Introduction

The National Student Loan Data System (NSLDS) uses codes to describe various loan conditions and events. These codes are concise and, like an abbreviation, describe a whole series of events using only a character or two. This saves considerable space in the database and simplifies the processing of data. The code tables contain a number of data elements listed in the Data Dictionary (Appendix A) (e.g., Code for Loan Status, Type of Deferment). The following tables list the available codes and their definitions. You should carefully match your codes to those used by NSLDS.

When the Data Dictionary refers to a field that “Must be a valid code” from a particular code table, use Appendix B to find the table. Using a code not listed on a specified table will cause an error.

Some of the codes, along with their associated dates, provide a full history of events on a loan in NSLDS. For example, you can view data in NSLDS showing when a loan was first originated (ID status), when it went into repayment (RP status), any deferment periods (DA status), and when it was paid in full (PF status). Recording of each event provides the FFEL program administrators and researchers with key information on loan history. Thus, the codes are critical to the operation of the NSLDS.

Table B-11: Loan Transfer Codes				
Code	Status	Definition	Report this Date in Date of Loan Status Field	Open/Closed Balance Requirements
AE	Loan transferred	A loan that has been transferred to and accepted by another data provider — another GA, ECMC (GA927), CDDTS (GA575), TPD (582), or DMCS (GA556).	<p>Report the date the transferred loan was accepted by the new data provider in the Date of Loan Status field.</p> <p>In addition, GAs will report the GA code to which the loan was transferred in the Code for Servicer field (field 088). As this is a six byte field, report 000 followed by GA code.</p> <p>For ECMC report '000927', for CDDTS report '000575', for TPD report '000582', and for DMCS report '000556'.</p> <p>Report the Date of Servicer Responsibility (field 150) with a date equal to the Date of Loan Status, or the date DMCS accepted the transfer.</p>	

Transferring Loans: To transfer a loan from one Guaranty Agency to another Guaranty Agency, the current Guaranty Agency must report AE as the loan status code; report the Date of Servicer Responsibility; report the Loan Status Date, which is the date the transferred loan was accepted by the new data provider; and the Code for Servicer populated with the new Guaranty Agency code. The receiving agency must then report the same identifiers, Code for Servicer, Date of Servicer Responsibility and Guaranty Transfer Date. Once the new Guaranty Agency updates the loan successfully on NSLDS, the loan is considered transferred. NSLDS refers to this process as the "handshake." If the original Guaranty Agency would like to transfer a loan back to its portfolio, a "handshake" must take place again. The Guaranty Agency must report a new Date of Servicer Responsibility in this case.

For DMCS (556), ECMC (927), CDDTS (575) and TPD (582), a “handshake” is not required to take place before these three agencies can report on loans owned by other Guaranty Agencies. If DMCS, ECMC, or TPD is returning a loan to a Guaranty Agency, then the “handshake” process must take place. For instance, if DMCS would like to transfer a loan to a Guaranty Agency, DMCS must report AE as the loan status code. DMCS must also provide the Date of Servicer Responsibility; the Loan Status Date, which is the date the loan was transferred; and the Code for Servicer populated with the new Guaranty Agency code. The receiving agency must then report all the exact identifiers, Code for Servicer, Date of Servicer Responsibility, and Guaranty Transfer Date to complete the “handshake.”

Please note that if you are the receiving agency and you change any of the key identifiers for the loan, you may create a duplicate record that could impact student eligibility.
