Preface

The *Electronic Data Exchange (EDE) Technical Reference* is designed to meet the reference needs of programmers and data processing staff who want to incorporate electronic Free Application for Federal Student Aid (FAFSA) and correction functionality into their institutional systems. This technical reference includes information about record layouts, required edits, printing assistance, and reject messages that are applicable for electronic FAFSA records, Institutional Student Information Records (ISIRs), electronic corrections, and signature records

The information in this technical reference can assist you in developing your own software or creating bridges between your own mainframe software systems and the EDEExpress for Windows PC software. We also explain how you can create bridges between your systems and selected Web site functionality provided by Federal Student Aid for sending and receiving FAFSA data.

The remainder of this section provides the following:

- An overview of the EDEExpress and EDconnect software products, which you can use in combination with (or in place of) institutional systems you develop to exchange information with Federal Student Aid's data processors
- A description of Central Processing System (CPS) input and output data files
- An overview of new and modified items in the 2011-2012 version of the *EDE Technical Reference*

Software Products

To facilitate electronic data exchange, the U.S. Department of Education (ED) provides three software products free of charge to EDE participants: EDEExpress for Windows and EDconnect, which can be found on the Department of Education's Federal Student Aid Download (FSAdownload) Web site located at fsadownload.ed.gov and TDClient which you can request by contacting CPS/SAIG Technical Support at 800/330-5947 or CPSSAIG@ed.gov.

EDEExpress for Windows

EDEExpress is a financial aid management software package provided to Title IV financial aid administrators (FAAs) by ED. With EDEExpress, you can manage Title IV student financial aid application data, package awards, and exchange origination and disbursement data with the Common Origination and Disbursement (COD) System for Direct Loans, Pell Grants, and the Teacher Education Assistance for College and Higher Education (TEACH) Grant Program.

FAFSA and ISIR correction entry in EDEExpress uses embedded browser technology to provide an interface with the FAA Access to CPS Online Web site (faaaccess.ed.gov). You submit the data through the Web interface and processed results are returned to your Student Aid Internet Gateway (SAIG) mailbox which you can then import into EDEExpress.

Using this technical reference, you can create files of FAFSA data in the same format that the FAA Access to CPS Online interface uses to send data to the CPS. Some schools and agencies choose to send the data using EDE and import resulting ISIR data into EDEExpress for storage purposes and to use EDEExpress data management tools and report functionality.

To enroll for access to the FAA Access to CPS Online Web site, go to the SAIG Enrollment Web site at fsaweбенroll.ed.gov.

EDconnect

EDconnect is a Windows-based file transfer protocol (FTP) program that enables users to send and receive Federal Student Aid information electronically. Users collect data on their PCs or computer systems and transmit the collected data in batches over the SAIG using EDconnect. The appropriate Title IV Application System receives the data, processes the data, performs any required database cross-referencing, and returns the processed data to the user's SAIG mailbox, where it can be downloaded to the user's PC or system with EDconnect.

TDClient

TransactionDelivery Client Software (TDClient) is the software used to send and receive File Transfer Protocol (FTP) data transmissions securely over the Internet using SSL 3.0 and the Diffie-Hellman Dynamic Key Exchange algorithm. Compression software is contained within TDClient so separate steps are not needed in your send and receive scripts. TDClient is supported under several mainframe and mid-range operating systems. A list of supported operating systems can be found in the [SAIG Host Communication Guide](#) on fsadownload.ed.gov.

EDE Input and Output Files

Input Data Files

Input data files are files that you create in your own system to submit your student FAFSA and FAFSA correction data. To be processed, these data files must match the record layouts included in the Record Layouts section of this technical reference.

Electronic FAFSA

After a student has completed and signed his or her FAFSA, a school's authorized FAA can submit it electronically by entering the data on the FAA Access to CPS Online Web site or by transmitting it to the CPS in a formatted ASCII file. The CPS transmits processed FAFSA records back to the school's destination point as ISIRs in the IDAP12OP message class.

The Record Layouts section of this technical reference contains the FAFSA Application Export Record Layout (EAPS12IN). Reject codes are found in the Processing Codes section. Procedures for handling rejected FAFSAs are located later in this section and in the EDE Processing section. The Printing section includes details on printing ISIRs.

Electronic Corrections

Schools can submit corrections to FAFSA data electronically by entering the data on the FAA Access to CPS Online Web site or by transmitting it to the CPS in a formatted ASCII file format.

You can find the Correction Record Layout in the Record Layouts section of this technical reference. You will submit electronic corrections in the CORR12IN message class. Valid field content specifications for the fields that you can correct are found in the Processing Codes section.

Information about adding your Federal School Code to receive electronic data, making signature corrections, and using the Correction Record Layout is located in the EDE Processing section.

Output Data Files

Output data files are the files you receive as a result of FAFSA or FAFSA correction data you submitted. You will either receive a processed ISIR data file or a record level reject data file. The ISIR file contains student records that met the layout specifications expected by the CPS and defined in the Record Layouts section. Record level reject error files include student records that could not be processed because the format or the data in the file did not match the specifications.

Institutional Student Information Record (ISIR)

The CPS generates and sends an ISIR to each school listed on the student's FAFSA, in response to the following input:

- Electronic FAFSAs or corrections submitted by your school using EDE or FAA Access to CPS Online
- Electronic FAFSAs or corrections submitted by another school using EDE or FAA Access to CPS Online
- Web FAFSAs or corrections submitted using FAFSA on the Web, Spanish FAFSA on the Web, Corrections on the Web, or Spanish Corrections on the Web
- Paper FAFSAs or corrections to a Student Aid Report (SAR)
- Post-screening transactions from the National Student Loan Data System (NSLDS) or the Department of Homeland Security (DHS)
- System-generated transactions created by the CPS to provide updated data, such as revised match information from the Department of Defense (DOD) Match
- Federal Student Aid Information Center (FSAIC) corrections as a result of a student correction request or for issues such as a data entry error
- FAFSA data entered by FSAIC through the FAFSA on the phone application process

Each school receives one ISIR for every student who lists that school on the FAFSA. Servicers receive only one ISIR per destination point. The CPS also sends ISIRs to state agencies that elect to receive ISIRs for legal residents and for students indicating a school in that state.

The Record Layouts section of this technical reference provides the ISIR Record Description/Data Dictionary record layout. The Processing Codes section includes information on reject codes, the appropriate action to take, and the comment codes associated with the reject. Specifications for printing the ISIR are in the Printing section.

Handling Record Level Rejected Records

If the specifications in this technical reference are not followed on a particular record, an EDE Record Level Error Report File is transmitted to you and can be printed as an error report. The error layout is in the Record Layouts section.

The EDE Record Level Error Report Import Record Layout contains the student's Social Security Number (SSN), name ID, transaction number, last name, first name, the Federal School Code, the CPS Correction # (number) in error, an edit code, an error code, and a text explanation for the reason the record was rejected. Each field in error is reported in this file. If the record was rejected due to an invalid value, the CPS sends the actual value of the data received from the school. When a record has more than one field in error, the student's SSN is listed more than once in the EDE Record Level Error Report File. See the Processing Codes section for additional details about rejects.

The following is a list of message classes for reporting errors:

CORE12OP	Electronic Correction Errors
EAPR12OP	Electronic Application Errors
SIGA12OP	Signature Record Errors

What's New and Changed in the *EDE Technical Reference* for 2011-2012

Listed below are the changes to the *EDE Technical Reference*. For a complete listing of changes to the Central Processing System, including changes to database matches and system edits, refer to the *2011-2012 Summary of Changes for the Application Processing System* guide. You can find this guide on the U.S. Department of Education's Information for Financial Aid Professionals (IFAP) Web site located at ifap.ed.gov, as well as the Federal Student Aid Download (FSAdownload) Web site located at fsadownload.ed.gov.

We have revised the *EDE Technical Reference* for the annual rollover changes that include adding, removing, renaming, renumbering, and updating the fields' start and end positions and valid content based on changes to the ISIR.

The Academic Competitiveness Grant (ACG) and National Science and Mathematics Access to Retain Talent Grant (National SMART Grant) programs do not have funding after 2010-2011 and as a result, we are removing all FAFSA questions, edits, and SAR/ISIR comments from all of Federal Student Aid's systems including paper and Web applications and EDEExpress software, as well as all data outputs. Processing for and references to these grants shall be removed from all systems as appropriate. You may find some documentation that still references these grants, for instance comment codes, but because the functionality has been removed from the systems, it should never be accessed.

ACG and National SMART Grant data continues to be collected by NSLDS for current grant payments and overpayments and NSLDS will report the data, so you will continue to see ACG and SMART Grant information in the ISIR record layout and in the NSLDS section of the SAR and ISIR. NSLDS information reported will be for awards in 2010-2011 and earlier.

Overview Changes

We revised the What's New and Changed in the *EDE Technical Reference* for 2011-2012 to describe changes to the document.

EDE Processing Changes

We updated the steps for submitting corrections to include the new High School Code field in the Correction Record Layout. Step 10 in "Creating a Correction Record" and step 11 in "Adding Your Federal School Code to Receive Electronic Data" are new.

Record Layout Changes

Each record layout includes a column called “Changes,” which describes changes to that field. Below, we describe changes specific to the ISIR Record Layout only. See the Record Layouts section of the *EDE Technical Reference* for changes to other record layouts. We do not describe changes that are a result of the annual rollover process.

ISIR Record Description/Data Dictionary

The ISIR contains all information reported on the FAFSA, as well as key processing results and NSLDS financial aid history information. Changes have been made to the 2011-2012 ISIR based on data element changes on the FAFSA, at the CPS, and in NSLDS. We summarize these changes below with the ISIR field numbers enclosed in parentheses. We provide the ISIR field numbers, which are different than the FAFSA question numbers, because not all ISIR fields have corresponding FAFSA question numbers. For example, there are no corresponding FAFSA question numbers for the NSLDS data elements included in the ISIR because this data is not collected on the FAFSA.

Refer to the Processing Codes section for the 2011-2012 ISIR Cross-Reference Table, which provides a comparison of the 2011-2012 ISIR field number, start and end positions, and field values with the respective 2010-2011 ISIR field data.

Global Change

Along with annual rollover changes that include adding, removing, renaming, and updating the fields and valid content based on changes to the FAFSA, we are implementing the following major change to the ISIR for 2011-2012:

- **Record Length Increased** – The ISIR Record Layout and the Request Title record length increased by 100 bytes, from 4150 bytes to 4250 bytes.

FAFSA Changes

We modified the following ISIR fields because of changes that were made to the FAFSA (the numbers in parentheses are the ISIR field numbers not the FAFSA question numbers):

- **Added High School Information (30-32)** – Due to regulatory changes, the FAFSA now asks for the name, city, and state of the student’s high school if the applicant answers that he or she received a high school diploma in the High School Completion status question (FAFSA question 26). We do not request the high school information from applicants who answer that they will have a General Education Development (GED) certificate, were home-schooled, or none of the choices listed.

- **Revised Type of Aid Interested in Receiving Question (37)** – We revised the question to ask “Are you interested in receiving work-study?”. Because the question changed, we have revised the response to the question as well:
 1 = Yes
 2 = No
 3 = Don’t know
 Blank
- **Deleted Enrollment Status and Completing Teacher Coursework Questions** – Due to initiatives to simplify the FAFSA, we have removed these questions from the 2011-2012 FAFSA. We have deleted the Enrollment Status and Completing Teacher Coursework fields from our ISIR and FAFSA record layouts.

CPS Data Element Changes

We made the following changes to ISIR fields that are not included on the FAFSA or sent by NSLDS but are included on the ISIR (the numbers in parentheses are the ISIR field numbers):

- **Student IRS Request Flag (175) and Parents IRS Request Flag (176)** – The text for value 03 was modified to “IRS data for the student was transferred from IRS and at least one IRS data field was changed by the user before submission,” and we added a description to blank, “Not eligible for IRS Data Retrieval.” The values for 05 (TBD) and 06 (TBD) were deleted.
- **High School Code (33) and High School Flag (229)** – The name, city, and state the student provides on the FAFSA is compared with our list of high schools. We will check our database and provide the results in ISIR in field 33, High School Code which is 12 bytes in length.
 The valid values for this field are:

 Numbers 0 to 9

 Uppercase letters A to Z

 All 0’s = No results found

 All 8’s = Incomplete information provided (one or two of the name, city, and state fields are blank, but not all of the fields)

 All 9’s = More than one result found

 Blank = No high school information entered (name, city, and state)

We will put a “Y” in field 229, High School Flag, to identify students who did not provide high school information, provided information that was illegible (on paper transaction), or provided information that was not found in our high school database when the applicant meets each of the following criteria:

- Applicant responded that he or she received a high school diploma in FAFSA question 26, high school completion status. (ISIR field 29, HS Diploma or Equivalent, is equal to 1.)
- Applicant responded that he or she was a first year undergraduate in FAFSA question 29, what will be your grade level. (ISIR field 35, Grade Level in College, is equal to 0 or 1.)
- Applicant did not provide high school information (ISIR field 33, High School Code, is blank), or
Applicant provided high school information, but it was incomplete or did not match our database or multiple matches were made to our database. (ISIR field 33, High School Code, is equal to all zeros, eights, or nines.)

Note: The high school code is for Department of Education analytical purposes only. The High School Code field cannot be corrected; however, you can correct the high school name, city, and state. The CPS attempts to find the updated school information in the database and then updates the high school code and flag.

NSLDS Data Element Changes

NSLDS implemented the following change in the data sent to CPS (the numbers in parentheses are the ISIR field numbers):

- **Added New Overpayment Flag and Contact Information for the Iraq and Afghanistan Service Grant Flag (378 and 379)** – NSLDS will send NSLDS Iraq and Afghanistan Service Grant Flag and contact information for students who have received an overpayment for the Iraq and Afghanistan Service Grant. These flags work like other overpayment flags and contact flags.

Correction Export Record Layout

We updated the Correction Export Record Layout to add a new field (positions 571 to 620) to correct the High School Name. The High School Name can be up to 50 bytes, so we created a new field to allow the user to enter up to 50 characters, much like the e-mail address correction fields.

Academic Competitiveness Grant (ACG) Data File Record Layout

We deleted the Academic Competitiveness Grant (ACG) data file record layout. Because the ACG program was not funded for 2011-2012, we have removed this record layout from the *EDE Technical Reference*.

Processing Codes Changes

2011-2012 ISIR Cross-Reference

We updated the cross-reference to compare the 2010-2011 ISIR with the changes to the 2011-2012 ISIR record layout.

Table of Reject Codes and How to Respond to Each Code

- We incremented the date of birth end-year references in Rejects A and B, which alert FAAs that the date of birth entered may be in error because the student is older than most students (greater than 75) or younger than most students (less than 16) pursuing a postsecondary education:
 - **Reject A** – Date of birth year equals 1900 through 1935.
 - **Reject B** – Independent student and date of birth is on or after September 01, 1995, and there is not a “good” SSA match for the student.

Transaction Reject Error Messages

- We updated the year indicator in error 13 to “2” for 2011-2012.

Assumption Overrides

- We updated the tax year in Assumption Overrides 5 and 6.

Field Name and Position Cross-References

- We updated the ISIR Cross-Reference Table to reflect 2011-2012 field changes.

State/Country/Jurisdiction Codes

- We revised the “***” note that identifies codes that are only valid for mailing state to specify that these codes are not valid for the High School state.

Correction Data Entry Specifications

- We updated the data entry specifications to reflect 2011-2012 field changes.

Message Class Changes

- We updated the process year in all message classes from “11” to “12,” revised record layout lengths.

- We deleted the IGAAXXOP and ED20xxOP message classes.
- We increased the length of the correction record message classes (CORR12IN, SIGS12IN, and TCOR12IN) to 680 bytes.

Comment Codes

- There are no major changes of note in the Comment Codes section. For more information, see the *Summary of Changes for the Application Processing System* Guide, which describes the changes to the comment codes and text.

Printing Changes

The Printing section describes the ISIR printed from EDEExpress. We have updated the Fields Not Printed on the ISIR table and the Sample ISIR.

Note: You are not required to print ISIRs. If you choose to print ISIRs, you can print them from your own system or EDEExpress. You are not required to print the ISIR output document exactly as the EDEExpress software prints it. For more information on printing ISIRs, refer to the Printing section in this technical reference.

Changes have been made to the 2011-2012 ISIR printed from EDEExpress based on data element changes on the FAFSA, at the CPS, and at the NSLDS. Along with annual rollover changes, the major changes to the printed ISIR are summarized below:

- **Added High School Information** – We added the High School Name, City, and State fields because of the addition of question 27 to the FAFSA. If the applicant’s high school information is found in the National Center for Educational Statistics (NCES) database high school list the CPS prints the high school name, city, and state on the SAR and ISIR. The High School Code also prints on the ISIR, but not on the SAR. See the Record Layout Changes section earlier in this section of the technical reference for more information on the High School Code.
- **Added High School Flag** – The new High School Flag results print with the other match flag information in the FAA Information section of the ISIR. A “Y” in this field means that the High School information provided by the applicant did not correspond to the information for schools on our High School list. See the Record Layout Changes section earlier in this section of the technical reference for more information on the High School Flag.
- **Added Iraq and Afghanistan Service Grant Information to NSLDS** – We added overpayment and contact information in the NSLDS section of the ISIR with the other overpayment information.

EDE Technical Reference Changes Since the Draft Release in August 2010

Record Layouts

ISIR Record Layout

We made the following changes to the ISIR Record Layout. We also updated the corresponding fields in the Cross Reference table.

- **Revised High School Name Field Justification and Valid Content** – We revised field 30 to be left justified and to include the following valid values in addition to the values previously listed:
 - . (Period)
 - ' (Apostrophe)
 - (Dash)
 - # (Number)
 - @ (At)
 - % (Percent)
 - & (Ampersand)
 - / (Slash)
 - , (Comma)
 - : (Colon)
 - = (Equal)
 - "" (Quotation marks)
 - () (Parenthesis)
- **Revised High School City Justification** – We revised field 31 to be left justified.
- **Revised High School Code Justification** – We revised field 33 to be left justified.
- **Revised Income Threshold in Automatic Zero EFC Field** – We revised field 221, Automatic Zero EFC to change the income threshold from \$30,000 to \$31,000.
- **Revised Verification Tracking Flag Valid Content** – We revised the valid content for field 360, Verification Tracking Flag to “For Federal Student Aid use only.” Alphanumeric values may be included for this field.
- **Added “Overpayment” to New Field Names** – We added “Overpayment” to the field names for fields 378 and 379. The new field names are:
 - NSLDS Iraq and Afghanistan Service Grant Overpayment Flag
 - NSLDS Iraq and Afghanistan Service Grant Overpayment Contact

FAFSA Record Layout

- **Revised High School Name Field Justification and Valid Content** – We revised field 28 to be left justified and to include the following valid values:
 - . (Period)
 - ' (Apostrophe)
 - (Dash)
 - # (Number)
 - @ (At)
 - % (Percent)
 - & (Ampersand)
 - / (Slash)
 - , (Comma)
 - : (Colon)
 - = (Equal)
 - "" (Quotation marks)
 - () (Parenthesis)
- **Revised High School City Justification** – We revised field 29 to be left justified.
- **Changed High School Code to Filler** – We changed field 31, to Filler and changed the justification to left. A school cannot submit the High School code on the FAFSA.
- **Updated Transaction Receipt Date Valid Content** – We changed the valid field content end date for FAFSA field 170, Transaction Receipt date to 10120702.

Correction Export Record Layout

- **Added New Field** –We updated the Correction Export Record Layout to add a new field (positions 571 to 620) to correct the High School Name. The High School Name can be up to 50 bytes so we had to create a new field to allow the user to enter up to 50 characters, much like the e-mail address correction fields. As a result, all subsequent field numbers were incremented.

Getting Help

CPS/SAIG Technical Support

If you have questions regarding this technical reference, contact CPS/SAIG Technical Support. Federal Student Aid maintains this call center to address questions about CPS processing, EDExpress and EDconnect software, SAIG enrollment, and data transmissions, and to collect system enhancement suggestions.

800/330-5947; 319/665-4762; (TDD/TTY 800/511-5806)

Fax: 319/665-7662

Representatives are available Monday through Friday, 8 a.m. to 8 p.m. eastern time (ET).

E-mail: CPSSAIG@ed.gov

FSATECH

FSATECH is an e-mail listserv for technical questions about Federal Student Aid systems, software, and mainframe products.

For more information on subscribing to FSATECH, go to ed.gov/offices/OSFAP/services/fsatechsubscribe.html.

Introduction

This section provides information about codes and messages associated with the Central Processing System (CPS) Electronic Data Exchange (EDE) process. The data specifications provided here will further help you define your system, submit your data, and correct errors or FAFSA data.

Electronic FAFSA

The electronic FAFSA process allows destination points to enter FAFSA data and send it to the Central Processing System (CPS) for processing. The FAFSA data is collected on a paper FAFSA. After the CPS processes the data, the results of the electronic FAFSA are transmitted back to the destination point.

The FAFSA data is submitted in the EAPS12IN message class and processing results are returned in the IDAP12OP message class.

FAA Access to CPS Online allows financial aid administrators (FAAs) to enter and transmit FAFSA information using the Internet. However, schools can choose to develop their own software. The remainder of this section includes specifications for developing software to provide the required electronic FAFSA functions.

Electronic FAFSA Process

The Electronic FAFSA process consists of five steps:

1. The student submits a completed and signed FAFSA to the school.
2. The information on the FAFSA is key-entered.
3. The file is formatted and transmitted to the CPS through the Student Aid Internet Gateway (SAIG).
4. The FAFSA data is edited and corrected until a clean data file is created. The CPS edits the data for inconsistencies. The data elements for each field must be in the valid range with no inconsistencies in the data. For example, if a student indicates a marital status of single, yet provides income earned from work for student and spouse, an edit is triggered at the CPS.
5. The CPS transmits processed FAFSA records back to the destination point as Institutional Student Information Records (ISIRs) under the message class IDAP12OP. A paper Student Aid Report (SAR) is also sent to the student.

Receiving the Completed and Signed FAFSA

Schools participating in electronic application submission must have their students complete and sign the FAFSA. Schools must maintain the required original student signature and, in the case of a dependent student, a signature from one parent whose information is provided on the form.

In the past, schools relied on the paper FAFSA to collect the student's and parent's information and signature. As we continue to encourage use of the electronic application and reduce reliance on the paper FAFSA, we would like to remind you of an alternative for this process of documentation: the PDF FAFSA. Students can download English and Spanish 508-compliant PDF versions of the 2011-2012 FAFSA beginning in late December from the federalstudentaid.ed.gov (federalstudentaid.ed.gov/fafsa_options.html) Web site. Schools can also download the PDF from the FSAPubs (FSAPubs.org) and IFAP ifap.ed.gov Web sites beginning in late December.

Entering and Formatting the FAFSA Information

As part of the FAFSA entry and formatting process, you are responsible for ensuring that the data meets the field-by-field criteria provided in the "Valid Content" column of the FAFSA Application Export Record Layout. The record created by your system or software must adhere to the record layout provided in the Record Layout section with the addition of a Carriage Return/Line Feed (CR/LF, ASCII 13, 10 HEX 0D, and 0A respectively) at the end of each record. Use of an end-of-file mark (ASCII 26 or HEX 1A) is optional. FAFSAs with invalid dates or formats are rejected.

Transmitting the Records

Use EDconnect, the transmission software provided by ED, to format your data records and transmit them over the SAIG.

Mainframe users can use the TDClient software to submit data records. Instructions are provided in the [SAIG Host Communication Guide](#) located on fsadownload.ed.gov.

Receiving Processed Records

You receive your processed FAFSA records in ISIR format in the IDAP12OP message class.

Note: See the Printing section for more information on printing ISIRs.

Rejected FAFSA Records

Instances may occur when the CPS does not accept your records for processing. The CPS returns a rejected electronic FAFSA error report to you in the message class EAPR12OP. The Record Layouts section contains the EDE Record Level Error Report Import Record Layout. The Processing Codes section contains additional information on the reject reasons found in the record layout.

The two categories of rejections for submitted FAFSA records are:

- **Transaction Rejects** – A transaction reject prevents the FAFSA record from being processed. If a record is rejected for one or more reasons, an error report is returned to the school in message class EAPR12OP (see the EDE Record Level Error Report Import Record Layout in the Record Layouts section) and no ISIR is created. These rejects are also known as record-level rejects.
- **Compute Rejects** – The CPS contains a series of edits that evaluate data on incoming FAFSA records for consistency and completeness. These edits apply to all data from electronic and paper input. The CPS does not compute an Expected Family Contribution (EFC) for a FAFSA rejected for a compute reject reason. However, an ISIR is produced. ISIRs with a compute reject are returned in the IDAP12OP message class. The reject reason codes for the compute reject are coded on the ISIR and located in positions 1220 through 1233 on the ISIR. Procedures for responding to the reject codes are found in the “Table of Reject Codes and How to Respond to Each” in the Processing Codes section of this technical reference.

In the paper system, a student can confirm a data field by reentering the same information in the SAR correction column for the field in question. In the electronic process, the school verifies the data (by reentering the data as a “correction”) and transmits the correction record to the CPS. Data that must be verified or corrected in response to each reject reason is provided in the Processing Codes section.

ISIR

The ISIR is a fixed-length record containing reported information from the FAFSA, as well as key processing results including National Student Loan Data System (NSLDS) information, which is located at the end of the ISIR Record Description.

The CPS sends the ISIR electronically to institutions that the student has indicated he or she plans to attend. Generally, all information printed by the CPS on the paper SAR is coded in the ISIR file. Descriptions of the contents of the ISIR are in the Record Layouts section.

Note: The average CPS processing time is between 48 and 52 hours.

ISIR Datamart

The ISIR Datamart is the centralized location that stores ISIR data generated by the CPS. Schools, state agencies, and other authorized users receive ISIR distributions from the datamart through the SAIG when requests are made using the ISIR Request function in FAA Access to CPS Online.

You can establish your school's preferences regarding receiving "daily" ISIR files or requesting ISIR files from the ISIR Datamart on the SAIG Enrollment Web site located at fsaweb enroll.ed.gov.

"Daily" ISIRs and requested ISIRs are described in more detail on the following pages.

ISIR Receipt Types and Message Classes

The CPS generates ISIRs in response to input from students or schools. This includes input such as FAFSAs, FAFSA corrections, and CPS-generated transactions. These ISIRs are categorized in three general ISIR types—daily ISIRs, requested ISIRs, and pushed ISIRs—and are described on the following pages.

Daily ISIRs – IDAP12OP, IDSA12OP, and IGC012OP

Schools can receive "daily" ISIRs or request specific ISIRs or groups of ISIRs from the ISIR Datamart. Daily ISIRs are generated daily in response to FAFSAs or corrections entered by you or at a site other than your school including the following sources:

- Paper FAFSAs or SARs processed by the Image and Data Capture (IDC) processor
- FAFSAs or Corrections on the Web

- FAFSAs or corrections on FAA Access to CPS Online
- Electronic FAFSAs or corrections by another EDE school or third-party servicer

The CPS sends these ISIRs to school destination points in the IDAP12OP, IDSA12OP, and IGCO12OP message classes.

All users, by default, are set up for the daily ISIR distribution preference. This preference can be updated at any time using the SAIG Enrollment Web site (fsawebenroll.ed.gov).

If you select daily receipt of ISIRs, you can also use the datamart as needed to request ISIRs. All ISIR transactions for each student are stored in the datamart and are available for retrieval upon request. The FAA Access to CPS Online Web site enables you to submit requests to the datamart for specific ISIR data based on query criteria.

Daily ISIR data files are stored for retrieval in your SAIG mailbox under current retention and archival guidelines.

Requested ISIRs – ISRF12OP

Requesting ISIRs is a simple process that enables you to receive only the ISIRs you need. You use the ISIR Request feature on the FAA Access to CPS Online Web site (faaaccess.ed.gov) to request ISIRs from the datamart. The CPS returns these ISIRs to the school in the ISRF12OP message class and you will receive one ISIR for every record that meets the ISIR query criteria. You can submit a query request to the datamart for duplicate ISIRs, year-to-date (YTD) files, or federal data request (FDR) files (for state agencies only). You can request the same ISIR as many times as necessary.

Your school must be listed on the specific ISIR transaction you are requesting for the request to be successfully processed.

As queries are run against the datamart, files of requested ISIRs are generated and sent to you through the SAIG. These files must be retrieved from your SAIG mailbox within 14 calendar days, or they will be deleted (and cannot be restored). If this occurs, you can resubmit the same request to the datamart, and the data will be generated and sent to you again.

You can view the request date and request status any time after submitting a request. If the request has been processed, you can also view the request completion date and the number of ISIRs that were sent. You can submit as many query requests to the ISIR Datamart per day as necessary to retrieve the data you require.

Titles must be added to the query requests you submit, and the title you enter is returned in the ISIR file you receive as a result of your request. This will assist you in matching ISIR files to individual requests you have submitted to the datamart. Titles can be up to 50 characters in length.

When you return to FAA Access to CPS Online to enter a new ISIR request, your most recently completed or pending requests are displayed. Rather than creating a new query, you can save time by using a prior query again to request ISIRs, provided the parameters still apply. You may want to modify the title of the request to distinguish it from other requests you have previously submitted.

For your convenience, queries can be set up to run on a future date. For example, you can set a date in the future to receive all ISIRs processed on or before key deadlines at your school or state agency.

If you want your query to run as soon as possible, simply leave the execute date blank and your query will run after the next CPS compute.

Automatically Pushed ISIRs – IGSG12OP and IGSA12OP

Certain ISIR transactions processed by the CPS are automatically distributed (or “pushed”) to you, regardless of the ISIR delivery option selected on the SAIG Enrollment Web site, because they require you to take some sort of action. An example of a pushed ISIR would be a student-initiated correction that causes a change to the EFC.

ISIRs that are generated and automatically distributed to the school are sent in the following message classes:

IGSG12OP

When your Federal School Code is listed on the following types of transactions, a system-generated ISIR is automatically pushed to your school in the IGSG12OP message class:

- CPS reprocessing
- Department of Homeland Security (DHS) automated secondary confirmation
- NSLDS Post-Screening
- Applicant’s SSN is included in the Department of Defense (DOD) file after his or her initial transaction is processed

IGSA12OP

When a correction record processed by the CPS results in one of the following changes on the new transaction, the school that submitted the correction receives the transaction in a daily ISIR file (IGCO12OP), while all other schools listed on the transaction receive a pushed ISIR file (IGSA12OP):

- Reject Status changes (records that change from a rejected status to having a calculated EFC or from having a calculated EFC to a rejected status)
- Verification Status changes (not selected to selected)
- EFC value changes, such as records that now have a higher or lower EFC
- SAR C Code changes

Pushed ISIR data files are stored for retrieval in your SAIG mailbox under current retention and archival guidelines.

Each school subscribing to the “daily ISIR” service receives one ISIR for every student who lists that school on the FAFSA. Regardless of the service for which a school has enrolled, all schools receive “pushed ISIRs.” Servicers receive only one ISIR per destination point. For message class details, state agencies should refer to the state agencies information later in this section.

Important Information about ISIR Files

- **Schools Must Obtain ISIRs for All Eligible Students.** Although the options provided to schools through use of the ISIR Datamart are extensive, we want to remind you that you are obligated to obtain ISIRs for all eligible students who enroll at your school.
- **Develop an ISIR Request Process.** We highly recommend that you develop a process for requesting ISIRs from the datamart that takes into account your ongoing student admissions process, as well as the tracking and monitoring of existing students with paid-on ISIR transactions.
- **Review ALL Pushed ISIRs.** Your school *must* review all pushed ISIRs and assess any potential impact to your students’ aid eligibility, regardless of whether or not you select the “daily” ISIR distribution.
- **Schools Choosing NOT to Receive Daily ISIRs.** Schools that elect not to receive daily ISIRs and instead request specific ISIR transactions from the datamart *must* continue to review ISIR transactions for all enrolled students.

State Agency Options

State agencies can combine processed FAFSA data from the CPS with common loan application data to guarantee federal student loans, or the data can be combined with state data to award state scholarships and grants.

As destination points, state agencies can automatically receive ISIRs from the CPS or request ISIRS from the ISIR Datamart. The message classes used by state agencies for 2011-2012 are listed below.

IDNR12OP	Daily State Agency ISIR Non-Resident
IDRE12OP	Daily State Agency ISIR Resident
IGNR12OP	CPS Pushed State Agency ISIR Non-Resident
IGRE12OP	CPS Pushed State Agency ISIR Resident
ISRF12OP	Requested ISIR Data from the ISIR Datamart

You can set up your ISIR request preference on the SAIG Enrollment Web site, located at fsawebenroll.ed.gov. For more information regarding the Participation Management System, contact CPS/SAIG Technical Support through e-mail at CPSSAIG@ed.gov, or at 800/330-5947.

Electronic Corrections

Schools with destination points enrolled for electronic correction processing can transmit corrections to FAFSA data through FAA Access to CPS Online.

FAA Access to CPS Online allows schools to enter and edit correction data according to the CPS system requirements. Schools, however, can choose to develop their own software or system to enter, edit, and format correction data. We provide specifications for developing correction software in the remainder of this section.

You submit correction data in the CORR12IN message class and the CPS returns the resulting ISIR in the IGC012OP message class.

General Correction Entry Specifications

When you are submitting correction data, only the corrected information from a student's record is transmitted to the CPS, not the complete applicant record. This approach minimizes the transmission volume. Correction information is transmitted as a fixed-length record. The layout and description of this record is in the Correction Export Record Layout (CORR12IN) in the Record Layouts section.

Creating a Correction Record

Follow these steps to create a correction record:

1. In the first position of the record, enter **2** to indicate this is a correction to a 2011-2012 applicant transaction.
2. In positions 2 through 10, enter the applicant's original Social Security Number (SSN). This is the number reported by the applicant on the FAFSA form and does not reflect any corrections to the SSN that might have been made.
3. In positions 11 and 12, enter the first two letters of the applicant's original last name. These are the letters reported by the applicant on the FAFSA form and do not reflect any corrections to the last name that might have been made.
4. In positions 13 and 14, enter the transaction number of the ISIR being corrected. For example, enter **01** to correct the first transaction on file at the CPS. The transaction does not necessarily have to be the latest one on file at the CPS. If the transaction number being corrected is not in the CPS database, the record is rejected. To correct the most recent transaction, enter **99**.

Note: When making a correction using transaction 99, you must also provide corrections to CPS Correction Number (CPS Corr #) 131 (the first Federal School Code), Corr # 172 (DRN), and Corr # 152 (signatures) on the record.

5. In positions 15 through 17, enter the CPS Corr # of the field being corrected. Each correctable field has a three-digit CPS Corr # associated with it. For example, enter **001** to correct the student's last name. We have provided the CPS Corr # with valid content in the Correction Data Entry Specifications Table found in the Processing Codes section.
6. In positions 18 through 52, enter the new value for the field being corrected.
7. Optional: In positions 53 through 470, you can enter or correct other student data fields. See the second note below for more information.
8. Optional: In positions 471 through 520, enter or correct the student's e-mail address.
9. Optional: In positions 521 through 570, enter or correct the parent's e-mail address.
10. Optional: In positions 571 through 620, enter or correct the student's high school name.
11. In positions 621 through 622, enter **1C** for the transaction data source/type code.
12. In positions 623 through 630, enter the transaction receipt date. Enter the date you are making the correction. The CPS will update this information on the ISIR with the date the CPS received this correction.
13. You can set assumption override codes (1 to 6) in positions 631 through 636 and reject override codes for reject 3, 12, 20, A, B, C, G, J, K, N, and W in positions 637 through 647. Leave position 648 blank.
14. In positions 649 through 654, enter the Federal School Code of the school making the correction.

Note: To correct a field to blank, enter a single asterisk (*) left-justified in that field. The Correction Data Entry Specification Table in the Processing Codes section distinguishes which fields you can correct to blank. Not all fields can be corrected this way.

Note: Up to 12 SAR data fields can be corrected on a single record. If you are correcting more than one field, repeat steps 5 and 6 using the remaining data fields on the correction record. If more than 12 fields require correction, you must create an additional record, repeating steps 1 through 13.

Detailed Data Entry Specifications

Each corrected value must meet certain standards; otherwise, the correction record is rejected. We have provided field-by-field data entry specifications in the Processing Codes section of this technical reference. For each field, these specifications identify the type (character, numeric, or signed numeric), the acceptable length, and the valid values for the correction. The specifications also show whether the field is correctable and if it is correctable to blank.

Keep the following items in mind:

- All correction values must be left-justified in the correction record. Use leading zeros, if necessary, to increase the correction value to the valid field length. Leave blank any empty positions to the right. Some correction values do not have a fixed length, although they cannot be longer than the maximum length of the field. For example, to correct the number of family members to five, enter **05** in positions 18 and 19, leaving positions 20 through 52 blank. To correct a student's last name to Smith, enter **SMITH** (in uppercase, as the layout notes) in positions 18 through 22 and leave positions 23 through 52 blank.
- A field content of all nines indicates the reported or calculated value is greater than or equal to the value of all nines. Blanks are allowed in some fields.
- Fields can contain one of three data types: character, numeric, or signed numeric.

A negative entry is acceptable for a limited number of fields. The Correction Data Entry Specifications Table in the Processing Codes section identifies the fields in which a negative is acceptable under the Justify Signed column and the Valid Content column. The signed numeric fields are defined on the next page. In the case of signed numeric fields, the sign is always implied in the right-most character of the field. For example, if the student's adjusted gross income (AGI) is negative 3507, then the value in the record contains 00350P. Because the AGI value does not contain as many bytes as the correction field, the value must have leading zeros. To determine the last digit, use the chart below. Determine if the value is positive or negative and select the corresponding value for the last digit.

The following chart explains the conversion of the sign and the number:

	0	1	2	3	4	5	6	7	8	9
Positive Values	{	A	B	C	D	E	F	G	H	I
Negative Values	}	J	K	L	M	N	O	P	Q	R

Signed Numeric Fields Table

ISIR Field #	CPS Corr #	Field Length	Field Name	Valid Content	Found Only on ISIR
042	038	6	Student's Adjusted Gross Income from IRS form	-999999 to 999999 Blank	N
045	041	6	Student's Income Earned from Work	-999999 to 999999 Blank	N
046	042	6	Spouse's Income Earned from Work	-999999 to 999999 Blank	N
106	100	6	Parents' Adjusted Gross Income from IRS form	-999999 to 999999 Blank	N
109	103	6	Father's/Stepfather's Income Earned from Work	-999999 to 999999 Blank	N
110	104	6	Mother's/Stepmother's Income Earned from Work	-999999 to 999999 Blank	N
233		6	Assumed Student's AGI	-999999 to 999999 Blank = No assumption	Y
235		6	Assumed Student's Income from Work	-999999 to 999999 Blank = No assumption	Y
236		6	Assumed Spouse's Income from Work	-999999 to 999999 Blank = No assumption	Y
252		6	Assumed Parents' AGI	-999999 to 999999 Blank = No assumption	Y
254		6	Assumed Father's/Stepfather's Income Earned from Work	-999999 to 999999 Blank = No assumption	Y
255		6	Assumed Mother's/Stepmother's Income Earned from Work	-999999 to 999999 Blank = No assumption	Y
285		7	TI: Total Income	-9999999 to 9999999 Blank = None Calculated	Y
287		7	STX: State and Other Tax Allowance	-9999999 to 9999999 Blank = None Calculated	Y
290		7	AI: Available Income	-9999999 to 9999999 Blank = None Calculated	Y
291		7	CAI: Contribution From Available Income	-9999999 to 9999999 Blank = None Calculated	Y
292		9	DNW: Discretionary Net Worth	-999999999 to 999999999 Blank = None Calculated	Y
295		7	PCA: Parents' Contribution from Assets	-9999999 to 9999999 Blank = None Calculated	Y

Signed Numeric Fields Table (Continued)

ISIR Field #	CPS Corr #	Field Length	Field Name	Valid Content	Found Only on ISIR
296		7	AAI: Adjusted Available Income	-9999999 to 9999999 Blank = None Calculated	Y
300		7	STI: Student's Total Income	-9999999 to 9999999 Blank = None Calculated	Y
301		7	SATI: Student's Allowance against Total Income	-9999999 to 9999999 Blank = None Calculated	Y
303		9	SDNW: Student's Discretionary Net Worth	-999999999 to 999999999 Blank = None Calculated	Y
304		7	SCA: Student's Contribution from Assets	-9999999 to 9999999 Blank = None Calculated	Y
305		7	FTI: FISAP Total Income	-9999999 to 9999999 Blank = None Calculated	Y
306		7	SEC TI: Secondary Total Income	-9999999 to 9999999 Blank = None Calculated	Y
308		7	SEC STX: Secondary State Tax Allowance	-9999999 to 9999999 Blank = None Calculated	Y
311		7	SEC AI: Secondary Available Income	-9999999 to 9999999 Blank = None Calculated	Y
312		7	SEC CAI: Secondary Contribution From Available Income	-9999999 to 9999999 Blank = None Calculated	Y
313		9	SEC DNW: Secondary Discretionary Net Worth	-999999999 to 999999999 Blank = None Calculated	Y
316		7	SEC PCA: Secondary Parents' Contribution from Assets	-9999999 to 9999999 Blank = None Calculated	Y
317		7	SEC AAI: Secondary Adjusted Available Income	-9999999 to 9999999 Blank = None Calculated	Y
321		7	SEC STI: Secondary Student's Total Income	-9999999 to 9999999 Blank = None Calculated	Y
322		7	SEC SATI: Secondary Student's Allowance Against Total Income	-9999999 to 9999999 Blank = None Calculated	Y
324		9	SEC SDNW: Secondary Student's Discretionary Net Worth	-999999999 to 999999999 Blank = None Calculated	Y
325		7	SEC SCA: Secondary Student's Contribution from Assets	-9999999 to 9999999 Blank = None Calculated	Y
326		7	SEC FTI: Secondary FISAP Total Income	-9999999 to 9999999 Blank = None Calculated	Y

Making Signature Corrections

Signature information is required to resolve signature rejects (rejects 14, 15, and 16). You do not need to provide signature information on other standard corrections unless you are using 99 as the transaction number. If you have a transaction that was a reject 14, 15, or 16, simply correct CPS Corr #152 (Signed By) to A (Applicant) or B (Both = Student and Parent), as appropriate.

If you need to add a signature to a student's record that is on hold for lack of signatures, you must use the layout for Signature Record Export Record Layout (SIGS12IN) found in the Record Layouts section. You can correct the student or parent signature using this layout. You must make sure the student included your school on the FAFSA or correction.

Adding Your Federal School Code to Receive Electronic Data

A school cannot make an electronic correction unless the school has been designated on the applicant transaction. You can add your Federal School Code to the list of schools receiving data electronically and correct other fields on the record by using the Correction Record Layout (CORR12IN).

Follow these steps to add your Federal School Code or to make corrections:

1. In the first position of the record, enter **2** to indicate that this is a correction to a 2011-2012 applicant transaction.
2. In positions 2 through 10, enter the applicant's original SSN. This is the number reported by the applicant on the FAFSA form and does not reflect any corrections to the SSN that might have been made.
3. In positions 11 and 12, enter the first two letters of the applicant's original last name. These are the letters reported by the applicant on the FAFSA form and do not reflect any corrections to the last name that might have been made.
4. In positions 13 and 14, enter the transaction number of the ISIR being corrected. For example, enter **01** to correct the first transaction on file at CPS. The transaction does not necessarily have to be the latest one on file at the CPS. If the transaction number being corrected is not in the CPS database, the record is rejected. You can use transaction 99 to add your school code to the most recent transaction in the CPS database. Note: You cannot add your school code to a transaction that includes a professional judgment performed by another school.
5. Enter **172** in the CPS Correction Number Correction #1 field, positions 15 through 17 (corresponding to the CPS Corr #172, the Data Release Number [DRN]).

6. Enter the student's DRN in Correction Data 1 field, positions 18 through 52. Remember to left-justify it and leave any unused bytes blank.

Note: The CPS has assigned a unique DRN to each Title IV applicant. The DRN appears on paper SARs and confirmation pages for FAFSA on the Web transactions. If a valid DRN is not present on the correction record containing the Federal School Code change, the record is rejected.

7. Enter the CPS Corr # associated with the Federal School Code position being changed in the CPS Correction Number – Correction #2 field, positions 53 through 55. Possible field numbers are 131, 133, 135, 137, 139, 141, 143, 145, 147, and 149.
8. Enter the Federal School Code in the Correction Data 2 field positions 56 through 90. Remember to left-justify it and leave any unused bytes blank.

You can only change the Federal School Code to the number of the participating EDE school submitting the correction. You also must enter this number in the EDE Federal School Code field, positions 599 through 604. If the codes in these two fields do not match, the record is rejected.

Schools can modify the Federal School Code and make other corrections to the applicant record on the same correction transaction.

9. Optional: In positions 471 through 520, enter or correct the student's e-mail address.
10. Optional: In positions 521 through 570, enter or correct the parent's e-mail address.
11. Optional: In positions 571 through 620, enter or correct the student's high school name.
12. In positions 621 through 622, enter **1C** for the transaction data source/type code.
13. In positions 623 through 630, enter the transaction receipt date (the date you are making the correction). The CPS will update this information on the ISIR with the date the CPS received this correction.
14. You can set assumption override codes (1 to 6) in positions 631 through 636 and reject override codes for reject 3, 12, 20, A, B, C, G, J, K, N, and W in positions 637 through 647. Leave position 648 blank.
15. In positions 649 through 654, enter the Federal School Code of the school making the correction.

Tips for Corrections

When you submit an ISIR correction to the CPS, we use the transaction number you provide in positions 13 and 14 as a template. We make changes to the fields you indicated, leaving other fields unchanged. Your Federal School Code must be one of the ten listed, but it does not have to be the first college choice on the transaction to be processed by the CPS. You receive the processed results in the IGC012OP message class.

Only 30 transactions can be created for a student's record. After 30 transactions have been created, the record is frozen, and we do not permit any corrections to the record.

If you are submitting a dependency override or professional judgment (EFC recalculation) as part of the correction record, only your school receives the resulting corrected ISIR transaction. Also, do not send a dependency override correction with a professional judgment to a transaction without an EFC. If the transaction has no EFC, first send the dependency override with any other corrections necessary to obtain an EFC. Then submit the professional judgment to the transaction with the dependency override and the EFC. When submitting a professional judgment, you must submit a correction to at least one field that affects the EFC calculation.

Rejected Correction Records

The two categories of rejections for submitted correction records are:

- **Transaction Rejects** – A transaction reject prevents the correction record from being applied to the student's record. If a record is rejected for one or more reasons, the school receives an error report in message class CORE12OP (see EDE Record Level Error Report Import Record layout in the Record Layouts section). No ISIR is created.
- **Compute Rejects** – The CPS contains a series of edits that evaluate all incoming FAFSA and correction data for consistency and completeness. These edits apply to all data from electronic, Web, and paper input. The CPS does not compute an EFC for a correction rejected for a compute reject reason. However, an ISIR is produced. Correction ISIRs with a compute reject are returned in the IGC012OP message class. The reasons for the compute reject are coded on the ISIR in Reject Reason Codes field, positions 1220 through 1233. Refer to the Processing Codes section for information on interpreting these reject codes.

In the paper system, a student can confirm a data field by reentering the same information in the SAR correction column for the field in question. In the electronic process, the school can confirm the data (reenter the data as a "correction") or set the appropriate reject override (found at the end of the CORR12IN Record Layout in positions 637 through 647) and transmit the correction record to the CPS. Data that must be verified or corrected in response to each reject reason is provided in the Processing Codes section.

Introduction

This section provides all the record layouts you need to create your own software to participate in the Electronic Data Exchange (EDE) process.

Request Title in ISIR Files

To identify the group of ISIRs belonging to your datamart requests, a request title for each query is returned in the resulting ISIR file sent to your school. The title appears as the first detail line in the ISIR file after the SAIG header record. The title is in positions 1 to 50. Positions 51 to 4250 are blank.

In addition, to ensure that the ISIR data from the CPS for all ISIR records is consistent with your school's software, this request title is part of the daily and pushed ISIR files you receive. For these ISIR files, the first detail line contains all blanks in positions 1 to 4250. Examples are listed below.

ISIRs received as a result of a datamart request

Line 1: O*N05 record (SAIG header record)

Line 2: Request Title (up to 50 bytes of description from the datamart query)

Line 3: First ISIR record meeting request query

Line 4: Second ISIR record meeting request query

Line 5: O*N95 record (SAIG trailer record)

ISIR received as part of daily ISIRs or pushed ISIRs

Line 1: O*N05 record (SAIG header record)

Line 2: Blank line

Line 3: First ISIR record sent to your school

Line 4: Second ISIR record sent to your school

Line 5: O*N95 record (SAIG trailer record)

Introduction

This section provides tables of codes, messages, and data specifications to assist you in defining your system, submitting your data, and correcting errors or FAFSA data, as well as other processing codes associated with the Central Processing System (CPS) Electronic Data Exchange (EDE) process.

A summary of the tables in this section appears below:

2011-2012 ISIR Cross-Reference

This cross-reference table compares the 2010-2011 Institutional Student Information Record (ISIR) field number, start position, and end position with the 2011-2012 ISIR field number, start position, and end position. It also lists the field values (for each field) that have changed from the last award year.

Table of Reject Codes and How to Respond to Each Code

Use this table to determine the meaning of reject codes on a Student Aid Report (SAR) or ISIR. The table outlines how to correct each reject and references comment code numbers associated with the rejects.

Transaction Reject Error Messages

This table reports the Record Reject codes (3 to 16) and the Transmission Error codes (17 to 18). The table lists the actual text for each reject code, a description of the error, and a resolution for each error. The record error messages indicate that the individual student record was not processed. You must fix any student record with a record error message and send it to the CPS again for processing to generate another ISIR. Transmission errors are problems with the transmission of the records.

Assumption Overrides

This table associates the override codes with the assumption the CPS is making during processing. It also explains what happens if you use this code and provides an example of when you would use this code.

Field Name and Position Cross-References

Use this table to determine which fields were verified or corrected in the previous transaction or which fields are highlighted on the ISIR. It also defines the field positions for the SAR field, the FAFSA field name, and the question number on the FAFSA.

NSLDS Loan Program Codes

Use the codes in this table to identify loan program types sent by NSLDS on ISIRs. These codes are described in the six NSLDS Loan Program Code fields in the ISIR Record Description/Data Dictionary found in the Record Layouts section of this technical reference.

NSLDS Loan Current Status Codes

Use the codes in this table to determine the current loan status information sent by NSLDS on the ISIR. These codes are described in the six NSLDS Loan Current Status fields in the ISIR Record Description/Data Dictionary found in the Record Layouts section of this technical reference.

State/Country/Jurisdiction Codes

Use the codes in this table to determine the valid state abbreviations used for the following fields, which are found in various record layouts in this technical reference:

- Student's Permanent State
- Student's Driver's License State Code
- Student's State of Legal Residence
- High School State
- Parents' State of Legal Residence

Correction Data Entry Specifications

You can use this table in conjunction with the Correction Export Record Layout found in the Record Layouts section. The table defines the CPS Correction Number and field length. It defines the valid data to send for each field on a correction record. The table also indicates if the CPS Correction Number field is a signed value, the justification of the field, and if the field can be corrected to blank.

Message Classes

This table lists the message classes associated with application processing.

Comment Codes

This section describes where to find information about changes to the SAR comments for 2011-2012.

2011-2012 ISIR Cross-Reference

2010-2011 ISIR Field Data				2011-2012 ISIR Field Data				
Name	#	Start	End	Name	#	Start	End	Changes
Request Title		1	4150	Request Title		1	4250	Increased record length from 4150 bytes to 4250 bytes

Table of Reject Codes and How to Respond to Each

Reject Code	Reject Reason	Action	Comment Code
*A	Date of birth year equals 1900 through 1936	Confirm (reenter the same value) or correct the Date of Birth.	069
*B	Independent student and date of birth equals 09/01/95 or greater, and date of birth is not equal to or greater than current year	Confirm (reenter the same value) or correct the Date of Birth.	072
*C	Taxes Paid is greater than zero and greater than or equal to a fixed percentage of the AGI, but not equal to or greater than AGI. (Parent or Independent Student)	Confirm (reenter the same value) or correct taxes paid and adjusted gross income.	154, 155
D	Student's SSN match, but no name match	Confirm (reenter the same value) student's first and last name.	061
E	Father's SSN match, but no name match	Confirm (reenter the same value) father's last name and first initial.	040
F	Mother's SSN match, but no name match	Confirm (reenter the same value) mother's last name and first initial.	051
*G	Taxes Paid is greater than zero, and greater than or equal to a fixed percentage of the AGI, but not equal to or greater than AGI. (Dependent Student)	Confirm (reenter the same value) or correct taxes paid and adjusted gross income.	153
*J	Father's SSN contains all zeroes and reported as a tax filer	Confirm (reenter the same value) for the father's SSN.	**083
*K	Mother's SSN contains all zeroes and reported as a tax filer	Confirm (reenter the same value) for the mother's SSN.	**084
*N	Missing first or last name	Correct the student's last name or first name or confirm (reenter the same value) a blank first or last name field if the student actually has only one name.	080
P	Invalid SSN range	Confirm (reenter the same value) or correct the student's current SSN.	023
R	Student's Social Security Match, but no date of birth match	Confirm (reenter the same value) or correct the student's date of birth.	060

*These reject codes are the same as the Reject Override Codes.

** If both rejects J and K are on the ISIR, comment codes 083 and 084 are suppressed and replaced with comment code 164.

Table of Reject Codes and How to Respond to Each (Continued)

Reject Code	Reject Reason	Action	Comment Code
S	Father's Social Security Match, but no date of birth match	Confirm (reenter the same value) or correct the father's date of birth.	016
T	Mother's Social Security Match, but no date of birth match	Confirm (reenter the same value) or correct the mother's date of birth.	017
*W	Unusually high number of family members	If the student is dependent, confirm (reenter the same value) or correct Parents' Number of Family Members. If the student is independent, confirm (reenter the same value) or correct Student's Number of Family Members.	178, 179
1	The simplified needs test is not met and all asset data is blank	If the student is dependent, provide the following: Student's Cash, Savings and Checking, Student's Real Estate/Investment Net Worth, Student's Business/Investment Farm Net Worth, Parents' Cash, Savings, and Checking, Parents' Real Estate/Investment Net Worth, and Parents' Business/Investment Farm Net Worth. If the student is independent, provide the following: Student's Cash, Savings and Checking, Student's Real Estate/Investment Net Worth, and Student's Business/Investment Farm Net Worth.	150, 151
2	Incomplete FAFSA	If the student is dependent, provide parents' taxed and untaxed income. If the student is independent, provide student and spouse (if married) taxed and untaxed income.	129, 130
*3	Student's Taxes Paid is greater than zero and equal to or greater than AGI	Correct student's taxes paid or AGI.	114, 152
4	Student's marital status is greater than the date the application was signed	If the student's marital status date is after the date the application was originally signed, correct the marital status to single.	62
5	Missing or invalid Date of Birth	Correct the student's date of birth.	018

*These reject codes are the same as the Reject Override Codes.

Table of Reject Codes and How to Respond to Each (Continued)

Reject Code	Reject Reason	Action	Comment Code
6	Father's Social Security Number was not matched with the Social Security Administration	Correct the SSN for the father. Also review and correct the name and/or date of birth for mother and/or father to achieve a full match for at least one parent.	011
7	Mother's Social Security Number was not matched with the Social Security Administration	Correct the SSN for the mother. Also review and correct the name and/or date of birth for mother and/or father to achieve a full match for at least one parent.	012
8	SSN match with Date of Death	Contact the Social Security Administration to fix the error at SSA. Then reenter name or date of birth and submit as a correction for an updated SSA Match.	076, 140, 145
9	Dependent student and one of SSN, last name, and Date of Birth are missing for both parents	Correct the SSN, name, and/or date of birth for mother and/or father to achieve a full match for at least one parent.	049
10	Missing marital status and number of family members	If the student is dependent, review and correct Parents' Marital Status and Parents' Number of Family Members. If the student is independent, review and correct Student's Marital Status and Student's Number of Family Members.	168, 169
11	Marital Status inconsistent with reported incomes	If the student is dependent, review and correct at least one of the following: either Parents' Marital Status, or Father's/Stepfather's Income From Work and Mother's/Stepmother's Income From Work. If the student is independent, review and correct at least one of the following: either Student's Marital Status or Student's Income Earned From Work and Spouse's Income Earned From Work.	089, 099
*12	Parents' Taxes Paid is greater than zero and equal to or greater than AGI	Correct parents' taxes paid or AGI.	111
13	Missing Name	Provide the following: Student's Last Name and/or Student's First Name, or confirm a blank first or last name field if the student actually has only one name.	082

*These reject codes are the same as the Reject Override Codes.

Table of Reject Codes and How to Respond to Each (Continued)

Reject Code	Reject Reason	Action	Comment Code
14	Missing student signature on paper FAFSA or SAR	Signature correction must be made on a printed Student Aid Report certification page and resubmitted to the FAFSA Processor or can be corrected electronically.	160
15	Missing parent signature on FAFSA or SAR	Signature correction must be made on a printed Student Aid Report certification page and resubmitted to the FAFSA Processor or can be corrected electronically.	108
16	Missing student signature on Web application	Signature correction must be made on a printed Student Aid Report certification page and resubmitted to the FAFSA Processor or can be corrected electronically.	110, 285
17	Citizenship status left blank and SSA did not confirm citizenship status or applicant reported not a citizen or eligible noncitizen	Provide the citizenship status with the alien registration number if appropriate.	068
18	SSN not on Social Security Administration's database	Correct the Social Security Number. If the SSN is already correct, contact the Social Security Administration to fix the error in their records. Then reenter SSN and submit as a correction for an updated SSA Match.	024
19	An EFC cannot be calculated because the Department of Justice has placed a 'hold' on the student	Student needs to call 202-377-3889 to resolve comment 009.	009
*20	A non-tax filer is reporting an income that is above the IRS filing requirement	<p>If the student is dependent, review and correct at least one of the following: Student's tax return status or student's income or Parents' tax return status or income for the father and mother.</p> <p>If the student is independent, review and correct at least one of the following: Student's tax return status or income for the student and spouse.</p>	126, 131

*These reject codes are the same as the Reject Override Codes.

Transaction Reject Error Messages

Error Code	Error Message	Error Resolution and/or Description
03	Not Found on Database	SSN and Name ID are invalid or do not match record on database.
04	School Code Not On Record	Requesting institution is not listed on database record and is not included in the correction record
05	DRN Number Missing or Invalid	Requesting school is not listed on database record and is included in the correction record with the applicant's incorrect DRN.
06	School Code Already on Record	The only correction being made is to your Federal School Code, which is already listed on this record. If nothing else needs to be corrected you do not need to send this record again. If you have other corrections to this record, make them and send the record again without your school code.
07	Invalid Transaction Number	Blank or invalid transaction number
09	Too Many Transactions	Transaction number is greater than 30. Call the regional office of the Department of Education for instructions.
10	Previous Application Already on CPS Database	FAFSA with the same SSN and Name ID is already on file on the CPS match record on database.
11	(Various messages; invalid data displayed on error file)	Out of range or invalid value in data field. Review the valid field content in this technical reference, and compare it to the data you submitted to the CPS.
12	(No message) Or SSN Missing or Invalid	Incorrect field number or missing field number. Confirm that field number used was valid on your record. Or The SSN is missing or not in the valid range.
13	Corr Yr not 2	Year Indicator not equal to 2.
14	Data Type Does Not Match Message Class	Data Type does not match Message Class. Confirm that the data in the file is being sent in the correct message class.
15	Invalid EDE School Number	School not participating
16	School Code Not Serviced by Destination	School not valid for destination point
17	Invalid Destination Number	Destination invalid or not participating
18	Invalid Message Class	Invalid Message Class

Assumption Overrides

Assumption Override	Assumption Made When Override Flag Is Not Present	Results Of Setting Override Before Sending Data Triggering Assumption	Situation
1	Parents' number in college assumed to be 1.	Allow number in college to be greater than 6.	The parents' number of family members does not equal the number in college. The parents' number of college students in the household equals 7 or more.
2	Parents' AGI assumed equal to the sum of the father's/stepfather's and mother's/stepmother's income earned from work.	Allow parents' AGI to be zero if blank or zero is entered.	Parents' AGI is blank or zero. Tax return status is filed, will file, or blank. Father's/stepfather's income from work or mother's/stepmother's income from work is positive or negative.
3	Student's number in college assumed to be 1.	Allow number of family members to be equal to the number in college when they are equal and greater than 2.	The independent student's number of family members equals 3 or more. The number of college students in household is the same value.
4	Student's AGI assumed to be equal to the sum of the student's and spouse's income earned from work.	Allow student's AGI to be zero if blank is entered.	The student's AGI is blank or zero. Tax return status is filed, will file, or blank. Student's income from work or spouse's income from work is positive or negative.

Assumption Overrides (Continued)

Assumption Override	Assumption Made When Override Flag Is Not Present	Results Of Setting Override Before Sending Data Triggering Assumption	Situation
5	Parents' Additional Income calculated from FAFSA question 91 is assumed to be zero.	Allow parents' income calculated by CPS from the Additional Income FAFSA question to be greater than zero and greater than a fixed percentage of the parents' total income.	<p>Parents' calculated 2010 tax status equals filed. Income calculated by CPS from the Additional Income FAFSA question is greater than a fixed percentage of parents' AGI plus parents' total from CPS calculated value for untaxed income.</p> <p>Parents' calculated 2010 tax status equals non-tax filer. CPS calculated value for Additional Income from is greater than a fixed percentage of father's/stepfather's income from work, mother's/stepmother's income from work, and parents' total from CPS calculated value for untaxed income.</p>
6	Student's Additional Income calculated from FAFSA question 43 is assumed to be zero.	Allow student's income calculated by CPS from the Additional Income FAFSA question to be greater than zero, and equal or greater than student's total income.	<p>Students calculated 2010 tax status equals filed. Income calculated by CPS from the Additional Income FAFSA question is greater or equal to student's AGI, and student's total from CPS calculated value for untaxed income.</p> <p>Students calculated 2010 tax status equals non-filer. Income from calculated by CPS from the Additional Income FAFSA question is greater than or equal to student's income earned from work, spouse's income from work, and student's total from CPS calculated value for untaxed income.</p>

Printing ISIRs

You are not required to print an Institutional Student Information Record (ISIR) output document. If you choose to print an ISIR, it does not need to print exactly as the Department of Education's (ED's) software, EDEExpress, prints it.

You can print additional information on the ISIR, such as ISIR fields that EDEExpress does not print on the ISIR. The table "ISIR Fields Not Printed on the ISIR" contains those fields and is included in this section of the technical reference. An example of an ISIR printed from EDEExpress is included at the end of this section for your reference.

Note: Changes to the EDEExpress 2011-2012 ISIR report may occur following the publication of this section. If this occurs, we will update the ISIR sample and repost the Printing section of the *2011-2012 EDE Technical Reference*.

The following information describes how EDEExpress prints values. We have provided it to assist schools and state agencies in printing the data on an ISIR.

Printing Assumed Values

Assumed Values reflect suppositions the Central Processing System (CPS) has made in determining the applicant's Expected Family Contribution (EFC). The CPS makes assumptions when the applicant does not report certain information that is necessary for the EFC calculation or when the applicant reports inconsistent information. (Some unreported information results in a rejected transaction rather than assumptions.) The CPS uses the assumed value when calculating the EFC.

For certain fields, the only assumption the CPS ever makes is zero, so these assumption fields on the ISIR contain zeros (for example, ISIR field 234, Assumed Student's U.S. Tax Paid). On the ISIR, EDEExpress prints an asterisk (*) to the left of the field title to indicate that the CPS made an assumption and the assumed value must print in place of the reported value.

If a field is both assumed and highlighted, EDEExpress prints an asterisk (*) to the left of the field title. For more information on highlighted fields, see the "Printing Highlight Flags" information later in this section. Positions 1272 through 1346 of the ISIR all contain CPS assumption fields.

Printing Intermediate EFC Values

An intermediate EFC is a value used during the EFC calculation process. EDEExpress prints the intermediate EFC values as calculated by the formula type.

FAFSA Data Verify Flags

FAFSA Data Verify Flags are found on the ISIR (positions 2274 through 2468.) Each FAFSA Data Verify Flag byte corresponds to a specific Student Aid Report (SAR) field and indicates fields corrected to the same value on the transaction being corrected. Refer to the Field Name and Position Cross-References Table in the Processing Codes section.

If a field was verified as the same data as the transaction being corrected, the FAFSA Data Verify Flag contains a value of 1. A value of 0 (zero) signifies that this field was not corrected to the same value, and a value of 2 means the CPS has asked that the field be verified.

EDEExpress does not print these flags on the ISIR. These flags were added at the request of third-party servicers to assist them when doing correction edits.

Printing Correction Flags

Correction flags on the ISIR (positions 1854 through 2048 on the ISIR layout) indicate changes to FAFSA data processed by the CPS. Refer to the Field Name and Position Cross-References Table in the Processing Codes section.

If a field was corrected on the current transaction, the correction flag contains a value of 1. If a field was corrected on a previous transaction, the correction flag contains a value of 2. All other correction flag fields contain a value of 0.

EDEExpress prints a pound symbol (#) on the ISIR to the right of the field variable that was corrected on the most current transaction and prints an at symbol (@) to the right of the field variable that was corrected on a previous transaction.

Correction flags are cumulative (the flag is carried on all subsequent transactions).

On the ISIR, EDEExpress does not actually print the data in this field. Rather, it uses this data to determine which fields have a pound symbol (#) or an at symbol (@) printed to the right of the field variable to show that the field has been corrected from the original application.

Printing Highlight Flags

Highlight flags on the ISIR (positions 2064 through 2258 on the ISIR layout) indicate data highlighted in bold on the SAR, based on FAFSA data processed by the CPS. Refer to the Field Name and Position Cross-References Table in the Processing Codes section. These fields are highlighted and provide a comparison reference between the SAR question number and ISIR field position.

Any field containing a highlight flag contains a value of 1. All other highlight flag fields contain a value of 0.

On the ISIR, EDEExpress prints the letter “h” to the left of the field title that was highlighted. If the field is both highlighted and assumed, an asterisk (*) prints to the left of the field title instead of an “h.”

EDEExpress does not actually print the data in this field. Rather, it uses this data to determine which fields print an *h* to the left of the field title to show that the field was highlighted.

Rejected ISIRs

Applications and corrections submitted to the CPS, regardless of the input type or source, can be rejected for incomplete, illogical, or inconsistent data.

An EFC is not computed for a rejected application transaction. Transactions can be rejected for multiple reasons. Up to seven one-character or two-character reject reason codes are carried on the ISIR.

The reject reason codes and resolution in response to each reject reason are described in the Table of Reject Codes and How to Respond to Each subsection within the Processing Codes section.

Comments

Up to 20 three-digit numbers can appear on the ISIR, indicating which comments would appear on pages one and three of a SAR. Some comments contain critical information regarding the student’s status. The comment text that prints on the ISIR can be found in the *2011-2012 SAR Comment Codes and Text* document found on the Information for Financial Aid Professionals (IFAP) Web site located at ifap.ed.gov, as well as the Federal Student Aid Download (FSAdownload) Web site located at fsadownload.ed.gov.

Note: As part of the 2008-2009 SAR redesign process, the decision was made to remove the text for comment codes 047, 050, 112, 149, 158, 159, 170, and 171 from the paper SAR comments section on page three and instead to present the information contained in these comments as variable text in the appropriate section on the first page. Comment text for these comments display on the Web only.

Because the text for these comments was replaced with variable text on the SAR and SAR Acknowledgement, we do not display or print the text on an ISIR printed from the EDEExpress for Windows software. Note, however, that the comment code numbers are included in the ISIR file and are displayed in the FAA Information section of the printed ISIR. Schools using EDEExpress still have the ability to query their databases using these comment code numbers.

NSLDS Page

The ISIR contains NSLDS information. EDEExpress only stores the most recent NSLDS transaction. As a result, when the ISIR is printed from EDEExpress, the transaction number for the student's NSLDS record may not match the transaction number of the ISIR being printed. You should always print the NSLDS information with the highest transaction number, regardless of the transaction number of the ISIR being printed.

Field Types

Fields can contain one of three types of data: character, numeric (N), or signed numeric (S/N). A content of all nines in a field indicates that the reported or calculated value is greater than or equal to the value of all nines. Blanks are allowable in some S/N and N fields.

With S/N fields, the sign is always implied in the right-most character of the field. For example, if the Student's Adjusted Gross Income field contains a value of negative 3507, it would appear as 00350P. The following chart explains the conversion of the sign and the number:

Signed Numeric Fields:

	0	1	2	3	4	5	6	7	8	9
Positive Values	{	A	B	C	D	E	F	G	H	I
Negative Values	}	J	K	L	M	N	O	P	Q	R

Note: All signed fields print an extra byte.

Other Field Notes

When the “Student Is Selected for Verification” field in position 2712 on the ISIR layout is filled, EDEExpress prints the value. If the value contains a Y, then an asterisk (*) is printed next to the EFC.

Additionally, EDEExpress does not print the value in the Electronic Federal School Code Indicator field. Instead, it prints the Federal School Code number associated with the value. For example, if the Electronic Federal School Code Indicator equals 3, EDEExpress prints the value for the Federal School Code #3 field.

2011-2012 Institutional Student Information Record

Student ID 999-99-9999 XX 99 EFC 9999 X
Last Name XXXXXXXXXXXXXXXX

READ, SIGN, AND DATE

If you are the student, by signing this application you certify that you (1) will use federal and/or state student financial aid only to pay the cost of attending an institution of higher education, (2) are not in default on a federal student loan or have made satisfactory arrangements to repay it, (3) do not owe money back on a federal student grant or have made satisfactory arrangements to repay it, (4) will notify your college if you default on a federal student loan, and (5) will not receive a Federal Pell Grant from more than one college for the same period of time.

If you are the parent or the student, by signing this application you agree, if asked, to provide information that will verify the accuracy of your completed form. This information may include U.S. or state income tax forms that you filed or are required to file. Also, you certify that you understand that the Secretary of Education has the authority to verify information reported on this application with the Internal Revenue Service and other federal agencies. If you sign any document related to the federal student aid programs electronically using a Personal Identification Number (PIN), you certify that you are the person identified by the PIN and have not disclosed that PIN to anyone else. If you purposely give false or misleading information, you may be fined \$20,000, sent to prison, or both.

Everyone whose information is given on this form should sign below. The student (and at least one parent, if parent information is given) MUST sign below.

Student _____ Date: _____
