BILLING CODE 6050-28-P

DEPARTMENT OF DEFENSE

Department of the Navy

Notice of Intent To Grant Exclusive Patent License; Premium Manufacturing Group

AGENCY: Department of the Navy, DoD.

ACTION: Notice.

SUMMARY: The Department of the Navy hereby gives notice of its intent to grant to Premium Manufacturing Group a revocable, nonassignable, exclusive license to practice in the field of use of a knife and knife components in the United States, the Government-owned inventions described in U.S. Patent No. 7,421,751 entitled "Folding Knife Having Locking Portion, Clip Portion and Unsharpened Protrusion", Navy Case No. 097,793 and any continuations, divisionals or re-issues thereof.

DATES: Anyone wishing to object to the granting of this license must file written objections along with supporting evidence, if any, not later than April 9, 2015.

ADDRESSES: Written objections are to be filed with the U.S. Naval Academy, Academic Dean and Provost Office, 589 McNair Road, Stop 10G, Annapolis, MD 21402 (attn: Prof. J. E. Shade).

FOR FURTHER INFORMATION CONTACT: Prof. J. E. Shade, Associate Director of Research and Scholarship for

Technology Transfer, Academic Dean and Provost Office, 589 McNair Road, Stop 10G, Annapolis, MD 21402, office: 410-293-2509. Due to U.S. Postal delays, please fax 410-293-2507 and send email to shade@usna.edu. Use courier delivery to expedite response.

Authority: 35 U.S.C. 207, 37 CFR part 404.

N. A. Hagerty-Ford,

Commander, Office of the Judge Advocate General, U.S. Navy, Federal Register Liaison Officer.

BILLING CODE 3810-FF-P

DEPARTMENT OF EDUCATION

Annual Updates to the Income Contingent Repayment (ICR) Plan Formula for 2015—William D. Ford Federal Direct Loan Program

Catalog of Federal Domestic Assistance (CFDA) Number: 84.063.

AGENCY: Federal Student Aid, Department of Education.

ACTION: Notice.

SUMMARY: The Secretary announces the annual updates to the ICR plan formula for 2015, as required by 34 CFR 685.209(b)(1)(ii)(A), to give notice to Direct Loan borrowers and the public regarding how monthly ICR payment amounts will be calculated for the 2015-2016 year.

DATES: The adjustments to the income percentage factors for the ICR plan formula contained in this notice are effective from July 1, 2015, to June 30, 2016, for any borrower who enters the ICR plan or has his or her monthly payment amount recalculated under the ICR plan during that period.

FOR FURTHER INFORMATION CONTACT: Ian Foss, U.S. Department of Education, 830 First Street NE., Room 113H2,

Washington, DC 20202. Telephone: (202) 377-3681 or by email: ian.foss@ed.gov.

If you use a telecommunications device for the deaf (TDD) or a text telephone (TTY), call the Federal Relay Service (FRS), toll free, at 1-800-877-8339.

SUPPLEMENTARY INFORMATION:

Under the William D. Ford Federal Direct Loan (Direct Loan) Program, borrowers may choose to repay their non-defaulted loans (Direct Subsidized Loans, Direct Unsubsidized Loans, Direct PLUS Loans made to graduate or professional students, and Direct Consolidation Loans) under the ICR plan. The ICR plan bases the borrower's repayment amount on the borrower's income, family size, loan amount, and the interest rate applicable to each of the borrower's loans.

A Direct Loan borrower who repays his or her loans under the ICR plan pays the lesser of: (1) The amount that he or she would pay over 12 years with fixed payments multiplied by an income percentage factor or (2) 20 percent of discretionary income.

Each year, to reflect changes in inflation, we adjust the income percentage factor used to calculate a borrower's ICR payment. We use the adjusted income percentage factors to calculate a borrower's monthly ICR payment amount when the borrower initially applies for the ICR plan or when the borrower submits his or her annual income documentation, as required under the ICR plan. This notice contains the adjusted income percentage factors for 2015, examples of how the monthly payment amount in ICR is calculated, and charts showing sample repayment amounts based on the adjusted ICR plan formula. This information is included in the following three attachments:

- *Attachment 1—Income Percentage Factors for 2015*
- *Attachment 2—Examples of the Calculations of Monthly Repayment Amounts*
- *Attachment 3—Charts Showing Sample Repayment Amounts for Single and Married Borrowers*

In Attachment 1, to reflect changes in inflation, we have updated the income percentage factors that were published in the **Federal Register** on April 21, 2014 (79 FR 22107). Specifically, we have revised the table of income percentage factors by changing the dollar amounts of the incomes shown by a percentage equal to the estimated percentage change between the not-seasonally-adjusted Consumer Price Index for all urban consumers for December 2014 and December 2015.

The income percentage factors reflected in Attachment 1 may cause a

borrower's payments to be lower than they were in prior years, even if the borrower's income is the same as in the prior year. However, the revised repayment amount more accurately reflects the impact of inflation on the borrower's current ability to repay.

Accessible Format: Individuals with disabilities can obtain this document in an accessible format (e.g., braille, large print, audiotope, or compact disc) on request to the contact person listed under **FOR FURTHER INFORMATION CONTACT** in this section of the notice.

Electronic Access to This Document: The official version of this document is the document published in the **Federal Register**. Free Internet access to the official edition of the **Federal Register** and the Code of Federal Regulations is available via the Federal Digital System at: www.gpo.gov/fdsys. At this site, you can view this document, as well as all

other documents of this Department published in the **Federal Register**, in text or Adobe Portable Document Format (PDF). To use PDF you must have Adobe Acrobat Reader, which is available free at the site.

You may also access documents of the Department published in the **Federal Register** by using the article search feature at: www.federalregister.gov. Specifically, through the advanced search feature at this site, you can limit your search to documents published by the Department.

Program Authority: 20 U.S.C. 1087 *et seq.*

Dated: March 19, 2015.

James W. Runcie,
Chief Operating Officer, Federal Student Aid.

Attachment 1—Income Percentage Factors for 2015

INCOME PERCENTAGE FACTORS FOR 2015

Single		Married/head of household	
Income	% Factor	Income	% Factor
\$11,150	55.00	\$11,150	50.52
15,342	57.79	17,593	56.68
19,741	60.57	20,965	59.56
24,240	66.23	27,408	67.79
28,537	71.89	33,954	75.22
33,954	80.33	42,648	87.61
42,648	88.77	53,487	100.00
53,488	100.00	64,331	100.00
64,331	100.00	80,596	109.40
77,318	111.80	107,695	125.00
99,003	123.50	145,638	140.60
140,221	141.20	203,682	150.00
160,776	150.00	332,833	200.00
286,370	200.00		

Attachment 2—Examples of the Calculations of Monthly Repayment Amounts

General notes about the examples in this attachment:

- We have a calculator that borrowers can use to estimate what their payment amount would be under the ICR plan. The calculator is called the "Repayment Estimator" and is available at StudentAid.gov/repayment-estimator. This calculator provides a detailed, individualized assessment of a borrower's loans and repayment plan options, including the ICR plan.
- The interest rates used in the examples are for illustration only. The actual interest rates on an individual borrower's Direct Loans depend on the loan type and when the postsecondary institution first disbursed the Direct Loan to the borrower.
- The Poverty Guideline amounts used in the examples are from the 2015 U.S. Department of Health and Human Services (HHS) Poverty Guidelines for the 48 contiguous States and the District of Columbia. Different Poverty Guidelines apply

to residents of Alaska and Hawaii. The Poverty Guidelines for 2015 were published in the **Federal Register** on January 22, 2015 (80 FR 3236).

- All of the examples use an income percentage factor corresponding to an adjusted gross income (AGI) in the table in Attachment 1. If your AGI is not listed in the income percentage factors table in Attachment 1, calculate the applicable income percentage by following the instructions under the "Interpolation" heading later in this attachment.
- Married borrowers may repay their Direct Loans jointly under the ICR plan. If a married couple elects this option, we add the outstanding balance on the Direct Loans of each borrower and we add together both borrowers' AGIs to determine a joint ICR payment amount. We then prorate the joint payment amount for each borrower based on the proportion of that borrower's debt to the total outstanding balance. We bill each borrower separately.
- For example, if a married couple, John and Sally, has a total outstanding Direct Loan debt of \$60,000, of which \$40,000 belongs to

John and \$20,000 to Sally, we would apportion 67 percent of the monthly ICR payment to John and the remaining 33 percent to Sally. To take advantage of a joint ICR payment, married couples need not file taxes jointly; they may file separately and subsequently provide the other spouse's tax information to the borrower's Federal loan servicer.

Calculating the monthly payment amount using a standard amortization and a 12-year repayment period.

The formula to amortize a loan with a standard schedule (in which each payment is the same over the course of the repayment period) is as follows:

$$M = P \times (I + 12) \div [1 - \{1 + (I \div 12)\}^{-N}]$$

In the formula—

- M is the monthly payment amount;
- P is the outstanding principal balance of the loan at the time the calculation is performed;
- I is the annual interest rate on the loan, expressed as a decimal (for example, for a loan with an interest rate of 6.8 percent, 0.068); and

• N is the total number of months in the repayment period (for example, for a loan with a 12-year repayment period, 144 months).

For example, assume that Billy has a \$10,000 Direct Unsubsidized Loan with an interest rate of 6.8 percent.

Step 1: To solve for M, first simplify the numerator of the fraction by which we multiply P, the outstanding principal balance. To do this divide I, the interest rate, as a decimal, by 12. In this example, Billy's interest rate is 6.8 percent. As a decimal, 6.8 percent is 0.068.

- $0.068 \div 12 = 0.005667$

Step 2: Next, simplify the denominator of the fraction by which we multiply P. To do this divide I, the interest rate, as a decimal, by 12. Then, add one. Next, raise the sum of the two figures to the negative power that corresponds to the length of the repayment period in months. In this example, because we are amortizing a loan to calculate the monthly payment amount under the ICR plan, the applicable figure is 12 years, which is 144 months. Finally, subtract the result from one.

- $0.068 \div 12 = 0.005667$
- $1 + 0.005667 = 1.005667$
- $1.005667 \wedge -144 = 0.44319544$
- $1 - 0.44319544 = 0.55680456$

Step 3: Next, resolve the fraction by dividing the result from step one by the result from step two.

- $0.005667 \div 0.55680456 = 0.01017772$

Step 4: Finally, solve for M, the monthly payment amount, by multiplying the outstanding principal balance of the loan by the result of step 3.

- $\$10,000 \times 0.01017772 = \101.78

The remainder of the examples in this attachment will only show the results of the formula.

Example 1. Brenda is single with no dependents and has \$15,000 in Direct Subsidized and Unsubsidized Loans. The interest rate on Brenda's loans is 6.80 percent, and she has an AGI of \$28,537.

Step 1: Determine the total monthly payment amount based on what Brenda would pay over 12 years using standard amortization. To do this, use the formula that precedes Example 1. In this example, the monthly payment amount would be \$152.67.

Step 2: Multiply the result of Step 1 by the income percentage factor shown in the income percentage factors table (see Attachment 1 to this notice) that corresponds to Brenda's AGI. In this example, an AGI of \$28,537 corresponds to an income percentage factor of 71.89 percent.

- $0.7189 \times \$152.66 = \109.75

Step 3: Determine 20 percent of Brenda's discretionary income and divide by 12 (discretionary income is AGI minus the HHS Poverty Guideline amount for a borrower's family size and State of residence). For Brenda, subtract the Poverty Guideline amount for a family of one from her AGI, multiply the result by 20 percent, and then divide by 12:

- $\$28,537 - \$11,770 = \$16,767$
- $\$16,767 \times 0.20 = \$3,353.40$
- $\$3,353.40 \div 12 = \279.45

Step 4: Compare the amount from Step 2 with the amount from Step 3. The lower of the two will be the monthly ICR payment amount. In this example, Brenda will be paying the amount calculated under Step 2 (\$109.75).

Example 2. Joseph is married to Susan and has no dependents. Joseph has a Direct Loan balance of \$10,000, and Susan has a Direct Loan balance of \$15,000. The interest rate on all of the loans is 6.80 percent.

Joseph and Susan have a combined AGI of \$80,596 and are repaying their loans jointly under the ICR plan (for general information regarding joint ICR payments for married couples, see the fifth and sixth bullets under the heading "General notes about the examples in this attachment").

Step 1: Add Joseph's and Susan's Direct Loan balances to determine their combined aggregate loan balance:

- $\$10,000 + \$15,000 = \$25,000$

Step 2: Determine the combined monthly payment amount for Joseph and Susan based on what both borrowers would pay over 12 years using standard amortization. To do this, use the formula that precedes Example 1. In this example, the combined monthly payment amount would be \$254.44.

Step 3: Multiply the result of Step 2 by the income percentage factor shown in the income percentage factors table (see Attachment 1 to this notice) that corresponds to Joseph and Susan's combined AGI. In this example, the combined AGI of \$80,596 corresponds to an income percentage factor of 109.40 percent.

- $1.094 \times \$254.44 = \278.36

Step 4: Determine 20 percent of Joseph and Susan's combined discretionary income (discretionary income is AGI minus the HHS Poverty Guideline amount for a borrower's family size and State of residence). To do this subtract the Poverty Guideline amount for a family of two from the combined AGI, multiply the result by 20 percent, and divide by 12:

- $\$80,596 - \$15,930 = \$64,666$
- $\$64,666 \times 0.20 = \$12,933.20$
- $\$12,933.20 \div 12 = \$1,077.77$

Step 5: Compare the amount from Step 3 with the amount from Step 4. The lower of the two will be Joseph and Susan's joint monthly payment amount. Joseph and Susan will jointly pay the amount calculated under Step 3 (\$278.36).

Step 6: Because Joseph and Susan are jointly repaying their Direct Loans under the ICR plan, the monthly payment amount calculated under Step 5 applies to both Joseph and Susan's loans. To determine the amount for which each borrower will be responsible, prorate the amount calculated under Step 4 by each spouse's share of the combined Direct Loan debt. Joseph has a Direct Loan debt of \$10,000 and Susan has a Direct Loan Debt of \$15,000. For Joseph, the monthly payment amount will be:

- $\$10,000 \div (\$10,000 + \$15,000) = 40 \text{ percent}$
- $0.40 \times \$278.36 = \111.34

For Susan, the monthly payment amount will be:

- $\$15,000 \div (\$10,000 + \$15,000) = 60 \text{ percent}$
- $0.60 \times \$278.36 = \167.02

Example 3. David is single with no dependents and has \$60,000 in Direct Subsidized and Unsubsidized Loans. The interest rate on all of the loans is 6.80 percent, and David's AGI is \$33,954.

Step 1: Determine the total monthly payment amount based on what David would pay over 12 years using standard amortization. To do this, use the formula that precedes Example 1. In this example, the monthly payment amount would be \$610.66.

Step 2: Multiply the result of Step 1 by the income percentage factor shown in the income percentage factors table (see Attachment 1 to this notice) that corresponds to David's AGI. In this example, an AGI of \$33,954 corresponds to an income percentage factor of 80.33 percent.

- $0.8033 \times \$610.66 = \490.54

Step 3: Determine 20 percent of David's discretionary income and divide by 12 (discretionary income is AGI minus the HHS Poverty Guideline amount for a borrower's family size and State of residence). To do this subtract the Poverty Guideline amount for a family of one from David's AGI, multiply the result by 20 percent, then divide by 12:

- $\$33,954 - \$11,770 = \$22,184$
- $\$22,184 \times 0.20 = \$4,436.80$
- $\$4,436.80 \div 12 = \369.73

Step 4: Compare the amount from Step 2 with the amount from Step 3. The lower of the two will be David's monthly payment amount. In this example, David will be paying the amount calculated under Step 3 (\$369.73).

Interpolation. If an income is not included on the income percentage factor table, calculate the income percentage factor through linear interpolation. For example, assume that Joan is single with an income of \$50,000.

Step 1: Find the closest income listed that is less than Joan's income (\$50,000) and the closest income listed that is greater than Joan's income (\$50,000).

Step 2: Subtract the lower amount from the higher amount (for this discussion we will call the result the "income interval"):

- $\$53,488 - \$42,648 = \$10,840$

Step 3: Determine the difference between the two income percentage factors that correspond to the incomes used in Step 2 (for this discussion, we will call the result the "income percentage factor interval"):

- $100.00 \text{ percent} - 88.77 \text{ percent} = 11.23 \text{ percent}$

Step 4: Subtract from Joan's income the closest income shown on the chart that is less than Joan's income of \$50,000:

- $\$50,000 - \$42,648 = \$7,352$

Step 5: Divide the result of Step 4 by the income interval determined in Step 2:

- $\$7,352 \div \$10,840 = 67.82 \text{ percent}$

Step 6: Multiply the result of Step 5 by the income percentage factor interval:

- $11.23 \text{ percent} \times 67.82 \text{ percent} = 7.62 \text{ percent}$

Step 7: Add the result of Step 6 to the lower of the two income percentage factors used in Step 3 to calculate the income percentage factor interval for \$50,000 in income:

- 7.62 percent + 88.77 percent = 96.39 percent (rounded to the nearest hundredth)

The result is the income percentage factor that we will use to calculate Joan's monthly repayment amount under the ICR plan.

Attachment 3—Charts Showing Sample Repayment Amounts for Single and Married Borrowers

SAMPLE FIRST-YEAR MONTHLY REPAYMENT AMOUNTS FOR A SINGLE BORROWER

Income	Family Size = 1									
	Initial debt									
	\$10,000	\$20,000	\$30,000	\$40,000	\$50,000	\$60,000	\$70,000	\$80,000	\$90,000	\$100,000

BILLING CODE 4000-01-P

DEPARTMENT OF EDUCATION

Applications for New Awards; Rehabilitation Training: Rehabilitation Long-Term Training Program— Rehabilitation Specialty Areas

AGENCY: Office of Special Education and Rehabilitative Services, Department of Education.

ACTION: Notice.

Overview Information: Rehabilitation Services Administration (RSA)—Rehabilitation Training: Rehabilitation Long-Term Training Program—Rehabilitation Specialty Areas.

Notice inviting applications for new awards for fiscal year (FY) 2015.

Catalog of Federal Domestic Assistance (CFDA) Numbers: 84.129Q and W.

DATES:

Applications Available: March 25, 2015.

Date of Pre-Application Webinar: April 8, 2015.

Deadline for Transmittal of Applications: May 26, 2015.

Deadline for Intergovernmental Review: July 23, 2015.

Full Text of Announcement

I. Funding Opportunity Description

Purpose of Program: The Rehabilitation Long-Term Training program provides financial assistance for projects that provide—

(1) Basic or advanced training leading to an academic degree in areas of personnel shortages in rehabilitation as identified by the Secretary;

(2) A specified series of courses or program of study leading to the award of a certificate in areas of personnel shortages in rehabilitation as identified by the Secretary; and

(3) Support for medical residents enrolled in residency training programs in the specialty of physical medicine and rehabilitation.

Priority: This priority is from the notice of final priority for this program,

published on July 23, 2014 in the **Federal Register** (79 FR 42680).

Absolute Priority: For FY 2015 and any subsequent year in which we make awards from the list of unfunded applicants from this competition, this priority is an absolute priority. Under 34 CFR 75.105(c)(3) we consider only applications that meet this priority.

This priority is:

Rehabilitation Specialty Areas.

The purpose of the priority is to fund programs leading to a master's degree or certificate in one of two specialty areas: Rehabilitation of Individuals Who are Deaf or Hard of Hearing (84.129Q) and Comprehensive System of Personnel Development (84.129W). The goal of this priority is to increase the skills of scholars in these rehabilitation specialty areas so that, upon successful completion of their master's degree or certificate programs, they are prepared to effectively meet the needs and demands of individuals with disabilities.

Under this priority, applicants must:

(a) Provide data on the current and projected employment needs and
