**SUPPLEMENTARY INFORMATION:****Background**

The Secretary is proposing to amend 34 CFR Part 682 of the Department's regulations to adopt certain policies and procedures that have been used in the Direct Loan Program.

On October 7, 1994, the Secretary published a Notice of Proposed Rulemaking (NPRM) in the Federal Register (59 FR 51346) proposing changes to the FFEL regulations to reflect certain policy decisions made during development of the Direct Loan regulations. The comments on the NPRM suggested additional changes to those included in the proposed rule. In publishing the final regulations on November 29, 1994 (59 FR 61210), the Secretary stated that he needed to further evaluate the implications of these additional changes. This NPRM proposes to adopt many of the suggestions made by those comments. The Secretary believes these regulations will streamline and improve the efficiency of the FFEL program.

By improving the efficiency of the FFEL Program, these proposed regulations will enhance opportunities for postsecondary education. Encouraging students to graduate from high school and to pursue high quality postsecondary education are important elements of the National Education Goals.

The student aid programs also enable both current and future workers to have the opportunity to acquire both basic and technologically-advanced skills needed for today's and tomorrow's workplace. These programs provide the financial means for an increasing number of Americans to receive an education that will prepare them to think critically, communicate effectively, and solve problems efficiently, as called for in the National Education Goals.

**Proposed Regulatory Changes**

The Secretary proposes to amend the following sections of the regulations to reflect changes needed to conform the FFEL Program to the final regulations for the Direct Loan Program. Those changes not related to the Direct Loan Program are otherwise noted.

**Section 682.200 Definitions**

**Satisfactory repayment arrangement**—The Secretary, in order to

reflect a recent statutory change made by the Higher Education Technical Amendments of 1993, Public Law 103-208, proposes to amend the regulations to clarify that a borrower may make satisfactory repayment arrangements on a defaulted FFEL debt for purposes of regaining Title IV eligibility only one time.

**Section 682.201 Eligible Borrowers**

Section 682.201(c)(1)(iii)(D)—In order to align the FFEL Program with the Direct Loan Program regulations, the Secretary proposes to allow a borrower in a default status to be eligible for a consolidation loan if the borrower either makes satisfactory repayment arrangements as that term is defined or agrees to repay the consolidation loan under an income-sensitive repayment plan.

**Section 682.207 Due Diligence in Disbursing a Loan**

Section 682.207(c)(4)—The Secretary proposes, in order to conform to Direct Loan Program regulations and to reflect current FFEL policy, to allow a loan to be disbursed in a single installment, if at least one-half of the loan period has elapsed before the first disbursement is made.

Section 682.207(d)(2)(iii)—The Secretary proposes to clarify that a lender has an additional 30-day period to make a late disbursement of a loan if the school documents a borrower's exceptional circumstances. Previously, the regulations suggested that documentation of the exceptional circumstances was required for all late disbursements.

The Secretary also proposes to remove the references in § 682.207 and § 682.604 providing for lender or guaranty agency options regarding disbursement policies, so that every eligible student is assured certain opportunities with the approval of the school.

**Section 682.209 Payment Application and Prepayment**

Section 682.209(b)(2)—The Secretary further clarifies that this section deals with the application of payments and how to deal with prepayments. The Secretary proposes to require a lender who receives a prepayment (made by a borrower without the borrower's specific instructions as to how to apply the proceeds) in an amount that equals or exceeds the borrower's scheduled monthly repayment amount to apply that amount to future installment payments on the loan by advancing the borrower's next payment due date. The Secretary proposes this change

(previously left to the lender's discretion and allowed only in situations where a borrower's payment exceeded 3 full payments) to conform to current Direct Loan Program policies and so that all borrowers are treated equally.

#### *Section 682.210 Deferment*

Section 682.210(a)(8)—The Secretary proposes to clarify that a defaulted borrower is eligible for a deferment only if the borrower has made satisfactory repayment arrangements with the lender prior to the lender's filing of a default claim on the loan.

#### *Section 682.211 Forbearance*

Section 682.211(f)(9)—The Secretary proposes to allow a lender to provide administrative forbearance in situations where a borrower ends a period of eligible deferment in delinquent status.

#### *Section 682.401 Basic Program Agreement*

Section 682.401(b)(10)(vi)(B)(1)—The Secretary proposes that in instances where a loan or a portion of a loan is returned by the school at any time to a lender, the lender shall refund to the borrower the premium attributable to each disbursement of the loan.

#### *Section 682.402 Death, Disability, Closed School, False Certification, and Bankruptcy Payments*

Section 682.402—The Secretary proposes to clarify that a lender must return any payments made by or on behalf of the borrower after the date that the borrower became totally and permanently disabled as certified by a physician. At the same time that the lender returns the payments to the borrower or sender, the lender must notify the borrower or sender that there is no obligation to repay that loan.

Also, the Secretary proposes, in order to conform with the Direct Loan Program, that if a guaranty agency receives any payments from a borrower or a borrower's representative for a loan discharged in bankruptcy on which the Secretary previously paid a claim, the agency must return 100% of these payments to the borrower. Previously these payments were remitted to the Secretary. At the same time that the guaranty agency returns the payments to the borrower or representative the agency must notify the borrower that there is no obligation to repay that loan.

#### *Section 682.412 Consequences of the Failure of a Borrower or Student To Establish Eligibility*

Section 682.412(c)—The Secretary is making a change in the regulations to clarify that a borrower has 30 days from

the date a final demand letter is sent by the lender in which to repay an amount for which the borrower was ineligible.

#### *Section 682.603 Certification by a Participating School in Connection With a Loan Application*

Section 682.603 (f) and (g)—The Secretary proposes this change to conform to language in the Direct Loan Program regulations.

#### *Section 682.605 Determining the Date of a Student's Withdrawal.*

Section 682.605(c)—The Secretary is reinserting language that was inadvertently deleted during the development of the November 29, 1994 final regulations regarding the determination of the date of a student's withdrawal for purposes other than calculating a refund.

#### *Executive Order 12866*

##### *1. Assessment of Costs and Benefits*

These proposed regulations have been reviewed in accordance with Executive Order 12866. Under the terms of the order the Secretary has assessed the potential costs and benefits of this regulatory action.

The potential costs associated with the proposed regulations are those resulting from statutory requirements and those determined by the Secretary to be necessary for administering this program effectively and efficiently. Burdens specifically associated with information collection requirements, if any, are identified and explained elsewhere in this preamble under the heading Paperwork Reduction Act of 1995.

In assessing the potential costs and benefits—both quantitative and qualitative—of these proposed regulations, the Secretary has determined that the benefits of the regulations justify the costs.

The Secretary has also determined that this regulatory action does not unduly interfere with State, local, and tribal governments in the exercise of their governmental functions.

To assist the Department in complying with the specific requirements of Executive Order 12866, the Secretary invites comment on whether there may be further opportunities to reduce any potential costs or increase potential benefits resulting from these proposed regulations without impeding the effective and efficient administration of the program.

##### *2. Clarity of the Regulations*

Executive Order 12866 requires each agency to write regulations that are easy to understand.

The Secretary invites comments on how to make these proposed regulations easier to understand, including answers to questions such as the following: (1) Are the requirements in the proposed regulations clearly stated? (2) Do the regulations contain technical terms or other wording that interferes with their clarity? (3) Does the format of the regulations (grouping and order of sections, use of headings, paragraphing, etc.) aid or reduce their clarity? Would the regulations be easier to understand if they were divided into more (but shorter) sections? (A "section" is preceded by the symbol "§" and a numbered heading; for example, § 682.200 *Definitions*.) (4) Is the description of the regulations in the "Supplementary Information" section of this preamble helpful in understanding the regulations? How could this description be more helpful in making the regulations easier to understand? (5) What else could the Department do to make the regulations easier to understand?

A copy of any comments that concern how the Department could make these proposed regulations easier to understand should be sent to Stanley M. Cohen, Regulations Quality Officer, U.S. Department of Education, 600 Independence Avenue SW. (Room 5100, FB-10), Washington, DC 20202-2241.

##### *Regulatory Flexibility Act Certification*

The Secretary certifies that these proposed regulations would not have a significant economic impact on a substantial number of small entities.

While the statute requires that the Secretary regulate certain actions that must be taken by various program participants, these requirements would not have a significant impact because they would not impose excessive regulatory burdens or require unnecessary Federal supervision. The regulations would impose minimal additional requirements to protect the Federal fiscal interest, as well as the interests of the borrowers under the programs.

##### *Paperwork Reduction Act of 1995*

Sections 682.207, 682.209, 682.210, 682.211, 682.401, 682.402, 682.412, 682.603, 682.604 and 682.605 contain information collection requirements. As required by the Paperwork Reduction Act of 1995 (44 U.S.C. 3507(d)), the Department of Education has submitted a copy of these sections to the Office of

Management and Budget (OMB) for its review.

Collection of Information: Federal Family Education Loan Program. Documentation and notification requirements.

These regulations require institutions to document a borrower's exceptional circumstances in instances where a lender disburses a loan within 30 days beyond the usual 60-day period. A lender is now required to advance a borrower's due date for repayment if a borrower doesn't indicate how a payment that equals or exceeds a scheduled monthly payment should be applied. In those instances, these regulations require the lender to notify the borrower that the payment has been applied in such a manner and the next payment due date. A lender or guaranty agency must now return any payments made by or on behalf of the borrower after the date that the borrower became totally and permanently disabled as certified by a physician and if a guaranty agency receives any payments from a borrower or a borrower's representative for a loan discharged in bankruptcy on which the Secretary previously paid a claim, the agency must return 100% of the payments to the borrower. In both of these circumstances, a lender and guaranty agency must also notify the borrower that there is no obligation to repay that loan.

There is no annual frequency of reporting this information to the Department. However, the recordkeeping burden for this collection of information is estimated to average 1 hour per response for 12,803,255 respondents, including the time for documenting circumstances, researching existing data sources, gathering and maintaining the data needed, and generating and processing the collection of information. The total annual recordkeeping burden equals 12,803,255 hours.

These regulations affect the business, for-profit and not-for-profit entities that participate in the Title IV Federal student aid programs.

Organizations and individuals desiring to submit comments on the information collection requirements should direct them to the Office of Information and Regulatory Affairs, Room 10235, New Executive Office Building, Washington, DC 20503; Attention: Desk Officer for U.S. Department of Education.

The Department considers comments by the public on this proposed collection of information in—

- Evaluating whether the proposed collection of information is necessary

for the proper performance of the functions of the Department, including whether the information will have practical use;

- Evaluating the accuracy of the Department's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- Enhancing the quality, usefulness, and clarity of the information to be collected; and
- Minimizing the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology; e.g., permitting electronic submission of responses.

OMB is required to make a decision concerning the collection of information contained in these proposed regulations between 30 and 60 days after publication of this document in the Federal Register. Therefore, a comment to OMB is best assured of having its full effect if OMB receives it within 30 days of publication. This does not affect the deadline for the public to comment to the Department on the proposed regulations.

**Invitation to Comment**

Interested persons are invited to submit comments and recommendations regarding these proposed regulations.

All comments submitted in response to these proposed regulations will be available for public inspection, during and after the comment period, in room 3053, Regional Office Building 3, 7th and D Streets, SW., Washington, DC between the hours of 8:30 a.m. and 4 p.m., Monday through Friday of each week except federal holidays.

**Assessment of Educational Impact**

The Secretary particularly requests comments on whether the proposed regulations in this document would require transmission of information that is being gathered by or is available from any other agency or authority of the United States.
