

Technical Update GA-2011-09

December 20, 2011

Supplementary Information – Change to Login Process for NSLDS Professional Access Web Site

This information is intended for the person in your organization who is responsible for working with the National Student Loan Data System (NSLDS). Please ensure the appropriate person receives this update.

This update provides supplementary information about the enhancements to the login process for the [NSLDS Professional Access](#) Web site that were outlined in [a December 8, 2011 Electronic Announcement on the Information for Financial Aid Professionals \(IFAP\) Web site](#). These enhancements bring the NSLDS behind Federal Student Aid's Access and Identity Management System (AIMS) and are another step toward Federal Student Aid's goal of providing a "single sign-on" process for users of multiple systems.

Effective Sunday, December 18, 2011, National Student Loan Data System (NSLDS) users no longer enter their NSLDS ID and password to log in to the web site. Instead, a Federal Student Aid User ID (FSA User ID) and password is used to authenticate each user's identity prior to allowing access to the NSLDS Professional Access Web site.

Note: If an NSLDS user does not access one or more of the systems currently behind AIMS and has not yet obtained an FSA User ID, the user will need to follow the instructions for "Users Without FSA User ID and Password" in the [December 8th announcement](#) and obtain an FSA User ID and password.

The NSLDS ID still exists; however, it is no longer used to gain system access. Accordingly, other changes include the display of both the FSA User ID and NSLDS ID on the NSLDS Professional Access Web site pages and a new report for Primary Destination Point Administrators (PDPAs) to manage information about their NSLDS users.

With the NSLDS move behind AIMS, the NSLDS Login page is replaced by a new unsecured NSLDS Welcome page. Selecting the 'Click to Continue' button on the unsecured NSLDS Welcome page begins the login process and will take the user to the FSA Access and Identity Management System Login page. After successfully logging in to the AIMS Login page, the secured NSLDS Welcome page displays with a box that lists the Organization Code or Codes associated with the NSLDS user. A user may have multiple Organization Codes linked to his or her one FSA User ID. By selecting an organization from the box, the user will have access to data specifically associated with that Organization Code.

Important Reminder: Each NSLDS user who has relationships with multiple organizations will continue to be responsible for ensuring that he or she correctly identifies the organization for which the user is working, completes borrower lookups/research/actions for only that organization, and then returns to the secured NSLDS Welcome page and selects another organization before beginning a new organization's work.

After the selection of an organization code, the user continues the login process by navigating through the Privacy Act, CAPTCHA, and Rules of Behavior pages. Prior to the move behind AIMS, the Privacy Act and Rules of Behavior pages contained the option to ‘Cancel and Logout’ of the NSLDS. With the new enhancements, a user selects the ‘Cancel and End NSLDS Session’ button, which returns the user to the unsecured NSLDS Welcome page.

When logged in to the NSLDS Professional Access Web site, the FSA User ID, user name, organization name, TG Mailbox Number, and NSLDS ID display on each page to which the user navigates. Previously, this data only included the user and organization names.

The ‘Change Password’ link on the Main Menu tab has been removed. Users will now manage their passwords through the AIMS Login page.
