# 1 NSLDS Median Borrowing Backup Detail Report for Schools (SCHMB1)

The Median Borrowing Backup Detail (SCHMB1) Report is available to schools upon request under the Report Tab on the NSLDS Professional Access Web site. This extract report provides the detailed student and loan information used in the calculation for the Median Borrowing, as reported as part of the College Scorecard metrics.

The report is delivered via the Student Aid Internet Gateway (SAIG). The standard fixed-width extract file is delivered under message class SCMBDROP and is sent to the SAIG mailbox (TG number) of the user that requested the report. NSLDS Record Layouts are available in the NSLDS Reference Materials section of the Information for Financial Aid Professionals (IFAP) Web site.

This document contains the layouts for the header, detail, and trailer records for the extract version of the *Median Borrowing Backup Detail Report*. Each report requested online will generate one header record, one or more detail records, and one trailer record. The record layout tables found in this document contain the position, the data element name, description, field format, and length as they appear in the extract.

## 2 Median Borrowing Backup Detail Report Extract File Layout for Schools

*Median Borrowing Backup Detail Report Header Record Layout*

*Length = 210*
