# Introduction

## Overview

*The ISIR Guide* is designed to assist financial aid administrators (FAAs) with interpreting student information on the Institutional Student Information Record (ISIR) and making corrections. The ISIR contains all information reported on the Free Application for Federal Student Aid (FAFSA), key processing results, and National Student Loan Data System (NSLDS) financial aid history information. The term *ISIR* refers to all processed student information records that are sent electronically to institutions by the Central Processing System (CPS).

ISIRs are sent to schools through the Electronic Data Exchange (EDE), the U.S. Department of Education's electronic service that enables schools to send electronic data to and receive resulting processed electronic data from the CPS and other Federal Student Aid systems. *The ISIR Guide* explains codes and flags that appear as FAA information on the ISIR.

Student Aid Reports (SARs) are the paper or electronic output documents that are sent to students or printed from the Web. SARs and ISIRs contain the same processed student information in different formats. The SAR is explained in detail in Appendix D of this guide.

**New for 2010-2011:** Changes have been made to the 2010-2011 ISIR based on data element changes on the FAFSA, at the CPS, and in the NSLDS. The 2010-2011 ISIR follows the order of the FAFSA, and the remaining data elements are grouped with similar data elements in a logical order that we refer to as “data blocks.”

On July 16, 2009, we posted an [electronic announcement](#) to the IFAP Web site notifying you of changes to the structure of the ISIR Record Description/Data Dictionary and FAFSA Application Export Record Layouts for 2010-2011. We anticipate these changes will reduce the impact of data element changes to the CPS and the systems that utilize the EDE record layouts.

In 2009-2010 and prior cycles, the record layouts in the *EDE Technical Reference* were organized by “like” data elements. When record layout revisions were required due to legislative changes or other enhancements, we implemented those revisions to the applicable section of the

record layout or, in the case of new fields, appended them to the end of layout. In either case, the start and end positions were affected for fields subsequent to the revisions and the overall record length increased, significantly impacting schools, servicers, and third-party-system developers who code systems based upon our EDE record layouts.

To minimize impacts to the layouts for the 2010-2011 cycle and forward, we added filler spaces after existing “data blocks,” such as student demographic information, financial information, dependency determination questions, and parental information. When mid-cycle changes are needed to particular data elements, we will use these filler field positions to add, remove, or revise those data elements. As a result, the impact of the change will only affect the existing filler blocks and not the entire record layout.

A complete version of the technical reference was posted in October 2009 on the U.S. Department of Education’s Information for Financial Aid Professionals (IFAP) Web site, located at [ifap.ed.gov](http://ifap.ed.gov) ([ifap.ed.gov/edetechref/1011EDETechRefFinal102809.html](http://ifap.ed.gov/edetechref/1011EDETechRefFinal102809.html)) and on the Federal Student Aid Download (FSAdownload) Web site, located at [fsadownload.ed.gov](http://fsadownload.ed.gov). It can be downloaded in portable document format (PDF).

Using the table below, you can determine where to find more information about the 2010-2011 Federal Student Aid system changes and enhancements. These following guides are posted on the IFAP and FSAdownload Web sites:

## Processing Flow

The applicant data process flow for generating ISIRs is the same in 2010-2011 as in 2009-2010.

The student starts the process by completing a FAFSA. The information is processed through the CPS, and the results are returned to the student and institution. See the bullet point labeled “The Financial Aid Application” below for filing options.

The charts on pages 7 and 8 show how information from a financial aid applicant flows through the system for the various types of applications and corrections and describe when an ISIR is generated. The major participants, documents, and records in the application process are:

- **The U.S. Department of Education**
- **The Student.** The student can apply for federal student aid under the following Title IV programs—Federal Pell Grant, Academic Competitiveness Grant (ACG), National Science and Mathematics Access to Retain Talent (National SMART) Grant, Teacher Education Assistance for College and Higher Education (TEACH) Grant, Federal Supplemental Educational Opportunity Grant (FSEOG), Federal Work-Study, Federal Perkins Loan, the Federal Family Education Loan (FFEL) Program, and the William D. Ford Federal Direct Loan (Direct Loan) Program.
- **The PIN for Students and Parents.** The Federal Student Aid PIN, along with the user’s personal information, serves as an electronic signature when entered on the FAFSA on the Web site. The PIN also serves as an identifier to let the student access his or her personal information in various U.S. Department of Education systems. Because the PIN serves as an electronic signature and provides access to personal information, the PIN should not be shared with anyone.

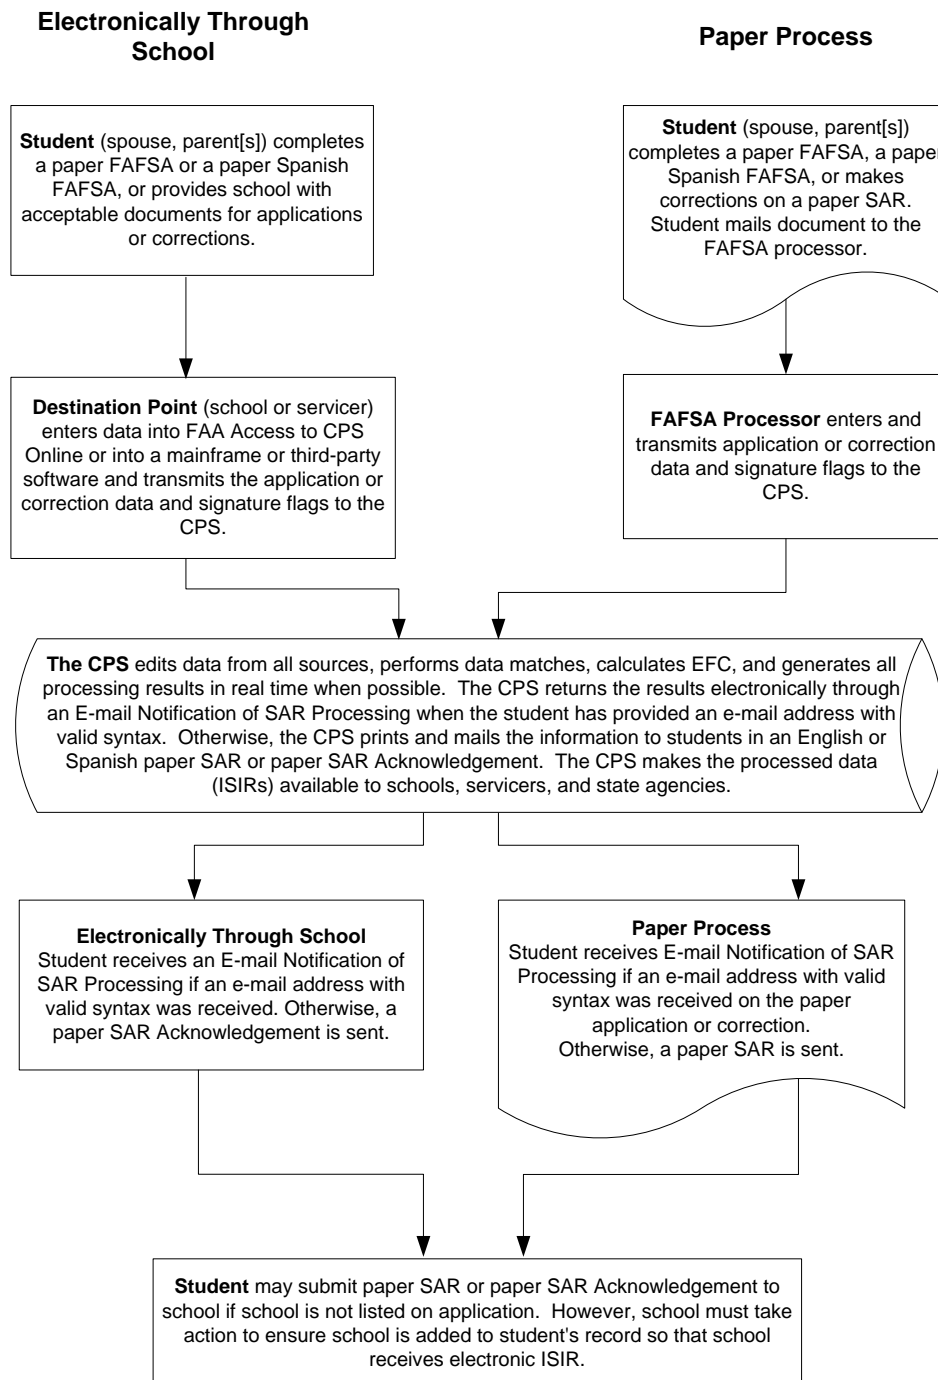

Students and parents can create their own PINs, request that Federal Student Aid generate a PIN for them that is displayed on the screen in real-time, request that the PIN be e-mailed in real-time, or request to have the PIN sent through postal mail. For all options except a PIN sent through postal mail, the PIN is issued in real-time so that the student or parent can use it immediately to sign the application electronically. The Social Security Number (SSN), name, and date of birth information submitted by the applicant and parent is transmitted for a match with the Social Security Administration (SSA). If the SSN, name, and date of birth are successfully matched, the PIN remains valid and becomes a permanent PIN. After receiving a successful SSN match from SSA, the PIN can be used to access SAR information on the Web, make corrections using Corrections on the Web, and access NSLDS data.

In the limited cases where the SSA match is unsuccessful, the PIN is disabled and an e-mail is sent to notify the applicant that a PIN will not be issued. When a valid e-mail address is not available, the notification is printed and mailed. If the applicant used the temporary PIN to sign his or her FAFSA, the applicant is also sent a paper SAR requesting all required signatures. A SAR comment (comments 275 to 280) appears on the student's SAR (and ISIR), indicating the specific results of the SSA match. Until a positive match is received from the SSA, the PIN cannot be used to sign any documents or access Web sites that require the PIN.

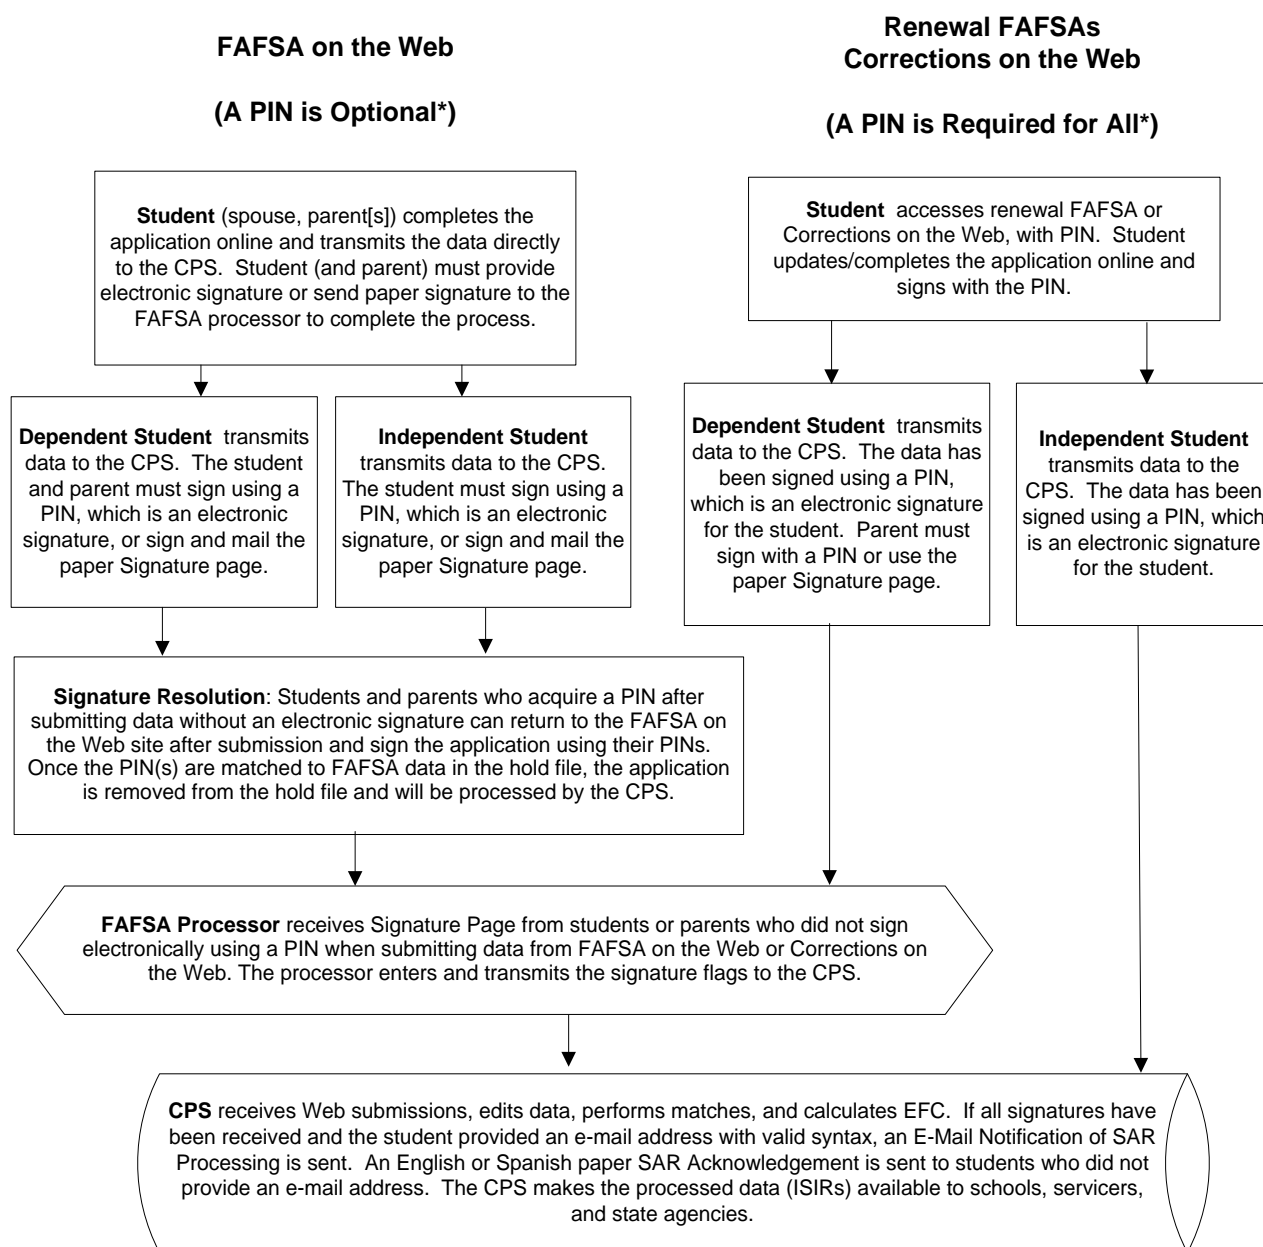

- **The Financial Aid Application.** Different forms of the application are available for the student to apply for federal student aid. These include FAFSA on the Web, Spanish FAFSA on the Web, FAFSA PDF, Spanish FAFSA PDF, paper FAFSA, paper Spanish FAFSA, FAFSA on the Phone, and Spanish FAFSA on the Phone. The school can also submit an application for the student by completing an online FAFSA through FAA Access to CPS Online or by submitting an ASCII flat file through the Student Aid Internet Gateway (SAIG) in message class EAPS11IN. Students can get an early start on the financial aid process by using FAFSA4caster to get an estimate of their eligibility for federal financial aid. A FAFSA4caster filer can have his or her data transferred into the FAFSA on the Web system the following year, similar to a returning renewal-eligible student.
- **The FAFSA Processor.** One organization serves as the data entry processor for the 2010-2011 processing year under contract with the U.S. Department of Education. The FAFSA processor receives paper applications, paper SAR corrections, and paper signature pages in the mail, performs document analysis to ensure that the data is acceptable, and handles missing or unacceptable responses. The processor images the application, enters the information from the application, and transmits the data and image electronically to the CPS.
- **The Central Processing System (CPS).** The CPS operates under a contract with the U.S. Department of Education to receive and process application and correction information. The CPS matches student records with other federal databases, such as the SSA and Department of Homeland Security, to confirm eligibility. The CPS also applies a series of compute edits to the application information to check for inconsistencies, contradictions, and missing data. During the compute process, the CPS uses the need analysis formula specified by law to calculate each applicant's expected family contribution (EFC).
- **The Institutional Student Information Record (ISIR).** ISIRs are electronic records produced by the CPS that provide institutions with processed application and correction information. ISIRs can be sent to destination points (schools, servicers, and state agencies) daily or by request using FAA Access to CPS Online.

- **The Student Aid Report (SAR).** This document provides the student with processed application information. The CPS prints the SAR and mails it directly to the address the student provided. Alternatively, students who provide e-mail addresses on their FAFSAs are sent e-mails notifying them that their SARs can be accessed electronically. The SAR is in English or Spanish, depending on the language used on the application or correction that generates the SAR.
- **The School.** “The school” refers to each postsecondary educational institution that the student listed on the financial aid application. The FAA at the school will use the processed information from the ISIR or SAR to determine the types and amount of federal student aid the applicant is eligible to receive. Schools and states can also use information from the ISIR or SAR to award their own financial aid.

## Transactions

A transaction is an interaction between the CPS and a financial aid applicant or a school that changes any of the data on a student's record. Each transaction results in a new ISIR and SAR, and is identified by a two-byte transaction number (for example, 01, 02, or 03). A transaction may be system-generated. For example, when a student's eligibility for federal student aid changes on the NSLDS, the CPS automatically processes the application information and generates a new transaction without additional input from the student or from a school. These system-generated transactions are automatically sent (or pushed) to the destination point in unique electronic message classes.

When application data for an award year first arrives at the CPS and is processed, the resulting report is called the "01" transaction. The student receives a SAR or an E-mail Notification of SAR Processing, and the listed schools can receive ISIRs. State agencies can also receive the ISIR data.

If corrections are necessary, the student can make changes on the SAR, return the SAR to the FAFSA processor, and have the information processed. Alternatively, the student can make the corrections electronically through Corrections on the Web. A school can submit corrections electronically through the SAIG or enter the corrections using the FAA Access to CPS Online Web site, even if the school did not submit the original application electronically. The corrections generate a new record that is identified as the "02" transaction.

To create a correction transaction, a change must be made to at least one data element. Examples of common corrections include an address correction or the addition or change of a school. The first correction transaction is labeled "02," and subsequent correction transactions are labeled "03," "04," and so forth. Identifying the correct transaction is important when communicating with the Common Origination and Disbursement (COD) System and when requesting duplicate SARs or making ISIR requests. Transactions greater than 30 are rejected by the CPS for "too many transactions."

# Highlights and Assumptions

## Paper System Highlights and Assumptions

Students are instructed to review information on the SAR carefully for accuracy. SAR items requiring special attention are highlighted in **bold** type. The student and the FAA should pay careful attention to questions and responses that are highlighted.

During the edit process, the CPS applies logic that compares two or more pieces of information provided by the student. On the SAR, the CPS highlights information that is conflicting or missing and items that are questioned.

In certain instances, the application is rejected if the student's data is in conflict. For example, an independent student answers that he or she is not married but provides financial information for a spouse. The CPS rejects this application (Reject 11) and prints the questioned items in bold type on the SAR. In this situation, the student receives a SAR with arrows printed next to the questionable line items. The student is then required to correct them. The CPS does not calculate an EFC, because key financial information is conflicting.

In other situations, the CPS makes assumptions and does not reject the student's record. For example, a student reports that he or she is married and provides spouse's income, but reports only one person in the household. In this case, the CPS assumes two people are in the household, highlights both questions and responses on the SAR, and calculates an EFC as long as the record is not rejected for other reasons. Both the reported and the assumed values are printed, with the word "ASSUMED" in parentheses next to the assumed response that was used in the EFC calculation.

The CPS most often makes assumptions when questions are left blank. After an answer is assumed, the assumed information is used throughout the subsequent edits and in the EFC calculation.

On the ISIR record, EDEExpress prints the letter **h** to the left of the field title that was highlighted. EDEExpress prints an asterisk (\*) to the left of the field title to indicate that the CPS made an assumption, and the assumed value prints in place of the reported value.

## Electronic System Highlights and Assumptions

All federal student aid application software and systems used to submit application data contain certain edits that prompt users to resolve inconsistencies before sending the information to the CPS. These edits are contained in the FAA Access to CPS Online, FAFSA on the Web, and Corrections on the Web applications.

When inconsistencies or missing data would cause the record to be rejected at the CPS, the Web sites do not allow the record to be submitted until information is changed or added. However, when these inconsistencies would cause an assumption, the user is prompted to review and change the data, but the application can be submitted even if a change is not made. The ISIR data file that a school receives includes a flag for each highlighted field in positions 1973 to 2167, and the printed ISIR displays an **h** (for highlight) next to the items on which assumptions were made.

An FAA can override certain CPS rejects using FAA Access to CPS Online. If a record contains inconsistent or missing data that would result in the CPS rejecting the record, the FAA receives a message to correct or reenter the information. If the data originally provided is correct, the FAA must reenter the data. FAA Access to CPS Online sets and transmits a reject override code in the student's record, suppressing the edit, and the actual data is used instead of assumed values. For example, a student may have an unusually large number of family members. When the FAA reenters the number of family members, FAA Access to CPS Online sets a reject override code in the student's record, which excludes the reject for an unusually large number of family members.

Similarly, an FAA can override certain CPS assumptions using FAA Access to CPS Online. For example, if three people are in an independent student's household and three are in college, CPS assumes one in college. By reentering the number in household and the number in college when the message appears, an assumption override code is submitted with the data that suppresses the assumption.

Students who are using FAFSA on the Web and Corrections on the Web can confirm the data they have entered in the same way FAA Access to CPS Online works. In response to the student's confirmation, the Web application sets the assumption override codes and most reject override codes.

# ISIR Data

---

## Overview

A school can automatically receive ISIRs for students who listed that school's Federal School Code on their applications or corrections. Institutions can send application and correction data from the school or through a servicer (both are called destination points) and receive processed student records (ISIRs) at the destination point.

A school can also access 2009-2010 and 2010-2011 ISIRs from the ISIR Datamart, the centralized location for all ISIR data generated by the CPS. Schools, state agencies, and other authorized users receive ISIRs from the datamart through the SAIG. For more information on the ISIR Datamart, see the *2010-2011 Electronic Data Exchange (EDE) Technical Reference*, available at the FSAdownload Web site, located at [fsadownload.ed.gov](http://fsadownload.ed.gov).

Schools do not need to print hard copy ISIRs. However, so that you can refer to the codes that appear on the ISIR as we discuss them in this guide, Appendix E contains an example of the ISIR as it appears when printed using the EDEExpress for Windows software. The student's processed application information appears on the printout in a two-column, two-page format with an abbreviated version of each FAFSA question on the left and the student's response on the right. Information is divided into sections like the FAFSA sections (for example, Step One, Step Two, and Step Three). Questions are not numbered individually, but each section heading identifies the range of FAFSA questions included. One or two pages for NSLDS Financial Aid History are also provided, depending on the number of loans a student has borrowed.

---

## FAFSA Questions

Changes to the questions on the 2010-2011 FAFSA are minimal. The Veterans questions were removed and we added “Earnings from work under a cooperative education program offered by a college” for the student’s and parents’ 2009 Additional Financial Information questions.

For more information on changes to the FAFSA, see the *Summary of Changes for the Application Processing System* guide on the IFAP Web site, located at [ifap.ed.gov](http://ifap.ed.gov), and on the FSAdownload Web site, located at [fsadownload.ed.gov](http://fsadownload.ed.gov).

## Dependency Status Results

On the top right column of the second page of the ISIR, the applicant's dependency status is displayed. The following dependency status codes are used:

### Primary and Secondary EFC Types

These codes tell an FAA which formula was used to calculate the EFC.

## Transaction Data Source/Type Code

The Transaction Data Source/Type code identifies a FAFSA processor or other source of the transaction.

**New for 2010-2011:** We added data type **X** for records that are included in the Department of Defense (DOD) file. We added **5X** for CPS records that were reprocessed because the record was matched with DOD.

<b>ISIR Value</b>	<b>Value Printed on ISIR</b>
A	Applicant

### Federal School Code Indicator

The Federal School Code Indicator verifies the identity of the originating institution.

## Reject and Assumption Override Codes

The ISIR shows which Reject Override Codes and which Assumption Override Codes were set on the transaction. These override codes enable a student or an FAA to override certain rejects. FAAs can also override certain assumptions the CPS has made about a student's data when the information appears to be inconsistent. If an override is set, the ISIR prints "1," and, if no override is set, the field is blank.

**New for 2010-2011:** The FAFSA is intended to be a snapshot of the student and parent's situation "as of the date" he or she completed the application. Students and parents should not change their answers to these questions unless the data originally submitted was incorrect as the date the application was submitted. As a result, we removed the override edit that allowed financial aid administrators to override Reject 4, which is triggered if the student's marital status date reported is after the application signed date. There should never be a situation where a marital status date is later than the date the application is signed.

<b>ISIR Value and Value Printed on ISIR</b>	<b>Description</b>
Blank	No override code set

## ISIR FAA Information

The FAA Information section displays all relevant information about a student's eligibility in one place. FAA information is printed on the third page of the ISIR following the summary of application data and is labeled "FAA Information." Descriptive labels are intended to help the FAA identify reject codes, match flags, intermediate values, and so forth. Using the printed ISIR format as a basis, here are identifications for the codes and flags that appear as FAA information.

### Date ISIR Received

The Date ISIR Received is the date the ISIR record was imported to the school's EDEXpress software.

### Verification Flag

The Verification Flag indicates if a student has been selected for verification on any transaction. After the student is selected, he or she is always selected for the current processing year. This data comes from the Student Is Selected for Verification field in the ISIR record layout.

<b>ISIR Value and Value Printed on ISIR</b>	<b>Description</b>
Y	Selected for verification
N	Not selected for verification
*	Selected for verification on a subsequent transaction

### Professional Judgment

This flag indicates the status of an EFC adjustment resulting from a professional judgment decision by an FAA.

<b>ISIR Value</b>	<b>Value Printed on ISIR</b>	<b>Description</b>
Blank	Blank	No EFC adjustment processed
1	Yes	EFC adjustment processed
2	Failed	EFC adjustment attempted but failed

When an FAA uses professional judgment to change a data item on the ISIR, only the school that made the change remains listed on the new ISIR transaction.

## Transaction Receipt Date

This is the date the FAFSA processor or the CPS received the input information that generated the transaction. The Application Receipt Date for the first application is a fixed date. However, the Transaction Receipt Date changes each time a new transaction is generated.

For example, a student mails a FAFSA that is received by the FAFSA processor on March 14, 2010. This first transaction SAR and ISIR has an Application Receipt Date and a Transaction Receipt Date of March 14, 2010. If the student then mails in a SAR with corrections and it is received on April 18, the 02 transaction shows an Application Receipt Date of March 14, 2010 and a Transaction Receipt Date of April 18, 2010.

## Reprocessing Code

This code provides information about records that are reprocessed by the CPS for any reason. When the Transaction Data Source/Type Code is set to **5P** (reprocessed record), this position contains a two-digit number, beginning with **01** and incrementing each time a group of records is reprocessed. Check the IFAP Web site, located at [ifap.ed.gov](http://ifap.ed.gov), for announcements that define the reason associated with a particular two-digit number.

## Processed Record Type

This code indicates the type of processed record.

ISIR Value and Value Printed on ISIR	Description
Blank	Original or renewal application (from any source)
C	Correction Application
H	Correction (from any source)

## CPS Pushed ISIR Flag

This flag is set to identify transactions that are automatically sent (pushed) to schools. If the ISIR is a pushed ISIR, the ISIR record layout contains **Y**, and the ISIR prints **Yes** for transactions meeting the pushed ISIR criteria. If the ISIR does not meet the criteria for a pushed ISIR, this field is blank and nothing prints next to the CPS Pushed ISIR Flag label on the ISIR. Examples of transactions automatically pushed to the school include:

- Correction to ACG data only
- EFC Change Flag is set
- SAR C Flag changes between correction and transaction being corrected
- Transaction is system-generated
- Reject Status Change Flag is set
- Verification Selection Change Flag is set

## Rejects Met

Up to seven reject reason codes can be printed in this space. See Appendix A for the reject reason codes and the comment numbers associated with certain types of rejects.

## Verification Tracking Flag

The Verification Tracking Flag identifies the priority of the criteria used by the CPS to select applicants for verification and is based on the likelihood of error. The **higher** the number in the Verification Tracking field, the higher the priority for selection by the CPS. For example, **0112** in this field has a greater potential for significant error than a student with **0087** in this field. If you plan to use the 30 percent verification limit, we recommend using this field to prioritize the applicants you choose to verify. For 2010-2011, we use a range of 0001 to 9999.

## Dependency Override

This flag identifies a record that resulted from an application or correction on which an FAA made a dependency override request. Initial applications enable overrides to be made in one direction only: from dependent to independent. FAA Access to CPS Online allows an FAA to cancel a previous override.

ISIR Value	Value Printed on ISIR	Description
Blank	Blank	No dependency override
1	Yes	FAA overrode dependency status from dependent to independent
2	Canceled	FAA canceled dependency override
3	Failed	Dependency override request failed

When an FAA performs a dependency override, only the school that submitted the override receives the new ISIR transaction.

## ETI

The Electronic Transaction Indicator (ETI) Flag indicates whether the school receiving the ISIR submitted input to generate the ISIR transaction or did not generate the transaction but was listed on the record. It also indicates whether the type of ISIR is a daily, requested, or pushed ISIR. One character prints on the ISIR. Valid values for this field are:

- A = Only the ACG data was provided (IGAA)
- 0 = School generated transaction and is an ISIR Daily school (applications) (IDAP)
- 1 = School did not generate transaction and is an ISIR Daily school (automatic) (IDSA)
- 2 = School generated transaction and is an ISIR Request school (ISRF)
- 3 = School did not generate transaction and is an ISIR Request school (applications) (ISRF)
- 4 = School generated transaction and is an ISIR Daily school, ISIR is CPS Pushed ISIR (corrections) (IGCO)
- 5 = School did not generate transaction and is an ISIR Daily school, ISIR is CPS Pushed ISIR (automatic) (IGSA)
- 6 = School generated transaction and is an ISIR Request school, ISIR is CPS Pushed ISIR (corrections) (IGCO)
- 7 = School did not generate transaction and is an ISIR Request school, ISIR is CPS Pushed ISIR (automatic) (IGSA)
- 8 = School did not generate transaction and is an ISIR Daily school, ISIR is CPS Pushed System-Generated ISIR (IGSG)

9 = School did not generate transaction and is an ISIR Request school, ISIR is CPS Pushed System-Generated ISIR (IGSG)

Blank = No destination code associated or school not participating

## Correction # Applied To

This field only applies to transactions greater than 01 and indicates the prior transaction against which the correction was applied. For example, if you are looking at an 03 transaction and the Correction # Applied To field is 02, that means that corrections were made against the 02 transaction to create the 03 transaction.

## Application Receipt Date

This field shows the date the paper application was received by the FAFSA processor or the date an electronic FAFSA transmission was received by the CPS.

## Pell Eligible Flag

The Pell Grant Eligibility Flag field, in the ISIR record layout, alerts schools to an applicant's Pell Grant eligibility status. This data is found in the Pell Elig Flag field on the ISIR. A **Y** confirms that a student's EFC and undergraduate or qualifying graduate status makes him or her eligible for a Pell Grant and that the record has been included in the payment system database.

ISIR Value and Value Printed on ISIR	Description
Blank	Not eligible for a Pell Grant
Y	Eligible for a Pell Grant

If an undergraduate student incorrectly reported on the FAFSA that he or she will be a graduate student or has a bachelor's degree, this information **must** be corrected. Otherwise, he or she will not be considered eligible for a Pell Grant, and the school will be unable to receive Pell funds for that student.

## Primary and Secondary EFCs/Alternate EFCs

The ISIR FAA Information section contains the Primary EFC and Secondary EFC. If a Primary and a Secondary EFC appear, this indicates the student qualified for the Simplified Needs Test (SNT) but also provided information about assets. Two calculations were performed, producing the Primary EFC (asset information was not included in the calculation) and the Secondary EFC (asset information was included in a full-data calculation). If only a Primary EFC appears, it indicates the student:

- Did not meet the SNT criteria and only the full-data calculation was done, or
- Met the SNT criteria and provided no asset information or incomplete or inconsistent asset information and only one calculation could be performed.

The figures printed for each of the twelve months represent alternate EFCs that an FAA must use to award aid—other than a Federal Pell Grant—for an academic year that is less than or greater than nine months. For a dependent student, the alternate EFCs are calculated by the CPS according to a formula prescribed by Congress. For less than nine-month enrollment for the independent student, the EFC is prorated.

## Intermediate Values

These abbreviations represent the intermediate steps used in calculating the EFC. They show the components of the need analysis formula, such as the employment allowance or parents' contribution from assets. These components are defined by Congress. The values can be useful to FAAs in performing recalculations or in making professional judgment adjustments to data items. The intermediate values are identified as follows:

<b>ISIR Field Label</b>	<b>Description</b>
TI	Total Income
ATI	Allowances against Total Income
STX	State and Other Tax Allowance
EA	Employment Allowance
IPA	Income Protection Allowance
AI	Available Income
CAI	Contribution from Available Income (Independent Student)
DNW	Discretionary Net Worth
NW	Net Worth
APA	Education Savings and Asset Protection Allowance
PCA	Parents' Contribution from Assets
AAI	Adjusted Available Income
TSC	Total Student's Contribution
TPC	Total Parents' Contribution
PC	Parents' Contribution

<b>ISIR Field Label</b>	<b>Description</b>
STI	Student's Total Income
SATI	Student's Allowance against Total Income
SIC	Dependent Student's Income Contribution
SDNW	Student's Discretionary Net Worth
SCA	Dependent Student's Contribution from Assets
FTI	FISAP Total Income

More information on the need analysis formula and methodology for calculating the EFC is available in the *Federal Student Aid Handbook*, Volume 1–FSA Handbook: Student Eligibility and the *2010-2011 EFC Formula Guide* located on [ifap.ed.gov](http://ifap.ed.gov).

### **Auto Zero EFC Flag**

An applicant who meets certain federal benefit, dislocated worker, tax filing, and income criteria qualifies automatically for an EFC figure of **0**. When these criteria are met, the CPS assigns a **0** EFC and does not perform a full calculation except for Total Income, Student's Total Income, and FISAP Total Income. Only these three intermediate values appear in the FAA Information section. This information is found in the Automatic Zero EFC Indicator field on the ISIR.

<b>ISIR Value</b>	<b>Value Printed on ISIR</b>	<b>Description</b>
Blank	Blank	Does not meet criteria
Y	Yes	Student meets automatic zero EFC criteria

### **EFC Change Flag**

This flag indicates whether the EFC has increased or decreased between a correction transaction and the transaction to which the correction was applied.

<b>ISIR Value</b>	<b>Value Printed on ISIR</b>	<b>Description</b>
Blank	No change	No change in EFC value
1	Increase	EFC increased
2	Decrease	EFC decreased

## SNT Flag

This flag gives information about the Simplified Needs Test (SNT), which excludes asset information from the EFC calculation. The SNT is performed if an applicant meets certain federal benefit, dislocated worker, tax filing status, and income criteria.

ISIR Value	Value Printed on ISIR	Description
Y	Yes	SNT was met
N	No	SNT was not met or could not be determined

## Rejected Status Change Flag

If the reject status on a transaction changes from the status on the transaction being corrected, this field is filled.

ISIR Value and Value Printed on ISIR	Description
Blank	No change to reject status
Y	Reject status has changed

## Verification Selection Flag

The Verification Selection Flag field on the ISIR identifies a correction transaction that is selected for verification, if the transaction being corrected was not selected for verification. This field is always blank on an initial transaction. This flag is set to **Y** only on the correction transaction that is initially selected for verification. If the Verification Selection Flag is set from the previous transaction, this field is blank. The data for this field comes from the Verification Selection Change Flag field in the ISIR record layout.

ISIR Value and Value Printed on ISIR	Description
Blank	Transaction not selected for verification
Y	Transaction is now selected for verification when the transaction being corrected was not selected

## Special Circumstances Flag

The Special Circumstances Flag identifies a transaction that was filed on the Web by a dependent applicant who believes he or she has a special circumstance that prevents him or her from providing parental information.

ISIR Value and Value Printed on ISIR	Description
Blank	Flag is not set
1	Dependent record submitted without parental data
2	Correction made to parental data
3	Unaccompanied homeless individual
4	Dependent record unsubsidized loans only

A value of **1** in this field identifies an applicant who did not provide parental information. The ISIR is rejected and no EFC is calculated for the transaction.

**New for 2010-2011:** We added two new values for the Special Circumstances Flag, which are set on a Web application based on a student's responses and help you identify what type of special circumstance the applicant has so you can respond accordingly:

- Value **3** identifies a dependent student who is 22 or 23 years of age (or 21 years of age or younger but answered No to all three homelessness dependency status questions) and indicate he or she is unaccompanied and homeless or at risk of homelessness.
- Value **4** identifies a dependent student who only wants to be considered for an unsubsidized loan.

A youth (21 years of age or younger) who answers "Yes" to any of the homelessness dependency status questions is automatically determined to be Independent.

If the student's application has a Special Circumstances Flag of **1** or **3**, you will need to collect appropriate documentation and, if the applicant qualifies, perform a dependency override. If not, the applicant needs to provide parental information.

If the student's application has a Special Circumstances Flag of **4**, you will need to collect appropriate documentation and, if warranted, you can award unsubsidized loans. In these situations do **not** set and submit a dependency override flag because doing so would trigger the CPS to treat the dependent student as independent and could lead to misawarding of aid.

When an applicant provides parental information on a subsequent transaction, the Special Circumstances Flag contains a value of **2**.

For more information on changes to Special Circumstances, see the *Summary of Changes for the Application Processing System* guide on the [IFAP](#) and [FSAdownload](#) Web site.

## IRS Request Flags

New for 2010-2011, we added two fields to the ISIR related to the new Internal Revenue Service (IRS) Data Retrieval process, which will be implemented in 2010 and will enable students and parents to transfer financial information from the IRS into their FAFSA on the Web application. The two new fields are:

- Student IRS Request Flag, ISIR field 173
- Parent IRS Request Flag, ISIR field 174

**Note:** Watch the IFAP Web site for more information and announcements regarding the IRS Data Retrieval process, which will be implemented initially as a pilot program for the 2009-2010 processing cycle and then expanded for 2010-2011 later in 2010. On November 5, 2009, we posted an [electronic announcement](#) to the IFAP Web site providing detailed information about the implementation of the new process for the 2009-2010 award year.

## Duplicate SSN Flag

This flag is set to **Yes** if another record was found in the CPS database with the same SSN but a different last name.

## Address Only Correction Flag

If a mailing or e-mail address modification is the only change to a record, this field contains data.

**Note:** Corrections to the Signed By and Special Handle fields can be included with an Address Only change. The Address Only Change Flag field on the ISIR contains one of the following values.

ISIR Value and Value Printed on ISIR	Description
Blank	No change
1	Student's mailing address corrected
2	Student's e-mail address corrected
3	Parent's e-mail address corrected
4	More than one of the above corrected

## SAR C Change Flag

If the SAR C Flag is set or removed from the transaction being corrected, this field contains the value **Y**.

ISIR Value and Value Printed on ISIR	Description
Blank	SAR C Flag has not changed
Y	SAR C Flag has changed

## Match Flags

These alphabetic or numeric codes show the results of matching the applicant record with databases containing information that can affect eligibility. Appendix B of this guide contains a detailed discussion about the flags or codes that appear in the FAA Information section for the SSN Match Flag, SSA Citizenship Code, DHS Match Flag, Selective Service Match Flag, NSLDS Match Flag, VA Match Flag, DHS Secondary Confirmation Match Flag, Father's/Stepfather's SSN, Selective Service Registration Flag, Mother's/Stepmother's SSN, and DOD Match.

**New for 2010-2011:** We will include the new DOD Match Flag results and Parent's Date of Death in the ISIR file. For sensitivity reasons we will limit the way this information is printed:

- The DOD Match Flag prints with the other match flag information in the FAA Information section of the ISIR.
- The Parent's Date of Death will not print on the EDExpress ISIR report.
- The DOD Match Flag results and the Parent's Date of Death will never print on the SAR.
- The DOD Match Flag and Parent's Date of Death will print on the FAA version of the e-SAR (both PDF and html versions).

In addition, each time the DOD updates its database, the CPS will compare the most recent transaction for all non-matched student records with the DOD database. If a student's record was recently added to the DOD file, the CPS will:

- Send a system-generated ISIR transaction to the school that includes comment code 298, a DOD Match Flag of **Y**, Date of Parent's Death, and the Data Source/Type Code of **5X**.
- Send a system-generated SAR to the student that includes comment code 298 stating, "This SAR has been produced due to a possible change in your eligibility for federal student aid. Please contact your financial aid office for more information."

- Send a personalized letter to the student explaining the possible increase in eligibility for Title IV aid. The letter advises the student to contact his or her financial aid administrator for more information.

FAAs need the Parent's Date of Death to confirm that applicants who were over age 23 at the time of their parent or guardian's death were enrolled in college at the time the parent or guardian died. The FAA can view this data in:

- the ISIR file;
- FAA Access to CPS Online; or
- the FAA Information View dialog box in the 2010-2011 EDExpress software.

Students with a positive DOD match may be eligible for additional Title IV aid, including a maximum Pell Grant award or an Iraq and Afghanistan Service Grant for the award year. As stated earlier, FAAs must assess each student with a positive DOD match for this additional eligibility and adjust the student's aid package as necessary.

**Note:** When submitting awards to Common Origination and Disbursement (COD) System, you must pay on an ISIR transaction with the DOD Match Flag set to **Y** in order for the award to be accepted.

On November 6, 2009, we posted an [electronic announcement](#) to the IFAP Web site providing detailed information on the steps you need to take for students with a positive DOD match and aid eligibility.

## DHS Verification Number

The Department of Homeland Security (DHS) Verification Number also appears under the Match Flags section of FAA Information. This is a 15-digit confirmation number that the DHS returns when a student provides his or her Alien Registration Number (ARN) and a match with DHS is conducted. The FAA **must** enter this number on the G-845 form when manual Secondary Confirmation is necessary. If the DHS Verification Number is blank and DHS verification is needed, the FAA should add the student's ARN to the FAFSA by submitting a correction. A comment is returned on the resulting ISIR.

## NSLDS Transaction Number

The NSLDS Transaction Number is the number of the last transaction on which the student's NSLDS data changed. It is a signal to the FAA to review the NSLDS information on a particular transaction.

## NSLDS Database Results Flag

Each record sent to NSLDS is returned with an NSLDS Results Flag set to one of the following values:

ISIR Value and Value Printed on ISIR	Description
Blank	Record not sent to NSLDS and all NSLDS fields will be blank
1	Match was found and NSLDS data sent to CPS
2	SSN match but name or DOB did not match, no data sent
3	SSN not found in NSLDS, no match
4	Match was found but no relevant NSLDS data to send to the CPS
5	Real-time transaction not sent to NSLDS

## Comment Codes

The last line in the FAA Information section shows the codes for comments generated on the record that are important to the FAA. Standard comments to the student are not included here. FAAs can review the comment codes without reading every SAR comment to find those that may require action. Up to 20 comment codes can be printed.

The EDEExpress software prints comment text if the option is selected. Certain comment codes (047, 050, 112, 149, 158, 159, 170, and 171) are included in the ISIR file but do not print text on the ISIR printed from EDEExpress. The text for these comments is used to print the variable text on the SAR. All comment codes and text used in 2010-2011 are provided in the *2010-2011 SAR Comment Codes and Text* guide, posted on the IFAP Web site, located at [ifap.ed.gov](http://ifap.ed.gov), and on the FSAdownload Web site, located at [fsadownload.ed.gov](http://fsadownload.ed.gov).

## NSLDS Financial Aid History

FAAs can view limited NSLDS information provided on ISIRs or by accessing the FAA Access to CPS Online Web Site. Complete student financial aid history information is available at the NSLDSFAP Web site, located at [nslsdfap.ed.gov](http://nslsdfap.ed.gov).

The NSLDS Financial Aid History section displays the NSLDS information included in the ISIR file. Descriptive labels are intended to help the FAA identify the data. Using the printed ISIR format as a basis, descriptions of the NSLDS data that appears in the NSLDS Financial Aid History section follow.

### Overpayment Flags

The following values appear in the Overpayment Flag fields for ACG, Pell Grant, FSEOG, Perkins, National SMART Grant, and TEACH Grant that appear on the ISIR:

ISIR Value and Value Printed on ISIR	Description
D	Deferred
N	N/A
S	Satisfactory Payment Arrangements
F	Fraud
W	Waived
Y	Overpayment exists

### Contact

The Contact field for each Overpayment Flag displays a school code (OPEID) or ED Debt Collection Service Region code. N/A is displayed when no overpayment exists, and Access NSLDS is displayed when the ISIR Contact Value equals **Y**, because more than one overpayment exists for a specific aid type.

### Flags (Upper Section)

The loan change flags appear at the top of the Financial Aid History page next to the label. If # appears to the right of the label, the flag has changed.

### *Discharged Loan Flag*

The Discharged Loan Flag reflects the status of any loan discharged due to disability or death. If this flag contains a value other than **N**, the C Flag is set on the SAR/ISIR and a comment is given.

<b>ISIR Value and Value Printed on ISIR</b>	<b>Description</b>
C	Conditional discharge
D	Death
M	Multiple codes
N	None
P	Permanent discharge

### *Fraud Loans Flag*

The Fraud Loans Flag is set when any loans or overpayments are flagged for potential fraud status. Appendix C includes a chart for 2010-2011 loan status codes and eligibility.

### *Defaulted Loans Flag*

The Defaulted Loans Flag is set when any loans are in a defaulted status. Appendix C includes a chart for 2010-2011 loan status codes and eligibility.

### *Loan Satisfactory Payment Arrangement Flag*

The Loan Satisfactory Payment Arrangement Flag at the top of the Financial Aid History page displays the value **Y** for Yes or **N** for No.

### *Active Bankruptcy Flag*

The Active Bankruptcy Flag at the top of the Financial Aid History page displays the value **Y** for Yes or **N** for No.

### *Postscreening Reason Codes*

Up to three postscreening codes can be sent on the same ISIR. The codes listed in the NSLDS Postscreening Reason Code field help schools identify students whose eligibility for federal student aid may have changed since the last SAR/ISIR transaction was produced. To find cases where a student's eligibility status has changed, NSLDS scans its database on a weekly basis.

<b>Postscreening Reason Codes</b>	
<b>ISIR Value and Printed on ISIR</b>	<b>Description</b>
Blank	Not an NSLDS postscreening transaction
01	The student entered default on a Title IV loan that was previously not in default
02	Became obligated for a new overpayment of a Title IV grant or loan
03	Cleared a previously reported default of a Title IV loan
04	Cleared an overpayment obligation on a previously reported Title IV grant or loan
05	Direct Loan Master Promissory Note (MPN) status change (Stafford)
06	A loan was discharged due to disability
07	A loan went out of disability discharged status
08	Student has a loan for a closed school
09	Student has exceeded subsidized aggregate loan limit
10	Student has exceeded combined aggregate loan limit
11	Applicant no longer exceeds subsidized aggregate loan limit
12	Applicant no longer exceeds combined aggregate loan limit
13	Change in disability discharged loan status
14	Loan entered active bankruptcy
15	Direct Loan PLUS MPN status change
16	Graduate Direct Loan PLUS MPN status change
17	A fraud conviction was added to the student's record
18	A fraud conviction on the student's record was cleared
19	TEACH Grant was converted to a loan
99	The "Other" category includes, NSLDS requests for individual reprocessing, NSLDS error reprocessing, etc.

When any of these postscreening situations occur, the CPS generates a new SAR/ISIR transaction that includes the changed information as part of the NSLDS Financial Aid History section. Students with a valid e-mail address receive an E-mail Notification of SAR Processing instead of a paper SAR for system-generated transactions. The CPS Pushed ISIR Flag is **Y** and the Transaction Data Source/Type Code is **5N** (NSLDS Postscreening) on these transactions. The processed ISIRs are returned to the school in the IGSG11OP message class.

A comment also prints on the output document (SAR/ISIR) informing the student and the school that the record needs to be reviewed because a change was made to the record that could affect the student's eligibility for Title IV aid.

Postscreened ISIR transactions meet the criteria of a pushed ISIR and are automatically returned to the school, even if the school did not request the ISIR. Postscreening Reason Codes are included in the top section of the Financial Aid History page. If the transaction is system-generated because of postscreening, a numeric value appears in this field. Values **01** through **19** correspond to the situations described previously, and a code of **99** is used for any other data changes that generate the transaction. Schools must act on the updated information they receive regarding a change in a student's eligibility for Title IV aid and must ensure that a student remains eligible for payment; otherwise, the school is liable for improperly disbursed funds.

### *TEACH Grant Loan Conversion Flag*

The TEACH Grant Loan Conversion Flag at the top of the Financial Aid History page displays the value **Y** for Yes or **N** for No.

**Note:** The status changes reported on a 2010-2011 ISIR may affect eligibility for payments to the student during the 2009-2010 award year.

If the school has disbursed funds to a student who is found ineligible, the school must contact the student to arrange for repayment. If the student has received a Federal Family Education Loan (FFEL), the school must notify the lender. If the student has received a Federal Direct Loan, the school must notify the Direct Loan Servicer.

## **Aggregate Amounts for FFEL/Direct Loans, TEACH Loan, and Perkins Loan Section**

This section includes information on subsidized, unsubsidized, unallocated portions of consolidated loans, and TEACH Loans (TEACH Grant converted to a loan). The combined amount reflects the total amount the student has borrowed in subsidized and unsubsidized loans. The combined amount does not include any unallocated amounts, as that portion cannot be attributed to either loan type. Schools are not required to research unallocated dollars to determine their effect on a student's aggregate loan eligibility. NSLDS continues to calculate and send CPS the outstanding principal balance and total amounts of the unallocated portion of a Consolidation Loan. Separately, NSLDS calculates and reports the TEACH Loan (Direct Unsubsidized) outstanding principal balance and total amounts.

NSLDS does not maintain the Consolidation Loan's outstanding principal balance or total amounts. Instead, NSLDS has developed an algorithm to determine the breakdown of a Consolidation Loan (FFEL and Direct Loan) and then allocates it appropriately in the subsidized, unsubsidized, combined, and unallocated aggregate amounts. For purposes of calculating aggregates for prescreening and postscreening, NSLDS assumes that the total outstanding balance of a Consolidation Loan consists of the same ratio of subsidized and unsubsidized loans as the sum of the disbursed amounts on the original underlying loans. The remaining portion that cannot be attributed to either the subsidized or the unsubsidized loans is applied to the unallocated amounts. If NSLDS cannot identify the underlying loans for a FFEL Consolidation Loan, NSLDS counts the entire FFEL Consolidation Loan in the subsidized aggregate balance.

The outstanding principal balance and current year loan amount for Perkins loans are included in this section. For all FFEL and Direct Loans in an out-of-school status or cases where the loan period end date plus 90 days has passed, the aggregate outstanding principal balance amount is determined by comparing the net loan amount, disbursed amount, and outstanding principal balance. If all three of these are greater than zero, the one with the lowest value is used. Zero is not used if any one of these fields is equal to zero; instead, the lesser of the other two values is used. The net loan amount is the amount of the loan less cancellations and refunds.

For FFEL and Direct Loans in an in-school or in-grace status when the corresponding loan status date is within 90 days after the loan end period date, the aggregate outstanding principal balance amount is determined as follows:

- If either outstanding principal balance or disbursed amount is greater than zero, use the one with greater value, but do not exceed the net loan amount.
- If both are equal to zero, use zero. These are usually loans guaranteed or approved but not disbursed.

For non-consolidated Direct Loans in an in-school status when the corresponding loan status date is within 90 days after the loan end period date, pending disbursements are calculated by subtracting the total disbursed amount from the net loan amount. For non-consolidated FFEL loans in an in-school status when the corresponding loan status date is within 90 days after the loan end period date, pending disbursements are calculated by subtracting the aggregate outstanding principal balance from the net loan amount. Pending disbursements are not calculated for any Direct Loan or FFEL loan in an out-of-school status or after the loan period end date plus 90 days has past.

**New for 2010-2011:** Although the ISIR will continue to provide the cumulative undergraduate and graduate FFEL/Direct Loans aggregate loan totals, this information is now separated out into corresponding undergraduate and graduate portions on the Loan History section of the NSLDSFAP Web site, located at [nslsdfap.ed.gov](http://nslsdfap.ed.gov). This enhancement will make it easy for an FAA to determine aggregate loan amounts and limits grouped by graduate and undergraduate academic levels.

## Pell Payment Data Section

Pell Grant data shows current award year (2010-2011) payment information as reported by schools to the COD System. Information for up to three Pell Grants prints on the ISIR. This information includes the following:

- (Attending) School Code
- Transaction Number
- Scheduled Award Amount
- Award Amount
- Disbursed Amount (Amount Paid to Date)
- Additional Eligibility Indicator

**New for 2010-2011:** NSLDS is adding a Pell “Additional Eligibility Indicator” or “AEI” to the ISIR to alert FAAs to Pell-eligible students who received up to two Pell Grants in a single award year as a result of HEOA provisions. The valid content for this field is **Y**, **N**, and blank.

- Percent Scheduled Award Used by Award Year
- As Of (Last Update Date)
- Pell Verification Flag
- EFC

A message instructing the school to “Access NSLDS for additional Pell Data” appears when the student has more than three Pell records for the award year.

## **Academic Competitiveness Grant (ACG) Data Section**

ACG data shows payment information as reported by schools to the COD System. Information for up to three ACG awards prints on the ISIR from the current and prior award years. NSLDS determines which three most relevant ACGs to include based on:

- Grants with the highest year in school; and
- Most recent reported grant data from the COD System

This information includes the following:

- (Attending) School Code

## **National Science and Mathematics Access to Retain Talent Grant (National SMART Grant) Data Section**

National SMART Grant data shows payment information as reported by schools to the COD System. Information for up to three National SMART Grant awards prints on the ISIR from the current and prior award years. NSLDS determines which three most relevant National SMART Grants to include based on:

- Grants with the highest year in school; and
- Most recent reported grant data from the COD System

This information includes the following:

- (Attending) School Code
- Transaction Number
- Scheduled Award Amount
- Award Amount
- Disbursed Amount (Amount Paid to Date)
- Percent Eligibility Used by Scheduled Award
- Total Percent Eligibility Used by Academic Year Level
- Award Year
- As Of (Last Update Date)
- Academic Year Level
- Classification of Instructional Programs (CIP) Code
- National SMART Grant Sequence Code

A message instructing the school to “Access NSLDS for additional National SMART Data” appears when the student has more than three National SMART Grant records.

## **Teacher Education Assistance for College and Higher Education (TEACH Grant) Data Section**

TEACH Grant data shows payment information as reported by schools to the COD System and transmitted to NSLDS by Direct Loan Servicing. This section provides aggregate disbursement amounts for undergraduate/post baccalaureate TEACH Grants and graduate TEACH Grants. Information for up to three TEACH Grant awards prints on the ISIR from the current and prior award years. NSLDS determines which three most relevant TEACH Grants to include based on:

- Grants with the highest year in school; and
- Most recent reported grant data from the COD System.

This information includes the following:

- (Attending) School Code
- Transaction Number
- Scheduled Award Amount
- Award Amount
- Disbursed Amount (Amount Paid to Date)
- Award Year
- As of (Last Update Date)
- Academic Year Level
- Loan Conversion Flag
- TEACH Grant Sequence Code

A message instructing the school to “Access NSLDS for additional TEACH Data” appears when the student has more than three TEACH Grant records.

## **Loan Detail Section**

The information appearing for each loan in the Loan Detail section is as follows:

- Description of Loan Program Type – If a # sign appears to the left of the label, the loan information has changed.
- Net Loan Amount
- Loan Begin Date
- Loan End Date

- GA Code
- School Code
- Grade Level
- Contact Code
- Contact Type
- Additional Unsubsidized Loans Flag
- Loan Type (Recent, Discharged, Defaulted, or Fraud)
- Capitalized Interest (appears as **YES** or **NO**)
- Date of Last Disbursement
- Amount of Last Disbursement
- Current Loan Status Code
- As of Current Loan Status Date
- Outstanding Principal Balance
- As of Outstanding Principal Balance Date

If no information is present to report, **N/A** is displayed.

**Note:** For a Direct Loan, when an additional unsubsidized loan has been awarded, one of the following reason codes appears:

ISIR Value	Value Printed on ISIR	Description
P	PLUS	PLUS Loan denial
H	Health Prof	Health Profession Loan
B	Both	Both
N	Neither	Neither

When an additional unsubsidized loan has been awarded due to a PLUS loan denial for a FFEL unsubsidized loan, the reason displayed is **PLUS**. NSLDS derives this value when the PLUS Denial conditions are met. Direct Loan Servicing provides NSLDS with these PLUS Denial and Health Profession codes after origination.

NSLDS monitors undergraduate and graduate aggregate loan levels for students who have undergraduate and graduate loans and flags them accordingly to the appropriate academic loan limits. NSLDS calculates the aggregate levels based on academic levels of loans reported to NSLDS by the data providers rather than the self-reported grade level from the applicant on the FAFSA.

When consolidation loans are reported to NSLDS, lenders often need some time to report underlying loans as paid in full through consolidation. NSLDS considers the age of the Consolidation Loans when calculating aggregate Outstanding Principal Balances.

NSLDS does not calculate an Aggregate Outstanding Principal Balance if:

- The Consolidation (FFEL and Direct Loan) loan date is within 60 days of the current date *and*
- All the underlying loans have an open loan status code and are not one of the following Loan Status Codes: **PC**, **PN**, **DN**, **PF**, or **DP**. See Appendix C of this guide for code values.

This procedure should decrease the occurrences of double counting and inflated aggregate amounts that may have contributed to exceeding the aggregate loan limits. An underlying loan is a loan associated with a consolidated loan with Loan Status Code **PC**, **PN**, **DN**, **PF**, or **DP**, and the Loan Status Date of the underlying loan is within 210 days (before or after) of the consolidated loan date. See Appendix C of this guide for code values.

Additionally, FFEL Consolidation Loans factor out the Perkins and/or PLUS underlying loans from the Unallocated amount. Direct Consolidation Subsidized Loans factor out the underlying Perkins loans.

The Loan Detail section continues to display up to six loans (including Perkins loans). The loans' sort and display order is chosen with regard to their current loan status and categorized into different groups:

- Group 1 includes loans in a deceased status, making the student ineligible for aid.
- Group 2 includes loans in a defaulted or fraud status, making the student ineligible for aid.
- Group 3 includes loans where a school may have to take action; this includes loans in an abandoned, disability, active bankruptcy, or temporary uninsured status.
- Group 4 are loans in an open status not included in groups 2 and 3.
- Group 5 includes closed loans (those not included in groups 1, 2, 3, and 4).

Group 1 consists of loan statuses for deceased borrowers, **DD** (defaulted, then loan holder died) and **DE** (loan holder died). This category ensures that FAAs are notified of these loan statuses because SARs for applicants with one or more Loan Status Codes **DD** or **DE** are not distributed.

Within each group, the sort order is determined by descending Loan Begin Date with the highest outstanding principal balance sorted first for loans with the same loan begin date. Loans selected are from group 1 first, group 2 second, followed by those in groups 3 and 4. Loan Status Codes and their groupings are identified in Appendix C. If more than six loans are in the NSLDS database, a message to **Access NSLDS** for additional information prints on the output. The NSLDSFSP Web site, located at [nslsdfap.ed.gov](http://nslsdfap.ed.gov), displays this loan information.

A contact type is included for each loan. The contents of the Contact Type field are:

<b>ISIR Value and Value Printed on ISIR</b>	<b>Description</b>
SCH	School
LEN	Lender
DLS	Direct Loan Servicer
EDR	ED Region
GA	Guaranty Agency
LNS	Lender Servicer

## **Master Promissory Note/Loan Limit Information Section**

*Direct Loan Subsidized and Unsubsidized MPN*

*Direct Loan PLUS MPN*

*Direct Loan Graduate PLUS MPN*

Master Promissory Note (MPN) Information is located at the end of the Loan Detail section. The Direct Loan Subsidized/Unsubsidized MPN field identifies whether a student has an MPN for Subsidized and Unsubsidized Direct Loans on file at the COD System. The Direct Loan PLUS MPN identifies if an MPN for a PLUS loan is on file at the COD System.

The Direct Loan Graduate/Professional PLUS loan's MPN information is provided by the Direct Loan Servicer if an MPN is on file at the COD System.

Each MPN indicator identifies the MPN status as listed below:

<b>ISIR Value</b>	<b>Value Printed on the ISIR</b>
Blank	No data from NSLDS
A	Active MPN
C	All MPNs Closed
I	All MPNs Inactive
N	No MPN on File

*Undergraduate Subsidized Loan Limit Flag*

*Undergraduate Combined Loan Limit Flag*

*Graduate Subsidized Loan Limit Flag*

*Graduate Combined Loan Limit Flag*

Four flags, the Undergraduate Subsidized Loan Limit Flag, Undergraduate Combined Loan Limit Flag, Graduate Subsidized Loan Limit Flag, and Graduate Combined Loan Limit Flag, print at the end of the MPN/Loan Limit Information section and indicate the condition of the borrower's loan limits. Comment codes are generated based on the value of these four flags.

The valid flag values for the two Subsidized Loan Limit Flags and the two Combined Loan Limit Flags are as follows:

<b>ISIR Value</b>	<b>Value Printed on the ISIR</b>
Blank	Blank
C	Close to or equal to limit
E	Exceeded limit
N	Not near limit

## Additional ISIR Data

In addition to the information described above that is printed on the paper ISIR, we explain several important ISIR fields that are not printed on the EDEXpress ISIR below:

### DRN

The student's Data Release Number (DRN) does not print on the ISIR and is not part of the ISIR file. The DRN only prints on the student's SAR and the Web confirmation pages for FAFSAs, pre-filled FAFSAs, corrections, and standalone electronic signatures. The DRN appears immediately after the confirmation number. See Appendix D for more information about the DRN.

### Signature Reject EFC

The Signature Reject EFC is an EFC value calculated for records that have only signature rejects, no other reject reasons. One or more of the following rejects can display on the student's record: 14 (missing student signature on paper FAFSA or SAR), 15 (missing parent signature on FAFSA or SAR), or 16 (missing student signature on Web application). This EFC does not print on the ISIR from EDEXpress, SAR, or eSAR and does not appear in FAA Access to CPS Online or Student Inquiry. Appropriate signatures must be processed, as usual, before award disbursements can be made. This information benefits students who are trying to meet state deadlines that require the EFC to be calculated by a certain date.

### Field Correction Flags

The ISIR record contains a Correction Flag for each field on the FAFSA/SAR. These flags are found in positions 1763 through 1957 on the ISIR. The values for this field are as follows:

Value	Meaning	Symbol Printed on ISIR
0	Field was not previously corrected	
1	Field was corrected on the current transaction ( <i>i.e.</i> , changed to another value; correction from blank to zero is not considered a correction)	#
2	Field was corrected on a previous transaction ( <i>i.e.</i> , changed to another value; correction from blank to zero is not considered a correction)	@

EDEExpress does not actually print the data in this field. EDEExpress uses the values in this field to print the character # (pound sign) on the ISIR to the right of the field variable that was corrected on the most current transaction and to print the character @ (at sign) to the right of the field variable that was corrected on a previous transaction.

Correction flags are cumulative (i.e., the flag is included on all subsequent transactions).

## **FAFSA Data Verify Flags**

FAFSA Data Verify Flags are found on the ISIR record (positions 2183 through 2377). Each FAFSA Data Verify Flag byte corresponds to a specific SAR field and indicates fields corrected to the same value on the transaction being corrected.

<b>Value</b>	<b>Meaning</b>
0	Field was not corrected to the same value
1	Field was verified as containing the same data as the transaction being corrected
2	CPS has asked that the field be verified

EDEExpress does not print these flags on the ISIR. These flags can be found on the ISIR record layout and were added at the request of third-party servicers to assist them when performing correction edits.

# CORRECTIONS AND UPDATES

## Overview

The initial steps in the application process are sending a student's application information to the CPS and receiving that student's processed application data back from the system. One of three types of documents is sent to the applicant as a result of an application:

- E-mail Notification of SAR Processing
- SAR
- SAR Acknowledgement

For more information on the types of documents sent to student and the situations in which they are sent, see Appendix D of this guide.

When data must be updated (under the limited circumstances allowed by regulation) or corrected, additional steps are required. FAAs and students can correct application data. Different processes are used for updating records depending on who is correcting the record and the type of document used to make the correction.

## FAAs Making Corrections

FAAs can make corrections to students' records using FAA Access to CPS Online, third-party software, or their own mainframe systems.

### *FAA Access to CPS Online*

In FAA Access to CPS Online, changes (corrections or updates) can be made to any student's record by an FAA, regardless of whether the application originally entered the system in paper or electronic format. Both updates and corrections are referred to as correction transactions. The electronic correction process requires that the school that inputs the new information maintain signed correction documentation.

Documentation can consist of a paper SAR or other documents, such as tax returns, a verification worksheet, or a change-of-address form. The FAA enters the changes on the FAA Access to CPS Online correction entry screen, submits the changes to the CPS, and receives an ISIR containing the new processed data. In this electronic input situation, the student receives an E-mail Notification of SAR Processing if he or she provided an e-mail address with valid syntax. Otherwise, a SAR Acknowledgement is sent. The school receives an electronic ISIR.

### *Mainframe System*

FAAs can use their own systems to make changes or updates to any student's record, regardless of whether it originally entered the system as a paper or an electronic application. Using a mainframe system or third-party software, FAAs can submit electronic corrections to the CPS using the SAIG. As with FAA Access to CPS Online, the school must maintain signed correction documentation.

In this electronic input situation, the student receives an E-mail Notification of SAR Processing if he or she provided an e-mail address with valid syntax. Otherwise, a SAR Acknowledgement is sent. The school receives an electronic ISIR.

For more information on supporting a mainframe system, see the *2010-2011 Electronic Data Exchange (EDE) Technical Reference*, which provides sufficient programmer specifications and information to design or build your own system or software or the *Application Processing System Specifications for Software Developers*. Both documents are posted on [ifap.ed.gov](http://ifap.ed.gov) and on [fsadownload.ed.gov](http://fsadownload.ed.gov).

## Students Making Corrections

A student can make corrections to their application data using paper output documents or using Corrections on the Web. The options for a student to make a correction depend on the document the student received after the application or subsequent transaction was processed. In most cases a student will receive one of the following output documents. The exception is for a student who submits corrections that are processed in real-time through Corrections on the Web; this student's confirmation page includes a link to his or her e-SAR and no other output document.

### *E-mail Notification of SAR Processing*

The E-mail Notification of SAR Processing is designed to notify the student of application and eligibility status more quickly than either the paper SAR or the SAR Acknowledgement. The e-mail includes a link to the student's processed SAR results online and enables the student to print the online SAR document as often as needed. The SAR contains a link to Corrections on the Web for correcting or confirming the applicant data. To complete corrections to the application data, the student must provide his or her PIN or signature. If the student is dependent and is changing parental data, a parent PIN or signature must also be provided. Students with undeliverable e-mail addresses and those whose E-mail Notifications of SAR Processing have been returned to the U.S. Department of Education are sent paper SARs or SAR Acknowledgements.

### *SAR Acknowledgement*

The SAR Acknowledgement is designed to notify the student of application and eligibility status and is mailed when an applicant has completed an electronic application or correction but has not provided an e-mail address. If corrections are needed, the student uses Corrections on the Web, contacts the school to submit the corrections through FAA Access to CPS Online or a mainframe system, or calls the Federal Student Aid Information Center (FSAIC) to request a duplicate SAR and use it to mail corrections or updates to the FAFSA processor.

### *SAR*

The SAR is designed to serve two basic purposes: to notify the student of application and eligibility status and to provide a means for correcting or confirming applicant data.

The SAR is a vehicle for corrections for students who filed on paper and do not have e-mail addresses, or for students who file using FAFSA on the Web or Corrections on the Web and (1) are rejected for lack of signatures or (2) do not have an SSN Match Flag of **4** (SSN, name, and date of birth match). A student can correct or update his or her application information on the SAR and mail it to the FAFSA processor for data entry.

After the FAA or student makes corrections and the changes are processed, the student receives a new E-mail Notification of SAR Processing, SAR Acknowledgement, or SAR. In all cases, an ISIR is generated for the school.

---

## SAR Corrections

As described in the previous section, for each non-real-time transaction processed at the CPS, an output document is sent to the applicant: a paper SAR, a SAR Acknowledgement, or an E-mail Notification of SAR Processing with information for accessing SAR data on the Web. An applicant who submits corrections using Corrections on the Web that are processed in real-time is presented with a link to his or her e-SAR on the Confirmation page. This section describes the paper SAR. Additional information on the paper SAR, including changes for 2010-2011, can be found in Appendix D.

Boxes with the question number and a shortened question description that corresponds to a question on the FAFSA appear on the SAR. These question boxes contain the student's response to the question. Next to or below the question box are boxes or ovals that resemble the answer fields on the FAFSA where the student can indicate or write in a corrected answer, if necessary.

Items that are highlighted (printed in bold type) require special attention. Highlighting indicates the CPS identified the responses as questionable or inconsistent with other answers. The CPS may assume answers to certain questions by comparing them with other information on the application. Answers might be assumed when the question was left blank, or a positive number might be assumed when the answer to an income question was given as a negative number.

When the CPS assumes an answer, both the value reported by the applicant and the assumed value are printed on the SAR. The word "ASSUMED" appears in parentheses with the assumed value. Assumed values are used by the CPS in performing the EFC calculation and should be reviewed carefully. If the assumed values are correct, the student does not need to change them on the SAR.

The student can correct other items if necessary, whether or not they are highlighted.

If the record has been rejected, an arrow points to the response field for the questioned item. This indicates that the student must provide a new answer because the original response was blank or illegible, and the item is necessary to perform an EFC calculation. The student can also correct other items if necessary, even if they are not highlighted.

At the top of the SAR are instructions to the student explaining the meaning of the arrows and the proper way to fill in an oval or to correct, confirm, or delete an answer. To confirm a previously reported answer, the student must rewrite the same value in the answer fields and return the SAR.

---

## Parent Information for Independent Students

The SARs for dependent and independent students contain the same sections and numbered items as the FAFSA. Parent information is printed in the parent section for an independent student if the student provided it on the FAFSA, although the EFC calculation does not include parental data. Students in certain health profession programs are advised that they may have to provide parental data because the data is required by many health profession schools to award Title VII aid. Parental data provided by independent students is not subject to any edits, but the data appears on the SAR and ISIR and is carried forward on all transactions.

Parental data is required for dependent students and is edited and used in the EFC calculation.

---

# Signatures

## SAR Corrections

A message at the bottom of the last page of the SAR shows the address where SAR corrections should be mailed.

In the lower left corner of the same page, the student is asked to certify that any corrections made on the SAR are accurate and complete. The student must sign this statement if he or she chooses to submit the corrections on paper. If the student is dependent and is changing parental data, one parent must also sign.

The student can also make corrections using the Web site, located at [fafsa.gov](http://fafsa.gov). A PIN is needed to access the correction data. When corrections are made using the Web, a parent needs to sign or supply his or her PIN only if the parental data is changed. The student must supply his or her PIN.

## PINs

The PIN simplifies and expedites processing for any applicant and his or her parent. A PIN can be issued in real-time from the PIN Web site or FAFSA on the Web, enabling an applicant and his or her parent to immediately sign an original 2010-2011 FAFSA.

Students and parents can create their own PIN, request that Federal Student Aid generate a PIN for them that is displayed on the screen in real-time, request that the PIN be e-mailed in real-time, or have the PIN sent through postal mail. For all options except a PIN sent through postal mail, the PIN is issued in real-time so that the student or parent can immediately use it to electronically sign the application. See “The PIN for Students and Parents” in the “Processing Flow” section earlier in this guide for more information.

## Signature Rejects

The Signature Reject EFC field is calculated for records that have only one or more of the three signature rejects described on the following pages.

**Note:** The Signature Reject EFC is included in the ISIR file, but does not print on the ISIR from EDExpress, SAR, or eSAR and does not appear in FAA Access to CPS Online or Student Inquiry. Appropriate signatures must be processed as usual before award disbursements can be made. This information benefits students who are trying to meet state deadlines that require the EFC to be calculated by a certain date.

### *Reject 16 — Missing Student Signature from a FAFSA on the Phone or Web Application*

Reject 16 is generated and a paper SAR is sent to a student who submitted an application by calling FSAIC to submit a FAFSA on the Phone or submitted an application through FAFSA on the Web or Spanish FAFSA on the Web but did *not* provide a PIN or follow up with a signed Signature/Certification page. Reject 16 is also generated if the Signature/Certification page sent by the applicant was incomplete and could not be processed.

If the application record indicates that a Signature/Certification page was printed, the CPS holds the transmission for up to 14 calendar days pending receipt of the page. If the Signature/Certification page is not received in 14 calendar days, the CPS processes the record and mails a SAR with a Reject 16 code.

If the application record indicates that a Signature/Certification page was *not* printed, the CPS immediately processes the record and mails a SAR with a Reject 16 code.

**Note:** Reject 16 may appear with other rejects or highlighted data requiring correction or verification. A Reject 16 SAR does not have a calculated EFC and contains the full Certification Statement that appears on the FAFSA.

### *Reject 15 — Missing Parent Signature on FAFSA or SAR*

Reject 15 is generated and sent on an E-mail Notification of SAR Processing or paper SAR to a dependent student who submitted a paper FAFSA or SAR without a parent signature. Reject 15 is also generated if a dependent student files a FAFSA or renewal application on FAFSA on the Web and signs with a PIN but does not provide a parent signature or PIN.

To resolve a Reject 15 code, the CPS requires at least one parental signature for dependent students. The parent can use his or her PIN to sign electronically using Corrections on the Web; sign and mail the Signature/Certification statement on the paper SAR; or contact the school's FAA who can submit the signature data electronically through the FAA Access to CPS Online Web site.

When a parent signs his or her dependent child's application or correction record with a PIN, other corrections can be made simultaneously; however, both the dependent student and one of the student's parents must use their PINs to sign an application or correction, or the resulting transaction will have a Reject 15.

If a printer is available, a dependent student can also print the Signature/Certification page, obtain a parent's signature, and mail it to the processor. The transmitted application is held up to 14 calendar days pending receipt of the page. If the Signature/Certification page is not received in 14 calendar days, the CPS processes the record and sends an E-mail Notification of SAR Processing or a paper SAR with a Reject 15 code.

If the application record indicates that a Signature/Certification page was *not* printed, the CPS processes the record and mails a SAR with a Reject 15 code or sends the E-mail Notification of SAR Processing.

If neither of a dependent student's parents has a PIN nor has a printer to print the Signature/Certification page, the student's school can obtain the necessary documentation and submit the parent signature using FAA Access to CPS Online.

**Note:** Reject 15 may appear with other rejects or highlighted data requiring correction or verification. A Reject 15 SAR does not have a calculated EFC and contains the full Certification Statement that appears on the FAFSA.

#### *Reject 14 — Missing Student Signature on Paper FAFSA or SAR*

Reject 14 is generated when a student submits a paper FAFSA or SAR without a student signature or if the FAFSA or correction was signed before January 1, 2010 and sent to the FAFSA processor after the January 1, 2010 system startup date.

To correct a SAR with Reject 14, the student must sign and return the paper SAR to the FAFSA processor address indicated on the form. The student can also make other corrections to the Reject 14 SAR simultaneously, if necessary. By signing and returning the certification statement along with the application data, the student completes the application process.

A student who has an active PIN can also sign his or her record electronically on the Web and make other corrections using Corrections on the Web. Alternatively, schools can obtain the necessary documentation from the student and submit his or her signature using the FAA Access to CPS Online Web site.

**Note:** Reject 14 may appear with other rejects or highlighted data requiring correction or verification. A Reject 14 SAR does not have a calculated EFC and contains the full Certification Statement that appears on the FAFSA.

---

## School Code Corrections

A student can correct the school codes listed on his or her record in a number of ways. A school code can be added, removed, or replaced using FAFSA on the Web, FAA Access to CPS Online, or the SAR.

**Note:** The FAFSA contains space for up to four school codes and housing plans, while FAFSA on the Web applications and corrections can contain up to ten school codes. All ten schools are included in the ISIR file but, due to space constraints, only the first four schools print on the SAR and the first six schools print on the ISIR from EDEExpress. You can view all schools on the student's record using FAA Access to CPS Online.

On the SAR, the student can correct any of the four school code fields and the new code is added in the position in which it was entered on the SAR. If the student chooses a position that has a school code in it, the previous code is replaced by the new school code. The school with the code that was removed does not receive ISIRs for the student.

The same results occur if the school correction is made using FAA Access to CPS Online, FAFSA on the Web, or if the student makes the request over the telephone through FSAIC. However, all ten school code fields can be corrected, and if the correction is made using FAA Access to CPS Online, the processing system does not process a change that removes the school that transmitted the correction from the student's record.

To prevent schools from viewing or receiving transactions that contain a professional judgment by another school, students and FAAs are not permitted to add a new school code to a transaction that contains a professional judgment flag. The student or FAA must choose the next available transaction to make the correction. This does not apply to transactions that result from dependency overrides.

# APPENDIX A – 2010-2011 REJECT CODES AND REJECT REASONS

---

## Reject Reason Codes

Reject reason codes can be either alphabetic or numeric. Some reject reasons are verifiable—that is, the student can confirm the questionable data by reentering the same value or correcting it to a different value. Other reject reasons are not verifiable; the questioned data must be changed or provided. In all reject situations, the questioned information is highlighted on the SAR and an EFC is not calculated.

A confirmation overrides a CPS edit. For example, if a student reports an exceptionally large number of family members (such as 20), the student’s application receives a Reject W. The student can confirm the information by correcting the item to the same value, and Reject W is not triggered again.

However, if instead of confirming that 20 family members is correct, the student changes “20” to “21,” the corrected data is subject to the same edits and will receive Reject W again.

In FAA Access to CPS Online, an FAA can override some verifiable rejects before transmitting the student’s data to the CPS if the FAA knows that the reported information is correct. When using FAFSA on the Web and Corrections on the Web the student can also override the reject by confirming the information he or she has entered.

As part of the annual changes, we incremented the year references in our edits that cause rejects A and B to be set on a record.

---

## Table of Reject Codes and How to Respond to Each

Reject codes, reasons, and their associated SAR comment codes are listed here. If a student is rejected for more than one reason, the reject codes appear in the FAA Information Box in priority order. The resolution for a rejected SAR is the responsibility of the student, not the institution, and the SAR comment generated by the reject explains what action the student must take.

**New for 2010-2011:** We added Adjusted Gross Income as a required field that must be verified for rejects C and G.

**New for 2010-2011:** Because of processing edit changes we removed the override for reject 4, which was set when the student's marital status date was greater than the date the application was signed. The student can never have a marital status of married with a marital status date after the date the application was signed.

Reject Code	Reject Reason	Action	Comment Code
*A	Date of birth year equals 1900 through 1935.	Confirm (reenter the same value) or correct the Date of Birth.	069
*B	Independent student and date of birth equals 09/01/94 or greater, and date of birth is not equal to or greater than current year.	Confirm (reenter the same value) or correct the Date of Birth.	072

# APPENDIX B – 2010-2011 DATABASE MATCHES AND MATCH FLAGS

---

## Overview

This appendix includes expanded charts showing match flags for all matches, the reasons associated with these match results, the number and text of the SAR comment that is triggered, and information on what action the institution needs to take when resolution of a match problem is required.

In the NSLDS match chart, we have also shown the relationship between the NSLDS Match Flag and the NSLDS Results Flag.

## How to Use the Charts

The information is provided for you to use as a quick reference. The *Federal Student Aid Handbook*, Volume 1–FSA Handbook: Student Eligibility contains detailed information about student eligibility and the action needed to resolve discrepancies found in the data matches. The handbook is located on [ifap.ed.gov](http://ifap.ed.gov).

A flag of **C** is an indicator that institutional resolution is required. The C Flag is printed on the SAR next to the EFC if any of the conditions described in the chart are met.

**Note:** Some of these data match results generate rejected records. Comments associated with a match results reject do not generate SAR C codes. However, a SAR C code could possibly be generated by another match result comment and is printed on a SAR rejected for other than match results reasons. An EFC is not provided on any rejected records.

An asterisk (\*) in the Match Flag column of this chart indicates that a match flag value is not generated for cases that could not be sent to the matching agency.

## DHS Primary Verification Match

SAR C Code/ Reject	Match Flag	Reason for Comment/ Results	Comment Number/Text	Action Needed
	Y	Match conducted.  Applicant's noncitizen eligibility confirmed by DHS.	<b>143</b> Your citizenship status has been confirmed by the Department of Homeland Security and you meet the citizenship requirements for federal student aid.	No resolution required.  Do not initiate Secondary Confirmation unless there is conflicting information about the student's status or you have reason to believe the status reported is incorrect.  The SAR/ISIR will serve as the necessary documentation to prove the student's eligible noncitizen status.
C code	N	Match conducted.  DHS did not confirm applicant's noncitizen eligibility.	<b>144</b> The United States Citizenship and Immigration Services (USCIS) of the Department of Homeland Security (DHS) has not yet confirmed your status as a noncitizen (Item 14) in an immigration status associated with the requirements of eligibility for the financial assistance for which you have applied. DHS will continue to check its records and we will notify you once we receive more information from DHS.	Resolution required. See match flag for Secondary Confirmation.  DHS will conduct the Secondary Confirmation process based on applicant identifier and Primary Verification information only. The next steps will depend on results from Secondary Confirmation match results.

## DHS Primary Verification Match (continued)

SAR C Code/ Reject	Match Flag	Reason for Comment/ Results	Comment Number/Text	Action Needed
Reject 17	blank*	Match not conducted.  Applicant did not indicate citizenship status.	<b>068</b> You did not indicate on your FAFSA that you are a U.S. citizen or an eligible noncitizen (Item 14). To receive federal student aid, a student must be –  (1) A U.S. citizen (or U.S. National), or  (2) An eligible noncitizen, such as a U.S. permanent resident or a resident of certain Pacific Islands, or as determined by the U.S. Department of Education	Resolution required.  If student failed to provide an Alien Registration Number (ARN), DHS match was not conducted. However, match was still conducted with SSA to determine citizenship. If SSA Citizenship Flag indicates that the student is a U.S. citizen, record will not be rejected. No resolution is required, but student should correct question 14 to reflect that student is U.S. Citizen/National.  If student is an eligible noncitizen, student should correct citizenship in question 14 to indicate eligible noncitizen status AND should provide an ARN. The student's record will be sent to the DHS match to determine if the student is an eligible noncitizen. After the corrected SAR is returned, review the DHS match flag to determine student's citizenship status.
C code	blank*	Match not conducted.  Applicant changed from eligible noncitizen to citizen or changed Alien Registration Number.	<b>141</b> You changed either your response to citizenship (Item 14) or the Alien Registration Number (Item 15) that was verified with the Department of Homeland Security. Therefore, you must submit proof of your citizenship status to your financial aid office.	Resolution required.  Determine why student changed citizenship status and resolve any conflicting information. Student may need to submit proof of citizenship depending on reason for change.

## DHS Secondary Confirmation Match

CPS waits for three compute days to receive results from Secondary Confirmation instead of processing ISIRs with results from Primary Verification only.

After three days, if DHS does not return a response, CPS generates the ISIR, which shows that Secondary Confirmation is still in progress.

You must submit proof to your school that you are a noncitizen in the required immigration status. If you do not submit proof to your school within 30 days, or longer if your school allows, you may not be eligible for federal student aid.	Resolution required. School must wait ten business days for another system-generated ISIR with updated Secondary Confirmation match flag before beginning mandatory paper (G-845) Secondary Confirmation process. ## DHS Secondary Confirmation Match (continued)

SAR C Code/Reject	Match Flag	Reason for Comment/Results	Comment Number/Text	Action Needed
C code	X	DHS did not confirm eligibility because additional information is needed.	<b>109</b> The United States Citizenship and Immigration Services (USCIS) of the Department of Homeland Security did not have enough information to confirm that you are a noncitizen (Item 14) in an immigration status associated with the requirements of eligibility for the financial assistance for which you have applied. You must contact the financial aid office at your school to find out what information is needed. If you do not submit the required information within 30 days, or longer if your school allows, you may not be eligible for federal student aid.	Resolution required.  You must begin paper (G-845) Secondary Confirmation process. See the “Electronic Announcements” section of the <a href="#">IFAP</a> Web site, for the most recent G-845 form and mailing addresses. **Note 1:** Before sending copies of documentation to DHS, the school should confirm that the student identifiers on the ISIR are accurate, especially Alien Registration Number and Date of Birth. If application data is incorrect, submit corrections to the CPS instead of paper Secondary Confirmation.

**Note 2:** Be sure to enter the student’s 15 digit DHS Verification Number on the G-845 form. It can be found in the Match Flags section of the ISIR.

**Note 3:** In all cases, if school does not receive a response to paper Secondary Confirmation request in 15 days, student is eligible for aid if documentation appears to support claim of eligible noncitizen.

## Social Security Administration's Citizenship Status

<b>SAR C Code/ Reject</b>	<b>Match Flag</b>	<b>Reason for Comment/ Results</b>	<b>Comment Number/Text</b>	<b>Action Needed</b>
	A or blank	Match conducted. SSA confirmed U.S. citizenship status.	No comment.	No resolution required.

## Social Security Administration's Citizenship Status (continued)

SAR C Code/ Reject	Match Flag	Reason for Comment/ Results	Comment Number/Text	Action Needed
C code	B, C, D, E, F, or *	Match conducted.  SSA did not confirm U.S. citizenship status.	<b>146</b> The Social Security Administration did not confirm that you are a U.S. citizen. Please provide your financial aid office with documentation of your U.S. citizenship (such as your U.S. Passport, Certificate of Naturalization or Birth Certificate). If the documents support your status as a U.S. citizen, the financial aid office at your school will make a copy of your documentation and can continue to process your federal student aid. If you are an eligible noncitizen, you or your school must submit a correction to Item 14 to indicate that you are an eligible noncitizen and also provide your Alien Registration Number in Item 15. You and your school will receive a new SAR/ISIR within three processing days with results from the Department of Homeland Security about your eligible noncitizen status.	Resolution required.  If student is a U.S. citizen, he or she should provide birth certificate, passport, or other documents that definitively prove citizenship. Voter registration cards are not adequate proof of citizenship since many localities do not require proof of citizenship.  If student is an eligible noncitizen, he or she should correct question 14 to indicate that the student is an eligible noncitizen and the Alien Registration Number (ARN) in question 15.  If student provided citizenship and Alien Registration Number on the FAFSA or SAR, determine if his or her record was sent to DHS for matching. If it was not, verify that the ARN submitted is correct and that the First and Last Name, Date of Birth, and applicant's signature are on the record. If student was successfully matched with DHS as an eligible noncitizen, comment 146 is suppressed and no further resolution is necessary.  <b>Note:</b> A match flag of * (asterisk) generally indicates that the student was born in a foreign country to American parents that were stationed in another country (for example, military, State Department, or Foreign Service). These students generally have birth certificates indicating that they are U.S. citizens that were born abroad. The SSA will not automatically update this flag and the FAA should document the information in the student's record.

If the SSN is incorrect, you must correct the SSN on a paper SAR or submit a new FAFSA online with the correct SSN.</p>	<p>Resolution required.</p> <p>If the student's SSN is correct, he or she must contact SSA. After SSA corrects its records, the student can reenter the SSN and submit it as a SAR/ISIR correction. Records sent for rematching will continue to receive this match flag until SSA updates its database. Review subsequent transactions for updated match flag. If a correction is made to date of birth, SSN, first name, or last name, the record will be sent again for matching. Review subsequent transactions for updated match flag.</p> <p>If the SSN is incorrect, the student can correct the SSN on the SAR/ISIR. If this is done, the student's original SAR ID will not change, but the current SSN reported in question 8 will be changed to reflect the corrected SSN.</p> <p>Alternatively, the applicant can file a new FAFSA under the correct SSN. This FAFSA will be treated as an original application and will be sent through all of the matches as if another FAFSA was never completed. ## Student's Social Security Number Match (continued)

SAR C Code/ Reject	Match Flag	Reason for Comment/ Results	Comment Number/Text	Action Needed
Reject R	2	Match conducted.  Date of birth inconsistent with SSA records.	<b>060</b> The date of birth you reported on your FAFSA does not match the date of birth in the Social Security Administration's (SSA) records for your Social Security Number (SSN). Therefore, you must correct your SSN (Item 8) or your date of birth (Item 9). If your date of birth is correct, you must confirm it by reentering it in Item 9. If you confirm your date of birth, you should also contact the SSA to make sure they correct it in their records. The SSA can be contacted by calling 1-800-772-1213 or by visiting <a href="http://www.socialsecurity.gov">www.socialsecurity.gov</a> .	Resolution required.  The student must make a correction to provide the correct date of birth.  If the date of birth is correct, the student must correct the date of birth on the SAR/ISIR to the same value reaffirming that it is correct. The CPS will reprocess the transaction without the reject.  In addition, if the student's date of birth is correct, he or she should contact SSA to update its records. Records sent for rematching in future years would continue to receive this match flag until SSA updates its database.  If a correction is made to date of birth, SSN, first name, or last name, the record will be sent again for matching. Review subsequent transactions for updated match flag.

## Drug Conviction Question #23

SAR C Code/ Reject	Reason for Comment/ Results	Comment Number/Text	Action Needed
C code	Applicant left question 23 blank.	<b>053</b> You left Item 23 blank. Your failure to provide an answer to this question makes you ineligible to receive federal student aid. Either indicate that you have not been convicted of possessing or selling illegal drugs for an offense that occurred while you were receiving federal student aid (such as grants, loans, and work-study), or use the enclosed worksheet to determine your answer to this question. You can answer Item 23 on your SAR or you can correct this item by calling 1-800-4-FED-AID (1-800-433-3243) or by going to <a href="http://www.fafsa.gov">www.fafsa.gov</a> . Please understand that a drug conviction does not necessarily disqualify you from receiving student aid.	Resolution required.  Applicant is not eligible for federal aid if this response is left blank. A correction to provide a response must be made by following the directions provided in the comment text.
C code	Applicant response to question 23 was "Yes (Part Year)."	<b>054</b> You reported a '2' in response to Item 23. This indicates that you are ineligible for federal student aid for part of the 2010-2011 school year. The period of ineligibility resulting from your drug-related conviction(s) ends on or after July 1, 2010. You should contact your Financial Aid Administrator after July 1, 2010 so that he or she can determine if you may receive federal funds during the 2010-2011 award year.	Resolution required.  Applicant is not eligible for federal aid until ineligibility period expires between July 1, 2010, and June 30, 2011.

## Drug Conviction Question #23 (continued)

SAR C Code/ Reject	Reason for Comment/ Results	Comment Number/Text	Action Needed
C code	Applicant response to question 23 was "Yes" on a paper FAFSA.	<b>056</b> You reported in Item 23 that you have been convicted of an illegal drug offense. Use the enclosed worksheet to determine if your conviction(s) affect your eligibility for federal student aid. If you determine that your conviction(s) do not affect your eligibility for federal student aid, or affect it for only part of the 2010-2011 school year, you must correct Item 23. You can change your answer by using your SAR or you can correct this item or get additional help with this question by calling 1-800-4-FED-AID (1-800-433-3243). <b>YOU ARE NOT ELIGIBLE FOR FEDERAL STUDENT AID WHILE YOUR ANSWER TO ITEM 23 IS '3, YES'</b> but you may still be eligible to receive state, school, or other non-federal student aid.	Resolution required.  Applicant is not eligible for federal aid. If response is incorrect, applicant should follow directions in the comment text to make a change. Applicant should not be referred to any other phone numbers at the Department of Education for resolution.
C code	Applicant response to question 23 was "Yes" on other than a paper FAFSA.	<b>058</b> You reported in Item 23 that you are not eligible for federal student aid as a result of a drug-related conviction, or that you do not know if your conviction(s) affect your eligibility. However, you may still be eligible to receive state, school, or other non-federal student aid. If you have answered this question incorrectly, you must correct Item 23 by using your SAR. You can also correct this item or get help with this question by calling 1-800-4-FED-AID (1-800-433-3243).	Resolution required.  Applicant is not eligible for federal aid. If response is incorrect, applicant should follow directions in the comment text to make a change. ## Department of Defense (DOD) Match

SAR C Code/ Reject	Match Flag	Reason for Comment/ Results	Comment Number/Text	Action Needed
	Blank	No match found.	No comment.	No resolution required.
	Y	Student's SSN and first two letters of the last name match a record on the DOD Match file confirming the student had a parent who died as the result of military service in Iraq or Afghanistan after September 11, 2001.	<b>298</b> This SAR has been produced due to a possible change in your eligibility for federal student aid. Please contact your financial aid office for more information.	If the student was age of 24 years of age or older on the date of the parent's death, confirm that the student was enrolled in college. The parent's date of death is included in the ISIR file or can be viewed in the EDEExpress FAA Information View and on FAA Access to CPS Online. The date of death does not print on the ISIR and the match flag and date of death do not print on the SAR. The Date of Death does print on the FAA version of the e-SAR (PDF and HTML versions).

## Verification Selection Edits

If the applicant's record is selected for verification, variable text prints on the first page of the SAR. If the school requests, the student must complete the verification process and submit all necessary documentation within the necessary timeframe. More information can be found in *The Application and Verification Guide*, which is part of the Federal Student Aid Handbook and is available on the IFAP Web site, located at [ifap.ed.gov](http://ifap.ed.gov).

For 2010-2011, we use a Verification Tracking Flag range of 0001 to 0999. The higher the Verification Tracking Flag number, the higher the priority for selection. Blank is valid for those records without an EFC or system-generated transactions. Even though a record might have a Verification Tracking Flag, it does not necessarily mean that the student will be selected for verification by the federal processor. This is because Federal Student Aid keeps the number of records selected to around the 30 percent maximum level.

# APPENDIX C - LOAN STATUS CODES AND ELIGIBILITY CHARTS

---

## Overview

Appendix C describes the loan status codes, Federal Direct Loan servicer codes, selected servicer codes, guaranty agency codes, selected lenders, and contact information/fields associated with loan status.

The Loan Status Codes table on the following pages contains a column titled “Group (ISIR sort order).” This column describes the order that these loans are sorted and displayed on the ISIR with regard to their current loan status, categorized in the following groups:

- Group 1 includes loans in deceased status, making the student ineligible for aid.
- Group 2 includes loans in a defaulted or fraud status, making the student ineligible for aid.
- Group 3 includes loans where a school may have to take action; this includes loans in an abandoned, disability, active bankruptcy, or temporary uninsured status.
- Group 4 are loans in an open status not included in groups 2 and 3.
- Group 5 includes closed loans (those not included in groups 1, 2, 3, and 4).

# APPENDIX D – SAR AND SAR ACKNOWLEDGEMENT

---

## Overview

For each non-real-time transaction processed at the CPS, an output document is sent to the applicant: a paper SAR, SAR Acknowledgement, or an E-mail Notification of SAR Processing with information to access SAR data on the Web. An applicant who submits corrections using Corrections on the Web that are processed in real-time is presented with a link to his or her e-SAR on the Confirmation page. The type of document sent is determined by the type of record that was submitted by the applicant as follows:

Record Submitted	Output
Paper FAFSA or SAR	English or Spanish SAR or E-mail Notification of SAR Processing
FAFSA on the Web or Correction on the Web (non-real-time)	English or Spanish SAR Acknowledgement or E-mail Notification of SAR Processing
FAFSA on the Web or Correction on the Web (non-real-time) without signatures	English or Spanish SAR or E-mail Notification of SAR Processing
Corrections on the Web (real-time)	No output, student receives link to e-SAR on confirmation page
FAA Access to CPS Online Application or Correction	English or Spanish SAR Acknowledgement or E-mail Notification of SAR Processing

Students who meet the following criteria receive an e-mail containing a link to access the SAR on the Web instead of the paper SAR or paper SAR Acknowledgement:

- E-mail address exists and has valid syntax and
- Social Security Administration (SSA) match equals 4.

We print and mail a paper SAR to students with e-mail addresses with invalid syntax and to those whose E-mail Notifications of SAR Processing were returned to us.

The SAR serves two basic purposes:

- Notifies the student of application and eligibility status
- Provides a means for correcting or confirming applicant data

The SAR Acknowledgement is designed to notify the student of application and eligibility status. If corrections are needed, the student uses Corrections on the Web or contacts the school to submit them through FAA Access to CPS Online or a mainframe system.

The E-mail Notification of SAR Processing is designed to notify the student of application and eligibility status more quickly than the paper SAR or the SAR Acknowledgement. It enables the student to view the SAR online and to print the online SAR document as often as needed. The SAR links the student to Corrections on the Web for correcting or confirming the applicant data. To complete corrections to the application data, the student must provide his or her PIN or signature and, if dependent and changing parental data, his or her parent's PIN or signature.

## Paper SAR

The paper SAR follows the order of the questions as they are presented on the paper FAFSA.

All English SARs are ten-page documents, and Spanish SARs are eleven-page documents. The first four pages are in a letter format and include the comment text, NSLDS information, and FAA information. The last six pages (seven pages for Spanish) display the question responses reported by the student and provide space for making corrections. Each page of the SAR is described in detail below. In addition, to match the color scheme of the paper FAFSA, the 2010-2011 SAR is printed on blue paper.

A draft copy of the 2010-2011 SAR is available on the IFAP Web ([ifap.ed.gov](http://ifap.ed.gov)) site.

### SAR—Page 1

The date below the [www.fafsa.gov](http://www.fafsa.gov) Web site address in the upper left corner is the date the record was processed at the CPS. Below the process date is a tracking number for the FAFSA processor and the CPS that is not used for any institutional purpose. The student's name and mailing address is printed below the tracking number.

The student's four-digit Data Release Number (DRN) is to the right of the processed date in the upper right corner below the Office of Management and Budget (OMB) number. The DRN can be used by schools to access the student's electronic application record if they were not originally listed on the student's application or SAR. In addition, the student can use the DRN to make a telephoned request for corrections through the FSAIC at 800/4FED AID (800/433-3243) or TDD/TTY 800/730-8913. The following types of changes can be made:

- Correct data entry errors made by the FAFSA processor
- Update the response to FAFSA question 23 (drug question)
- Request a change of address, e-mail address, telephone number, or institution
- Update the assumption overrides

Below the Data Release Number (DRN) is the student's EFC.

The EFC printed on the front page of the SAR is the primary EFC, calculated for a nine-month academic year. An asterisk printed next to the EFC indicates that the student was selected for verification by the CPS. A "C" printed next to the EFC indicates the student has an eligibility problem that must be resolved before Title IV aid can be disbursed to the student.

On the SAR, two series of numbers appear at the bottom of every page. The numbers on the left are processing codes used by the FAFSA processor and the CPS for tracking and quality control purposes. The numbers on the right are a cross-cycle student identifier.

**New for 2010-2011:** To enhance security, we are replacing the SSN embedded in the bar code of each page of the SAR with a cross-cycle identifier for the student stored on the CPS system below the bar code. This identifier provides the CPS an alternate way to identify a student without printing his or her SSN on the form.

## **SAR–Page 2**

The top half of page 2 contains required information from the Office of Management and Budget regarding the:

- Paperwork Reduction Act,
- Information Release to Schools, and
- Drug convictions affecting aid eligibility.

The “Only For Use by Financial Aid Office” section on the SAR appears on the bottom half of page 2. Descriptive labels are intended to help the FAA identify reject codes, match flags, intermediate values, and so forth. This data is similar to the FAA information provided on the ISIR, which is described in detail earlier in this guide.

**Note:** The DOD match flag information does not print on the SAR, it only prints on the ISIR.

**Important Note:** The comment codes listed on this part of the SAR are not all comments generated for this student. Only the comment codes that do not have a corresponding flag or other indicators already provided in the FAA information section are printed in this section.

## **SAR–Page 3**

The third page uses checkboxes in front of each comment that prints on the SAR.

The first section, “Comments About Your Information” includes comments that have been set during the processing of the record at the CPS. The first section is for general notes. The second section, “What You Must Do NOW!” is a checklist for students to use to make sure they resolve the issues on the SAR, such as missing information or eligibility problems and give the student more detailed information and directions for getting additional help.

## **SAR–Page 4**

The top of the page displays financial aid history information for the student. This is a subset of the information received from NSLDS, which is included on the ISIR record and described earlier in this guide. The information printed on the SAR includes the Aggregate Loan information for FFEL, Direct, Perkins, and TEACH loans.

The bottom of page 4 displays the codes for responding to questions on the SAR.

**New for 2010-2011:** We deleted the “Information You May Need!” section from the 2010-2011 SAR. This section contained codes for the type of veterans education benefits question that was deleted from the 2010-2011 FAFSA.

## **SAR–Pages 5-10 (Spanish Pages 5-11)**

The remaining six pages of the English SAR (seven pages of the Spanish SAR) display the information that was reported by the applicant for each question on the FAFSA/SAR.

The SAR is a vehicle for corrections in the paper system. A shortened version of each numbered item corresponding to a question on the FAFSA is displayed. Printed beneath the numbered item is the student’s response to that question. Below or to the right of each question response are boxes or ovals that resemble the answer fields on the FAFSA, which the student can use to indicate or write in a corrected answer, if necessary.

**New for 2010-2011:** The FAFSA is intended to be a snapshot of the student and parents’ financial situation “as of the date” they completed their FAFSA. For clarification purposes, we are enhancing the wording for SAR and Web Corrections questions that should not be revised after the date the application was completed. Students should not modify these data elements unless the data originally submitted was incorrect as of the date the application was filed. These fields include:

- Student’s and Parents’ Marital Status (questions 16 and 59)
- Student and Parent Cash, Savings, and Checking Account Balance (questions 41 and 89)
- Student and Parent Net Worth of Investments (questions 42 and 90)
- Student and Parent Net Worth of Businesses and Investment Farms (questions 43 and 91)
- Are you married (question 47)
- Student and Parent Dislocated Worker Status (questions 101 and 83)

Items that are highlighted (printed in bold type) require special attention. Highlighting indicates the student must provide a new answer, because the CPS identified the responses as blank, illegible, questionable, or inconsistent with other answers. The CPS may assume answers to certain questions by comparing them with other information on the application. Answers might be assumed when the question is left blank, or a positive number might be assumed when the answer to an income question is given as a negative number.

When the CPS assumes an answer, both the value reported by the applicant and the assumed value are printed on the SAR. The word “ASSUMED” appears in parentheses with the assumed value. Assumed values are used by the CPS in performing the EFC calculation and should be reviewed carefully. If the assumed values are correct, the student does not need to change them on the SAR.

The student can correct other items, if necessary, whether or not they are highlighted.

When an application is rejected, the resulting SAR does not have a calculated EFC. The SAR requires the student to correct information and return pages 5 through 10 of the English SAR (pages 5 through 11 of the Spanish SAR) to the FAFSA processor for reprocessing.

At the top of page 5 are instructions to the student explaining the meaning of the arrows and the proper way to fill in an oval or to correct, confirm, or delete an answer. To confirm a previously reported answer, the student must rewrite the same value in the answer field and return the SAR.

Sometimes students are caught in a reject “loop” because they do not respond to all highlighted and arrowed items to turn off the reject, or because they provide new information that the edit check still considers inconsistent or questionable.

The SAR has up to four school codes and housing plans printed on page 9 (Spanish page 10); however, the student can list up to ten school codes on his or her Web application or correction. The following English statement prints under question 104g if the fifth through tenth college code is non-blank on the applicant’s record:

“Your FAFSA information was sent to all colleges you listed although they are not all shown here. To see all of the colleges you listed go to [www.fafsa.gov](http://www.fafsa.gov) and select ‘View and Print Your Student Aid Report’.”

A graduation and retention rate statement prints below the school code statement described above. The statement is:

“If you would like to know the graduation and retention rates for the colleges you listed on your FAFSA, you can find that information on your Student Aid Report at [www.fafsa.gov](http://www.fafsa.gov) or visit College Navigator at [www.nces.ed.gov/collegenavigator](http://www.nces.ed.gov/collegenavigator).”

See the Corrections and Updates section of this guide for more information on using the SAR to make corrections.

# SAR Acknowledgement

The SAR Acknowledgement is a three-page document, four pages for the Spanish SAR Acknowledgement. It provides a summary of the student's processing results when the information is input electronically by the school or the student using the Web and no e-mail address is provided. The SAR Acknowledgement is printed on blue paper and is an eligibility document containing information for the student and FAA but cannot be used to make corrections.

## SAR Acknowledgement–Page 1

Page 1 of the SAR Acknowledgement is in a letter format addressed to the applicant. The format of this page looks similar to the SAR letterhead. The U.S. Department of Education letterhead is used and includes the Federal Student Aid Information Center telephone number and the FAFSA on the Web Internet address. The Office of Management and Budget (OMB) form-clearance number prints on the right side.

The date below the [www.fafsa.gov](http://www.fafsa.gov) Web site in the upper left corner is the date the record was processed at the CPS. Below the process date is a tracking number for the FAFSA processor and the CPS and is not used for any institutional purpose. The student's name and mailing address is printed below the tracking number.

To the right of the processed date (below the OMB number) is the student's four-digit Data Release Number (DRN).

Below the DRN is the student's EFC. The EFC printed on the front page of the SAR Acknowledgement is the primary EFC, calculated for a nine-month academic year. An asterisk printed next to the EFC indicates that the student was selected for verification by the CPS. A "C" printed next to the EFC indicates the student has an eligibility problem that must be resolved before Title IV aid can be disbursed to the student.

**New for 2010-2011:** To enhance security we are replacing the student ID (SSN, last name identifier and transaction number) in the bottom right corner with a cross-cycle identifier for the student stored on the CPS system. This identifier provides the CPS an alternate way to identify a student without printing his or her SSN on the form.

The front page of the SAR Acknowledgment contains two sections, "Application Status (review the checked boxes)" and "Federal Student Aid Eligibility (review the checked boxes)." Both sections display checkboxes next to statements regarding eligibility status and processing results.

## **SAR Acknowledgement–Pages 2-3 (Spanish Pages 2-4)**

Page 2 (back of page 1) and page 3 display, in condensed form, every numbered question from the FAFSA and prints the answer the student gave to that question or the value the CPS assumed.

Only the first four school codes and housing plans print on the SAR Acknowledgement. However, because students can now enter up to ten college choices on the Web, the following statement prints before the “For Financial Aid Office Use Only” section if School Codes 5 through 10 are non-blank on an applicant’s record:

“Your FAFSA information was sent to all the colleges you listed although they are not all shown here. To see all of the colleges you listed go to [www.fafsa.gov](http://www.fafsa.gov) and select ‘View and Print Your Student Aid Report’.”

At the bottom of the page, the section “For Financial Aid Office Use Only” includes information and codes for FAAs. Included here are the important match flags showing results of eligibility matches and other information that an FAA needs when using the SAR Acknowledgement as an eligibility document.

**Note:** All comment codes generated for the student’s ISIR are printed here, regardless of whether an associated match flag or other indicator is also provided.

# APPENDIX E – SAMPLE 2010-2011 ISIR

# Appendix F – Change Page Tracking Logs

---

## Overview

This Appendix is added and updated when change pages are issued to include all the tracking logs for each set of change pages as they are issued.

We will continue to show new text additions in the ISIR Guide change pages with bold italic text. Text deletions will be marked with strikethrough. Changes to page numbers in the Table of Contents will not be tracked.

The footer on each page of the section will change to reflect the month that the change was made. For example, if a change was made in Appendix B on page B-12, all pages in Appendix B will show the new month in the footer. Use the corresponding Tracking Log to see what was changed in that section during that period.

This Appendix contains the current and previous tracking logs for your reference.
