Overview of SSCR

- Purposes
- Benefits
- Process Flow Charts

Why is Enrollment Tracking Important?

- If one student with $10,000 in loans @ 8%
- Has a Grad date reported one week late
- Cost to loan program = $15.38

Updates for Direct Loan Participants

1. **Servicing will update Anticipated Completion Dates (ACD's) received on the transactions for first disbursements of a new loan via the SSCR process ONLY.**

   We no longer update ACD's submitted by schools on subsequent disbursement or adjustment transactions.

   Schools should use the SSCR as the means of transmitting updates to the borrowers expected completion date.

Updates for Direct Loan Participants

2. **Schools should set the ACD in accordance with the expected completion of the program, not by academic year.**

   We're finding that many students are being converted to repayment when they are still in school, because the ACD is set with the end of the academic year.

   The move to repayment continues until an SSCR is received and processed updating the ACD.

Updates For Direct Loan Participants

3: Updates to the ACD from SSCR processing are not immediate.

It takes approximately 60 days for a date transmitted by a school on an SSCR to be updated on the Servicing system.
