**U.S. Department of Education**

# Table of Contents

# Overview

## Preface

The FISAP Technical Reference 2013-2014 provides programmer specifications and record layouts for your school and for other organizations that need to design software systems to interface with the U.S. Department of Education's (ED's) FISAP processor. The technical system information in this document allows you to build your own system in order to prepare a FISAP data file that can be uploaded to the FISAP on the Web.

This technical reference provides a current snapshot of the system modifications for the upcoming processing year and contains the following sections:

- Overview

- Implementation Guide

- Record Layouts

Keep in mind that further changes to the technical reference may occur as we proceed with implementation.

If you have any questions regarding the information contained in this document, please contact the Campus-Based Call Center at 1-877-801-7168.

# Implementation Guide

## Introduction

This section assists you as a custom school, third-party servicer, or software provider with implementing system changes for the 2013-2014 FISAP cycle. These changes will enable you to create FISAP data files for upload to the FISAP on the Web. This guide provides

- 2013-2014 Modifications at a Glance

- Uploading to the FISAP Management Section

- Batch Edit/Reject Codes (including what each error message means and how to fix it)

Keep in mind that further changes to the technical reference may occur as we proceed with implementation.

If you have questions regarding the material in this document, please call the Campus-Based Call Center between the hours of 8 a.m. and 8 p.m. (ET) at 1-877-801-7168 or send email to CBFOB@ed.gov.

# 2013-2014 Modifications at a Glance

No new fields have been added to the FISAP. However two fields have been deleted, some text has been modified and date references have been incremented. Field numbering has been revised to reflect the deletion of fields. Additionally, edit information has been added to specific fields described below. If a school uses the FISAP upload feature in the eCB System, please fully review the Technical Reference.

Record Layout Changes:

- Field 73 - Part II, Section E, Field 23: Total Federal Pell Grants expenditures for the 2011-2012 award year. Because ACG and SMART Grants are no longer available, fields 74 and 75 (formerly Part II, Section E, Fields 23(b) and 23(c) on the FISAP have been removed and field 73 has been relabeled.

- Field 74 – Removed (see explanation in Field 73 above). Field numbering has been revised.

- Field 75 – Removed (see explanation in Field 73 above). Field numbering has been revised.

Additions to Edit Information:

- Field 31 – Entry edit information has been added.

- Field 32 – Entry edit information has been added.

- Field 33 – Entry edit information has been added.

- Field 34 – Entry edit information has been added.

- Field 36 – Entry edit information has been added.

- Field 74 – Entry edit information has been added.

- Field 75 – Entry edit information has been added.

- Field 343 – Entry edit information has been added.

- Field 345 – Entry edit information has been added.

# Uploading to the FISAP File Upload Section

The FISAP Upload function allows you to upload a file to the eCB Web site. This process will greatly reduce keying errors if you are a school or servicer that can extract data from your data systems. The file used for the upload must follow the format described in the current year record type. A single file upload can contain multiple records, and any file name can be used for that upload file.

To access the FISAP Upload function,

- (If you are a servicer, select/change to the school you wish to upload.)
- select Setup from the top menu,
- select FISAP Upload,
- enter complete file name with drive and directory path, and
- select upload file.

The system will inform you if the process was successful. (If it was and you are a servicer, continue with the next school.) Data errors will cause the upload to fail; if you encounter these errors, please recheck the contents of each field and ensure that it follows the criteria outlined in the FISAP Technical Reference. If you continue having problems, please contact the Campus-Based Call Center at 1-877-801-7168 for assistance.

## Batch Edit/Reject Codes

| Edit Code | Message | What It Means | How to Fix it |
|---|---|---|---|
| 101 | Missing 01 Record | The data record received has no valid Record Type 01 – Current/Edit FISAP File. | Recreate batch to include a valid 01 record. |
| 102 | Missing OPEID Number in Current/Edit FISAP File record (Record Type 01) | Campus-based OPEID Number in Record Type 01 is missing or non-numeric. | Resubmit batch with valid campus-based OPEID Number. Campus-based OPEID Numbers are 8 digits with the last 2 digits as 00. |
| 103 | OPEID number does not match in 01 Record | The OPEID number in the 01 record does not match (based on campus-based records). | Verify the correct OPEID number. Call FISAP Technical Support at 877/801-7168 to verify OPEID if unable to correct problem. |
| 104 | Invalid Record Type | Batch contains a record with an invalid or missing record type. 01 is a valid record type. | Resubmit batch with all records assigned a valid record type. |
| 115 | Invalid Record Type | Batch contains a record with an invalid or missing record type | Resubmit batch with all records assigned a valid record type. Valid record type is 01. |
| 116 | Invalid OPEID | Batch contains a record with OPEID all zeros or no OPEID match found in campus-based records. | Resubmit batch with valid campus-based OPEID number. Campus-based OPEID numbers are 8 digits with the last 2 digits as 00. |
| 117 | Invalid Year Identifier | Batch contains a record with a year identifier that is not valid. Valid Year Identifier is Y. | Resubmit batch with valid year identifier. Valid year identifier is Y. |
| 118 | Invalid record length | Batch contains a record with invalid record length. Valid record length is 4343. | Resubmit batch with valid record length. |
| 119 | OPEID does not match TG number. | Batch contains a record that is not a valid OPEID for the TG number. | Verify the correct OPEID and resubmit the batch. |
