# INTRODUCTION

## Overview

The *ISIR Guide* is designed to assist financial aid administrators (FAAs) with interpreting student information from an Institutional Student Information Record (ISIR). The term *ISIR* refers to all processed student information records that are sent electronically to institutions by the Central Processing System (CPS).

ISIRs are sent to schools through the Electronic Data Exchange (EDE), the Department of Education's electronic service that enables schools to send and receive electronic data to and from the CPS and other Federal Student Aid (FSA) systems. The *ISIR Guide* explains codes and flags that appear as FAA information on the ISIR.

A Student Aid Report (SAR) is the paper output document that is sent to the student. SARs and ISIRs contain the same processed student information in different formats. The SAR is explained in detail in Appendix D of this guide.

A draft of the 2005-2006 ISIR record layout for institutions and state agencies was provided on the Information for Financial Aid Professionals (IFAP) Web site in July 2004. The *2005-2006 EDE Technical Reference* contains all the application processing and correction record layouts in section 3.

The *2005-2006 EDE Technical Reference* can be downloaded in portable document format (PDF) from the U.S. Department of Education's Federal Student Aid Download (FSAdownload) Web site located at [fsadownload.ed.gov](http://fsadownload.ed.gov) as well as from the IFAP Web site located at [ifap.ed.gov](http://ifap.ed.gov).

We made very few changes to the 2005-2006 application processing system. Information about these system changes and enhancements are explained in this guide, as well as in the *Application Processing System Summary of Changes Process Guide*, posted on the FSADownload Web site located at [fsadownload.ed.gov](http://fsadownload.ed.gov) and on the IFAP Web site at [ifap.ed.gov](http://ifap.ed.gov).

## **New ISIR Fields**

- **Reject Status Change Flag.** This field helps you determine if the previous transaction was rejected or not rejected. If the Rejected Status Change flag is set or removed from the previous transaction, this field contains data. This field does not print on ISIRs printed from EDEExpress.
- **Verification Selection Change Flag.** This field helps you determine if the transaction is now selected for verification when the previous transaction was not selected. If the Verification Selection Change Flag is set from the previous transaction, this field contains data. This flag is set to a Y only on the transaction that was initially selected for verification. This field does not print on ISIRs printed from EDEExpress.
- **Reject Override 3**
- **Reject Override 12**
- **Reject Override J**
- **Reject Override K**

## **Deleted ISIR Fields**

- **System-Generated Indicator**

## **Modified ISIR Fields**

- **Transaction Data Source/Type Code**
- **Application Data Source/Type Code**
- **NSLDS Post-Screening Reason Code**
- **Electronic Transaction Indicator (ETI) Flag**
- **Multi School Code Flags**

## **Modified Rejects**

- **Reject A end year range increased from 1929 to 1930**
- **Reject B end year range increased from 1988 to 1989**

## Warning Edits

- **Student's/Father's earned income is equal to Spouse's/Mother's earned income.** We added a warning edit that is applied to a transaction when the student's earned income equals the spouse's earned income or when the father/stepfather's earned income equals the mother/stepmother's earned income. Students who trigger this edit receive a comment (comment code 096 for parents or 098 for students) on their Student Aid Reports (SARs) asking them to verify and, if necessary, correct the earned income information provided on their FAFSAs.
- **Applicants selected for verification on transaction number 02 or greater.** The Verification Selection Change Flag is a new flag on the ISIR that is applied when the current transaction number is 02 or greater and the student is selected for verification for the first time. This will help FAAs identify students who may have been awarded aid before they were selected for verification. (Y = Previous transaction was not selected and Blank = No change in flag)

## Rejects

We added five new verifiable rejects: D, E, F, J, and K. A verifiable reject indicates that the information originally provided is questionable (but could be correct) and that it must be corrected or the same value must be reentered before an EFC may be calculated. Rejects J and K have override codes.

- **Reject D - Student's SSN matches with the SSA, but there is no name match.** Reject D is a new verifiable reject that occurs when the student's SSN is found on the SSA database but the name does not match (match flag equals 3). For 2005-2006, we will reject the record when the SSA match flag equals 3. If the name reported is correct and the name on record at SSA is incorrect, the student or school must reenter the student's name and submit a correction. The record is sent back to the SSA for rematching. If the correction is returned with a match flag equal to 4, no further action is required and the CPS will suppress the reject and calculate an EFC. If the match flag is still equal to 3, the comments and SAR C flag will be set but the reject will be suppressed and an EFC will be calculated. Resolutions for the SAR C flag is still required, see Appendix B of this guide for more information. To avoid problems in subsequent years, the student should take steps to correct the information with SSA.
- **Rejects E and F - No SSA Match on Parent's Name.** We added two new verifiable rejects, one for father/stepfather and one for mother/stepmother, that occur when the name reported for the parent is not found on the SSA database *and there is no successful SSA match for the other parent*:
  - Reject E – No SSA match on the father's/stepfather's name
  - Reject F – No SSA match on the mother's/stepmother's name

For either reject, if the reported name in the CPS is correct but the name in SSA's records at SSA is incorrect, the student or school must reenter the parent's name and submit a correction; otherwise the record will continue to be rejected. The record is sent back to the SSA for rematching. If the correction is returned with a match flag equal to 4, no further action is required and the CPS will suppress the reject and calculate an EFC. If the match flag is still equal to 3, the record will have a comment to indicate there was still no name match with SSA. Unlike the student's SSA match, no SAR C code is set for a parent if the name does not match the SSN. Although the name may still not match the SSA's information, the CPS suppresses the reject (on the current and future transactions) and calculates an EFC. To avoid problems in subsequent years or to accommodate other dependent children also applying for Title IV aid, the parent should take steps to correct the information with SSA.

- **Rejects J and K - Parent SSN contains all zeros and the parents filed an income tax return.** We added two new verifiable rejects that have reject override codes. These rejects occur when the SSN reported for the parent contains all zeros and he or she filed a U.S. federal income tax return:
  - Reject J – Father's/stepfather's SSN contains all zeros and he filed a federal income tax return.
  - Reject K – Mother's/stepmother's SSN contains all zeros and she filed a federal income tax return.

If the parent's SSN contains all zeros, and the parent did file a federal income tax return, the student or school must enter a valid, non-zero SSN for the parent and submit a correction. Students and FAAs who complete the online application are prompted to correct the SSN or tax return status, or verify that this information is correct. If the FAA or applicant verifies that the data is correct by reentering zeros in the field, the appropriate reject override code is set and the CPS suppresses the reject. Schools that send their application data electronically through the SAIG can also set these override codes in their application and correction files if appropriate.

We also added one non-verifiable reject (3) and modified one non-verifiable reject (12). A non-verifiable reject indicates that the information originally provided must be corrected before an EFC may be calculated. Rejects 3 and 12 have override codes that can only be set by the financial aid administrator.

- **Rejects 3 and 12 - Taxes Paid is greater than zero and equal to or greater than Adjusted Gross Income (AGI).** We modified reject 12 to apply to the parents' taxes paid and adjusted gross income and added reject 3 to apply to both dependent and independent students' taxes paid and adjusted gross income. These rejects occur when the taxes paid is greater than zero and equal to or greater than the AGI:
  - Reject 3 – Student's taxes paid is greater than zero and equal to or greater than AGI.
  - Reject 12 – Parents' taxes paid is greater than zero and equal to or greater than AGI.

These rejects are non-verifiable to students. If the student enters these values in any Web application product, he or she will be prompted to review and correct the information. If the taxes paid and AGI amounts are correct, the student will be allowed to reenter the data but will be prompted to see his or her FAA in order to override the reject before an EFC can be calculated. The record will be rejected and no EFC will be calculated. To resolve the reject the student must see his or her FAA.

If the FAA enters these values using FAA Access to CPS Online he or she will be prompted to review and correct the information. In the rare cases where the taxes paid are in fact equal to or greater than the AGI, the FAA can verify that the information is correct and the reject override code is set. An EFC will be calculated for the student and the record will not be rejected. The reject override codes for rejects 3 and 12 can be set using FAA Access to CPS Online or in application and correction data files that are transmitted electronically through the SAIG.

In other words, students cannot override this reject online (FAFSA on the Web or Corrections on the Web) or on the paper SAR. Only the financial aid administrator can set the reject override.

## Comment Code Changes

- We added comment codes 040, 044, 051, 071, 081, 083, 084, 088, 091, 092, 093, 096, 098, 137, 140, and 164.

Most of the new comments were added to correspond with new reject codes, the master death file match with SSA, and edit changes. For more information on the master death file match, refer to the *Application Processing System Summary of Changes Process Guide for 2005-2006* located on the U.S. Department of Education's Federal Student Aid download Web site at [fsadownload.ed.gov](http://fsadownload.ed.gov).

- We deleted comment codes 262 and 263 because we consolidated them into comments 256 and 257, respectively.
- We modified the text in comment codes 061, 064, 094, 156, 157, 172, 215, 256, and 257.
- We incremented the dates and year references in comment codes 054, 056, 070, 078, 085, 087, 095, 097, 125, 127, 128, 160, 162, 163, 173, 174, and 180.

- The following comments are associated with the SAR C codes:

10, 20, 30, 33, 38, 39, 41, 42, 43, 46, 53, 54, 56, 57, 58, 63, 64, 65, 66, 67, 77, 79, 86, 90, 100, 101, 102, 105, 107, 109, 115, 116, 124, 132, 133, 134, 135, 136, 138, 141, 142, 144, 146, 162, 173, 180, 254, 256, and 260.

For more information see the Comment Codes section under ISIR FAA Information.

## Processing Flow

The applicant data process flow is the same in 2005-2006 as in 2004-2005.

The student starts the process by completing a FAFSA or Renewal FAFSA. That information is processed through the CPS and the results are returned to the student and institution. The FAFSA or Renewal FAFSA information may be submitted on paper, electronically at the school through FAA Access to CPS Online or the Student Aid Internet Gateway (SAIG), or electronically by the student through FAFSA on the Web, Spanish FAFSA on the Web, or Renewal FAFSA on the Web.

The charts on pages 12 and 13 show how information about a financial aid applicant flows through the system for the various types of applications and corrections. The major participants, documents, and records in the application process are:

- **The U.S. Department of Education (ED)**
- **The student.** The student can apply for federal student aid under the Title IV programs—Federal Pell Grant, Federal SEOG, Federal Work-Study, Federal Perkins Loan, the Federal Family Education Loan Program, and the William D. Ford Federal Direct Loan Program.
- **The financial aid application.** Different forms of the applications are available for the student to complete and submit to apply for federal student aid. These include the paper FAFSA, paper Renewal FAFSA, paper Spanish FAFSA, FAFSA on the Web, Spanish FAFSA on the Web, Renewal FAFSA on the Web, or Spanish Renewal FAFSA on Web. The school can also file an application for the student by using an electronic FAFSA through FAA Access to CPS Online or by submitting an ASCII flat file (EAPS06IN) through the SAIG.
- **The FAFSA processor.** One organization serves as the data entry processor for the 2005-2006 processing year under contract with ED. The FAFSA processor receives applications in the mail, performs document analysis to check that data is acceptable, and handles missing or unacceptable responses. The processor images the application, enters the information from the application, and transmits the data and image electronically to the CPS.
- **The Central Processing System (CPS).** The CPS operates under a contract with ED to receive and process application and correction information. The CPS matches student records with other databases to check eligibility. The CPS also applies a series of compute edits to the application information to check for inconsistencies, contradictions, and missing information. During the compute process, the CPS uses the need-analysis formula specified by law to calculate each applicant's Expected Family Contribution (EFC).

- **The Institutional Student Information Record (ISIR).** ISIRs are electronic records produced by the CPS that provide schools with processed application and correction information. ISIRs are sent to destination points (schools, servicers, and state agencies) daily through EDE.
- **The Student Aid Report (SAR) and the SAR Acknowledgement.** These paper documents provide the student with processed application information. The CPS prints these forms and mails them directly to the address the student provided. Alternatively, some students will receive an E-mail Notification of SAR Processing.
- **The School.** “The school” refers to each postsecondary educational institution that the student listed on the financial aid application. The FAA at the school will use the processed information from the ISIR (or SAR) to determine what federal student aid the applicant is eligible to receive. Schools and states can also use information from the ISIR (or SAR) to award their own financial aid.

---

## Transactions

A transaction is an interaction between the CPS and a financial aid applicant or a school that changes any of the data on a student's record. Each transaction results in a new ISIR and SAR, and is identified by a two-byte transaction number (for example, 01, 02, 03). A transaction may sometimes be system-generated. For example, when a student's eligibility for federal student aid changes on the National Student Loan Data System (NSLDS), the CPS automatically reprocesses the application information and generates a new transaction without additional input from the student or from a school. These system-generated transactions are sent (or pushed) to the school in unique electronic message classes.

When application data for an award year first arrives at the CPS and are processed, the resulting report is called the "01" transaction. The student receives a SAR, a SAR Acknowledgement, or an E-mail Notification of SAR Processing and the listed schools can receive ISIRs.

If corrections are necessary, the student can make these changes on the SAR, return the SAR to the FAFSA processor, and the information is reprocessed. Alternatively, the student can make the corrections electronically through Corrections on the Web. Also, a school can enter corrections electronically through the SAIG or the FAA Access to CPS Online Web site, even if the school did not submit the original application electronically. The corrections generate a new record that is identified as the "02" transaction.

To create a correction transaction, a change must be made to at least one data element. Examples of common corrections include an address correction or the addition or change of a school. The first correction is labeled "02" and subsequent corrections are labeled "03," "04," and so forth. Identifying the correct transaction is important when communicating with the Common Origination and Disbursement (COD) system and when requesting duplicate ISIRs or SARs.

# Highlights and Assumptions

## Paper System Highlights and Assumptions

Students are instructed to review information on the SAR carefully for accuracy. Items requiring special attention are highlighted in boldface type. Both the student and the FAA should pay careful attention to questions and responses that are highlighted.

During the edit process, the CPS applies logic by comparing two or more pieces of information provided by the student. The CPS highlights information that is conflicting, missing, or contradictory. Items that are questioned are highlighted on the SAR.

In certain instances, the application is rejected because of a conflict in the data reported by the student. For example, an independent student answers that he or she is not married but provides financial information for a spouse. The CPS will reject this application (Reject 11) and print the questioned items in boldface type on the SAR. The CPS will not calculate an EFC, because key financial information is conflicting.

In other situations, the CPS makes an assumption and does not reject the student's record. For example, a student reports that he or she is married and provides spouse's income, but reports only one person in the household. In this case, the CPS assumes there are two persons in the household, highlights both questions and responses on the SAR, and calculates an EFC as long as the record is not rejected for other reasons. Both the reported and the assumed values are printed, with the word "ASSUMED" in parentheses next to the assumed response that was used in the EFC calculation.

The CPS most often makes assumptions when questions are left blank. After an answer is assumed, the assumed information is used throughout all the subsequent edits and in the EFC calculation.

If the CPS makes an assumption, but then rejects the record for other reasons, an EFC is not calculated and the assumed values are not used. In this situation, the student receives a SAR with arrows printed next to the questionable line items. The student is then required to correct them.

## Electronic System Highlights and Assumptions

All FSA application software used to submit application data contains certain edits that prompt users to resolve inconsistencies before sending the information to the CPS. These edits are contained in the FAA Access to CPS Online, FAFSA on the Web, Spanish FAFSA on the Web, Renewal FAFSA on the Web, Spanish Renewal FAFSA on the Web, and Corrections on the Web applications.

When inconsistencies or missing data would cause the record to be rejected at the CPS, the FAA Access to CPS Online Web site does not allow the record to be completed or transmitted until information is changed or added. However, when these inconsistencies would cause an assumption, the user is prompted to review and change the data, but will be allowed to transmit the record even if a change is not made. The ISIR that a school receives will include a flag for each highlighted field and will have an **h** (for highlight) next to the items on which assumptions were made on the printed ISIR.

An FAA can override certain assumptions that would be made at the CPS using FAA Access to CPS Online. When an FAA sets an override code on an electronic application, the CPS accepts the data as reported and does not make an assumption about that item. For example, if a student indicates more than six family members are attending college, the CPS would assume one person in college during processing. If, in fact, there are more than six family members attending college, the FAA can eliminate the need for a correction by setting the appropriate override flag using FAA Access to CPS Online.

In addition, FAA Access to CPS Online allows the FAA to override certain verifiable rejects by setting a reject override flag before transmitting the student's application. For example, a student may have an unusually large number of family members. If the FAA sets the appropriate override flag before sending the student's record, the student's record will not be rejected. Students who are using FAFSA on the Web, Spanish FAFSA on the Web, Renewal FAFSA on the Web, Spanish FAFSA on the Web, and Corrections on the Web will be able to set the assumption and reject overrides described above by confirming the data that they have entered.

# Federal Application Processing System Paper and Electronic Processes

## Electronically through School

**Student** (spouse, parents) completes a paper FAFSA, a paper Spanish FAFSA, or a paper Renewal FAFSA, or provides school with acceptable documents for applications or corrections.

**Destination Point** (school or servicer) enters data into FAA Access to CPS Online or into a mainframe or third-party software and transmits the application or correction data and signature flags to CPS.

## Paper Process

**Student** (spouse, parents) completes a paper FAFSA, a paper Spanish FAFSA, or makes corrections to a paper SAR. Student mails document to the FAFSA processor.

**FAFSA Processor** enters and transmits application or correction data and signature flag to the CPS.

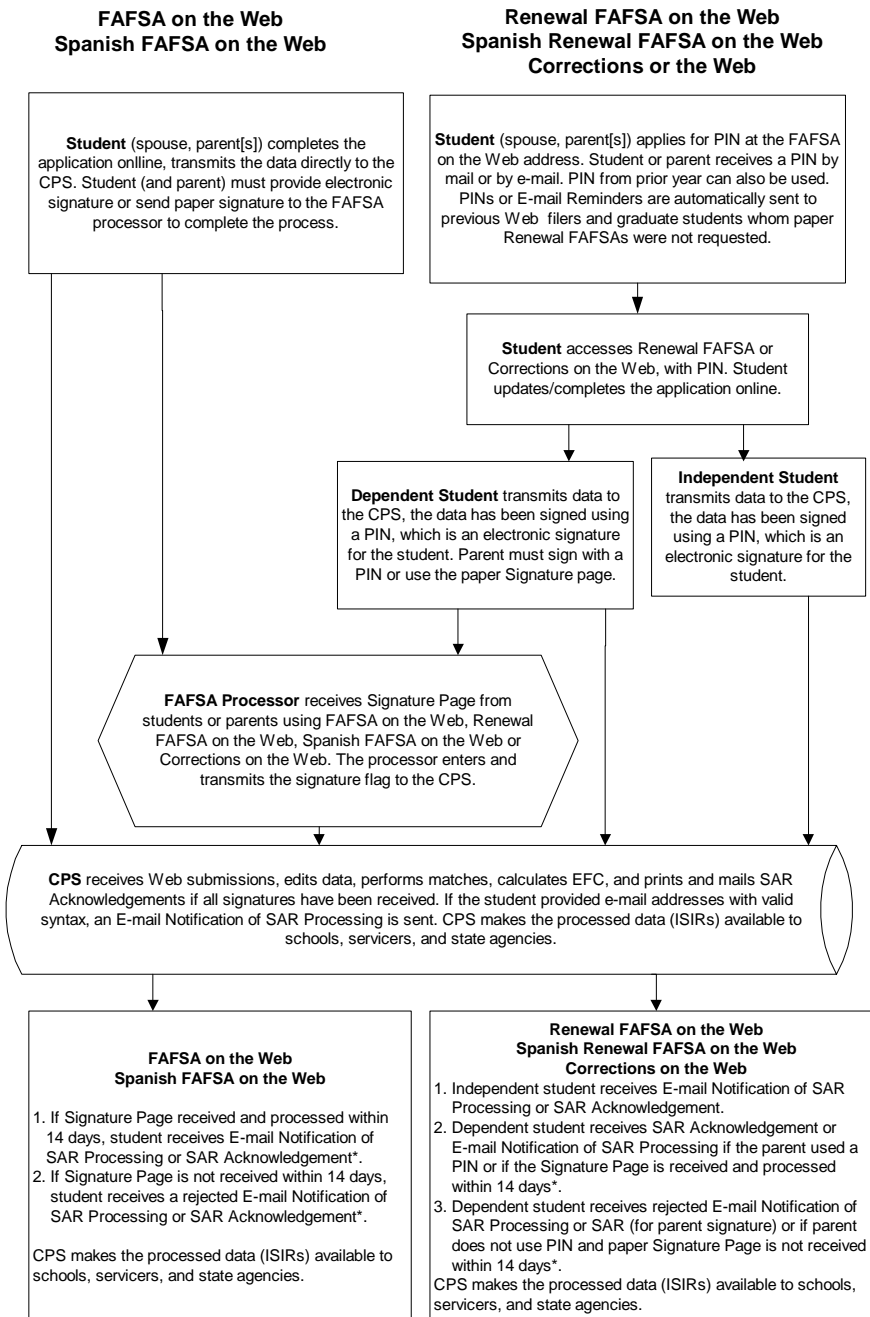

**CPS** edits data from all sources, performs data matches, calculates EFC and generates all processing results in real time when possible. CPS returns the results electronically through e-mail when the student provided e-mail addresses with valid syntax in an E-mail Notification of SAR Processing. Or, CPS prints and mails the information to students in a SAR or SAR Acknowledgement. CPS makes the processed data (ISIRS) available to schools, servicers, and state agencies.

**FAA Access to CPS Online**  
Student receives SAR Acknowledgement if no e-mail address was provided or the e-mail address contained invalid syntax; otherwise, the student receives an E-mail Notification of SAR Processing. Schools, servicers, and state agencies receive ISIRs.

**Paper Process**  
Student receives SAR or E-mail Notification of SAR Processing if an e-mail address with a valid syntax was received on paper application. Schools, servicers, and state agencies receive ISIRs.

**Student** may submit SAR or SAR Acknowledgement to school if school is not listed on application. However, school must take action to ensure school is added to student's record so that school receives electronic ISIR.

# Federal Application Processing System Web Process

\* If the student provided an e-mail address with valid syntax an E-mail Notification of SAR Processing is sent to the student rather than a paper SAR Acknowledgement or SAR.

# ISIR DATA

---

## Overview

A school can receive ISIRs for all students who listed that school's Federal School Code on their application or correction. Institutions can send application and correction data from the school or through a servicer (either one is called a destination point) and receive processed student records (ISIRs) at the destination point.

A school can also access 2004-2005 and 2005-2006 ISIRs from the ISIR Datamart, which is the centralized location for all ISIR data generated by the CPS. Schools, state agencies, and other authorized users receive ISIR distributions from the datamart through the Student Aid Internet Gateway (SAIG). For more information on the ISIR Datamart refer to the *School Electronic Process Guide*, available at the FSADownload Web site at [fsadownload.ed.gov](http://fsadownload.ed.gov).

Schools do not need to print hardcopy ISIRs. However, in this guide we will use the print format as a tool to discuss the codes that appear on the ISIR record. Appendix G contains an example of the ISIR, when printed using the EDEExpress for Windows software. The student's processed application information appears on the printout in a two-column, two-page format with an abbreviated version of each FAFSA question on the left and the student's response on the right. Information is divided into sections like the FAFSA sections (for example, Step One: The Student). Questions are not numbered individually, but each section heading identifies the range of FAFSA questions included. An additional page for NSLDS Financial Aid History is also provided.

## ISIR Office Information

In the section titled Office Information on page 3 of the sample ISIR, the following information appears:

- DRN
- Primary EFC Type
- Secondary EFC Type
- Processed Date
- Transaction Data Source/Type
- Source of Correction
- Federal School Code Indicator
- Reject Override Codes
- Assumption Override Codes

### DRN

The student's Data Release Number (DRN) will appear in this section when the school receiving the ISIR entered the student's application or renewal application data and the Application Data Source/Type code contains a 1A, 3A, 3R, 3E, or 3G. The DRN will not appear on the ISIR in other situations. See Appendix D for more information about the DRN.

### Primary and Secondary EFC Type

These codes tell an FAA which formula was used to calculate the EFC.

ISIR Value and Value Printed on ISIR	Description
1	Full Needs Test: dependent
2	Full Needs Test: independent without dependents
3	Full Needs Test: independent with dependents
4	Simplified Needs Test: dependent
5	Simplified Needs Test: independent without dependents
6	Simplified Needs Test: independent with dependents

### Processed Date

The Processed Date is the date this transaction was processed at the CPS.

## Transaction Data Source/Type Code

The Transaction Data Source/Type code identifies a FAFSA processor or other source of the transaction.

**New for 2005-2006!** We added the 2T, 5D, 5P, and 5W values. We modified the 2H value and deleted the 3V (Web FAA - Verification Correction) value.

## Source of Correction Flag

The Source of Correction Flag is a field that is set on each correction transaction and indicates the source of the correction.

ISIR Value	Value Printed on ISIR
A	Applicant
D	CPS
S	School

## Federal School Code Indicator

The Federal School Code Indicator verifies the identity of the originating institution.

## Reject and Assumption Override Codes

The ISIR shows which Reject Override Codes and which Assumption Override Codes were set on the transaction. These override codes allow an FAA to override certain rejects. FAAs can also override certain assumptions the CPS has made about a student's data when the information appears to be inconsistent.

---

## ISIR FAA Information

The FAA Information section displays every relevant piece of information about a student's eligibility in one place. FAA information is printed on the third page of the ISIR following the summary of application data and is labeled "FAA Information." Descriptive labels are intended to help the FAA identify reject codes, match flags, intermediate values, and so forth. Using the printed ISIR format as a basis, here are identifications for the codes and flags that appear as FAA information.

**New for 2005-2006!** The System-Generated Indicator was removed from the ISIR Record so it no longer prints on the ISIR.

### Date ISIR Received

The Date ISIR Received is the date the ISIR record was imported to the EDEXpress software.

### Verification Flag

The Verification Flag indicates if a student has been selected for verification on any transaction. This data comes from the Student is selected for Verification field in the ISIR record layout.

ISIR Value and Value Printed on ISIR	Description
Y	Selected for verification
N	Not selected for verification
*	Selected for verification on a subsequent transaction

### FAA Adjustment

This flag indicates that a transaction resulted from a professional judgment adjustment requested by an FAA.

ISIR Value	Value Printed on ISIR	Description
Blank	Blank	No EFC adjustment processed
1	Yes	EFC adjustment processed
2	Failed	EFC adjustment attempted but failed

When an FAA uses professional judgment to change a data item on the ISIR, only the school that made the change will remain listed on the new ISIR transaction.

## Transaction Receipt Date

The date appearing in this position is the date the FAFSA processor or the CPS received the input information that generated the transaction. The Application Receipt Date for the first application will be a fixed date; the Transaction Receipt Date, however, will change each time a new transaction is generated. For example, a student mails a Renewal FAFSA which is received by the FAFSA processor on March 14, 2005. This first transaction SAR and ISIR would have an Application Receipt Date and a Transaction Receipt Date of March 14, 2005. If the student then mails in a SAR with corrections and it is received on April 18, the 02 transaction would show an Application Receipt Date of March 14, 2005, and a Transaction Receipt Date of April 18, 2005.

## Reprocessing Code

This code provides information about records that are reprocessed by the CPS for any reason. When the Transaction Data Source/Type Code is set to **5P**, this position will contain a two-digit number, beginning with **01** and incrementing each time a group of records is reprocessed. Check the IFAP Web site at [ifap.ed.gov](http://ifap.ed.gov) for announcements that will define the reason associated with a particular two-digit number.

## Processed Record Type

This code indicates the type of processed record.

ISIR Value and Value Printed on ISIR	Description
Blank	Original Application (from any source)
C	Correction Application
H	Correction (from any source)

## CPS Pushed ISIR Flag

This flag is set to identify transactions that are automatically sent (pushed) to schools. If you are the originator of the transaction and it meets one of the criteria listed below, this flag remains set and the resulting ISIR is returned in the IGCO message class. This field will contain a **Yes** for transactions meeting the pushed ISIR criteria or a blank. Examples of transactions automatically pushed to the school include:

- EFC Change Flag is set
- SAR C Flag changes between correction and transaction being corrected

- Transaction is system-generated
- **New for 2005-2006!** Reject Status Change Flag is set
- **New for 2005-2006!** Verification Selection Change Flag is set

## Rejects Met

Up to seven reject reason codes can be printed in this space. Refer to Appendix A for the reject reason codes and the comment numbers associated with certain types of rejects.

## Verification Tracking Flag

The Verification Tracking Flag identifies the priority of the criteria used by the CPS to select applicants for verification and is based on the likelihood of error. The **higher** the number in the Verification Tracking field, the higher the priority for selection by the CPS. For example, **0112** in this field has a greater potential for significant error than a student with **0087** in this field. If you plan to use the 30% verification limit, we recommend using this field to prioritize the applicants you choose to verify. For 2005-2006, we use a range of 0001 to 9999.

## Dependency Override

This flag identifies a record that resulted from an application or correction on which an FAA made a dependency override request. Initial applications allow overrides to be made in one direction only: from dependent to independent. FAA Access to CPS Online allows an FAA to cancel a previous override.

ISIR Value	Value Printed on ISIR	Description
Blank	Blank	No dependency override
1	Yes	FAA overrode dependency status from dependent to independent
2	Canceled	FAA canceled dependency override
3	Failed	Dependency Override request failed

When an FAA performs a dependency override, only the school that submitted the override will receive the new ISIR transaction.

## **ETI**

The Electronic Transaction Indicator (ETI) Flag indicates whether the school receiving the ISIR submitted input to generate the ISIR transaction, or did not generate the transaction but was listed on the record. It also indicates whether the type of ISIR is a daily, requested, or pushed ISIR. One numeric character prints on the ISIR.

0 = School generated transaction and is an ISIR Daily school (applications) (IDAP)

1 = School did not generate transaction and is an ISIR Daily school (automatic) (IDSA)

2 = School generated transaction and is an ISIR Request school (ISRF)

3 = School did not generate transaction and is an ISIR Request school (applications) (ISRF)

4 = School generated transaction and is an ISIR Daily school, ISIR is CPS Pushed ISIR (corrections) (IGCO)

5 = School did not generate transaction and is an ISIR Daily school, ISIR is CPS Pushed ISIR (automatic) (IGSA)

6 = School generated transaction and is an ISIR Request school, ISIR is CPS Pushed ISIR (corrections) (IGCO)

7 = School did not generate transaction and is an ISIR Request school, ISIR is CPS Pushed ISIR (automatic) (IGSA)

8 = School did not generate transaction and is an ISIR Daily school, ISIR is CPS Pushed System-Generated ISIR (IGSG)

9 = School did not generate transaction and is an ISIR Request school, ISIR is CPS Pushed System-Generated ISIR (IGSG)

Blank = No destination code associated or school not participating

## **Correction # Applied To**

This field only applies to transactions greater than 01 and indicates which prior transaction the correction was applied against. For example, if you are looking at an 03 transaction and the Correction # Applied To field is 02, that means that corrections were made against the 02 transaction to create the 03 transaction.

## **Application Receipt Date**

This field shows the date the paper application was received by the FAFSA processor or the date an electronic FAFSA transmission was received by the CPS.

## Pell Eligible Flag

The Pell Grant Eligibility Flag alerts schools to an applicant's Pell Grant eligibility status. This data is found in the Pell Grant Eligibility Flag field on the ISIR. A **Y** confirms that a student's EFC and undergraduate status makes him or her eligible for a Pell Grant and that the record has been included in the payment system database.

ISIR Value and Value Printed on ISIR	Description
Blank	Not eligible for a Pell Grant
Y	Eligible for a Pell Grant

If a student who is an undergraduate incorrectly reported on the FAFSA that he or she will be a graduate student or has a bachelor's degree, this information **must** be corrected. Otherwise, he or she will not be considered eligible for a Pell Grant and the school will be unable to receive Pell funds for that student.

## Primary and Secondary EFCs/Alternate EFCs

The ISIR FAA Information section contains the Primary EFC and Secondary EFC. If both a Primary and a Secondary EFC appear, it means the student qualified for the Simplified Needs Test (SNT) but also provided information about assets. Two calculations were performed, producing the Primary EFC (asset information was not included in the calculation) and the Secondary EFC (asset information was included in a full-data calculation). If only a Primary EFC appears, it means the student

- did not meet the SNT criteria and only the full-data calculation was done, or
- the student met the SNT criteria and provided no asset information or incomplete or inconsistent asset information and only one calculation could be performed.

The figures printed for each of the twelve months represent alternate EFCs that an FAA must use to award aid—other than Federal Pell Grants—for an academic year that is less than or greater than nine months. For a dependent student, the alternate EFCs are calculated by the CPS according to a formula prescribed by Congress. For the independent student, the CPS calculates a simple proration of the EFC by month for less than nine-month enrollment.

## Intermediate Values

These abbreviations represent the intermediate steps used in calculating the EFC. They show the separate components of the need analysis formula, such as the employment allowance or parents' contribution from assets. These components are defined by Congress. The values can be useful to FAAs in doing recalculations or in making professional judgment adjustments to data items. The intermediate values are identified as follows:

ISIR Field Label	Description
TI	Total Income
ATI	Allowances against Total Income
STX	State and Other Tax Allowance
EA	Employment Allowance
IPA	Income Protection Allowance
AI	Available Income
CAI	Contribution from Available Income (Independent Student)
DNW	Discretionary Net Worth
NW	Net Worth
APA	Education Savings and Asset Protection Allowance
PCA	Parents' Contribution from Assets
AAI	Adjusted Available Income
TSC	Total Student's Contribution
TPC	Total Parents' Contribution
PC	Parents' Contribution
STI	Student's Total Income
SATI	Student's Allowance against Total Income
SIC	Dependent Student's Income Contribution
SDNW	Student's Discretionary Net Worth
SCA	Dependent Student's Contribution from Assets
FTI	FISAP Total Income

More information on the need analysis formula and methodology for calculating the EFC is available in the *2005-06 Federal Student Aid Handbook*, Volume 1 - FSA Handbook: Student Eligibility.

## Auto Zero EFC Flag

An applicant who meets certain tax filing and income criteria will qualify automatically for an EFC figure of **0**. When these criteria are met, the CPS assigns a **0** EFC and does not perform a full calculation except for Total Income, Student's Total Income, and FISAP Total Income. Only these three intermediate values will appear in the FAA Information section. This information is found in the Automatic Zero EFC Indicator field on the ISIR.

ISIR Value	Value Printed on ISIR	Description
Blank	Blank	Does not meet criteria
Y	Yes	Student meets automatic zero EFC criteria

## EFC Change Flag

This flag indicates whether the EFC has increased or decreased between a correction transaction and the transaction to which the correction was applied.

ISIR Value	Value Printed on ISIR	Description
Blank	No change	No change in EFC value
1	Increase	EFC increased
2	Decrease	EFC decreased

## SNT Flag

This flag gives information about the Simplified Needs Test (SNT), which excludes asset information from the EFC calculation. It is performed if an applicant meets certain criteria for tax filing status and income level.

ISIR Value	Value Printed on ISIR	Description
Blank	Blank	No change
Y	Yes	SNT was met
N	No	SNT was not met or could not be determined

## Duplicate SSN Flag

This flag is set to **Yes** if another record was found on the CPS database with the same SSN but a different last name.

## Address Only Correction Flag

If an address is the only change to a record, this field contains data. Corrections to the Signed By and Special Handle fields can also be included with the address correction. The Address Only Change Flag field on the ISIR contains this information.

ISIR Value and Value Printed on ISIR	Description
Blank	No change
1	Student's mailing address corrected
2	Student's e-mail address corrected
3	Parent's e-mail address corrected
4	More than one of the above corrected

## SAR C Change Flag

If the SAR C Flag is set or removed from the previous transaction, this field is contains a Y.

ISIR Value and Value Printed on ISIR	Description
Blank	SAR C Flag has not changed
Y	SAR C Flag has changed

## Match Flags

These alpha or numeric codes show the results of matching the applicant record with databases containing information that can affect eligibility. Appendix B contains a detailed discussion about the flags or codes that will appear in the FAA Information section for the SSN Match Flag, SSA Citizenship Code, DHS Match Flag, Selective Service Match Flag, NSLDS Match Flag, VA Match Flag, DHS Secondary Confirmation Match Flag, Father's/Stepfather's SSN, Selective Service Registration Flag, and Mother's/Stepmother's SSN.

## DHS Verification Number

The Department of Homeland Security (DHS) Verification Number also appears under the Match Flags section of FAA Information. This is a 15-digit confirmation number that the DHS returns when a match is conducted. The FAA must use this number when paper or manual Secondary Confirmation is necessary.

## NSLDS Transaction Number

The NSLDS Transaction Number appears at the end of the Match Flags section. It is the number of the last transaction on which the student's NSLDS data changed and is a signal to the FAA to review the NSLDS information on a particular transaction.

## NSLDS Database Results Flag

The NSLDS Database Results Flag is also at the end of the match flag section. Each record sent to NSLDS will be returned with an NSLDS Results Flag set to one of the following values:

ISIR Value and Value Printed on ISIR	Description
Blank	Record not sent to NSLDS and all NSLDS fields will be blank
1	Match was found and NSLDS data sent to CPS
2	SSN match but name or DOB did not match, no data sent
3	SSN not found in NSLDS, no match
4	Match was found but no relevant NSLDS data to send to the CPS
5	Real-time transaction not sent to NSLDS

## Comment Codes

The last line in the FAA information section shows the codes for comments generated on the record that are important to the FAA. Standard comments to the student are not included here. FAAs can review the comment codes and not have to read every comment provided on the SAR to find information that may require FAA action. Up to 20 comment codes can be printed.

The EDEExpress software allows comment text to be printed, if desired. All comment codes and text used in 2005-2006 are provided in the *2005-2006 SAR/ISIR Comment Codes and Text* guide, posted on both the FSAdownload Web site located at [fsadownload.ed.gov](http://fsadownload.ed.gov) and the IFAP Web site at [ifap.ed.gov](http://ifap.ed.gov).

## NSLDS Financial Aid History

**New for 2005-2006!** The detailed loan history information on the SAR is replaced with aggregate loan amounts and standard text regarding repayments. We made this change because only the detail for defaulted and discharged loans was being displayed and did not apply to many students. The space is better used by our providing the aggregate amounts.

Financial aid administrators can still view all the NSLDS information on the ISIR, which has not changed, and on SARs accessed on the FAA Access to CPS Online Web site. The student and FAA can still view all student financial aid history information on the NSLDS Web site ([nsldsfap.ed.gov](http://nsldsfap.ed.gov)). SARs displayed under “View and Print your Student Aid Report” (formerly Student Access) match the abbreviated NSLDS loan data printed on the paper SAR.

### Flags (Upper Section)

The loan change flags display at the top of the Financial Aid History page next to the label. If # appears to the right of the label, the flag has changed.

### Overpayment Flag

The Overpayment Flag (Pell, FSEOG, or Perkins) displays:

ISIR Value and Value Printed on ISIR	Description
D	Deferred
N	N/A
S	Satisfactory Payment Arrangements
W	Waived
Y	Overpayment exists

### Contact

The Contact field for each Overpayment Flag will display a **school code (OPEID)**, ED Debt Collection Service **Region code**, **N/A** (when no overpayment exists), or **Access NSLDS** (ISIR Value equal to **Y**) when there is more than one overpayment for a specific aid type.

## Discharged Loan Flag

The Discharged Loan Flag reflects the status of any loan discharged due to disability or death. If this flag contains a value other than **N**, the C Flag is set on the SAR/ISIR and a comment will be given.

ISIR Value and Value Printed on ISIR	Description
C	Conditional discharge
D	Death
M	Multiple codes
N	None
P	Permanent discharge
R	Reaffirm

## Defaulted Loan Flag

The Defaulted Loan Flag will be set when any loans exist in a defaulted status. Appendix C includes a chart for 2005-2006 loan status codes and eligibility.

## Loan Satisfactory Payment Arrangement Flag and Active Bankruptcy Flag

The Loan Satisfactory Payment Arrangement Flag and Active Bankruptcy Flag at the top of the Financial Aid History page will display a value of **Y** for Yes or **N** for No.

## Postscreening Reason Codes

There can be up to three postscreening codes sent on the same ISIR. The codes listed in the NSLDS Postscreening Reason Code field help schools identify any student whose eligibility for federal student aid may have changed subsequent to the last time a SAR/ISIR transaction was produced. To find cases where a student's eligibility status has changed, NSLDS will scan its database on a weekly basis. The valid values are listed on the next page.

**New for 2005-2006!** Postscreening Reason Code 14, to indicate that a loan has entered into active bankruptcy and Postscreening Reason Code 15, to indicate that a PLUS MPN status change has occurred, have been added.

ISIR Value and Printed on ISIR	Description
Blank	Not an NSLDS postscreening transaction
01	The student entered default on a Title IV loan that was previously not in default.
02	Became obligated for a new overpayment of a Title IV grant or loan
03	Cleared a previously reported Default of a Title IV loan
04	Cleared an Overpayment obligation of a previously reported Title IV grant or loan
05	Master Promissory Note status change (Stafford)
06	A loan was discharged
07	A loan went out of discharged status.
08	Student has a loan for a closed school
09	Student has exceeded Subsidized aggregate loan limit
10	Student has exceeded Combined aggregate loan limit
11	Applicant no longer exceeds Subsidized aggregate loan limit
12	Applicant no longer exceeds Combined aggregate loan limit
13	Change in discharged loan status
14	Loan entered active bankruptcy
15	PLUS MPN status change
99	The "Other" category includes closed school processing, NSLDS request for individual reprocessing, NSLDS error reprocessing, etc.

When any of these postscreening situations occur, the CPS system-generates a new SAR/ISIR transaction that includes the changed information as part of the NSLDS Financial Aid History section. Students who are eligible will receive an E-mail Notification of SAR Processing instead of a paper SAR for system-generated transactions. The CPS Pushed ISIR Flag will be equal to **Y** and the Transaction Data Source/Type Code will be equal to **5N** on these transactions. The processed ISIRs are returned to the school in the IGSG06OP message class. A comment also prints on the output document (SAR/ISIR) informing the student and the school that the record needs to be reviewed because a change was made to the record that could affect the student's eligibility for Title IV aid.

Postscreened ISIR transactions meet the criteria of a pushed ISIR and are automatically returned to the school, even if the school did not request the ISIR. Postscreening Reason Codes are included in the top section of the Financial Aid History page. If the transaction is system-generated because of postscreening, a numeric value is displayed in this field. Values 01 through 15 correspond to the situations described previously, and a code of 99 is used for any other data changes that generate the transaction. Schools must act on the updated information they receive regarding a change in a student's eligibility for Title IV aid and must ensure that a student remains eligible for payment; otherwise, the school will be liable for improperly disbursed funds.

**Note:** The status changes reported on a 2005-2006 ISIR may have a bearing on eligibility for payments to the student during the 2004-2005 award year.

If the school has already disbursed funds to a student who is found ineligible, the school must contact the student to arrange for repayment. If the student has received an FFEL loan, the school must notify the lender. If the student has received a Federal Direct Loan, the school must notify the Direct Loan Servicer.

## Aggregate Amounts for FFEL/Direct Loans and Perkins Loan Section

This section includes information on subsidized, unsubsidized, and unallocated portions of consolidated loans and combined loans. The combined amount reflects the total amount the student has borrowed in subsidized and unsubsidized loans, as well as that portion that cannot be attributed to either loan type (unallocated amounts). NSLDS will send CPS amounts for FFEL Consolidation Loans, unallocated outstanding principal balance, and total amounts. NSLDS does not include the FFEL Consolidation Loan's outstanding principal balance or total amounts. NSLDS receives the subsidized and unsubsidized breakdown of a direct consolidation loan and then allocates it appropriately in the subsidized, unsubsidized, and combined aggregate amounts. Because NSLDS does not receive similar breakdowns for FFEL Consolidated Loans, it has developed an algorithm to determine these amounts.

For purposes of calculating aggregates for Prescreening and Postscreening, NSLDS assumes that the total outstanding balance of an FFEL Consolidation Loan consists of the same ratio of subsidized and unsubsidized loans, as was the sum of the original underlying loans. The remaining portion that cannot be attributed to either the subsidized or the unsubsidized loans will go toward the unallocated amounts. If NSLDS cannot identify the underlying loans for an FFEL Consolidation Loan, NSLDS will count the entire FFEL Consolidation Loan in the subsidized aggregate balance. In this instance, or when the unallocated amount is unusually high, schools will then need to calculate the actual breakdown of the FFEL Consolidation Loan to determine whether the student has actually exceeded his or her aggregate limits.

The outstanding principal balance and current year loan amount for Perkins loans are included in this section. For all Federal Direct loans and FFEL loans in an out-of-school status or cases where the loan period end date plus 90 days has passed, the aggregate outstanding principal balance amount is determined by comparing the net loan amount, disbursed amount, and outstanding principal balance.

If all three of these are greater than zero, use the one with the lowest value. Do not use zero if any one of these fields is equal to zero. Use the lesser of the other two values.

For FFEL loans in an in-school or in-grace status originated up to 90 days after the loan end period date, the aggregate outstanding principal balance amount is determined as follows:

- If either outstanding principal balance or disbursed amount is greater than zero, use the one with greater value, but do not exceed the net loan amount.
- If both are equal to zero, use zero. These are usually loans guaranteed/approved but not disbursed.

For non-consolidated Direct Loans in an in-school status and originated up to 90 days after the loan end period date, pending disbursements are calculated by subtracting the total disbursed amount from the net loan amount. For non-consolidated FFEL loans in an in-school status and up to 90 days after the loan end period date, pending disbursements are calculated by subtracting the aggregate outstanding principal balance from the net loan amount. Pending disbursements are not calculated for any Direct or FFEL loan in an out-of-school status or after the loan period end date plus 90 days.

**New for 2005-2006!** Flag value C has been expanded to indicate both close to and equal to the loan limit.

Two separate flags, the Subsidized Loan Limit Flag and the Combined Loan Limit Flag, print at the end of the NSLDS information under the MPN/Loan Limit Information and indicate the condition of borrower's loan limits. Comment codes are generated based on the value of these two flags. The valid flag values for the Subsidized Loan Limit Flag and the combined Loan Limit Flag are as follows:

ISIR Value	Value Printed on the ISIR
Blank	Blank
C	Close to or equal to limit
E	Exceeded limit
N	Not near limit

## Pell Payment Data Section

Pell Grant data shows current award year (2005-2006) payment information as reported by schools to the Common Origination and Disbursement (COD) system. Information for up to three schools is displayed. This information includes the following:

- (Attending) School Code
- Transaction Number
- Scheduled Award Amount
- Award Amount
- Disbursed Amount
- Percent Scheduled Used

- As Of (the disbursement date)
- Pell Verification Flag
- EFC

A message instructing the school to access NSLDS for additional Pell Grant data will display when the student has more than three payment records for the award year.

## Loan Detail Section

The information appearing for each loan in the Loan Detail section is as follows:

- Description of Loan Type
- Net Loan Amount
- Loan Begin Date
- Loan End Date
- GA Code
- School Code
- Grade Level
- Contact
- Contact Type
- Additional Unsubsidized Loans
- Loan Type (Recent, Discharged or Defaulted)
- Capitalized Interest
- Date of Last Disbursement
- Amount of Last Disbursement
- Current Status Code
- Current Loan Status Date
- Outstanding Principal Balance
- Outstanding Principal Balance Date

If there is no information to report, **N/A** is displayed.

Capitalized interest will show as either **YES** or **NO**.

**Note:** For a Direct Loan, when an additional unsubsidized loan has been awarded one of the following reason codes will display:

ISIR Value	Value Printed on ISIR	Description
P	PLUS	PLUS Loan denial
H	Health Prof	Health Profession Loan
B	Both	Both
N	Neither	Neither

For a FFEL Unsubsidized loan, when an additional unsubsidized loan has been awarded, the reason will be displayed as **PLUS**.

NSLDS monitors aggregate levels for students who return to an undergraduate program after receiving loans as a graduate student. Previously, they may have been mistakenly flagged for exceeding aggregate loan limits. NSLDS calculates the aggregate levels based on academic levels of loans reported to NSLDS.

Quite often when consolidation loans are reported to NSLDS, it may take some time for the underlying loans to be reported by the lenders as paid in full through consolidation. NSLDS considers the age of the FFEL Consolidation loans (CL loan types) when calculating aggregate Outstanding Principal Balances.

NSLDS will not calculate an Aggregate Outstanding Principal Balance if

- the Consolidation (FFEL and Direct Loan) loan is within 60 days of the current date *and*
- all the underlying loans have an open loan status code and are not one of the following Loan Status Codes: PC, PN, DN, PF, or DP

This should decrease the occurrences of double counting and inflated aggregate amounts that may have contributed to exceeding the aggregate loan limits. An underlying loan is a loan associated with a consolidated loan with a PC, PN, DN, PF, or DP Loan Status Code, and the Loan Status Date of the underlying loan is within 210 days (before or after) of the consolidated loan date.

Additionally, FFEL Consolidation loans factor out the Perkins and/or PLUS underlying loans from the Unallocated amount. Direct Loans factor out the underlying Perkins loans.

The Loan Detail section continues to display up to six open loans (including Perkins loans). The loans' sort and display order is chosen with regard to their current loan status and categorized into different groups:

- Group 1 includes loans in a defaulted or deceased status making the student ineligible for aid.
- Group 2 includes loans where a school may have to take action; this includes loans in an abandoned, disability, active bankruptcy, or temporary uninsured status.
- Group 3 are loans in an open status not included in groups 1 and 2.
- Group 4 includes closed loans (those not included in groups 1, 2, and 3).

Within each group, the sort order is determined by descending Loan Begin Date with the highest outstanding principal balance sorted first for loans with the same loan begin date. In the end, those loans selected will be from group 1 first, group 2 second, followed by those in groups 3 and 4. Loan status codes and their groupings are identified in Appendix C. If there are more than six loans on the NSLDS database, a message to **Access NSLDS** for additional information prints on the output. The NSLDS Web site, located at [nslsdfap.ed.gov](http://nslsdfap.ed.gov), displays this loan information.

A Contact Type is included for each loan. The contents of the Contact Type field will be:

ISIR Value and Value Printed on ISIR	Description
SCH	School
LEN	Lender
DLS	Direct Loan Servicer
EDR	ED Region
GA	Guaranty Agency
LNS	Lender Servicer
DDP	Disability Data Provider
N/A	Not applicable

Information about whom to contact for each loan in a default status will be included in the comment text.

## **MPN Information Section**

MPN Information is located at the end of the Loan Detail section. The Direct Loan Subsidized/Unsubsidized MPN field identifies whether a student has a Master Promissory Note (MPN) for Subsidized and/or Unsubsidized Direct Loans on file at COD. The Direct Loan PLUS MPN identifies if there is an MPN on file at COD for PLUS loans. Both MPN indicators identify the MPN as Active, Inactive, Closed, or None (No MPN on File).

## Additional ISIR Data

In addition to the information described above that is printed on the hardcopy ISIR, we will explain two ISIR fields not printed on the EDEXpress ISIR: Field Correction Flags and FAFSA Data Verify Flags.

### Field Correction Flags

The ISIR record contains a Correction Flag for each field on the FAFSA/SAR. These flags are found in positions 1224 through 1343 on the ISIR.

If a field was corrected on the current transaction, the correction flag field on the ISIR contains a value of **1**. If a field was corrected on a previous transaction, the correction flag contains a value of **2**. All other correction flag fields contain a value of **0**.

EDEXpress prints a pound sign (#) on the ISIR to the right of the field variable that was corrected on the most current transaction, and prints an at sign (@) to the right of the field variable that was corrected on a previous transaction.

Correction flags are cumulative (for example, the flag is carried on all subsequent transactions).

EDEXpress does not actually print the data in this field. Rather, it uses this data to determine which fields have a # (pound sign) or an @ (at sign) printed to the right of the field variable to show that the field has been corrected from the original application.

### FAFSA Data Verify Flags

FAFSA Data Verify Flags are found on the ISIR record (positions 1464 through 1583). Each FAFSA Data Verify Flag byte corresponds to a specific SAR field and indicates fields corrected to the same value on the transaction being corrected.

If a field was verified as the same data as the transaction being corrected, the FAFSA Data Verify flag contains a value of **1**. A value of **0** signifies that this field was not corrected to the same value and a value of **2** means the CPS has asked that the field be verified.

EDEXpress does not print these flags on the ISIR. These flags can be found on the ISIR Record layout and were added at the request of third-party servicers to assist them when doing correction edits.

# CORRECTIONS AND UPDATES

---

## Overview

The first steps in the application process are sending a student's application information to the CPS and receiving that student's processed application data back from the system. When data must be updated, under the limited circumstances allowed by regulation, or must be corrected, additional steps are required.

In FAA Access to CPS Online, changes (corrections or updating) can be made to any student's record regardless of whether it originally entered the system as a paper or an electronic application. Both updates and corrections are referred to as correction transactions. The electronic correction process requires that the school that inputs the new information maintain signed correction documentation.

Documentation can be a paper SAR or other documents such as tax returns, a verification worksheet, or a change-of-address form. The FAA enters the changes on the FAA Access to CPS Online screen, transmits them to the CPS, and receives an ISIR containing the new processed data. In this situation, when the input is electronic, the student receives a SAR Acknowledgement or an E-mail Notification of SAR Processing if the student provided an e-mail address with valid syntax.

The SAR is a vehicle for corrections in the paper system or for students who file using FAFSA on the Web, Spanish FAFSA on the Web, or Corrections on the Web and (1) are rejected for lack of signatures, and (2) do not have an SSN Match Flag of 4. Students may use the SAR to correct and update their application information, and mail the SAR to the FAFSA processor for data entry.

All other students receive either a SAR Acknowledgement or an E-mail Notification of SAR Processing. Using their PIN, these students should make their corrections electronically through Corrections on the Web.

After the corrections are processed, the student receives a new SAR if the corrections were made using a paper SAR or a SAR Acknowledgement (or an E-mail Notification of SAR Processing if the corrections were made using Corrections on the Web). In all cases, the school can receive an ISIR.

Students who meet the following criteria will receive an E-mail Notification of SAR Processing for accessing the electronic SAR on the Web instead of the paper SAR:

- E-mail address exists and has valid syntax, and
- SSA match equals 4

The SAR has been designed to serve two basic purposes:

1. Notify the student of application and eligibility status
2. Provide a means for correcting or verifying applicant data

The SAR Acknowledgement is designed to notify the student of application and eligibility status. If corrections are needed, the student will use Corrections on the Web or contact the school to submit them through FAA Access to CPS Online or a mainframe system.

The E-mail Notification of SAR Processing is designed to notify the student of application and eligibility status more quickly than by either the paper SAR or the SAR Acknowledgement. It enables the student to view the SAR online and to print the online SAR document as often as needed. It also links the student directly to Corrections on the Web for correcting or verifying the applicant data.

As mentioned previously, when corrections need to be made to data reported on the SAR Acknowledgement, the student may have corrections transmitted electronically through FAA Access to CPS Online at the school. Alternately, the student can request a duplicate SAR and send corrections or updates to the FAFSA processor using the SAR, or the student can make the corrections using Corrections on the Web.

**New for 2005-2006!** We print and mail a paper SAR to students with undeliverable e-mail addresses and whose E-mail Notifications of SAR Processing were returned to us.

## SAR Corrections

For each transaction processed at the Central Processing System (CPS), an output document is sent to the applicant. This will be a paper Student Aid Report (SAR), SAR Acknowledgement, or an E-mail Notification of SAR Processing with information for accessing SAR data on the Web. This section describes the paper SAR. Additional information on the paper SAR, including changes for 2005-2006, can be found in Appendix D.

Boxes with the question number and a shortened question description that corresponds to a question on the FAFSA appear on the SAR. These question boxes contain the student's response to the question. Next to or below the question box are boxes or ovals that resemble the answer fields on the FAFSA. Here the student may indicate or write in a corrected answer, if necessary.

Items that are highlighted (printed in boldface type) require special attention. Highlighting means the CPS identified the responses as questionable or inconsistent with other answers. The CPS may assume answers to certain questions by comparing them with other information on the application. Answers might be assumed when the question was left blank, or a positive number might be assumed when the answer to an income question was given as a negative number.

When the CPS assumes an answer, both the value reported by the applicant and the assumed value are printed on the SAR. The word "ASSUMED" will appear in parentheses with the assumed value. Assumed values are used by the CPS in performing the calculation and should always be reviewed carefully. If the assumed values are correct, the student does not need to change them on the SAR.

Fields that show assumed values or that trigger certain edits are identified on the ISIR. The fields will have an **h** printed next to the questioned item and the assumed items are designated with an asterisk (\*.) The student can always correct other items if necessary, whether or not they are highlighted.

If the record has been rejected, an arrow will print to the response field for the questioned item. This indicates that the student must provide a new answer because the original response was blank or illegible and the item is necessary to perform an EFC calculation. The student can also correct other items if necessary, even if they are not highlighted.

At the top of the SAR are instructions to the student explaining the meaning of the arrows and the proper way to verify an answer, fill in an oval, or delete an answer. To verify a previously reported answer, the student must rewrite the same value in the answer fields and return the SAR.

Sometimes students are caught in a reject “loop” because they do not respond to all of the highlighted and arrowed items to turn off the reject or because they provide new information that the edit check still considers inconsistent or questionable.

---

## Parent Information for Independent Students

The SARs for dependent students and for independent students contain exactly the same sections and numbered items as the FAFSA. Parent information will be printed in the parent section for an independent student if the student provided it on the FAFSA, although the EFC calculation will not include parental data. Students in certain health profession programs are advised that they may have to provide parental data, because the data is required by many health profession schools to award Title VII aid. Parental data provided by independent students will not be subject to any edits, but the data will appear on the SAR and ISIR and will be carried forward on all transactions.

Parental data is always required for dependent students and will be edited and used in the EFC calculation.

---

## Signatures for SAR Corrections

On the last page of the SAR, a message on the bottom of the page shows the address where SAR corrections should be mailed.

In the lower left corner of the same page, the student is asked to certify that any corrections made on the SAR are accurate and complete. The student must sign this statement if he or she chooses to submit the corrections on paper. For a dependent student, one parent must also sign.

The student can also make corrections using the Web site at [fafsa.ed.gov](http://fafsa.ed.gov). No signature is necessary because the student will be using a PIN to access his or her data. When corrections are made using the Web, only a parent needs to sign or supply his or her PIN if the parental data is changed.

---

## **E-mail Notifications of SAR Processing**

Students with signature rejects who provided an e-mail address with correct syntax will not receive a paper SAR. Instead, these students will be sent an E-mail Notification of SAR Processing, which will direct them back to the FAFSA on the Web site. From this site, the student can access his or her SAR online and resolve the signature issue by providing an electronic signature or by printing, signing, and mailing a paper signature page.

---

## Reject 16 — Missing Student Signature on Web Application

E-mail Notifications of SAR Processing are sent or paper SARs with Reject 16 are mailed to students who submitted their applications through FAFSA on the Web or Spanish FAFSA on the Web, but did *not* follow up with a signed Signature/Certification Page or the page was incomplete and could not be processed. If the record indicates that a printer was not available to the student, the CPS processes the application immediately and mails a Reject 16 SAR. If the record indicates that a printer was available, the CPS holds the transmission for up to 14 calendar days while waiting for a Signature Page. If a signature is not received in 14 days, the CPS processes the record and sends a Reject 16 SAR. A Reject 16 SAR will not have a calculated EFC and will contain the full Certification Statement that appears on the FAFSA.

To receive an EFC calculation, the student must sign the SAR and return it to the FAFSA processor's address indicated on the SAR. The student can also make other corrections to the Reject 16 SAR at the same time, if necessary. By signing and returning the certification statement along with the application data, the student completes the application process.

**Note:** Reject 16 may appear with other rejects or highlighted data requiring correction or verification.

A student who has a PIN can also sign his or her record electronically on the Web as well as make other corrections using Corrections on the Web. As another option, schools can obtain the necessary documentation and submit the student signature using FAA Access to CPS Online.

---

## Reject 15 — Missing Parent Signature on FAFSA or SAR

E-mail Notifications of SAR Processing or paper SARs with Reject 15 will be sent to dependent students who submitted paper FAFSAs or SARs without a parent signature.

As explained in the *2005-2006 Renewal Application Data (RAD) Process Guide*, students who receive a paper Renewal FAFSA may be able to apply using Renewal FAFSA on the Web. If the student does not have a PIN, he or she can request one at the [pin.ed.gov](http://pin.ed.gov) Web site. The student's address must match the address that is currently in the applicant database to be eligible for a PIN. With a PIN, a student can access his or her 2005-2006 Renewal FAFSA, update the data, and transmit the 2005-2006 Renewal FAFSA over the Web.

For an independent student, the PIN serves as signature and certification, eliminating the need to print and mail a Signature Page to complete the application process. For a dependent student, the PIN serves as the student's signature and certification, but the parents must also provide a parent's signature, either on a Signature Page or electronically with a PIN, to complete the process.

If a printer is available, the dependent student can print a Signature Page, obtain the parent's signature, and mail it to the processor. The transmitted application is held up to 14 days while waiting for a Signature Page. If a signature is not received in 14 days, the CPS processes the record and sends a Reject 15 E-mail Notification of SAR Processing or a paper SAR (Reject 15 is used when the parent signature is required, but is missing from an application or SAR.) The dependent student's parent must sign and return the Reject 15 SAR to complete the process for Renewal FAFSA on the Web.

If a printer is not available, the student will indicate this on the electronic transmission. The CPS will process the record immediately and send a Reject 15 SAR.

---

## Reject 14 — Missing Student Signature on Paper FAFSA or SAR

E-mail Notifications of SAR Processing or paper SARs with Reject 14 will be sent to students who submitted paper FAFSAs or SARs without a student signature or if the FAFSA or correction was sent to the FAFSA processor before the January 1, 2005, system start up date. To receive an EFC calculation, the student must sign the Reject 14 SAR and return it to the FAFSA processor's address indicated on the SAR. The student can also make other corrections to the Reject 14 SAR at the same time, if necessary. By signing and returning the certification statement along with the application data, the student completes the application process.

**Note:** Reject 14 can appear with other rejects or highlighted data requiring correction or verification.

A student who has a PIN can sign his or her record electronically on the Web as well as make other corrections using Corrections on the Web. As another option, schools can obtain the necessary documentation and submit the student signature using FAA Access to CPS Online.

---

## School Code Corrections

Students can correct the school codes listed on their record in a number of ways. A school code can be replaced, removed, or additional schools can be added.

On the SAR, the student can correct any of the six school code fields and the new code will be added in the position in which it was entered on the SAR. If the student chooses a position that already has a school code in it, the previous code will be replaced by the new school code. The school with the code that was removed will not receive ISIRs for the student.

The same results occur if the school correction is made using FAA Access to CPS Online or if the student makes the request over the telephone through the Federal Student Aid Information Center. However, if the correction is made using FAA Access to CPS Online, the processing system will not process a change that will eliminate the school that transmitted the correction from the student's record.

If the student makes a school code change by writing a letter and sending it to the FAFSA processor, only the schools listed on the letter will appear on the resulting SAR/ISIR. All of the previous schools will be deleted. A student signature is required on the letter to make this change.

# APPENDIX A – 2005-2006 REJECT CODES AND REJECT REASONS

---

## Reject Reason Codes

Reject reason codes can be either alpha or numeric. Some reject reasons are verifiable—that is, the student can verify the questionable data by reentering the same value or can correct it to a different value. Other reject reasons are not verifiable; the questioned data must be changed or provided. In all reject situations, the questioned information is highlighted on the Student Aid Report (SAR) and an Expected Family Contribution (EFC) is not calculated.

A verify action on the SAR will override a Central Processing System (CPS) edit. For example, if a student reports an exceptionally large number of family members (for example, 20) the student's application will receive a Reject W. The student can verify the information by correcting the item to the same value and Reject W will not be triggered again.

However, if instead of verifying that twenty family members is correct, the student changes **20** to **21**, the corrected data will be subject to the same edits and will hit Reject W again.

In FAA Access to CPS Online, a Financial aid administrator (FAA) can override some verifiable rejects before transmitting the student's data to the CPS if the FAA knows that the reported information is correct. When using FAFSA on the Web, Renewal FAFSA on the Web, and Corrections on the Web the student can also override the reject by verifying the information he or she has entered.

## Changes to the Reject Codes

We added five new verifiable rejects: D, E, F, J, and K. A verifiable reject indicates that the information originally provided is questionable but could be correct. The information must be corrected or the same value must be reentered before an EFC can be calculated. Rejects J and K have override codes.

We added one non-verifiable reject (3) and modified one non-verifiable reject (12). A non-verifiable reject indicates that the information originally provided must be corrected before an EFC can be calculated. Rejects 3 and 12 have override codes that can only be set by the financial aid administrator.

## Table of Reject Codes and How to Respond to Each

Reject codes and reasons and their associated SAR comment codes are listed here. If a student is rejected for more than one reason, the reject codes will appear in the FAA Information Box in priority order. The resolution for a rejected SAR is always the responsibility of the student, not the institution, and the SAR comment generated by the reject explains what action the student must take.

<b>Reject Code</b>	<b>Reject Reason</b>	<b>Action</b>	<b>Comment Code</b>
*A	Date of birth year equals 1900 through 1930.	Verify (reenter the same value) or correct the Date of Birth.	069

# APPENDIX B – 2005-2006 DATABASE MATCHES AND MATCH FLAGS

---

## Overview

This appendix includes expanded charts showing match flags for all the matches, the reasons associated with these match results, the number and text of the SAR/ISIR comment that is triggered, and information on what action the institution needs to take when resolution of a match problem is required.

In the NSLDS match chart, we have also shown the relationship between the NSLDS Match Flag and the NSLDS Results Flag.

## How to Use the Chart

The information is provided for you to use as a quick reference. The *2005-2006 Federal Student Aid Handbook*, Volume 1 - FSA Handbook: Student Eligibility contains detailed information about student eligibility and the action needed to resolve discrepancies found in the data matches.

A flag of **C** is an indicator that institutional resolution is required. The C Flag will be printed on the SAR next to the EFC if any of the conditions described in the chart are met.

**Note:** Some of these data match results will generate a rejected record. Comments associated with a match results reject do not generate a SAR C code. However, a SAR C code could possibly be generated by another match result comment and will be printed on SARs rejected for other than match results reasons. An EFC is not provided on any rejected records.

An asterisk (\*) in the Match Flag column of this chart indicates that a match flag value is not generated for cases that were not/could not be sent to the matching agency.

## Selective Service Match

SAR C Code/Reject	Match Flag	Reason for Comment/Results	Comment Number/Text	Action Needed
	Y	Match conducted.  Applicant's registration status confirmed by Selective Service.	No comment	No resolution required.
	T	Match conducted.  Student is within 45 days of his 18th birthday. Applicant is temporarily exempt because he is not yet 18 years old.	<b>026</b> If you want to register with Selective Service, you may answer "Yes" to both "Are You Male?" and "Register for Selective Service?" on this ISIR, complete a Selective Service registration form at your local post office, or register online at <a href="http://www.sss.gov">www.sss.gov</a> . Selective Service will not process your registration until 30 days before your 18th birthday.	No resolution required.  An update is not required during the year.
C code	N	Match conducted.  Applicant not in Selective Service database.	<b>030</b> The Selective Service reported that you have not registered with them. If you are female or were born before 1960, registration is not required. Otherwise, if you have not yet registered, are male, and are 18 through 25 years of age, to receive aid you must answer "Yes" to both "Are You Male?" and "Register for Selective Service?" on this ISIR, complete a Selective Service registration form at your local post office, or register online at <a href="http://www.sss.gov">www.sss.gov</a> . If you believe you have already registered or are exempt, please contact the Selective Service at 847-688-6888.	Resolution required.  To meet student eligibility requirements, student must: Register with Selective Service, Present appropriate confirmation (for example, his Selective Service Registration Acknowledgement or his letter of registration) that he is already registered, or Qualify for a waiver or exemption.

## Selective Service Registration

SAR C Code/Reject	Match Flag	Reason for Comment/Results	Comment Number/Text	Action Needed
	Y	<p>Registration conducted.</p> <p>Forwarded name to Selective Service for registration as requested on application or SAR.</p>	<p><b>031</b> We have forwarded your name to Selective Service for registration, as you requested.</p>	<p>No resolution required.</p>
	T	<p>Registration conducted.</p> <p>Forwarded name to Selective Service for registration as requested on application or SAR. Registration will be processed by Selective Service 30 days before the applicant's 18th birthday.</p>	<p><b>028</b> We have forwarded your name to Selective Service for registration, as you requested. They will process your registration request 30 days prior to your 18th birthday.</p>	<p>No resolution required.</p>

## Selective Service Registration (continued)

SAR C Code/ Reject	Match Flag	Reason for Comment/ Results	Comment Number/Text	Action Needed
C code	blank*	<p>Registration not conducted.</p> <p>Applicant requested that ED send name to Selective Service for registration, but applicant is not within age range or some information needed to register him is missing.</p>	<p><b>033</b> We could not send your name to Selective Service as you requested because you did not give us enough information, you are outside the age range for registration, or you did not sign your form. If you are at least 18 but not yet 26, you may register by answering "Yes" to both "Are You Male?" and "Register for Selective Service?" on this ISIR. You may also register by completing a Selective Service registration form, available at your local post office, or by registering online at <a href="http://www.sss.gov">www.sss.gov</a>. If you are a male who has reached age 26, you cannot use the ISIR to register. You must contact Selective Service at 847-688-6888 to resolve your registration status before you can receive federal student aid. You are exempt from registering if born before 1960.</p>	<p>Resolution required.</p> <p>If student is between the ages of 18 and 25, help student make corrections to his SAR/ISIR and submit corrections for processing. If the information needed to register the student is present, student's name will be sent to Selective Service. Review subsequent SAR/ISIR for updated registration flag.</p> <p>If student is over the age of 26 and has not yet registered, student must obtain documentation from Selective Service regarding his registration status. Determine if the student is exempt from registering or is eligible for a waiver of the registration requirement. If student did not register by the age of 26 and is not exempt or waived from the registration requirement, student may not be eligible for aid.</p>
C code	N		<p><b>057</b> Selective Service did not register you because you did not answer "Yes" to "Are You Male?". If you want to register, answer "Yes" to BOTH "Are You Male?" and "Register for Selective Service?" on this ISIR, complete a Selective Service registration form at your local post office, or register on-line at <a href="http://www.sss.gov">www.sss.gov</a>.</p>	<p>Resolution required.</p>

## DHS Primary Verification Match

SAR C Code/Reject	Match Flag	Reason for Comment/Results	Comment Number/Text	Action Needed
	Y	Match conducted.  Applicant's noncitizen eligibility confirmed by DHS.	<b>143</b> Your citizenship status has been confirmed by the Department of Homeland Security (DHS) and you meet the citizenship requirements for federal student aid.	No resolution required.  Do not initiate Secondary Confirmation unless there is conflicting information about the student's status or you have reason to believe the status reported is incorrect.  The SAR/ISIR will serve as the necessary documentation to prove the student's eligible noncitizen status.
C code	N	Match conducted.  DHS did not confirm applicant's noncitizen eligibility.	<b>144</b> The Department of Homeland Security (DHS) has not yet confirmed your statement that you are an eligible noncitizen. DHS will continue to check their records and we will notify you when we have received more information from them.	Resolution required. See match flag for Secondary Confirmation.  DHS will conduct the Secondary Confirmation process based on applicant identifier and Primary Verification information only. The next steps will depend on results from Secondary Confirmation match results.

However, match was still conducted with SSA to determine citizenship. If SSA Citizenship Flag indicates that the student is a U.S. citizen, record will not be rejected. No resolution is required, but student should correct question 14 to reflect that student is U.S. Citizen/National.</p> <p>If student is an eligible noncitizen, student should correct citizenship in question 14 to indicate eligible noncitizen status AND should provide an Alien Registration Number. Student's record will then be sent to the DHS match to determine if the student is an eligible noncitizen. After the corrected SAR is returned, review the DHS match flag to determine student's citizenship status.</p>

## DHS Secondary Confirmation Match

CPS waits for three compute days to receive results from Secondary Confirmation instead of processing ISIRs with results from Primary Verification only.

If after three days DHS does not return a response, CPS will generate the ISIR, which will show that Secondary Confirmation is still in progress.

C code	2	<p>Match conducted.</p> <p>Dependent and record found on VA database but not a qualifying veteran.</p>	<p><b>162</b> The Department of Veterans Affairs (VA) did not confirm that you are or will be a qualifying veteran for purposes of receiving federal student aid for the 2005-2006 school year. If VA is correct, you must provide your parents' information (including signature) on this ISIR if you have not already done so. If you believe you are or will be a qualifying veteran, see your Financial Aid Administrator.</p>	<p>Resolution required.</p> <p>In this situation, CPS assumes "No" to the Veteran Status question. The student does not qualify for Independent status if the response to this question remains "No," so it is possible that parents' data and signature were not provided. If this is the case, a Reject 15 and/or Reject 2 would also be present on the SAR/ISIR.</p> <p>If the student believes the match results are in error, the student should contact a regional VA office to have VA records updated. The CPS will continue to send any correction transactions to VA for rematching and an updated match flag.</p> <p>While the student is resolving the discrepancy with the VA, the financial aid administrator can collect documentation from the applicant that clearly demonstrates that he or she is a veteran of the U.S. Armed Forces. The student can provide the DD214 form showing that "Character of Service" is other than "dishonorable." However, until the information is corrected in the VA database, the match results will not change. If the documentation confirms that the student is a veteran, the financial aid administrator can perform a dependency override, changing the student's dependency status from dependent to independent. Title IV aid can then be disbursed to the student.</p>

For 2005-2006, we use a Verification Tracking Flag range of 0001 to 0999. The higher the Verification Tracking Flag number, the higher the priority for selection. Blank is valid for those records without an EFC or system-generated transactions. Even though a record might have a Verification Tracking Flag, it does not necessarily mean that the student will be selected for verification by the federal processor. This is because FSA keeps the number of records selected to around the 30% maximum level.

# APPENDIX C - LOAN STATUS CODES AND ELIGIBILITY CHARTS

---

## Overview

Appendix C describes the loan status codes, Federal Direct Loan servicer codes, selected servicer codes, guaranty agency codes, selected lenders, and Contact Information & Fields Associated with Loan Status.

The Loan Status Codes table on the following pages contains a column titled “Group (ISIR sort order)”. This column describes the order that these loans are sorted and displayed on the ISIR with regard to their current loan status and are categorized in the following different groups:

- Group 1 includes loans in a defaulted or deceased status making the student ineligible for aid.
- Group 2 includes loans where a school may have to take action; this includes loans in an abandoned, disability, active bankruptcy, or temporary uninsured status.
- Group 3 are loans in an open status not included in groups 1 and 2.
- Group 4 includes closed loans (those not included in groups 1, 2, and 3).

## Loan Status Codes

Code	Status	Eligibility for Title IV	Group (ISIR sort order)
AL	Abandoned Loan	Yes	2
BC	No Prior Default, Bankruptcy Claim, Discharged	Yes, because loan was not in default and was discharged	4
BK	No Prior Default, Bankruptcy Claim, Active	Yes, because loan was not in default	2
CA	Cancelled (Perkins = Loan Reversal)	Yes	4
CS	Closed School Discharge	Yes	4
DA	Deferred	Yes	3
DB	Defaulted, then Bankrupt, Active. (Perkins: all bankruptcies. FFELP and Direct Loans: Chapter 13)	No, unless debtor can show that loan is dischargeable. See Dear Colleague letter GEN-95-40, dated September 1995	1
DC	Defaulted, Compromise	Yes, because compromise is recognized as payment in full	4
DD	Defaulted, then Died	No, because if borrower is reapplying, then loan status is in error	1
DE	Death	No, because if borrower is reapplying, then loan status is in error	1
DF	Defaulted, Unresolved	No	1
DI	Disability	Yes	2

## Loan Status Codes (Continued)

# APPENDIX D – SAR AND SAR ACKNOWLEDGEMENT

---

## Overview

For each transaction processed at the Central Processing System (CPS), an output document is sent to the applicant. This will be a paper Student Aid Report (SAR), SAR Acknowledgement, or an E-mail Notification of SAR Processing with information for accessing SAR data on the Web. The type of document that is sent is determined by the type of record that was submitted by the applicant as follows:

<b>Record Submitted</b>	<b>Output</b>
Paper/Renewal FAFSA or SAR	SAR
FAFSA on the Web, Renewal FAFSA on the Web, or Correction on the Web	SAR Acknowledgement
FAFSA on the Web, Renewal FAFSA on the Web, or Correction on the Web without signatures	SAR
FAA Access to CPS Application or Correction	SAR Acknowledgement

Students who meet the following criteria will receive an e-mail for accessing the SAR on the Web instead of the paper SAR:

- E-mail address exists and has valid syntax,
- SSA match equals 4.

**New for 2005-2006!** We print and mail a paper SAR to students with undeliverable e-mail addresses and whose E-mail Notifications of SAR Processing were returned to us.

The SAR serves two basic purposes:

1. Notifies the student of application and eligibility status
2. Provides a means for correcting or verifying applicant data

The SAR Acknowledgement is designed to notify the student of application and eligibility status. If corrections are needed, the student will use Corrections on the Web or contact the school to submit them through FAA Access to CPS Online or a mainframe system.

The E-mail Notification of SAR Processing is designed to notify the student of application and eligibility status more quickly than either the paper SAR or the SAR Acknowledgement. It enables the student to view the SAR online and to print the online SAR document as often as needed. It also links the student directly to Corrections on the Web for correcting or verifying the applicant data.

---

## Paper SAR

The paper SAR follows the order of the questions as they are presented on the paper FAFSA. All SARs will be eight-page documents. The first four pages are in a letter format and include the comment text, NSLDS information, and FAA information. The last four pages display the question responses reported by the student and provide space for making corrections. Each page of the SAR is described in detail below. In addition, to match the color scheme of the paper FAFSA, the 2005-2006 SAR is printed on green paper.

A draft copy of the 2005-2006 SAR can be downloaded from the IFAP Web site at [ifap.ed.gov/sarmaterials/0506SARMockUp.html](http://ifap.ed.gov/sarmaterials/0506SARMockUp.html).

### SAR–Page 1

The number appearing above the student’s name and address is a tracking number for the FAFSA processor and the CPS, and is not used for any institutional purpose.

Printed to the right of the student’s name is the date the record was processed at the CPS. Below the processed date is the student’s Expected Family Contribution (EFC). The EFC printed on the front page of the SAR is the primary EFC, calculated for a nine-month academic year. An asterisk printed next to the EFC indicates that the student was selected for verification by the CPS. A “C” printed next to the EFC means the student has an eligibility problem that must be resolved before Title IV aid can be disbursed to the student.

The body of the letter on page 1 of the SAR is designed to help the applicant understand where he or she is in the financial aid application process as well as what roles are played in the process by the student, the Department of Education, and the school. The page is graphically displayed in three sections as follows.

- *You (the Student)*

This section describes the basic steps to be completed by the student in the application process.

The text for step 1 will vary based on whether the record is an application or a correction.

The text for step 2 will vary based on whether an EFC was calculated or the record was rejected. If an EFC was calculated, the text will read, “Now you should check your SAR information. If it is correct, you do not need to return it to us.” or “Now you should check your SAR information and resolve the issues described on page 3.” If the record was rejected, the text will read, “Now you need to check your SAR information and make the necessary corrections.” or “Now you need to check your SAR information and resolve the issues described on page 3.”

The text for step 3 will vary depending on whether the record has been selected by the CPS for verification. If so, the text will read, “Your school has the authority to request copies of certain financial documents to verify information you reported on your application.” If the record is not selected, the text will read, “You will need to verify your information if asked to do so by your school.”

- *U.S. Department of Education*

In this section, the role of the U.S. Department of Education is summarized and the results of processing the record are indicated. The text for each of the three steps will be the same on all SARs. However, the text printed under the steps will vary based on processing results. If an EFC has been calculated, the following text will be printed: “Based on the information you have submitted, we have used the standard formula to calculate your EFC, which is XXXXX. Your school will use this number to determine what types of aid and how much you are eligible for based on your educational costs.” The student’s calculated EFC number will be inserted into this text. If the record has been rejected, the following text will be printed: “You must give us more information before we can calculate your EFC.”

- *School(s)*

The final section describes the actions taken by the school. The text printed for steps 1 and 3 will be the same on all SARs. The text for step 2 will vary depending on whether the record has been selected by the CPS for verification. If so, the text will read, “Your school has the authority to ask you to verify your information.” If the record is not selected, the text will read, “Your school(s) may ask you to verify your information.”

In the bottom left-hand corner appears the student’s four-digit Data Release Number (DRN). The DRN can be used by schools to access the student’s electronic application record if they were not originally listed on the student’s application or SAR. In addition, the student can use the DRN when making a telephone request through the Federal Student Aid Information Center by calling 800/4FED AID (800/433-3243)/TTY 800/730-8913 to make the following types of changes:

- Correct data entry errors made by the FAFSA processor, or
- Update their response to FAFSA question 31 (drug question), or
- Request a change of address, e-mail address, telephone number, or a change of institution, or
- Update the assumption overrides.

On the SAR, two strings of numbers appear at the bottom of every page. The left-hand numbers are processing codes used by the FAFSA processor and the CPS for tracking and quality control purposes. The right-hand numbers are the student identifiers: the original Social Security Number (SSN), the first two letters of the student's original last name, and the transaction number.

**Note:** If a student changes his or her SSN or name in the CPS, the original SSN and first two letters of the original last name will continue to be used as the student ID. The SAR fields that show the last name and the SSN, fields 1 and 8, will carry the corrected name and SSN. However, the student should use the original SSN and name as identifiers on correspondence. If the student applies in the following award year using the correct name and SSN, the records for that year will carry the correct identifiers.

## **SAR–Page 2**

The top half of page 2 contains required information from the Office of Management and Budget regarding the:

- Paperwork Reduction Act,
- Information Release to Schools, and
- Drug convictions affecting aid eligibility.

The For Financial Aid Office Use Only section on the SAR appears on the bottom half of page 2. Descriptive labels are intended to help the FAA identify reject codes, match flags, intermediate values, and so forth. This data is similar to the FAA information provided on the ISIR, which is described in detail earlier in this guide.

**Important Note:** The comment codes listed on this part of the SAR are not all comments generated for this student. Only the comment codes that do not have a corresponding flag or other indicators already provided in the FAA information section are printed in this section.

**New for 2005-2006!** We are printing the Duplicate SSN Flag on the SAR, which indicates if another 2005-2006 filer is using the same original SSN. Since the system-generated field was eliminated this year, we are not printing it on the SAR.

## **SAR–Page 3**

On page 3, the specific comments that have been set during processing of the record at the CPS will be printed. These identify problem areas, such as missing information or eligibility problems, as well as give the student more detailed information and directions for getting additional help if needed.

## **SAR–Page 4**

The top of the page displays financial aid history information for the student. This is a subset of the information received from NSLDS, included on the ISIR record, and described earlier in this guide. The information printed on the SAR includes the Aggregate Loan information for FFEL, Direct, and Perkins loans.

**New for 2005-2006!** The name of this section of the SAR has been renamed to “Summary of Federal Student Loans” from “Your Financial Aid History Information” and has been moved to the top of the page. To reduce student confusion regarding the NSLDS loan information, we are adding standard text and removing the detailed loan information that was included for up to four loans that were in a default or discharge status. SARs accessed on the FAA Access to CPS Online Web site continue to display the full NSLDS history data. SARs displayed under Student Access match the data printed on the paper SAR.

The bottom of page 4 displays the codes for responding to Question 23, Type of Degree/Certificate.

## **SAR–Pages 5-8**

The remaining four pages of the SAR display the information that was reported by the applicant for each question on the FAFSA/SAR. The SAR is also a vehicle for corrections in the paper system. A shortened version of each numbered item corresponding to a question on the FAFSA is displayed. Printed beneath the numbered item is the student’s response to that question. Below or to the right of each question response are boxes and ovals that resemble the answer fields on the FAFSA and that the student may use to indicate or write in a corrected answer, if necessary.

Items that are highlighted (printed in boldface type) require special attention. Highlighting means the CPS identified the responses as questionable or inconsistent with other answers. The CPS may assume answers to certain questions by comparing them with other information on the application. Answers might be assumed when the question is left blank, or a positive number might be assumed when the answer to an income question is given as a negative number.

When the CPS assumes an answer, both the value reported by the applicant and the assumed value are printed on the SAR. The word “ASSUMED” will appear in parentheses with the assumed value. Assumed values are used by the CPS in performing the calculation and should always be reviewed carefully. If the assumed values are correct, the student does not need to change them on the SAR.

The student can always correct other items, if necessary, whether or not they are highlighted.

When an applicant receives a reject, the resulting SAR will not have a calculated EFC. The SAR requires the student to correct information and return pages 5 through 8 of the SAR to the FAFSA processor for reprocessing.

When an item is questioned by the CPS, it too will be highlighted (printed in bold type) and an arrow will print in the column pointing to the response field for the questioned item. This indicates that the student must provide a new answer because the original response was blank or illegible, and the item is necessary to perform an EFC calculation. The student can also correct other items, if necessary, even if they are not highlighted.

At the top of page 5 are instructions to the student explaining the meaning of the arrows and the proper way to verify an answer, fill in an oval, or delete an answer. To verify a previously reported answer, the student must rewrite the same value in the answer field and return the SAR.

Sometimes students are caught in a reject “loop” because they do not respond to all of the highlighted and arrowed items to turn off the reject or because they provide new information that the edit check still considers inconsistent or questionable.

Refer to the Corrections and Updates section of this guide for more information on using the SAR to make corrections.

**New for 2005-2006!** To protect privacy, we are printing only the last four digits of the parent’s SSN on page 7. The first five digits contain Xs.

**New for 2005-2006!** We are revising the certification wording on page 8 to match the FAFSA wording. The following sentence has been added “If you sign any document related to the federal student aid programs electronically using a Personal Identification Number (PIN), you certify that you are the person identified by the PIN and have not disclosed that PIN to anyone else.”

# SAR Acknowledgement

The SAR Acknowledgement will continue to be a two-page document. The intent of this document is to allow a student to review processing results when the information was input electronically by the school or by the student using the Web. Because this type of SAR is a paper report to the student, but also an eligibility document like the correctable SAR and the ISIR, it contains information for both student and FAA.

## SAR Acknowledgement–Page 1

Page 1 of the SAR Acknowledgement is in a letter format addressed to the applicant. The format of this page looks similar to the SAR letterhead. The top left of the page prints the ED seal, followed by the U.S. Department of Education letterhead, which includes the Federal Student Aid Information Center telephone number and the FAFSA on the Web internet address. The box at the top right shows the Office of Management and Budget (OMB) form-clearance number and the expiration date.

Beneath the headings appear the student's name, address, and the date the CPS processed the transaction. The number appearing above the student's name and address is a tracking number for the FAFSA processor and the CPS and it is not used for any institutional purpose. Below the processed date is the student's EFC. The student ID is at the bottom of the page.

The SAR Acknowledgement comments are fewer and less detailed and generally refer the student to the FAA for assistance in making corrections or resolving problem issues.

## SAR Acknowledgement–Page 2

The back of page one displays in condensed form every numbered question from the FAFSA and prints the answer the student gave to that question or the value the CPS assumed.

At the bottom of the page, a section headed "For Financial Aid Office Use Only" includes information and codes for FAAs. We have included here all the important match flags showing results of eligibility matches, as well as other information that an FAA would need when using the SAR Acknowledgement as an eligibility document.

**Note:** All comment codes generated for the student's ISIR are printed here regardless of whether an associated match flag or other indicator is also provided.

The comment text printed on the front page is a basic set of comments directed to the student, but the comment codes listed at the bottom of the section include all SAR/ISIR comments that were generated for this record.

## Overview

This section contains a sample of the ISIR that is printed using the EDEExpress software. You are not required to print your Institutional Student Information Record (ISIR) output documents, in this or any other format. If you do choose to print ISIRs, you can also choose to print additional information on the ISIR. Refer to the *2005-2006 EDE Technical Reference*, section 5, Printing for more details.

# APPENDIX H – Worksheet for Question 31

---

## Overview

As last year, we have a version of the "Worksheet for Question 31" for the SAR as well as for the Renewal Application. The format of the "Worksheet for Question 31" has not changed from last year. The Worksheet for Question 31 will be available on the IFAP Web site at [ifap.ed.gov](http://ifap.ed.gov).
