Relations Center.

• **REMINDER - Direct Loan Origination Fees Increased October 1, 2014 (10/3/14)**

As a reminder, the origination fees for Direct Subsidized Loans, Direct Unsubsidized Loans, and Direct PLUS Loans (for both parent and graduate student borrowers) increased as of October 1, 2014 (see [Dear Colleague Letter \(DCL\) GEN-14-10](#)). Schools should review their records to ensure the correct origination fee is being used. In a [May 9, 2014 Electronic Announcement](#), Federal Student Aid provided some operational updates and information about COD System readiness for processing Direct Loans with the new origination fees.

• **Availability of Report Readers for Pell Grant Reconciliation File, Pell Grant Year to Date (YTD) File, and School Account Statement (SAS) Disbursement Detail on Demand File (9/10/14)**

As a reminder, Federal Student Aid has posted three report readers for the following reports:

- Pell Grant Reconciliation File
- Pell Grant YTD File
- SAS Disbursement Detail on Demand File

The readers provide a simplified way of importing the report files into an Excel spreadsheet for school reconciliation purposes. To use the readers, a school must receive the **fixed-length format** of the reports.

The readers, along with instructions on how to use them, are posted on the [Common Origination and Disbursement \(COD\) Web site](#) and can be accessed by clicking on the “COD Resources” link located on the gray bar at the bottom of the home page.

The table below will assist schools in finding the correct reader for the appropriate award year(s).

File Name on COD Resources page	Report and Award Year(s)
PELL Recon Reader 2008-2009 AY – 2013-2014 AY.xlsm	Pell Grant Reconciliation File, 2013-2014 and prior
PELL Recon Reader 2014-2015 AY.xlsm	Pell Grant Reconciliation File, 2014-2015
PELL YTD Reader 2008-2009 AY – 2013-2014 AY.xlsm	Pell Grant YTD File, 2013-2014 and prior
PELL YTD Reader 2014-2015 AY.xlsm	Pell Grant YTD File, 2014-2015
SAS Disb On Demand Reader v1.1.xlsm	SAS Disbursement Detail on Demand, all award years
Note: While there are multiple Pell Grant report readers covering different award years, there is only one instruction file posted for the report reader type.	

If you have questions about the readers or need additional assistance with using them, contact the COD School Relations Center.

- **COD System Warning Edit 211 (5/20/14)**

Since the April 2014 COD System implementation, many schools may have received COD Warning Edit 211 (Failure of Full Schema Enforcement). As a reminder, this warning edit is intended to help schools and software providers identify and fix invalid XML, but still allow the data to be processed by the COD System. Eventually, Federal Student Aid will reject batches sent with invalid XML and the data will not be processed by the COD System.

Since the cause of invalid XML can vary widely, Federal Student Aid cannot provide specific XML error(s) in the response when returning Warning Edit 211. However, some examples of common errors are:

- Submitting tags out of order
- Submitting a string longer than the posted maximum length value specified by the COD XML Schema
- Submitting an integer or decimal outside of the posted value range specified by the COD XML Schema
- Neglecting to submit a required tag within a complex element (for example, <City> in the <PermanentAddress> block)
- Submitting tag names that do not match the COD XML Schema (tag names are case-sensitive)

In addition, Federal Student Aid has posted guidance about using an XML validator tool to help schools identify XML errors. This guidance is posted on the IFAP Web site in a document titled “COD XML Schema Validation Instructions.”

When using an XML validator tool, schools should keep a few things in mind:

- Use of an XML validator tool is optional and a school will need to find the right XML validator tool based on its individual circumstances. Some schools may need to work directly with their technical staff or software provider to select an XML validator tool.
- In some cases, a school can download an XML validator tool to a computer. In other cases, a school can upload files to a Web-based XML validator tool. If a school opts to use a Web-based XML validator tool and it has to upload files to run the validation, for security purposes, the school should use test data for the file upload.
- Federal Student Aid has validated the published COD XML Schema with some of the independent XML validator tools available, including XMLSpy, www.xmlvalidation.com, and XML Notepad 2007.

Finally, schools using a software vendor should consult with that vendor for additional assistance. In many cases, a school may need to ensure it is using the latest version of the chosen product.

Additional information about the COD XML Schema can be found on the IFAP Web site at <https://ifap.ed.gov/ifap/codXMLSchema.jsp>. For additional questions about COD System processing or the COD XML Schema, contact the COD School Relations Center.

CURRENT ISSUES

DIRECT LOANS

There are no Direct Loan-related issues at this time.

GRANTS

There are no Grant-related issues at this time.

Keep School Contact Information Current in the COD System (11/21/14)

We remind schools and third party servicers that contact information in the COD System must be kept current. Contact information is extremely important for us to be able to reach the right people at the school, particularly about program-specific issues. The e-mail addresses for the President, Financial Aid Administrator, Pell Grant Financial Aid Officer, and Direct Loan Financial Aid Officer are used to deliver time-sensitive materials and critical COD processing information to the school.

Having current contact information for the Pell Grant Financial Aid Officer and Direct Loan Financial Aid Officer is most critical for a school that is an additional location to a main campus. The information allows us to contact those officers directly at the additional location rather than needing to contact the main campus.

For more information on updating School Contact Information, please refer to [the December 20, 2012 Electronic Announcement posted on the Information for Financial Aid Professionals \(IFAP\) Web site.](#)
