## DEPARTMENT OF ENERGY

### Federal Energy Regulatory Commission

[Docket No. EL95-55-000, et al.]

### Plains Electric Generation and Transmission Cooperative, Inc., et al.; Electric Rate and Corporate Regulation Filings

June 20, 1995

Take notice that the following filings have been made with the Commission:

### 1. Plains Electric Generation and Transmission Cooperative, Inc. ) v. Public Service Company of New Mexico

[Docket No. EL95-55-000]

Take notice that on June 13, 1995, Plains Electric Generation and Transmission Cooperative, Inc. (Plains) filed a complaint under Section 206 of the Federal Power Act (FPA), 16 U.S.C. 824e, alleging that the rates currently being charged by Public Service Company of New Mexico (PNM) for firm, point-to-point transmission service under Service Schedule G to the PNM-Plains Master Interconnection Agreement and the Agreement for Electric Service between PNM and Plains are unjust, unreasonable or otherwise unlawful. Plains further requests that the Commission institute an investigation and hearing into the justness and reasonableness of rates charged under Service Schedule G and the Agreement for Electric Service, determine just and reasonable rates and establish a refund effective date not later than sixty days after the filing of Plains' complaint.

PNM's currently effective rates at issue in Plains' complaint were accepted for filing as to Service Schedule G in Docket No. ER87-360-000 on July 6, 1987 (as extended in Docket No. ER95-329-000, accepted for filing on February 27, 1995), and as to the Agreement for Electric Service in Docket No. ER91-644-000 on October 18, 1991. Plains estimates that PNM's maximum just and reasonable rate for firm, point-to-point transmission service under the referenced agreements should be approximately 45 percent less than PNM's currently effective rates. Based largely on data taken from PNM's Form 1 report for 1994, Plains has performed an initial transmission rate analysis using the leveled fixed charge rate methodology, and claims that the maximum just and reasonable rates for firm, point-to-point transmission service under the referenced agreements should not exceed \$1.34 per Kw-month.

*Comment date:* July 20, 1995, in accordance with Standard Paragraph E at the end of this notice.
