# Pell Verification Status Codes

An OIG audit (September 2007) identified that schools were misreporting verification status codes to COD.

- Findings were based on CPS students selected for verification and the status codes reported to COD
- FSA continues to analyze COD verification status code reporting for each award year
- Affected schools were contacted to review their procedures for accurately reporting verification status codes to COD and take appropriate corrective action
  - May need to submit new status codes or revise previously submitted verification status codes for affected students

# Pell Verification Status Codes

Status Code	Description
<b>V</b>	The school has verified the student.
<b>W</b>	The student was selected for verification by the Central Processing System (CPS) or by the school, and the school chose to pay a first disbursement of the Pell Grant without documentation.
<b>S</b>	The CPS selected the student for verification, but the school did not verify the student for one of the following reasons: <ol style="list-style-type: none"><li>1. The school was not required to verify the student in accordance with the regulations exceptions</li><li>2. The school was not required to verify the student because it had already reached the 30% verification threshold (through 2010-2011)</li><li>3. The school participates in the Quality Assurance Program, and the student's application did not meet the school's verification criteria</li></ol>

# Two Pell Grants in One Award Year

To properly award two Pell Grants in one award year, the following steps must be taken:

- Set Additional Eligibility Indicator (AEI) to “true” when awarding funds from the student’s second Scheduled Award
  - Do not automatically set the AEI to “true” at the beginning of an award year for a student
  - Set AEI to “true” once verification of the student’s eligibility for a second Scheduled Award is complete
- Eligibility must be based on the rules as published in the Pell Grant Program Final Regulations: October 29, 2009
  - Eligibility is based on the payment period in which the student establishes eligibility for the second Scheduled Award

# Two Pell's in One Award Year

Crossover Payments must be evaluated to ensure both 2009-2010/2010-2011 Pell's were awarded properly.

Reassignment may be required if:

- The student would receive greater payment within the deadline date for the first award year
  - 2010 Crossover Payment Period: September 10, 2010
- Information received after initial Crossover Payment Period assignment deadline
  - Cannot be later than the deadline date for administrative relief for the first award year
  - 2010 Crossover Payment Period: February 1, 2011

# Two Pell's in One Award Year

Crossover Payments must be evaluated to ensure both 2010-2011/2011-2012 Pell's are awarded properly.

Reassignment ***IS*** required if:

- The student would receive greater payment within the deadline date for the first award year
  - 2011 Crossover Payment Period: September ??, 2011
- Information received after initial Crossover Payment Period assignment deadline
  - Cannot be later than the deadline date for administrative relief for the first award year
  - 2011 Crossover Payment Period: February ?, 2012

# Two Pell's in One Award Year

If reassignment is required after the Crossover Payment evaluation, the following activities should be reviewed:

- *COD*: Reduce any disbursement from the lesser year and report disbursement in the higher award year
- *G5's Crossover Reporting*: Resolve a negative account balance
  - Usually only at the end of an award year
- *Institutional Accounting*: Ensure that institutional accounting records accurately reflect changes in a student's awards and credit balances

# Initial Authorization Change

## Records First

Beginning with the 2011-2012 award year, the COD System will no longer system generate Initial Authorizations for the Pell Grant Program.

- Schools will not receive an authorization until COD receives/accepts records
- All schools will receive a Current Funding Level (CFL) once the COD System has accepted and posted actual disbursement records for that award year
  - 2011-2012 Pell Grant Funding will be provided on a “records first” basis for all institutions
- A new Electronic Statement of Account will be sent to a school each time its Pell Grant CFL amount changes

# Initial Authorization Change

## Global Jobs

Four program-wide reduction jobs:

1. Pell Reduction to Net Accepted and Posted Disbursements (NAPD)
2. Pell W Verification Reduction
3. ACG & SMART No Pell De-obligation
4. Pell, ACG & SMART Reduction to GAPS Net Drawdown

# Individual Reductions

## Pell Potential Overaward Process (POP)

POP occurs when more than one Attended School reports disbursements for a student.

- Only for Pell, not in ACG & National SMART Grant
- COD System checks to make sure that the student has not received more than 100% of his/her eligibility

# Individual Reductions

## Negative Pending Records

Occurs if an update to a Pell produces an award amount that is less than the total of all accepted and posted Disbursement Amounts for that award.

- COD System creates a Negative Pending Record for that award
  - The Response contains the Reject Edit 040 and the Negative Pending Amount tag

# Post-Deadline Processing

Post-Deadline Processing is provided for extended processing, audit adjustment, and resolution of POP situations.

- By September 30, data must be submitted following the end of the award year in which the Pell Grant is processed
- Schools request on the Web
- Request only when you are ready to submit

# Post-Deadline Processing

- 30 days to resubmit records for administrative leave or extended processing
- 15 days for a second request
- Continued follow-up

# CCR Information Update

The screenshot shows the Central Contractor Registration (CCR) website. At the top, there is a blue header with the text "Central Contractor Registration" and an American flag graphic. Below the header is a navigation menu with links: CCR Home, CCR Search, Federal Agency Registration, News, Release Notes, Request Data Access, and Help. A secondary menu includes Contractors, Grantees, International Registrants, Small Businesses, Security Notes, and 601,775 Active Registrants.

On the left side, there is a "Quick Links" section with a list of links: Dynamic Small Business Search, ORCA, SBA, Request DUNS Number, Federal Business Opportunities, and a disability icon.

The main content area is titled "Welcome to Central Contractor Registration (CCR)". Below this, a paragraph explains that CCR is the primary registrant database for the U.S. Federal Government, collecting, validating, storing, and disseminating data. A link "Learn more about CCR Policy and Background" is provided.

There are two main sections in the center: "Log in to CCR" and "Create New Registration".

The "Log in to CCR" section contains a login form with fields for "User ID:" and "Password:", a "Log In" button, and links for "Forgot Password" and "Forgot User ID".

The "Create New Registration" section features a "Start New Registration" button, a link "What You Need to Register International Registrants", and a note: "Note: New registrations usually take 3-5 business days to process once completed by the vendor."

On the right side, there is a section titled "CCR Registrations Over Time" which contains a line graph. The graph is titled "CCR Registrations - Checking Contracts, Grants, or Both Over Time". The Y-axis represents the number of registrations, ranging from 0 to 30,000. The X-axis represents time, with labels from 4/1/2000 to 4/1/2010. Three data series are shown: "Contracts" (red line), "Grants" (green line), and "Contracts and Grants" (blue line). The "Contracts" series shows the highest number of registrations, followed by "Grants", and then "Contracts and Grants".

# Payee vs. Grantee DUNS

## Grantee DUNS Number

- DUNS number of the recipient who applied for and was awarded a grant

## Payee DUNS Number

- DUNS number used to process payments
- Linked to bank account(s)
- Users register with their Payee DUNS number when requesting access to process payments/refunds/adjustments via G5

# Payee vs. Grantee DUNS

In most cases, the Grantee and Payee DUNS numbers are the same

- They differ when a Grantee elects another DUNS number to manage their payment/refund/adjustment requests

# Unprocessed Deobligation (UD)

- Excess Cash
- Created when a school submits or COD creates a decrease CFL transaction below the amount already drawn

Example:

- CFL = \$1,000,000
- Drawdown = \$1,000,000
- Available balance in G5 = \$0
- School submits or COD creates a \$1,000 decrease = a \$1,000 UD
- School must refund \$1,000 to G5, or submit a correction record in COD
