SUPPLEMENTARY INFORMATION:

Introduction

The Privacy Act (5 U.S.C. 552a(e)(4)) requires the Department to publish in the **Federal Register** a notice of new system of records maintained by the Department. The Department’s regulations implementing the Privacy Act are contained in the Code of Federal Regulations (CFR) in 34 CFR part 5b.

The Privacy Act applies to information about an individual that is maintained in a system of records from which individually identifying information is retrieved by a unique identifier associated with each individual, such as a name or social security number. The information about each individual is called a “record,” and the system, whether manual or computer-driven, is called a “system of

records.” The Privacy Act requires each agency to publish a system of records notice in the **Federal Register** and to submit reports to the Administrator of the Office of Information and Regulatory Affairs, OMB, the Chair of the House of Representatives Committee on Oversight and Government Reform, and the Chair of the Senate Committee on Homeland Security and Governmental Affairs, whenever the agency publishes a new or altered system of records.

Background of System of Records

ODAS is a system of records that will store individually identifying information from a variety of individuals who have applied for or received grants, contracts, loans, or payments from the Department. These individuals include: Employees of the Department; consultants; contractors; grantees; advisory committee members or others who have received funds from the Department for performing services; students who have applied for Federal student financial assistance; Pell Grant recipients; borrowers of William D. Ford Federal Direct Loans, Federal Family Education loans, Federal Insured Student loans or Federal Perkins loans; owners, board members, officials, or authorized agents of postsecondary institutions; and individuals applying to the Department’s Office of Federal Student Aid for a personal identification number.

Information in this system will be obtained from the following systems of records maintained by the Department: Education’s Central Automated Processing System (EDCAPS)(System Number 18–03–02); Federal Student Aid Application File (System Number 18–11–01); Recipient Financial Management System (the Department expects to amend this system soon and re-name it as the Common Origination and Disbursement System (COD)) (System Number 18–11–02); Title IV Program Files (System Number 18–11–05); National Student Loan Data System (NSLDS)(System Number 18–11–06); Student Financial Assistance Collection Files (System Number 18–11–07); Postsecondary Education Participants System (PEPS)(System Number 18–11–09); the Department of Education (ED) PIN (Personal Identification Number) (System Number 18–11–12); and the Student Authentication Network Audit File (System Number 18–11–13).

This new system of records notice is being established because it will involve the new use of records covered by existing Department systems of records. This new system of records will be used to identify internal control weaknesses and to identify system issues to improve

methods of data modeling and annual audit planning. This system will provide the Department’s Office of Inspector General (OIG) with access to a single repository of data that currently resides in many, different Department systems of records. OIG will conduct data modeling on this data, using statistical and mathematical techniques, in order to predict anomalies indicating fraudulent activity.

Under the Inspector General Act of 1978, as amended, 5 U.S.C. Appendix, Inspectors General, including the Department’s Inspector General, are responsible for conducting, supervising, and coordinating audits and investigations, relating to programs and operations of the Federal agency for which their office is established. This system of records facilitates OIG’s performance of this statutory duty.

Pursuant to 5 U.S.C. 552a(k)(2), through rulemaking, may exempt from a limited number of Privacy Act requirements a system of records that contains investigatory materials compiled for law enforcement purposes. The materials in this system of records fall within the scope of section 552a(k)(2).

Pursuant to 5 U.S.C. 552a(k)(2), the Secretary has issued final regulations published elsewhere in this issue of the **Federal Register** exempting the ODAS from the following Privacy Act requirements:

5 U.S.C. 552a(c)(3)—access to accounting of disclosure.

5 U.S.C. 552a(c)(4)—notification to outside parties and agencies of correction or notation of dispute made in accordance with 5 U.S.C. 552a(d).

5 U.S.C. 552a(d)(1) through (4) and (f)—procedures for notification or access to, and correction or amendment of, records.

5 U.S.C. 552a(e)(1)—maintenance of only relevant and necessary information.

5 U.S.C. 552a(e)(4)(G) and (H)—inclusion of information in the system of records notice regarding Department procedures on notification of, access to, correction of, and amendment of records.

Access to data in ODAS is restricted to authorized OIG staff members and is recorded in an access log. All physical access to the Department's site where this system of records is maintained is controlled and monitored by security personnel who check each individual entering the buildings for his or her employee or visitor badge. All data contained in the system of records are kept on a secured and restricted private network and stored in a combination-locked computer laboratory. ODAS is housed within a secure and controlled computer lab. Access to the lab is by authorized OIG personnel only. The general public does not have access to ODAS.

All information stored in this system is secured by using database encryption technology and is resistant to tampering and circumvention by unauthorized users. Access to data by all users will be monitored using both automated and manual controls. The information is accessed by OIG staff on a "need-to-know" and intended systems usage basis.

OIG maintains ODAS in a secure and controlled facility. Access to the computer lab is by authorized OIG personnel only. The general public does not have access to ODAS. The information maintained in ODAS is secured in accordance with OMB M-03-22, *OMB Guidance for Implementing the Privacy Provisions of the E-Government Act of 2002*, September 26, 2003, the E-Government Act, Section 208, Attachment A, and NIST 800-53, Revision 1, *Recommended Security Controls for Federal Information Systems*, December 2006.

Contractors will not maintain this system, but under certain limited circumstances they may have access to the system. In accordance with the Department's Administrative Communications System Directive OM: 5-101 entitled "Contractor Employee Personnel Security Screenings," all Department personnel who have facility

access and system access must undergo a security clearance investigation. Individuals requiring access to Privacy Act data are required to hold, at a minimum, a moderate-risk security clearance level. These individuals are required to undergo periodic screening at five-year intervals.

In addition to conducting security clearances, individuals with access to this system are required to complete security awareness training on an annual basis. Annual security awareness training is required to ensure that users are appropriately trained in safeguarding Privacy Act data in accordance with OMB Circular No. A-130, Appendix III.

The computer system employed by the Department offers a high degree of resistance to tampering and circumvention. All users of this system of records are given a unique user identification, and users are required to change their password at least every 90 days in accordance with the Department's information technology standards.

RETENTION AND DISPOSAL:

Records are maintained and disposed of in accordance with the Department's Records Disposition Schedules applicable to the aforementioned records. A new records retention and disposition schedule is under development for this system of records. Until NARA approves a retention and disposition schedule for these records, The Department will not destroy any records.
